DODD'S NERVINE AGAIN.
ANOTHER CERTIFICATE.
LEDYARD, CONN., April 3, 1869.
Accept thanks for calling my attention to DODD'S NERVINE AND INVIGORATOR. It has done me more good than any other medicine I ever took. I have gained twelve pounds in flesh, and am correspondingly better every way. It is an invaluable remedy.
6wau23 MRS. JOHN T. LEACH.

AGENTS CAN NOW GET
TERRITORY for MARK TWAIN'S
New Book with 234 Engravings.
Who has not heard of the author? Who has not laughed over his quaint sayings and queer ideas, and fairly succumbed to his racy stories?
THE INNOCENTS ABROAD
is the quintessence of himself, the condensation and concentration of all his powers. No musician can withstand its geniality and humor. It is the most readable, enjoyable, laughable, and popular book printed for years.

AGENTS WANTED FOR
SECRETS OF THE GREAT CITY.
A WORK descriptive of the VIRTUES, and the VICES, the MYSTERIES, MISERIES and CRIMES of NEW YORK CITY.
If you wish to know how fortunes are made and lost in a day; how Shrewd Men are ruined in Wall Street; how Strangers are Swindled by Sharpers; how Ministers and Merchants are blackmailed; how Dance Halls and Concert Saloons are managed; how Gambling Houses and lotteries are conducted, how Stock and Oil Companies originate, how the Bubbles Burst, read this work. It contains 35 fine engravings, tells all about the Mysteries and Crimes of New York, and is the Spiciest and Cheapest work published.
Only $2.50 Per Copy.
Agents are meeting with unprecedented success. One in Marlborough, Mass., reports 36 subscribers in a day. One in Meriden, Ct., 68 in two days. Send for Circulars and Specimen pages of the work. Address JONES BROTHERS & CO., 135 Washington St. Boston, Mass. 4wau23

WHAT ARE
DR. J. WALKER'S CALIFORNIA
Vinegar Bitters.
THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits, and refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetisers" "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, *free from all Alcoholic Stimulants.* They are the GREAT BLOOD-PURIFIER and LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all impure matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain the tippler or drunkard, will be given for an incurable case, providing the bones are not destroyed by mineral poisons or other means, the vital organs wasted beyond the point of repair.
FOR INFLAMMATORY AND CHRONIC RHEUMATISM, AND GOUT, DYSPEPSIA, OR INDIGESTION, BILLIOUS, REMITTENT, AND INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS have been most successful. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.
These Bitters are not a gilded pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.
They are Alterative, Tonic, Diuretic, Sedative, Diaphoretic, and Gentle Purgative.
"The Life of all Flesh is the Blood thereof."—Purify the blood and the health of the whole system will follow.
R. H. MCDONALD, J. WALKER, & CO., Proprietors,
San Francisco and Sacramento, California, and 32 and 34 Commerce St. (Commerce, a short street running from Sleeker to Barrow), N. Y.

SOLD BY ALL DRUGGISTS.

"Ingenio Stat Sine Morte Decus."
ROCKY MOUNTAIN BITTERS
IS a very superior Regulating Tonic, imparting vigor and strength to the constitution—a thoro'
PURIFIER OF THE BLOOD,
a regulator of nervous force, and a powerful sustainer of health against the encroachments of disease.
The invalid and convalescing seeking restoration, and yearning for the healing virtues of some magic balm, will find in these Bitters a hidden mysterious power, which QUIETLY RESTORES, yet refuses to reveal to the senses anything but taste and color.
It is a pleasant Bitter, free from all nauseous properties odor, entirely vegetable, being mainly grown at the base of the mountains from which they derive their name, and is particularly adapted to all forms of
DYSPEPSIA OR INDIGESTION,
manifesting themselves by the following symptoms: headache, nervousness, loss of memory, low spirits, giddiness, dimness of sight, dullness of hearing, and ringing noises in the ears, eructations, of belching of wind, tightness of breathing, weight and oppression of the chest, uneasy feeling about the heart, palpitation, &c.
Also for Liver Diseases, Disorders of the Kidneys, Restlessness and loss of Muscular Power these Bitters will be found almost a specific; & as a preventative of
FEVER AND AGUE,
or a restorer of the natural powers of the system, when broken down by continued ague attacks; it has no equal.
Being stimulating, (but not intoxicating), they refresh and invigorate both mind and body, heighten the sensibility, clear and sharpen the faculties, and bestow alacrity and cheerfulness of spirit.
CAUTION.—There have been, and still are several parties manufacturing and selling so-called "Langley's Bitters," many of which are worthless. As a guide against such, I would say that in 1866, I secured my copy-right, in the United States Court, a trade mark and name. "Rocky Mountain Bitters," and all Bitters of my manufacture are put up in *dark, long neck, quart bottles* with red label printed with gold; also, direction label, bearing my seal and directions printed in red, with a red cap and my seal printed in gold, over the cork. Beware of all others, and ask for "Rocky Mountain Bitters."

The Daily Chronicle.

Portsmouth, N. H.

SATURDAY, SEPT. 25, 1869.

The News.

The President and Cabinet are in Washington.

Mrs. Lucy Morehead Porter of Covington, has been appointed postmistress at Louisville, Ky., *vice* Speed.

The telegraph reports the arrest of Adam Van Allan, cashier of the First National Bank of Albany, on charge of using defaced revenue stamps.

An oil train was burned on the Erie Railroad, Thursday night.

New York has contributed fifteen thousand dollars to the Avondale relief fund.

Steamer Guidon, for Little Rock, struck a snag at Red Fork, Arkansas River, Tuesday, and sunk in four feet, of water. She had a valuable cargo which will be lost. The boat can be raised.

The New York stock brokers ran up gold to 165 on Friday and the bulls made millions of dollars by it. It ran down again to 136, as it was announced that four millions in gold would be sold on Saturday by the Secretary of the Treasury.

One More Opportunity to enjoy a monster concert in the Coliseum before its destruction. Three Grand Promenade Concerts, at a popular price, are to be given Oct. 21, 22, and 23.

As a fitting finale to its musical glories, and to perpetuate the noble proportions of the building, every ticket-holder becomes entitled to attend one concert, to own one colored lithograph of the Coliseum Building, and to become an owner of an undivided part of it.

To every person who has felt an interest in the origin, progress and grand success of the Peace Jubilee,—and who has not?—the above announcement must appeal with an irresistible force. All will want a pleasing reminder of the greatest musical event of the age.

For the Chronicle.

Equinoctial Storms.—During the past 20 years, in the months of September, from the 20th to the 25th, it has rained on some of those days, 14 years out of the 20, viz;

Yours, L. L.

Harper's Magazine for October, has a Health Trip to Brazil with ten illustrations. The Woodcock, with four illustrations. Border Reminiscences with two illustrations. The Helderbergs with eighteen illustrations. A Brave Lady—By the author of "John Halifax, Gentleman," with two illustrations. Editor's drawer, with five illustrations, and many valuable articles besides these. Sold by the N. E. News Co. Boston; E. A. Batchelder, in this city.

☞ Rev. W. L. Gage and family of Hartford, had a narrow escape Saturday afternoon. A pair of horses they were riding with, ran away, collided with a coal-cart, killing one of them; and Mrs. Gage and a nurse girl were thrown out—and Mrs. G. cut on the forehead and one of the eye-nerves apparently paralyzed. The others were not hurt.

—At a camp-meeting last fall, in the heat of excitement, an over-zealous worker in a frenzy of fervor exclaimed aloud: "Lord come down among us; do come; come now: come just as you are, and don't stop to change your clothes!"

—"Please accept a lock of my hair," said an old bachelor to a widow, handing her a large curl. "Sir, you had better give the whole wig." "Madame, you are verr biting indeed, considering that your teeth are porcelain."

—"Darling Fuzzylinda, let us walk in the meadow, where the clover is in blossom and amorous zephyrs play." "Oh, dern the amorous heifers!—I see enough of them over on dad's farm."

—A little girl who was watching a balloon ascension at Lewiston, suddenly exclaimed, "Mamma, I shouldn't think God would like it to have that man come up to heaven alive."

—A wag seeing a door nearly off its hinges, in which condition it had been some time, observed that when it had fallen and killed some one it would probably be hung.

—An Englishman paying an Irish shoeblack with rudeness, the "dirty urchin" said: "My honey, all the polish you have is upon your boots, and I gave you that."

—"Bob, how is your sweetheart getting along?" "Pretty well; she says I needn't call any more."

New Hampshire Items.

At Wolfeborough, town meeting voted to loan its credit to the Wolfeborough Railroad to the extent of five per cent. of its valuation. The vote stood 300 for, to 122 in opposition to the loan. Operations will be at once commenced, and the road be put through in the shortest time practicable.

At Newmarket, Charles E. Tasker is building for the New Mill Corporation on Elm Street, a dwelling house, 80 by 30 feet, three stories high, with two additions, 23 by 20. It has 92 windows and 48 rooms. On Main St., Mr. Creese is building for the same company a brick building for two tenements. The basement will be made into two stores. John W. Smart has sold six house lots 100 by 100 feet, on which are to be built houses two stories high. Edwin Rickerson, Samuel E. Furber, N. H. Leavitt, Jr., Mr. Sawyer, E. Joy, and H. Norton, are the purchasers. Mr. Smart offers to give to the Orthodox Society a lot, provided they will build a parsonage on the same for their pastor.

The newly chartered savings bank at Franklin goes into operation October 1. Hon. Austin F. Pike has been chosen president, and N. H. Sanborn treasurer.

Thomas Mullin of Dover, who was instantly killed at Newmarket Station, on Monday morning last, as the cars arrived at the Station, jumped while they were in motion from the smoking car to the platform; and holding on to the rod, the force of the motion threw him between the cars and he was instantly crushed to death by what are termed the "bumpers." He was a young man between 25 and 30 years of age and leaves no family.

We clip the following notice of Cocheco Prints from the United States Economist and Dry Goods Reporter, an acknowledged authority on such matters, throughout all business circles. Citizens of Dover have a right to know and to rejoice in the fact that Prints as beautiful in design and colorings are manufactured at the Print Works in our city as at any other place in the country, and that whoever buys a Cocheco Print buys one of which the leading paper says, "we doubt whether the work can be excelled by the best printer in the world."

"The Cocheco Company have again turned their attention to that magnificent c ass of cashmere effects in large palm figures which attracted so much attention the past season. These prints are bringing 16 cents, but they are so meritorious that we regard them rather cheap than otherwise, and doubt whether the work can be excelled on heavy cloth by the best printer in the world."

The Wilton Company, which began operations in 1851, is now manufacturing 500,000 pounds of yarn annually, consuming about 600,000 pounds of wool."

Do Figures Lie? — Johnny Pepper sold 30 apples at the rate of 3 for a cent, realizing 10 cents from his sales.

Charlie Snow sold 30 apples at the rate of 2 for a cent, realizing 15 cents from his sales.

The two had sold 60 apples for 25 cents.

Then they went into partnership and sold 60 apples at the rate of five for 2 cents, realizing but 24 cents, although in both cases they had sold the first 5 apples for 2 cents.

Where did they lose the odd cent?

Solution.—The apples are sold in each case at the rate of 5 for 2 cents until Johnny has sold his 30—when Charlie has 10 apples left, which by the terms of the partnership, he would be obliged to sell at the rate of 5 for 2 cents; instead of 4 for 2 cents as at first.

☞ A State Convention of Universalist Sunday Schools will be held at Concord, on Wednesday and Thursday, October 13 and 14.—The centennial anniversary of the Universalist Society in America occurs in 1870. Great exertions are to be put forth to fitly celebrate the occasion, not only to commemorate the past, but also to build up a memorial for the future.

Buried Alive.—At Jamaica, L. I. on the 15th inst., a negro named Lewis Carter, was buried nearly forty feet below the surface by the caving in of a well. A two-inch iron pipe was run down to him, and through this he was able to breath and converse. After thirty-six hours' confinement on his knees, he was taken out alive.

☞ Dr. Lanahan, the new agent of the Methodist Book Concern, New York, has discovered great corruption and fraud in the concern, extending over nine years, and amounting to a fortune, made by the son of a former agent.

—The specticscope having shown that the sun is a large collection of minerals known on the earth, including the precious metals, an inventive Yankee is meditating upon a process to extract gold from the sunbeams.

—A Dutchman went into a cooper shop, and asked for an empty barrel of flour, to make his dog a hen-coop.

LOCAL AFFAIRS.

Our Navy Yard Correspondence.

Sept. 24.

Mr. John Hoitt of Portsmouth, a caulker at the Navy Yard, died] very suddenly on Friday. He was seized with faintness, and before he could be taken to the Hospital, was dead.

It is reported that Government is to commence work soon on the basin of the Floating Dry Dock, and extend it North far enough to make room for three more ways for ships, which will allow five vessels to be up at a time

The Dock will be floated broadside after the basin is enlarged. It is said that anything that will tend to facilitate work in this Yard will be done, and that the different departments are requested to recommend all needed improvements. Hope it is so.

☞ The Boston Transcript reports that the famous Ancient and Honorable Artillery Company of Boston, are to visit Portsmouth, Oct. 4th, and encamp for two days on the grounds at the Sagamore House at Frost's Point. That beautiful and popular locality will come to be known as the modern field of the cloth of gold, by and bye, with its Masons, Veterans, Artillery, and what not.

But as the Messrs, Peirce had not been notified up to Friday, of their coming, and other papers state that they are going to Portland, the latter is probably their destination.

☞ The Temple, under Mr. Staver's management, is being very nicely fitted and furnished with stage scenery and decorations. The new and tasteful scenes are painted by Mr. T. P. Moses. Mr. Stavers uses all endeavors to suit showmen and the public, [and will certainly not be found fault with by reasonable people.

☞ Dr. John W. Stocking, a well-known veterinary Surgeon of Charlestown, Mass., and formerly a circus manager, died suddenly of apoplexy on Tuesday evening, aged about 58 years. His wife was a Miss Nutter of this city, and his body was brought here for burial on Thursday.

☞ Which is the best Dictionary—and why? Webster's—Because the other is *Worcester* (Worst-er.)

—There will be no eclipse visible here next year.

BUSINESS NOTICES.

Only Three Weeks Longer to treat all Cutaneous Diseases of the Head, falling, loss and prematurely grey hair, with special prescriptions, at No. 7 West street, room 3, by Dr. B. C. Perry, the well-known skillful Dermatologist of New York and Boston. No charge for consultation. Send for an interrogatory circular, Don't forget the number. The Doctor will close his office in Boston Saturday, October 16th.

Unnatural Redness of the Nose, pimply faces and black worms (or grubs) are cured by Dr. B. C. Perry, Dermatologist, at his Boston office, No. 7 West St. room 3.

Moles and Wens are cured by Dr. B. C. Perry, without cutting, pain or scars, at his Boston office, No. 7 West street. Don't forget the number. No charge for consultation.

Be Beautiful. If you desire beauty you should use Hagan's Magnolia Balm.

It gives a soft, refined, satin-like texture to the Complexion, removes Roughness, Redness, Blotches, Sunburn, Tan, &c., and adds a tinge of Pearly Bloom to the plainest features. It brings the Bloom of Youth to the fading cheek and changes the rustic Country Girl into a Fashionable City Belle.

In the use of the Magnolia Balm lies the true secret of Beauty. No Lady need complain of her Complexion who will invest 75 cents in this delightful article.

Lyon's Kathairon is the best Hair Dressing in use. 1msu21

With Dyspeptics everything is wrong. Food does not digest; sleep does not refresh: wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it or it will become seated and confirmed, and life will be a burden and existence a curse. Plantation Bitters will do away with all this. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the lustre in your eye will again be as bright as in your healthiest, happiest and most joyous days.

Magnolia Water.—Superior to the best imported German Cologne, and sold at half the price.

The Secret of Beauty lies in the use of Hagan's Magnolia Balm for the Complexion.

Roughness, Redness, Blotches, Sunburn, Freckles and Tan disappear where it is applied, and a beautiful Complexion of pure, satin-like texture is obtained. The plainest features are made to glow with Healthful Bloom and Youthful Beauty.

Remember Hagan's Magnolia Balm is the thing that produces these effects, and any Lady can secure it for 75 cents at any of our stores.

To preserve and dress the Hair use Lyon's Kathairon. 1msu21

—Many Germans heretofore democrats will vote the republican ticket in Pennsylvania this fall.

—Illinois papers state that a lady at Preemption, in that State, lately presented to her husband six children at a birth. The whole flock are doing well, and the father is represented as being "perfectly delighted."

SPECIAL NOTICES.

Keep the Body in Good Repair.

It is much easier to keep the system in good condition than restore it to that condition when shattered by disease. The "House of Life," like other houses, should be promptly propped up and sustained whenever it shows any sign of giving way. The first symptoms of physical decay should be taken as a hint that a stimulant is required. The next question, "What shall the stimulant be?"

A wholesome vegetable tonic, the stimulating properties of which are modified by the juices and extracts of anti-febrile and laxative roots and herbs,—something which will regulate, purify, purify, as well as invigorate,—is the medicine required by the debilitated. There are many preparations which are claimed to be of this description, but HOSTETTER'S STOMACH BITTERS, the great vegetable preventive and restorative that has stood by its worth in the confidence of the public and the medical profession by a quarter of a century of unvarying success, stands pre-eminent among them all. To expatiate on its opportunity would be to repeat a tw-ice-told tale. It is only necessary to consult the records of the United States Revenue Department to learn that its consumption is greater than that of any other proprietary remedy of either native or foreign origin.

As a means of sustaining the health and strength under a fiery temperature, the BITTERS have a paramount claim to consideration. It has the effect of fortifying and bracing the nervous and muscular systems against the ordinary causes of sudden and violent changes of temperature, and is therefore peculiarly useful at this season, when hot sunshine by day, and ice-cold dews by night, alternately heat and chill the blood of those who are exposed to them.

HOSTETTER'S STOMACH BITTERS are sold in bottles only. To avoid being deceived by counterfeiters, see that the name of the article is on the label, and embossed on the glass of the bottle and our revenue stamp over the cork.

Hatchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. Sold by all Druggists and Perfumers, and properly applied at the Wig Factory 6 Bond Street, New York.

Ellis' Iron Bitters

Will enrich the blood and prevent it from becoming watery and weak, give a healthy complexion, restore the appetite, invigorate the system, and are very palatable. These Bitters are recommended to all persons requiring a safe and valuable tonic, to impart tone and strength to the system, not given by Bitters merely stimulant in their effects; which, although they may possess tonic vegetable properties, cannot give the strength to the blood which the *Iron Bitters* will give.

Prepared by Wm. Ellis, Chemist. For sale in Portsmouth by WILLIAM R. PRESTON; by Weeks & Potter, Wholesale Agents, 170 Washington Street, Boston; and by Druggists and Grocers generally. mh28n6md

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet, which can be had of the agents where the medicine is for sale. d25

☞ PERRY DAVIS & SON, Providence, R.I., general wholesale Agents for the Eastern States.

TO OWNERS OF HORSES AND CATTLE.

TOBIAS' DERBY CONDITION POWDERS are warranted superior to any others, or no pay, for the cure of Distemper, Worms, Bots, Coughs, Hide-bound, Colds, &c., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Horn Distemper, &c., in Cattle. They are perfectly safe and require no need of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs; also increase the milk of cows. Try them and you will never be without them. The late Hiram Woodruff, celebrated trainer of trotting horses, used them for years. Col. Phillip D. Rush, of the Jerome Race Course, Fordham, N. Y., would not use them until he was told of what they are composed, since which he has never without them. He has over twenty running horses in his charge, and for the last three years has used no other medicine for them. He has kindly permitted me to refer to him by one line. Over 1,000 other references can be seen at the Depot.

Sold by Druggists and Saddlers. Price 25 cents per box. Depot, 10 Park Place, New York. au13

PAIN KILLER.

Manhattan, Kansas, April 17, 1868.

Messrs. Perry Davis & Son,

Gentlemen:— * * * I want to say a little more about the Pain Killer. I compound it in my valuable medicine, and always keep it on hand. I have traveled a good deal since I have been in Kansas, and never without taking it my medicine. In my practice I used it freely for the Asiatic Cholera in 1849, and with better success than with any other medicine. I also used it in cases for Cholera in 1855, with the same good results.

A. HUNTING, M.D.

* * * "I regret to say that the Cholera has prevailed here of late to a fearful extent. For the last three weeks, from ten to fifty or sixty fatal cases each day have been reported. I could add that the Pain Killer sent recently from the Mission House, has been used with considerable success during this epidemic. If taken in season, it is generally effectual in checking the disease.

Rev. CHAS. HARDING, Shoiapore, India." an20

SPECIAL NOTICES.

CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS for Diseases of the Liver, or to act as a gentle Purgative.

All of these three medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills assist in regulating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These medicines are conscientiously offered to the public as the only safe, certain and reliable remedies for Pulmonary Consumption, and for all those morbid conditions of the body which lead to fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long probation before the public. Its value has been proved in a period of more than twelve years, in all of which time its reputation has constantly increased, and the most obstinate skepticism can no longer doubt that it is a remedy of which may be used with confidence in all cases which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, he will certainly be cured, if his lungs are not too much wasted to make a cure possible. Even in cases supposed to be incurable, and in which all physicians have despaired, the use of the medicine has saved the life of the patient, and restored to him perfect health.

Dr. Schenck himself was cured in precisely such circumstances, and many others have been equally fortunate by judiciously making a timely use of Dr. Schenck's remedies.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, or can be emphatically cured, but often when patients have the most alarming symptoms, such as a violent cough, creeping chills, night sweats, and general debility, even to such a degree that they are obliged to lie in bed, and when they are given up by their physicians, they may still be cured. No medical treatment can create new lungs, but when the lungs are very badly diseased, and to some extent destroyed, a cure may be effected by Dr. Schenck's medicines.

Also in Scrofulous diseases these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores, and almost all broken up. This shows its purifying properties, which must be done to heal cavities in the lungs.

In the treatment of Consumption, it is of the utmost importance to give vigor and a healthy tone in the system. Hence it is necessary to strengthen the appetite of the patient and improve its digestion. Some laxative medicine is required, together with such means as will make the food easily digestible. The articles most suitable for this diet of consumptive patients are enumerated in Dr. Schenck's Almanacs, which are distributed gratuitously. In general, the most nutritious articles are to be preferred; but the digestive organs must be strengthened in order to make either food or medicine serviceable. This requirement is met by the Sea Weed Tonic, and for this purpose it was designed.

When the digestive powers are put in good order, the food has its proper effect, the system of the patient is invigorated, and the lungs begin to exercise their functions in a normal and healthy manner. Then the healing powers of the Pulmonic Syrup will complete the cure.

Pulmonary Consumption is almost always complicated with Dyspepsia and Liver Complaint, and the Mandrake Pills are needed to remove obstructions from the liver and restore its healthy action. They have all the efficacy which is ascribed to calomel or "blue mass," and are warranted not to contain a particle of any mineral poison. These pills cure the the most obstinate costiveness, sick headache, piles, bilious affections, and all other diseases which arise from a torpid or obstructed condition of the liver. One box of these pills will prove the efficacy of the medicine.

In Consumption, the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines. They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. They have been found useful in advanced stages of Consumption, where the lungs were almost entirely destroyed, and all symptoms, according to the judgement of physicians, indicated speedy death. Large of patients who were at the point of dying condition have been preserved for months by the use of Schenck's three great remedies.

DR. SCHENCK'S Almanac, containing a full treatise on the various forms of disease, his mode of treatment and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North Sixth Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea Weed Tonic, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggist and dealers.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any other preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in the pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One Thousand Certificates

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is free from all mineral substances, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy**, and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitely more effective than any of the horrible nauseous compounds which have been hitherto administered in such cases. As an antibilious specific and general aperient, they have no equal either among the secret preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. Erasmus Winslow's **Liver and Stomach Lozenge**, will ever again take a purgative powder, or draught or pill.

Wholesale agent, John F. Henry, No. 8 College Place, New York City.

PECULIAR ADAPTABILITY.

Brandreth's Pills.

Their peculiar adaptability to all constitutions as cleansers of the bowels and the blood has established their great merit. They restore the liver, the spleen and even the heart to healthy action when other remedies have been used without producing any benefit. They do not expose them who use them to any danger, being as safe as salutary.

Extract from Letter to Dr. Brandreth, from C. J. Fay, Esq., P. M., Hammonton, N. J.

"In 1838 I was poor Job's comfort, and my friends as well as myself supposed that my earthly voyage would soon terminate. But after taking one box of Brandreth's Pills, I began to feel better. Well, sir, when I had used up twelve boxes I was a well, healthy man—my weight having gone from 131 pounds up to 152 pounds. I then ordered a supply, and between that time and the present I have retailed three thousand dollars' worth of these invaluable pills, and am quite sure that I have largely been instrumental in saving thousands of lives.

Yours, truly, C. J. FAY, P. M."

Sold by all Druggists. Observe my name in white letters in the government stamp.

B. BRANDRETH. au20

Holloway's Pills.—More than two-thirds of the sickness which occurs in the summer proceeds from a disordered condition of the liver. Persons of a bilious habit suffer most in warm weather. They are languid, low spirited troubled with pain in the side, head-ache, and a constant feeling of weariness. The immediate and certain remedy for these symptoms, and all others proceeding from biliousness, is Holloway's Pills, the best anti-bilious medicine they are most efficacious and best. Sold by all Druggists. s6

IRON MANDRAKE SYRUP.

FREEMAN'S

FREEMAN'S

FREEMAN'S

IRON MANDRAKE SYRUP

IRON MANDRAKE SYRUP

IRON MANDRAKE SYRUP

Is an excellent combination of IRON with MANDRAKE and vegetable tonic.

The Mandrake acts on the Liver and prevents the bracing effects which Iron has so many other preparations; while the vegetable tonic strengthens the stomach, and promotes Digestion of Food and facilitates the absorption of Iron into the blood.

MANDRAKE

MANDRAKE

MANDRAKE

Is the great vegetable substitute for Calomel to act on the Liver.

In Freeman's Mandrake Syrup it is combined with Iron and Vegetable Tonics, and forms the most perfect Spring Medicine.

It purifies the blood and imparts IRON to it.

It acts on the Liver and removes foul humors from the body. It is a most excellent remedy for debility, especially for mothers who are worn down by nursing infants, and for all persons whose blood is pure, and who need iron and a strengthening medicine.

THE FAIR on Thursday *was* a Fair indeed,—pronounced by many, the best exhibition of the sort ever held in this vicinity. The weather was glorious, and the grounds were thronged with thousands of people and hundreds of carriages in the afternoon.

The Procession of four Town Teams, of ten yokes of noble oxen each, from Portsmouth, Eliot, Greenland and Newington, with decorated Wagons; and the Portsmouth Cornet Band, drawn by four horses; and the North Hampton Cavalcade of forty horsemen for escort, —made a fine show. The Greenland team contained a choir of girls, singing, and the Newington cart was also tenanted with young folks.

North Hampton did well for the Fair. Besides the Cavalcade, which in addition to their appearance in the procession, made so much fun in their races on the track,—Mr. James R. Leavitt, the experienced coachman and wagoner, volunteered the use of his nice four-horse team to carry the Band,—which it seems to us is a pretty good example for a stranger to set some other sort of people, (we don't mean horsemen.) The Cavalcade was under command of Mr. Horace Leavitt, with Mr. A. D. Hobbs as Marshal.

On the arrival of the Teams, &c., on the field, the Committees on Stock were appointed, and made some awards, which we publish elsewhere,—with the additional Entries in all classes, made since our first report.

Then the show of all Horses entered for premium, was made on the track, Mr. Frank Jones putting on eleven, including Old Lion, who has seen his 35 years or so,—and Messrs. Fisher & Eldredge eight. The Driving Horses, Mares and Colts, and other horse stock followed.

The Trotting in the afternoon was for 2:45 horses, and was a good, square, well-contested race between five entries, —Geo. Nutter's b. g. Prince, driven by Copp, F. Jones' Mountain Maid, Copp's Jack, driven by somebody else, J. H. Mathes' Cora May of Eliot, (and a good mare she is, if she does run in a brickyard,) and H. R. Stoddard's s. m. Kitty. Mountain Maid won the race in 2:58 1-2, 2:48 1-2, 2:48, Prince getting two heats in 2:49, 2:52.

Gentlemen's Driving Horses made quite a race, too, chiefly between Mr. F. Jones' Brown George, and Mr. H. P. Wingate's g. m. Cora from Stratham. The mare of Mr. McDevitt, which was so enduring in a race last year, was also well up, though loaded with a heavy wagon, and being a much lighter horse than the others. Cora made out to beat Brown George, after a hard struggle.

The Pairs of Trotters next came on, and here Mr. Jones (who as usual, wherever he is engaged, put his whole effort into the work of making the Fair a success, and contributed greatly to the sport of the day,) appeared again in the first heat as his own driver, of Brown George—who it would seem is like to be done brown by such double usage, — hitched up with one of his blacks. The competing pair were Mr. Stoddard's Topsey, and Jane, (late Mr. S. W. Webber's) who beat the Jones team barely, by being better breakers.

Several of the North Hampton Cavalcade ran for a special purse of $10, and made great amusement, two blacks belonging to Mr. John S. French doing the best, though another black and a bay were well after them. The horses and riders were unused to a track, and the animals' bolting from the course, stopping, or jumping fences, was laughable enough.

Things were thus kept snapping well for the whole afternoon, and there could be no complaint of delay. And the attendance was very large, perhaps 5000, many of the stores in the city being closed; and large numbers of ladies and children were present. The population of the neighboring towns was there, and many from a long distance away. The Railroad accommodations were very liberal, and to Supts. Prescott, Kendrick, Chase and Perkins, and President Goodwin of the P. S. & P., the Fair is indebted for much of its success.

The Piscataqua Grounds are naturally the most beautiful we ever saw, and when filled with the motley crowd on this bright and beautiful day, the scene was novel and inspiriting—quite a little Carnival. The attendance included many of our most distinguished citizens—gentlemen and ladies, Mayors and ex-Mayors, teachers, and ex-Governors, clergymen, and even editors; and also some of a different and less desirable sort,—and it would seem that to be of little avail, after all, to stop or restrict the sale of liquor on grounds, when it is so easy to carry a pistol in the pocket. Ale and cider were allowed, as usual, but that wasn't what ailed the few boisterous ones.

The North Hampton Cavalcade made quite a march, all told, to and from their town twice, and up and down to the city three times. They dined at the Frankin House on Thursday, as guests of the P. A. S.

The weather, Friday, was fine, and the attendance large, though considerably decreased from that of Thursday, was yet large,—and the Show was finished up, it is hoped to the satisfaction of all who are ever satisfied with anything. We think it must be regarded as the best Fair yet held by the Piscataqua Society.

The Band sounded the muster roll in the morning, and when they arrived on the grounds, all was lively again.

We shall make no detailed report this morning. The 2:30 trot was won by Empress, in 2:38, 2:44, 2:39, Prince John second. Nellie Locke was withdrawn after first heat, because Empress was allowed to run.

In the trot for Family Horses, M. Eldridge received first premium, H. H. Smith second, and F. Jones third.

In the running race, C. H. Hayes's Rockingham beat S. A. Haley's Nero, half mile heats, in 1;05 1-2, 1:07.

Half mile walking match, A. C. Pickering, Newington first, F. W. Miller's Jill second. Time 5.14.

On Town Teams, Greenland received the first premium, Portsmouth the second, and Eliot the third Newington; received premium for decorated wagons.

ADDITIONAL ENTRIES.

Mason & Seavey, Display Kitchen Furnishing Goods.

ATTEMPT AT BURGLARY. — On Tuesday night, the residence of Capt. Jos. H. Thatcher, on Islington Street, was entered by burglars. One of the family heard the door of her chamber open, and, thinking the wind had opened it, shut it. In the morning traces of the burglar were found where he had entered by one of the front windows. It is supposed he was frightened away.

☞ The Piscataqua Fair Premiums will be paid next week, at the Agricultural Store of Messrs. Mason & Seavey, Market Street,—where all persons having bills against the Fair, are requested to leave them immediately.

☞ There is no paper on our large and excellent exchange list, better to make selections from, than the Boston Transcript—even if it does use Rye Beach rather hard.

☞ Rev. Mr. Morse, of Lowell, Mass., is to preach at the Universalist Church to-morrow.

☞ Mr. Wendell sells a good Colt at Auction to-day.

—A general who served 4 years in our late war, in writing us of his horse who served with him, says: "He outlived every horse that was in the regiment when he entered it, simply because he was taken care of, while others were neglected, thus showing that there is real, practical economy, as well as humanity, in taking good care of our animals."

SINGING SCHOOL.

FOR THE YOUNG FOLKS.

Mr. E. A. JOY will resume his Juvenile Class in Singing at MERCANTILE HALL as soon as 50 courses of tickets shall have been sold, and continue for a term of 12 Lessons.

Tickets to the course $1, for sale at Mr. JOY'S Music Store. About 25 courses of tickets have already been sold, and it is hoped that the balance will be taken without delay, that the school may commence, after which no more scholars will be allowed to join the school till next term.

The scholars will be thoroughly taught to sing by note.

As an extra inducement, a copy of the Singing Book to be used in this school will be presented to each scholar when the tickets are purchased.

No admittance without a ticket.

All having books belonging to Mr. Joy and not intending to come to school this term, are requested to return them immediately and get the money for their tickets, if they have any.

s10 E. A. JOY.

TO BE, CERTAINLY!

WHY NOT!

The FACT that T. F. BURTT has about the finest assortment of fine Gold WATCHES, Gold JEWELRY in sets, Fine Gold Rings, Brooches, Pearl and Garnet Rings, Masonic and Odd Fellows Pins, Gold Chains, Clocks, Spectacles, Silver and Plated Ware, is too well known to be disputed.

THE LADIES who have been so well suited from his elegant stock of valuables, know it!

THE GENTLEMEN, whose opinions are nearly as reliable as those of the ladies, are convinced of its truth!

THE PATRONS GENERALLY testify that it is best to purchase THE BEST, and that the BEST PLACE is at

T. F. BURTT'S, 40 Congress St.

JEWELRY, MEDALS, EMBLEMS,

of any desired pattern, made to order, and perfect satisfaction given.

Watches, Clocks, and Musical Instruments, Repaired.

FINE REPAIRING, of all kinds, executed with promptness and dispatch, and warranted to give satisfaction.

☞ Cash paid for old SILVER and GOLD. WATCHES bought, sold or exchanged.

All Goods Warranted as Represented

BY

T. F. BURTT, 40 Congress Street.

DENTISTRY.

DR. JOHN S. PERRY,
(Late with Dr. E. B. Goodall,)

Would respectfully give notice to the citizens of Portsmouth and vicinity, that he has

Opened New Dental Rooms

No. 27½ Congress Street,

UP ONE FLIGHT,—OVER FERGUSON & FRYE'S.

ARTIFICIAL TEETH

Inserted on GOLD, SILVER or RUBBER PLATES, Elastic or Spring Plate for Loose Teeth, Also, Teeth filled with pure Gold and Silver in the most substantial manner, and perfect satisfaction guaranteed.

TEETH EXTRACTED POSITIVELY WITHOUT PAIN!

By the use of pure Ether.

He takes pleasure in refering his friends and the public to Dr. Adams Perry and Dr. E. B. Goodall, Dentist, Congress Street, for skill in administering Ether and extracting teeth.

All Operations in Dentistry Performed in the most Approved Style,

And at the usual rates.

Dr. P. hopes by paying strict attention to business to share the patronage of the public.

OFFICE HOURS from 8 to 1 and 2 to 5, and every evening except Friday from 7 to 8 o'clock.

JOHN S. PERRY, No. 27½ Congress St.
Residence, No. 8 High Street.

DENTAL NOTICE.

69 Congress Street, Portsmouth.

DR. GOODALL takes pleasure in announcing that he is meeting with great Success in HIS INVENTION of a SPRING PLATE for PARTIAL SETS OF TEETH. The Plate does not COVER THE ROOF OF THE MOUTH, is very small and light, has no clasps, in short, it does not *impede speech* or taste, and is altogether the most satisfactory method of inserting Partial Dentures. Scores of references in this city, and patients from Boston, New York and Philadelphia have given their unqualified approval of this *useful invention.*

He has purchased a patent right for LOADING lower sets of teeth, thereby making them much more serviceable and comfortable, and they will remain in place, even when the ridge of the lower jaw is very flat.

He is using the Pack Ridge in upper sets with the most satisfactory results. He has also a new way of *repairing rubber work, just discovered,* which will require only one hour in the majority of cases, and the work will be warranted strong and neat.

He is also administering ETHER, and preparing the mouth for artificial teeth, nearly every day, and often three times a day, extracting from 1 to 30 teeth at one visit, with entire FREEDOM FROM PAIN, and with happy results. He has made this department of dentistry more particularly a speciality, and is confident his large and continued success will warrant him in promising, (with his present facilities and improvements in mounting artificial dentures,) all work at the shortest notice, and in the **Best and Most Approved Style of the Art.**

All operations in Dentistry performed at the usual rates, and payment is considered due as soon as the operation is completed, all work being warranted.

Refers with pleasure to the leading Physicians of Portsmouth and citizens generally.

R. B. GOODALL,
No. 69 Congress Street, Portsmouth.

HOUSE LOT FOR SALE.

ONE OF THE MOST VALUABLE Building Lots in the City, and on one of the best streets. Containing over 6,000 feet of Land, within three minutes walk of Market Square.

au28 Apply at the Chronicle Office.

A PACIFIC RAILWAY

GOLD LOAN $6,500,000.

We beg leave to announce that we have accepted the agency of the

KANSAS PACIFIC RAILWAY COMPANY,

For the sale of its

NEW SEVEN PER CENT.

Thirty Year Gold Loan,
Free from Tax.

This Loan amounts to $6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds,

secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon the Road, the Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,

And in successful operation for 437 miles

west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as

A SINKING FUND FOR THE REDEMPTION OF THE BONDS.

The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the

Value of the Company's property, covered by this mortgage at $23,000,000 net, while the Loan is merely $6,500,000.

The Bonds have

THIRTY YEARS TO RUN,

from May 1, 1869, and will pay

SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be

PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:

On $1,000 Bond in N. Y. $35 (gold) each half year.
" London. . .£7 ₤3. 10. "
" Frankfort. .87 fir. 30 krtzs., "

The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a

FIRST CLASS INVESTMENT,

in every respect perfectly sure, and in some essential even

Better than Government Securities.

The Bonds will be sold for the present at

96, *[and accrued Interest, both in Currency,*

the Agents reserving the right to advance the rate.

The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

Pamphlets, with maps giving full information, sent on application.

Morning Chronicle.

A Trying Note.—There is an anecdote related of Rubini, the great singer, which illustrates the peculiar power of the human voice. In an opera by Pancini, called "Il Talismano," in which Rubini was singing, he had to sing a phrase in which a high B flat occurs, which he was accustomed to attack and hold out with great power, to the delight of his audience. The public flocked to hear this wonderful note, and never missed calling for a repetition. Rubini had already sung the note on seven previous occasions, each time twice; and on one evening, when an admiring audience waited for the production of the wonderful note, Rubini was dumb. He opened his mouth, extended his arms, and tried to utter the note, which would not come. The audience cheered, applauded and encouraged him in every way, but the obstinate B flat refused to be sounded. One more effort, and the force of his powerful lungs overcame the obstacle, and the B flat rung among the audience with brilliant vigor; but something in the mechanism of his voice had given way, but, though feeling acute pain, he continued the scene, forgetting his suffering in the triumphant conquest he had obtained. When he left the stage he saw the surgeon of the theatre, who examined him, and found that in the exertion of producing the obstinate note he had actually broken his collar bone.

A Fun, to be perfection in its kind, should contain two distinct meanings; the one, common and obvious; the other, more remote; and in the notice which the mind takes of the relation between these two sets of words, and in the surprise which that relation excites, the pleasure of a pun consists.

Miss Hamilton, in her book on Education, mentions an instance of a boy so very neglected, that he never could be brought to read the word patriarchs; but whenever he met with it he pronounced it partridges. A friend of the writer observed to her that it could hardly be considered a mere piece of negligence, for it appeared to him that the boy, in calling them partridges, was making game of the patriarchs.

Now, here are two distinct meanings contained in the same phrase: for to make game of the patriarchs is to laugh at them; or to make game of them is, by a very extravagant and laughable sort of ignorance of words, to rank them among pheasants, partridges and other such delicacies, which the law takes under its protection, and calls game: and the whole pleasure derived from this pun consists in the sudden discovery that two such different meanings are referable to one form of expression.—*Sydney Smith.*

Half Mankind swallows neither alcohol or meat. A Turkish hamal would take an English porter and his load on his shoulders and walk away comfortably, and he never drinks anything stronger than coffee, while a highland keeper, bred up on milk and oatmeal, will walk most other men down. Meat is good and alcohol is good, but there is little in meat that does not exist in milk, and alcohol is only good as a whip, enabling the taker to crowd twenty minutes' work into ten. We leave the Lancet to decide the point, but we see no real reason why a bread-eater should not do all the work of a flesh-eater and suffer less. The real point is, with the vegetarian, as with the teetotaller, whether he gains enough to repay him for giving up a justifiable pleasure, in a world which has so few justifiable pleasures to offer.—*Spectator.*

Carbolic Acid for Wounds upon Horses.—If a wound will heal by the first intention, the less done to it the better. If, on the other hand, suppuration is inevitable, the most beneficial effects follow the use of carbolic acid, combind with glycerine, or linseed oil, in the proportion of one to twenty; it may be applied, night and morning, with a feather. Of course, as with all other dressings, the wound must be kept clean, and in the case of backs and shoulders, all pressure removed by small pads of curled horsehair, sewn on to the harness, above and below the sore.—*Scientific American.*

A Mother in Israel.—Mrs. Hannah Debow, of Pompton, Morris county, New Jersey, who was born March 5, 1770, died on the 7th inst., aged ninety-nine years six months and two days. She was the mother of eleven children, eight of whom are living. The daughters are all widows; their ages vary from fifty-three to seventy-nine years. Her descendants in children, grandchildren, great-grandchildren and great-great-grandchildren number three hundred and fifty, a large portion of whom are living. She has attended the funerals of nine sons-in-law and one daughter-in-law.

A False Report.—The editorial in the New York Sun, intimating that Secretary Cox has expressed the intention of resigning or that he will feel compelled to resign, unless a house is given him, has not a particle of foundation upon which to rest, so far as Secretary Cox himself is concerned, and if any one has written such a letter as the the Sun speaks of, embodying the above ideas, the Secretary has no knowledge of any kind, either direct, or indirect, concerning it.

—A woman was sentenced in the Brooklyn court of sessions, Monday, to one year's imprisonment in the penitentiary for keeping a house of prostitution. The Court, in passing the sentence, remarked that it was determined to prevent the existence of such nuisances in that city. This is the first sentence of the kind known of late years in Brooklyn, and has created great consternation in certain quarters.

Railroad Accidents.—Railroad accidents are of such frequent occurrence that the following recommendation from an old newspaper, will not be inappropriate now—that every railroad should be provided with its private graveyard, where its victims might be interred at the company's expense—a simple act of justice to the surviving relatives. Appropriate epitaphs could be placed over the remains of sufferers from each accident, stating that nobody was to blame, &c., as the following, for instance:

COW ON THE TRACK.

A bovine waif from the adjoining field
The track invaded and my fate she sealed;
By the cow-catcher caught, she flew sky-high.
Also so dear friends I hope at last shall I.

MISPLACED SWITCH.

A son of Erin, to the duty new,
And slightly tipsy, the wrong lever drew.
Thirty were killed, and here, in sweet repose,
They wait till Gabriel's warning whistle blows.
The Smashtown Railroad Company, with a sigh,
Records their fate—but ah! we all must die;
And as life's tracks all end in death's abode,
Much those escape who take the shortest road.

OPEN DRAWBRIDGE.

"Drawbridge shut!" the signal said,
"Twasn't shut. Alas! how solemn!
Such is life! See list of dead
On the other side this column.

—The Scriptures give four names to Christians, taken from the four cardinal graces, so essential to man's salvation: Saints, for their holiness; Believers, for their faith; Brethren, for their love; the Disciples, for their knowledge.

—Miss Harriet Gregg has sued the town of Hinsdale for $10,000 for injuries received a few years since in consequence of a defective highway.

AMERICAN & FOREIGN PATENTS.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the United States Patent Office, Washington, under the Act of 1837,
No. 78 State St., opposite Kilby St., Boston,
After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent sent by mail, enclosing one dollar. Assignments recorded in Washington.
No agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.
"Mr. R. H. Eddy has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending.* Such unmistakable proof of practical and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."
Boston, Jan. 1, 1869.—1 yr.

J. R. KENDRICK, Supt.

FALL RIVER LINE
FOR New York, Philadelphia, Baltimore, Washington, and all principal points West, South and South-west.
Via Taunton Fall River and Newport.
Cabin, $5.00; Deck, $4.00.
Baggage checked through and transferred in New York free of charge.
New York trains leave the Old Colony and Newport Railway Depot, corner of South and Kneeland Streets, daily, (Sundays excepted,) as follows: at 4.30 P. M. arriving in Newport 40 minutes in advance of the regular Steamboat Train, which leaves Boston at 5.30 P. M., connecting at Newport with the new and magnificent steamers PROVIDENCE, Capt. B. N. Simmons, and BRISTOL, Capt. Benj. Brayton. These steamers are the fastest and most reliable boats on the Sound, built expressly for speed, safety and comfort. This Line connects with all the Southern Boats and Railroad Lines from New York going West and South, and conveniently to the California Steamers.
"To Shippers of Freight," this Line, with its new and extensive depot accommodations in Boston, and large pier in New York, (exclusively for the business of the Line,) is supplied with facilities for freight and passenger business which cannot be surpassed. Freight always taken at low rates, and forwarded with despatch.
New York Express Freight Train leaves Boston at 1.30 P. M.; goods arrive in New York next morning about 6 A. M. Freight leaving New York reaches Boston on the following day, at 9.45 A. M.
For tickets, berths and staterooms, apply at the Company's office at No. 3 Old State House, corner of Washington and State Streets, and at old Colony and Newport Railroad Depot, corner of South and Kneeland Streets, Boston.
Sunday Night Line.
Cars leave every Sunday evening, at 6.30 P. M., connecting as above.
The Office, 3 Old State House, Boston, will be open every Sunday afternoon from 2 to 6 o'clock, and at the Depot from 9 to 10 A. M., and from 5 to 6.30 P. M., for sale of tickets and staterooms.
Steamers leave New York daily, (Sundays included,) from Pier 28 North River, foot of Murray Street, at 5 P. M.
GEO. SHIVERICK, Passenger & Freight Agt.

The Chronicle.

MARK TWAIN ASSUMES THE EDITORIAL. Being a stranger, it would be immodest and unbecoming in me suddenly and violently to assume the associate editorship of the Buffalo Express without a single explanatory word of comfort or encouragement to the unoffending patrons of the paper, who are about to be exposed to constant attacks of my wisdom and learning. But this explanatory word shall be as brief as possible. I only wish to assure parties having a friendly interest in the prosperity of the journal, that I am not going to hurt the paper deliberately and intentionally at any time.

I am not going to introduce any startling reforms, or in any way attempt to make trouble. I am simply going to do my plain, unpretending duty, when I cannot get out of it. I shall work diligently and honestly and faithfully at all times, and upon all occasions, when privation and want shall compel me to do it; in writing, I shall always confine myself strictly to the truth, except when it is attended with inconvenience: I shall witheringly rebuke all forms of crime and misconduct, except when committed by the party inhabiting my own vest; I shall not make use of any slang or vulgarity upon any occasion or under any circumstances, and shall never use profanity except in discussing house-rent and taxes.

Indeed, upon second thought, I will not even use it then, for it is unchristian, inelegant and degrading—though to speak truly I do not see how house rent and taxes are going to be discussed worth a cent without it. I shall not often meddle with politics, because we have a political editor who is already excellent, and only needs to serve a term in the penitentiary in order to be perfect. I shall not write any poetry unless I conceive a spite against the subscribers.

Such is my platform. I do not see any earthly use in it, but custom is law, and custom must be obeyed, no matter how much violence it may do to one's feelings. And this custom which I am slavishly following now is surely one of the least necessary that ever came into vogue. In private life a man does not go and trumpet his crime before he commits it, but your new editor is such an importhant personage that he feels called upon to write a "salutatory" at once, and he puts into it all that he knows, and all that he don't know, and some things that he thinks he knows, but isn't certain of.

And he parades his list of wonders which he is going to perform; of reforms which he is going to introduce, and public evils which he is going to exterminate, and public blessings which he is going to create, and public nuisances which he is going to abate. He spreads this all out with oppressive solemnity over a column and a half of large print, and feels that the country is saved. His satisfaction over it is something enormous.

He then settles down to his miracles and inflicts profound platitudes and impenetrable wisdom upon a helpless public as long as they can stand it, and then they send him off consul to some savage island in the Pacific in the vague hope that the cannibals will like him well enough to eat him. And with a humanity which is but a fitting climax to his career of persecution, instead of packing his trunk at once, he lingers to inflict upon his benefactors a "valedictory!"

If there is anything more uncalled for than a "salutatory," it is one of these tearful, blubbering, long-winded "valedictories," wherein a man who has been annoying the public for ten years cannot take leave of them without sitting down to cry a column and a half. Still it is the custom to write valedictories, and custom should be respected. In my secret heart I admire my predecessor for declining to print a valedictory, though in public I say, and shall continue to say sternly, it is the custom, and he ought to have printed one. People never read them any more than they do the salutatories, but nevertheless he ought to have honored the old fossil—he ought to have printed a valedictory. I said as much to him and he replied:"

"I have resigned my place, I have departed this life, I'm journalistically dead, at present, ain't I?"

"Yes."

"Well, wouldn't you consider it disgraceful in a corpse to sit up and comment on the funeral?"

I record it here, and preserve it from oblivion, as the briefest and best "valedictory" that has yet come under my notice. MARK TWAIN.

P. S.—I am grateful for the kindly way in which the press of the land have taken notice of my reception into journalistic life, telegraphically or editorially, and am happy in this place to express the feeling.

—Lippincott's magazine tells a story to the effect that Admiral Porter, while riding in a street-car in Washington lately, was annoyed by several noisy drunken sailors. At last he told them who he was, and demanded what ship they belonged to. Wine had given one of them wit enough to reply, "Admiral, you have changed the names of the ships so often that I don't really know what ship we do belong to."

PERRY DAVIS' PAIN KILLER, as an internal remedy has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, Dysentery, Asthma, it cures in one night, by taking internally, and bathing with it freely. It is the best liniment in America. Its action is like magic, when externally applied to bad sores, burns, scalds and sprains. For the sick headache and tooth ache, don't fail to try it. In short, it is a Pain Killer. 4ws7

DODD'S NERVINE AGAIN.
ANOTHER CERTIFICATE.
LEDYARD, CONN., April 3, 1869.
Accept thanks for calling my attention to DODD'S NERVINE AND INVIGORATOR. It has done me more good than any other medicine I ever took. I have gained twelve pounds in flesh, and am correspondingly better every way. It is an invaluable remedy.
8waus23 MRS. JOHN T. LEACH.

WHAT ARE
DR. J. WALKER'S CALIFORNIA Vinegar Bitters.
THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits, and refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetisers" "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from *all Alcoholic Stimulants*. They are the GREAT BLOOD-PURIFIER and LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell. $100 will be given for an incurable case, providing the bones are not destroyed by mineral poisons or other means, the vital organs wasted beyond the point of repair.
FOR INFLAMMATORY AND CHRONIC RHEUMATISM, AND GOUT, DYSPEPSIA, or INDIGESTION, BILLIOUS, REMITTENT, and INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS have been most successful. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.
These Bitters are not a gilded pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.
They are Alterative, Tonic, Diuretic, Sedative, Diaphoretic, and Gentle Purgative.
"The Life of all Flesh is the Blood thereof."—Purify the blood and the health of the whole system will follow.
R. H. McDONALD, J. WALKER, & CO., Proprietors,
San Francisco and Sacramento, California, and 32 and 34 Commerce St. (Commerce, a short street running from Bleeker to Barrow), N. Y.

AVERILL CHEMICAL PAINT!
THE RIGHT THING AT LAST!
BENJAMIN NORTON,
Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of
THE BEST PAINT!
ever offered in this city.
It is Durable, Beautiful, Water Proof, Elastic and Economical.
This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.
It is prepared in pure White and one hundred Different Shades, and is unsurpassed in all respects.
It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.
Many testimonials from those who have used it in other places of its superiority over other Paints might be given; but I will only invite those of this city and surrounding towns who intend using Paints, to call at the
GROCERY AND PROVISION STORE,
Nos. 16 & 18 Cabot Street,
which is the ONLY PLACE in the City where it has been used, and examine the Paint where it has been applied in ten or twelve different shades, and where they can choose any color they desire for use, outside or in, and buy from one pound upwards.
In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.
These Paints are manufactured in New York, and Newburgh, Ohio. BENJ. NORTON,
Agent for Chemical Paint Company.
Also for sale, at the same place, the Best Quality of
MEATS AND GROCERIES!
AS LOW AS CAN BE BOUGHT IN THE CITY.

Trafton Brothers, Blacksmiths.
SHIP WORK, EDGE TOOLS AND JOBBING
No. 112 Market St.....Portsmouth.

"Ingenio Stat Sine Morte Decus."
ROCKY MOUNTAIN BITTERS
IS a very superior Regulating Tonic, imparting vigor and strength to the constitution—a thoro'
PURIFIER OF THE BLOOD,
a regulator of nervous force, and a powerful sustainer of health against the encroachments of disease.
The invalid and convalescing seeking restoration, and yearning for the healing virtues of some magic balm, will find in these Bitters a hidden mysterious power, which QUIETLY RESTORES, yet refuses to reveal to the senses anything but taste and color.
It is a pleasant Bitter, free from all nauseous properties odor, entirely vegetable, being mainly grown at the base of the mountains from which they derive their name, and is particularly adapted to all forms of
DYSPEPSIA OR INDIGESTION,
manifesting themselves by the following symptoms: headache, nervousness, loss of memory, low spirits, giddiness, dimness of sight, dullness of hearing, and ringing noises in the ears, eructations, of belching of wind, tightness of breathing, weight and oppression of the chest, uneasy feeling about the heart, palpitation, &c.
Also for Liver Diseases, Disorders of the Kidneys, Restlessness and loss of Muscular Power these Bitters will be found almost a specific; & as a preventative of
FEVER AND AGUE,
or a restorer of the natural powers of the system, when broken down by continued ague attacks; it has no equal.
Being stimulating, (but not intoxicating), they refresh and invigorate both mind and body, heighten the sensibility, clear and sharpen the faculties, and bestow alacrity and cheerfulness of spirit.
CAUTION.—There have been, and still are several partial parties manufacturing and selling so-called "Langley's Bitters," many of which are worthless. As a guide against such, I would say that in 1866, I secured my copy-right, in the United States Court, a trade mark and name. "Rocky Mountain Bitters," and all Bitters of my manufacture are put up in *dark, long neck, quart bottles* with red label printed with gold; also, direction label, bearing my seal and directions printed in red, with a red cap and my seal printed in gold, over the cork. Beware of all others, and ask for
"Rocky Mountain Bitters."

The Daily Chronicle.

Portsmouth, N. H.

MONDAY, SEPT. 27, 1869.

The News.

Murphy, at Portland, has been found guilty of manslaughter in connection with the killing of Murry at Bradley's Hotel, by throwing him down stairs.

The Mississippi Valley Telegraph Company have sold their lines to the Pacificand Atlantic Company.

This year's yield of cotton is estimated at two and three quarters millions of bales.

It is understood that Mr. Robert Bonner has consented to trot Dexter against Lady Thorne this week—probably Thursday—at the Prospect Fair Grounds, N. Y. The entire proceeds will go for the benefit of the Avondale sufferers.

The Indians in northern California are becoming hostile. A party of savages have given the commander of Fort Bidwell ten days to release several Indians held as prisoners in the fort, or otherwise they will be taken by force. The settlers are anxious to exterminate the whole band, but the military authorities refuse their permission to so summary a proceeding.

While a party of five, a gentleman and four ladies, with a driver, belonging in Providence, were driving on the Canada side of Niagara Falls, on Friday, the horses became frightened, and the gentleman jumped out. The horses and carriage went over the precipice, and one of the ladies was killed; The others were much injured.

Griffin, the engineer blamed for the recent Mast Hope disaster, has been acquitted.

GREAT MORAL EXHIBITION.—I have before me a handbill, which sets forth the wondrous blunders of nature as seen in the bull Hercules, the cow Beauty, (beautiful deformity!) and the calf Cyclope, — and modestly asserts that their exhibition is "the *most* Moral Exhibition for gentlemen, ladies and children, that has ever been exhibited!" This, to me, is surprising. But for the information vouchsafed by the bill, I should have supposed that a collection of fine paintings, a mechanics' or agricultural fair, a flower-show, or even an out-and-out horse-race or billiard-match, when viewed from the "moral" platform, would appear as elevating, to say the least, as the show of the most unnatural malformation of man or animal.

There may be nothing *immoral* in the show of the bull and his mate, or of two-headed women, or Siamese Twins; and popular taste relishes such exhibitions enough to make them "pay" well. But popular taste is not always elevated, or moral. Crowds will flock to see a man hung; and Opera Bouffe, with its women's dresses consisting of a spangle, a bead, a ribbon and a pair of slippers, has reigned a long while. That anything is popular is no proof of its elevating morality; "free rum" is popular enough, but its tendency to elevate and improve is not apparent to the superficial observer.

The verdict rendered by the popular voice is not always that even of common sense. The most unmitigated quack, or vendor of quack nostrums, if he has assurance enough to bellow forth the impossible virtues of his worthless trash, is pretty sure of pecuniary success; and if he can give a lecture full of scientific terms, praise of his own glorious skill, and abuse of all *other* doctors,—or has money and shrewdness enough to build a medicine-distillery and advertise largely, he can soon ride to a first-class church in his own carriage,—while the poor dupes who make use of his stuff are lucky if they are able even to walk.

Human and brute monsters are objects of curiosity, and are doubtless "good paying property;" but their exhibition to crowds at so much a head certainly does not improve the morals or exalt the taste of any community. The bull-show may have been interesting, but I am at a loss to see where the super-extra "morality" of it comes in; and the mere mention of it savors of cant, if nothing else. For my part, I had rather look at one really beautiful, perfectly formed woman, or man, or animal, than at a whole pasture-full of the most hideous monstrosities that were ever seen,—and think there is nothing immoral in a preference for the comely over the repulsive. PAKEHA.

☞ The revenue receipts for the first six month of this year were nearly eighty-six millions—an excess of 33 per cent. over the same period last year. Three quarters of the excess was from spirituous liquors, showing how Johnson's corrupt officials were in league with the distillers.

☞ The Drought in this city is growing more and more severe. It is reported that the Aqueduct Co. have suspended the Brewery supplies, and are pumping water into their tanks at the Fountain Head. We hope the dry spell may break ere this is printed.

The street Pumps are a great blessing, especially at the present dry juncture. We hardly see how people did without them so long.

☞ Judge Butler, President of the Piscataqua Fair, was prevented by absence on distant business, from being here at the Show,—but, at his request, the place was well filled by Hon. F. Jones, President of the Agricultural Society, who was one of the originators, and has always been one of the prominent supporters of the institution.

On Thursday a mechanic by the name of Allard, in the employ of Jeremiah Hodge, struck his hand accidentally against a circular saw in motion, and thereby suffered a severe wound. *Manchester Mirror.*

BUSINESS NOTICES.

ONLY THREE WEEKS LONGER to treat all Cutaneous Diseases of the Head, falling, flaxen and prematurely grey hair, with special prescriptions, at No. 7 West street, room 3, by Dr. B. C. PERRY, the well-known skillful Dermatologist of New York and Boston. No charge for consultation. Send for an interrogatory circular. Don't forget the number. The Doctor will close his office in Boston Saturday, October 16th.

UNNATURAL REDNESS OF THE NOSE, pimply faces and black worms (or grube) are cured by Dr. B. C. PERRY, Dermatologist, at his Boston office, No. 7 West St. room 3.

MOLES AND WENS are cured by Dr. B. C. PERRY, without cutting, pain or scars, at his Boston office, No. 7 West street. Don't forget the number. No charge for consultation.

—A good suggestion is like a crying baby at a concert—it should be carried out.

—A sentimental editor says: It is comforting to know one eye watches fondly for our coming, and looks brighter when we come." A cotemporary is grieved to learn that his brother of the quill has a wife with one eye."

SPECIAL NOTICES.

Keep the Body in Good Repair.

It is much easier to keep the system in good condition than restore it to that condition when shattered by disease. The "House of Life," like other houses, should be promptly propped up and sustained whenever it shews any sign of giving way. The first symptom of physical debility should be taken as a hint that a stimulant is required. The next question, "What shall the stimulant be?"

A wholesome vegetable tonic, the stimulating properties of which are modified by the juices and extracts of anti-febrile and laxative roots and herbs,—something which will regulate, soothe and purify, as well as invigorate,—is the medicine required by the debilitated. There are many preparations which are claimed to be of this description, but HOSTETTER'S STOMACH BITTERS, the great vegetable preventive and restorative that has won by its way to the confidence of the public and the medical profession by a quarter-century of unvarying success, stands pre-eminent among them all. To expatiate on its popularity would be to repeat a twice-told tale. It is only necessary to connect the success of the United States Revenue Department to learn that its consumption is greater than that of any other proprietary medicine of either native or foreign origin.

As a means of sustaining the health and strength under a fiery temperature, the BITTERS have a paramount claim to consideration. It has the effect of fortifying and bracing the nervous and muscular systems against the ordinary consequences of sudden and violent changes of temperature, and is therefore peculiarly useful at this season, when hot sunshine by day, and ice-cold dews by night, alternately heat and chill the blood of those who are exposed to them.

HOSTETTER'S STOMACH BITTERS are sold in bottles only. To avoid being deceived by counterfeiters, see that the name of the article is on the label, and embossed on the glass of the bottle and our revenue stamp over the cork.

Batchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. Sold by all Druggists and Perfumers, and properly applied at the Wig Factory 6 Bond Street, New York.

Ellis' Iron Bitters

Will enrich the blood and prevent it from becoming watery and weak, give a healthy complexion, restore the appetite, invigorate the system, and are very palatable. These Bitters are recommended to all persons requiring a safe and valuable tonic, to impart tone and strength to the system, not given by Bitters merely stimulant in their effects; which, although they may possess tonic vegetable properties, cannot give the strength to the blood which the *Iron Bitters* will give.

Prepared by Wm. Ellis, Chemist. For sale in Portsmouth by WILLIAM R. PRESTON; by Weeks & Potter, Wholesale Agents, 170 Washington Street, Boston; and by Druggists and Grocers generally. mh29smdmd

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet, which can be had of the agents where the medicine is for sale. d25

☞ JEREMY DAVIS & SON, Providence, R.I., general wholesale Agents for the Eastern States.

TO OWNERS OF HORSES AND CATTLE.

TOBIAS' DERBY CONDITION POWDERS are warranted superior to any others, or no pay, for the cure of Distemper, Worms, Bots, Coughs, Hide-bound, Colds, &c., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Hard Times, &c., in Cattle. They are perfectly safe and innocent; no need of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs; also increase the milk of cows. Try them and you will never be without them. The late Hiram Woodruff, celebrated trainer of trotting horses, used them for years. Col. Philip. P. Bush, of the Jerome Race Course, Fordham, N. Y., would not use them until he was told of what they are composed, since which he is never without them. He has over twenty running horses in his charge, and for the last three years has used no other medicine for them. He has kindly permitted me to refer any one to him. Over 1,000 other references can be seen at the Depot.

Sold by Druggists and Saddlers. Price 25 cents per box. Depot, 10 Park Place, New York. au19

PAIN KILLER.

MANHATTAN, Kansas, April 17, 1868.

MESSRS. JEREMY DAVIS & SON,

Gentlemen:— * * * I want to say a little more about the Pain Killer. I consider it a very valuable medicine, and always keep it on hand. I used it a good deal while I was living in Ohio, in Kansas, and never without taking it with me. In my practice I used it freely for the Asiatic Cholera in 1849, and was successful in curing as any other medicine. I also used it here for Cholera in 1855, with the same good results.

A. HUNTING, M.D.

* * * "I regret to say that the Cholera has prevailed here of late to a fearful extent. For the last three weeks, from ten to fifty or sixty fatal cases each day have been reported. I should add that the Pain Killer was recently from the Mission House, has been used with considerable success during this epidemic. If taken in season, it is generally effectual in checking the disease.

Rev. CHAS. HARDING, Sholapore, India." au20

SPECIAL NOTICES.

CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS for Diseases of the Liver, or to act as a gentle Purgative.

All of these three medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills are used to regulating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These medicines are conscientiously offered to the public as the only safe, certain and reliable remedies for Pulmonary Consumption, and for all those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long probation before the public. Its value has been brought a period of more than thirty-five years, in all of which time its reputation has constantly increased, and the most obstinate skepticism can no longer doubt that it is a remedy which may be used with confidence in all cases in which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, he will generally find that he will be cured, if he has not too much wasted to make a cure possible. Even in cases supposed to be incurable, when friends and physicians have despaired, the use of the medicine has saved the life of the patient, and restored him to perfect health.

Dr. Schenck himself was cured in precisely such circumstances, and many others have been equally fortunate by judiciously making a timely use of Dr. Schenck's remedies.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he emphatically asserts, that often when patients have the most alarming symptoms, such as a violent cough, creeping chills, night sweats, and general debility, even to such a degree that they are obliged to lie in bed, and when they are given up by their physicians, they may still be cured. No medical treatment can create new lungs, but when the lungs are very badly diseased, and to some extent destroyed, a cure may be effected by Dr. Schenck's medicines.

Also in Scrofulous diseases these medicines are equally efficient. Dr. Schenck has photographs of a dozen or more persons who have been nearly covered with running sores, and now all healed up. This shows its purifying properties, which must be done to heal cavities in the lungs.

In the treatment of Consumption, it is of the utmost importance to give vigor and a healthy tone to the system. Hence it is necessary to strengthen the appetite of the patient and improve the digestion. Proper nourishment is required, together with such means as will make the food easily digestible. The article most suitable for the diet of consumptive patients are designated in Dr. Schenck's Almanac, which are distributed gratuitously. In general, the more nutritious articles are to be preferred; but the digestive organs must be strengthened in order to make either food or medicine serviceable. This requirement is met by the Sea Weed Tonic, and for this purpose it was designed.

When the digestive powers are put in good order, the blood has its proper effect, the system of the patient is invigorated, and the lungs begin to exercise their functions in a normal and healthy manner. Then the healing powers of the Pulmonic Syrup will complete the cure.

Pulmonary Consumption is almost always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills are intended to remove obstructions from the liver and restore its healthy action. They have all the efficacy which is ascribed to calomel or "blue mass," and are warranted not to contain a particle of any mineral poison. These pills cure the the most obstinate costiveness, sick headache, piles, billious affections, and all other diseases which arise from a torpid or obstructed condition of the liver. One box of these pills will prove the efficacy of the medicine.

In Consumption, the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines. They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. They have been found useful in advanced stages of Consumption, where the lungs were almost entirely destroyed, and all symptoms, according to the judgement of physicians, indicated speedy death. Liver of patients who were actually in a dying condition have been preserved for months by the use of Schenck's three great remedies.

DR. SCHENCK'S Almanac, containing a full treatise on the various forms of disease, his mode of treatment and general directions how to use his medicines, can be had gratis of the Agents, or by addressing his Principal Office, No. 15 North Sixth Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggist and dealers.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been realized. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as maple sugar candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It combines two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in the pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the chief ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to the present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative properties has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the fairer sex are subject, the Lozenge will be found more effective than any of the nauseous and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge**, will ever again take a purgative pill or drink a cathartic.

Wholesale agent, John F. HENRY, No. 8 College Place, New York City.

PECULIAR ADAPTABILITY.

Brandreth's Pills.

Their peculiar adaptability to all constitutions as cleansers of the bowels and the blood has established their great merit. They restore the liver, the spleen and even the heart to healthy action when other remedies have been used without producing any benefit. They do not expose those who use them to any danger, being as safe as salutary.

Extract from Letter to Dr. Brandreth, from C. J. Fay, Esq., P. M., Hammonton, N. J.

"In 1838 I was in poor health, and my friends as well as myself supposed that my earthly voyage would soon terminate. But after taking one box of Brandreth's Pills, I began to feel better. Well, sir, when I had used up twelve boxes I was a well, healthy man—my weight having gone from 131 pounds up to 152 pounds. I then ordered a supply, and between that time and the present I have retailed three thousand dollars' worth of these invaluable pills, and am quite sure that I have thereby been instrumental in saving thousands of lives.

Yours, truly, C. J. FAY, P. M."

Sold by all Druggists. Observe my name in white letters in the government stamp.

au20 B. BRANDRETH.

Holloway's Pills.—More than two-thirds of the sickness which occurs in the summer proceeds from a disordered condition of the liver. Persons of a bilious habit suffer most in warm weather. They are languid, low spirited troubled with pain in the side, head-ache, and a constant feeling of weariness. The immediate and certain remedy for these symptoms, and all others proceeding from biliousness, is HOLLOWAY'S PILLS. Of all anti-bilious medicines they are safest, surest and best. Sold by all Druggists. s6

IRON MANDRAKE SYRUP.

FREEMAN'S
FREEMAN'S
FREEMAN'S
IRON MANDRAKE SYRUP
IRON MANDRAKE SYRUP
IRON MANDRAKE SYRUP

Is an excellent combination of IRON with MANDRAKE and vegetable tonic.

The Mandrake acts on the Liver and prevents the bleaching effects which Iron has so many other preparations; while the vegetable tonic strengthens the stomach, and promotes Digestion of Food and facilitates the absorption of Iron into the blood.

MANDRAKE
MANDRAKE
MANDRAKE

Is the great vegetable substitute for Calomel to act on the Liver.

In Freeman's Mandrake Syrup it is combined with Iron and Vegetable Tonics, and forms the most perfect Spring Medicine.

It purifies the blood and imparts IRON to it. It acts on the Liver and removes foul humors from the body. It is a most excellent remedy for debility, especially for mothers who are worn down by nursing infants, and for all persons whose blood is pure, and who need Iron and a strengthening medicine.

Notice—G. A. R.

PISCATAQUA FAIR.—Friday morning, the Stallions of all ages were shown on the track, and Mr. Mann's gray "Greenland" shew good speed, having no competitor, though he was ready for them. Mr. D. D. Perkins' famous yearling, by Young Morrill, which looks, trots and weighs like a four-year old, was much admired. Fearnaught Prince was not present to-day, but was driven round the track on Thursday.

About Noon, William H. Hackett, Esq., sold by auction, quite a lot of fruit, flowers, vegetables and fancy goods, contributed to the Fair by exhibitors, (particularly Mr. Oxford,) or sold on the owners' account.

The Family Horses being called, seven or eight appeared, and quite a race ensued—some of the entries thought too much so for the class. Speed was to be considered, to be sure, but is not the first requisite in a family horse; and if it was, Mr. F. Jones' horse Tom, who came in first in every heat, should have had first premium,—which the judges awarded to M. Eldredge's Bill Kearney, the second to H. H. Smith's very ordinary bay horse, and the third to Tom, perhaps the most valuable horse in the lot.

In the afternoon, for the Trot of 2:30 horses, Empress, Nellie Locke and Wm. Robinson's g g Prince John, came to the score. The Prince was a length or two behind when they were started, and made rather a poor show in the heat; but did much better afterward.

Nellie trotted the heat beautifully, but Empress broke and ran repeatedly, and made out to come in ahead—and as the judges (Messrs. H. H. Smith, Geo. H. Peirce and R. M. Perley,) decided to give the heat to Empress, Mr. Locke withdrew his mare at once from the race, much to the disappointment of the crowd, which consisted largely of our own citizens, and Nellie's special admirers. We thought Mr. Locke entitled to the heat, if not the race, for foul driving of Empress; but we have heard of such sharp practice by other people before, and it was hardly fair to the officers or the spectators, to remove their favorite horse, under the circumstances.

The time was not quick, of course, on that loose track—2:38, 2:44, and so. Pretty and game little Nellie having left the field, in excess of virtuous indignation of horse, owner and driver—Mr. Jones' Mountain Maid was put on, and the race was quite interesting, after all. Prince John trotted squarely and handsomely, and ought to have had the race, for Empress broke and run a good deal in every heat. She was given the first money, however, after four heats, John being given one by the judges, though Empress ran in ahead, as she did on the last also. Verily, fair play in drivers, enforced by impartial firmness in judges, is a jewel.

To amuse the crowd, an engagement was made with the owners of the steam buggy and velocipede, to drive them round the track; but the velocipede gave out before half round, and the hum-buggy did not appear.

For the Running purse, Mr. S. A. Haley's Nero, of Newmarket, and Mr. C. H. Hayes' family driving horse Rockingham, — one of Mr. French's blacks of North Hampton, and a bay pony, came on, and a close and exciting race was the result, between old Nero, a well known runner, and Mr. Hayes' horse, — which last surprised everybody by his speed, making the two half miles in 1:05 1-2, 1:07, and beating Nero handsomely. The other horses were soon distanced. Mr. Hayes then run his horse to make better than 2:10 a mile, and lost, Rockingham coming in in 2:22 1-2. He is very speedy for a quarter, and can trouble most common horses for half a mile, but a whole mile is a long distance to run, and it takes blood to do it, and condition.

For the Walking match, H. McDevitt's mare, C. H. Hayes' Rockingham, Albert C. Pickering's black gelding of Newington, and F. W. Miller's Jill, went round a half mile. McDevitt's mare trotted several times, Hayes' horse likewise preferred trotting, Mr. Pickering's came in last, but was called first and the winner, and Jill was pronounced an ambler by the judges, and given second money. This closed the third Fair of this Society, in good style, thanks to a good deal of hard work on the part of the managers—among them Dr. Parsons as Marshal, and his principal assistant Mr. John D. Cilley of Nottingham, who aided much to keep things prompt and square; also Mr. Joseph R. Holmes, who as Superintendent of the Grounds, had the uncommon good luck to satisfy and please everybody.

The Portsmouth Cornet Band furnished fine music, and plenty of it. Mr. Plummer D. Norton, in charge of the Hall display, rendered most efficient service; and Mr. Treasurer Jenness was always at his post. Of the members of the Society, not on the Board of the Fair, none did more than Mr. H. L. Scott, Superintendent of the City Farm; and Mr. C. A. Shannon's skill and good taste were evinced in the Portsmouth decorated Wagon, in which and elsewhere, Mr. John P. Sweetser also rendered efficient assistance.

Thus endeth the third lesson—of which we give the Premium record to-day, as correct as may be.

THE SMALL-POX. — In answer to a number of enquiries, we will say that the favorable account given last week of the state of this contagion in Portsmouth we had from what we considered the best of authority — the City Physician.—*Journal.*

THE PREMIUMS of the Piscataqua Fair will be paid at the Agricultural Store of Messrs. Mason & Seavey, where all bills due from the Fair are desired to be left.

☞ Mr. E. A. Joy's Juvenile Singing School commences on Wednesday afternoon next, at Mercantile Hall. A large class should be in attendance.

☞ The Furniture of Mr. J. H. Head is to be sold at Auction this morning, at his residence on State Street, near Washington, by Mr. Hackett.

☞ Mayor Putnam of Portland, and lady, spent Sunday with his brother, Paymaster Putnam, at the Rockingham House in this city.

☞ Master William Winder of this city has successfully passed examination as Cadet at the Naval Academy, Annapolis.

THE PETITION for an increase of the pay of laborers employed at the Yard, which was presented to the Commodore, and by him forwarded to Washington for approval, has been negatived by Sec. Robeson.

A new pleasure yacht was launched this week from the shop of John W. Neil, of New Castle. She is called "Homeopathy," and is a fast sailor, owned by Dr. Smart.

PERSONAL.—A venerable trio of brothers were seen on Monday, arm in arm, in one of the Boston malls, whose united ages amounted to two hundred and fifty-four years. They were John, Charles and Lewis Tappan.

FACTS FOR THE LADIES.—I have used my Wheeler & Wilson Sewing Machine over ten years without repairs, and without breaking a needle, although I commenced the use of it without any instruction. Have used it constantly for family sewing; have quilted whole quilts of the largest size, and it is still in complete order, runs like a top, and bids fair to be willed to those who come after me, with better powers of production than an unbroken prairie farm.

WITH DYSPEPTICS everything is wrong. Food does not digest; sleep does not refresh; wine does not cheer; smiles do not gladden; music does not charm, and the poor dyspeptic enter the breast of the miserable dyspeptic. You must get rid of it or it will become seated and confirmed, and life will be a burden and existence a curse. PLANTATION BITTERS will do away with all this. New life, strength and energy will take the possession of you. The damask will again bloom upon your cheek, and the lustre in your eye will again be as bright as in your healthiest, happiest and most joyous days.
MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

DENTISTRY.
DR. JOHN S. PERRY,
(*Late with Dr. E. B. Goodall,*)
Would respectfully give notice to the citizens of Portsmouth and vicinity, that he has
Opened New Dental Rooms
No. 27½ Congress Street,
UP ONE FLIGHT,—OVER FERGUSON & FRYE'S.
ARTIFICIAL TEETH
Inserted on GOLD, SILVER or RUBBER PLATES, Elastic or Spring Plate for partial sets. Also, Teeth filled with pure Gold and Silver in the most substantial manner, and perfect satisfaction guaranteed.
TEETH EXTRACTED POSITIVELY WITHOUT PAIN!
By the use of pure Ether.
He takes pleasure in referring his friends and the public to Dr. Adams Parry and Dr. E. B. Goodall, Dentist, Congress Street, for skill in administering Ether and extracting teeth.
All Operations in Dentistry performed in the most Approved Style,
And at the usual rates.
Dr. P. hopes by paying strict attention to business to share the patronage of the public.
OFFICE HOURS from 8 to 1 and 2 to 5, and every evening except Friday from 7 to 8 o'clock.
JOHN S. PERRY, No. 27½ Congress St. Residence, No. 8 High Street.

DENTAL NOTICE.
69 Congress Street, Portsmouth.
DR. GOODALL takes pleasure in announcing that he is meeting with great Success in HIS INVENTION of a SPRING PLATE for PARTIAL SETS OF TEETH. The Plate does NOT COVER THE ROOF OF THE MOUTH, is very small and light, has no clasps, in short, it does not *impede speech* or taste, and is altogether the most satisfactory method of Inserting Partial Dentures. Scores of references in this city, and patients from Boston, New York and Philadelphia have given their unqualified approval of this *useful invention.*
He has purchased a patent right for LOADING lower sets of teeth, thereby making them much more serviceable and comfortable, and they will remain in place, even when the ridge of the lower jaw is very flat.
He is using the Pack Ridge in upper sets with the most satisfactory results. He has also a new way of *repairing rubber work, just discovered,* which will require only one hour in the majority of cases, and the work will be warranted strong and neat.
He is also administering ETHER, and preparing the mouth for artificial teeth, nearly every day, and often three times a day, extracting from 1 to 10 teeth at one visit, with entire FREEDOM FROM PAIN, and with happy results. He has made this department of dentistry more particularly a specialty, and is confident his large and continued success will warrant him in promising, (with his present facilities and improvements in mounting artificial dentures,) all work at the shortest notice, and in the **Best and Most Approved Style of the Art.**
All operations in Dentistry performed at the usual rates, and payment is considered due as soon as the operation is completed, all work being warranted.
Relying with pleasure to the leading Physicians of Portsmouth and citizens generally.
E. B. GOODALL,
No. 69 Congress Street, Portsmouth.
Office Hours, 8 o'clock A. M. to 1 P. M.
" " 2 " P. M. to 5 P. M.

ONE OF THE MOST VALUABLE Building Lots in the City, and on one of the best streets. Containing over 6,000 feet of Land, within three minutes walk of Market Square.
au28 Apply at the Chronicle Office.

A PACIFIC RAILWAY
GOLD LOAN $6,500,000.
We beg leave to announce that we have accepted the agency of the
KANSAS PACIFIC RAILWAY COMPANY,
For the sale of its
NEW SEVEN PER CENT.
Thirty Year Gold Loan,
Free from Tax.
This Loan amounts to $6,500,000.
First Mortgage Land-Grant and Sinking Fund Bonds,
secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon the Road, the Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas.
And in successful operation for 437 miles
west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the
GOVERNMENT LAND GRANT OF THREE MILLION ACRES,
extending in alternate sections on either side of the track, from the 30th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as
A SINKING FUND FOR THE REDEMPTION OF THE BONDS.
The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of
Three Millions of Acres in the State of Kansas,
and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the
Value of the Company's property, covered by this mortgage at $23,000,000 net, while the Loan is merely $6,500,000.
The Bonds have
THIRTY YEARS TO RUN,
from May 1, 1869, and will pay
SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.
The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be
PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:
On $1,000 Bond in N. Y. $35 (gold) each half year.
" " London....£7 8s. 10. "
" " Frankfort..87 fl. 30 krtrs., "
The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a
FIRST CLASS INVESTMENT,
in every respect perfectly sure, and in some essential even
Better than Government Securities.
The Bonds will be sold for the present at
96, *and accrued Interest, both*
in Currency,
the Agents reserving the right to advance the rate.
The attention of investors is in vited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.
Gold and Government Securities taken in payment at their market value, without commission.
Pamphlets, with maps giving full information, sent on application.

BEAUTIFUL SEASIDE RESIDENCE
AT AUCTION.
FOR SALE—Situated in NEWCASTLE, N. H., two and a half miles by land and one and a half by water from Portsmouth. About 40 acres of LAND, excellent for Tillage and Pasturage, WOOD Land, and Orchards well stocked with FRUIT TREES.
A Large NEW HOUSE just built, and good Outbuildings. The location is one of the most Picturesque on the coast, and the place is capable of indefinite improvement, as a farm, or elegant Summer Residence for a gentleman of wealth.
There are several Wild and Beautiful SITES for Building, and the location is unsurpassed for a Seaside Hotel or Boarding House. The best opportunities for obtaining Seaweed, Salt Muck, &c. Also unsurpassed facilities for Boating in still water or open ocean, Fishing, Salt Bathing, &c.
The natural attractions of the place are very great, and the ocean and inland views cannot be excelled. The situation, while quiet and retired, is yet easily reached by land or water, and will well repay lovers of the picturesque for a visit.
☞ The above FARM, with the LIVE STOCK, (Yoke of Oxen, 2 Cows, &c.) CROPS, CARRIAGES, &c., will be sold at PUBLIC AUCTION
WEDNESDAY Oct. 3, at 12 o'clock, M.,
on the premises, if not previously disposed of at private sale.
For particulars apply to R. A. PREBLE, Newcastle, or to FRANK W. MILLER, of the Portsmouth Chronicle. sep7

Morning Chronicle.

Correspondence of Chronicle and Gazette.

BOSTON, Sept. 22.

The Boston Fair.—Yesterday was a damp, unpleasant day, suggestive of umbrella, and intensifying to positive rain at night. But as early as 11 o'clock the Fair was full enough for comfort. In the acre, more or less, there were indeed vacant places,—spots of little interest filled with handsomely-painted carriages or platform scales. A square yard of the crowded space of Bent, Goodenow & Co. had more worthy of study in it than is to be found in half of Section V.

Negatively there were some remarkable absences. Not a melodeon, organ or seraphine is to be seen. Not a washer, wringer, flour or coal-sifter of the previous Fair has returned. Of the coal-sifters there were then several. There is now one combined hod and sifter, useless for either. Greenough's coal-sifter has been invented since. The Union flour sifter and the Eureka wringer ought to be back. The bicycle too is absent in all its forms. Crandall's building blocks, also new, and among the very best of toys, are not there. There are no fruit jars.

The articles of luxury and the products of leisure are multiplied. The shoe department has grown wonderfully, occupying in Sections III and VII nearly a section. Two endless saws are bold undertakings. One is an inflexible circle to cut out parts of cylinders, as staves. It has no axle nor spokes, but is held in place by pairs of rollers, and driven by a band acting on part of its surface. The other, a slender saw, is itself a band passing over two drums. If it will only stand work, it must be supreme for scroll-sawing. There are four pegging-machines,—one of them drawing brass screw-pegs. The screw-wire is drawn four-square and then twisted. The biggest files in the world are, I should think, those made for Russian use by Earl, Smith & Co. of Sheffield. I borrowed a fine file from their store, 24 Fulton St., to count the teeth under the microscope. The rows were 180 to the inch, and as it was cut in two directions, there were 32,400 teeth in every square inch. It was cut by hand, of course, as no machine-cut files,—still less those etched by acids,—can compare with those of expert workmen who have cut files from childhood by their fathers' firesides in the "black country." This firm is said to make the best of steel, though some of older repute brings a considerably higher price.

The self-lighting gas-burner in the gallery of Section VI is a misnomer; the light is not quite cut off by a cock made to leak gas. But Batchelder's "electric drop-light" is actually lighted by electricity. The base is rubber electrophorous, and a silk-lined socket, holding the stem, serves at once as keeper and excitant. It must prove an admirable parlor ornament.

The number of spring beds is remarkable. There are spring slats, slats with springs under them, or on them, and in one case an ingenious snarl of springs, six feet by four. N. P. Batchelder, a Boston grocer, has a set that can be clasped to the slats of an ordinary bed more readily than mouse traps can be set; they are $1.50 per dozen, and there were four dozen of them on the specimen bed. The Fair blossoms out in cabinet bedsteads, some of which cost more than an Illinois barn. They are excellent for the poor! In the gallery of the rotunda are all the sewing and knitting machines, and an attempted improvement on the spinning wheel for wool, to be used sitting. It does not work. Glass is cut by the edge of a small revolving cylinder rolling along the glass at an angle of 45 degrees. Why?

A girl drives her sewing-machine by pushing herself away from her work and faling back to it by gravitation. This modification of the tread-mill is a bad remedy for a most terrible evil. No one knows how many poor women are used up for life by driving sewing-machines too steadily. The Ball treadle turns light machinery *one way only*, with either foot or both, adding to the momentum of the fly-wheel only, and not following the motions of a crank. It seems incredible that Frank Tripp of Milk Street can attach all that to your machine for $10. To a machine which is used daily for ten hours, it is worth a thousand. But our time is up.

Yours, I. F. HOLTON.

TEXAN POLITICS.—The Advertiser's Washington special says the cabinet agreed, at a late session, to sustain Gen. Reynolds, who is in command of the Texas department. It was determined to throw the whole weight of patronage against Hamilton, and there will be a sweeping change in office holders there at once.

New Hampshire Items.

Samuel Wilson of Windham expects to pick 400 bushels of peaches in the next few days, from his orchard of 600 trees.

Gen. Samuel A. Duncan, of New Hampshire, a First Assistant Examiner of the Patent Office at Washington, has been appointed a Principal Examiner.

Wells are giving out in Manchester.

Pittsfield has an 8 pound turnip.

Horace Huckins, of Centre Harbor, accidentally caught his right hand in a threshing machine on the 23d, and so badly injured it that it had to be taken off above the wrist. What is peculiarly sad in the case is, he had no left hand.

☞ Our Deerfield correspondent writes that the warm weather and showers have greatly benefitted the farmers; corn and potatoes will be much better than expected. The summer was remarkably healthy. There have been a few cases of dysentery, since the dry weather in September.

THE CHEAP PRESS OF LONDON.—A London correspondent writes: "A portion of the London press is in an unsettled state, and with singularly uncerta inprospects. It seems pretty well ascertained that evening papers are a failure. People object to buy them save at a low price, and advertisers have got it into their heads that it is a waste of money to go there with announcements. * * * * *

My opinion—given without any pretence of knowledge on the subject—is that every evening paper is carried on at this moment at a loss. The Echo is said to print 60,000; but of that number a large proportion must get back unsold, and the advertisements are necessarily limited.

THE DENT MOVEMENT.—Persons in official positions direct from Mississippi report the Dent movement as less vigorous than its originators expected. The ticket nominated bears the name of one of the most marked cases of *carpet-bagging* among the new politicians of the State and that of a negro who is really illiterate, and so the mouths of all speakers are entirely closed so far as concerns the use of the epithets carpet-bagger, scalawag, and negro heretofore used by Southern consesvatives. The Republicans now have strong hopes of carrying the State.

DIRTY CARS.—A clergyman who has been luxuriating in a velvet-cushioned arm chair in one of the elegant drawing room cars with refined and intelligent travellers, says most of our cars are too filthy for decent people to occupy, hardly one seat in five being fit for a lady to occupy on account of the Seevast-a-pools of tobacco juice which cover the floor.

—Stiggins, the new-married man, says his wife is a perfect rose. The only drawback to his happiness is, that she blows out a "leetle" often.

COMPETITION IS THE LIFE OF TRADE!

ELISHA TRIPP,

No. 9 Penhallow Street,

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the United States Patent Office, Washington, under the Act of 1837,

NO. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made use of rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration of the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Boston, Jan. 1, 1869.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE in all cases or no charges made.

DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Arrive at Manchester at 9:46 A. M., 7:05 P. M.
Arrive at Concord at 10:30 A. M. and 8:15 P. M.

Leave Concord at 7:30 A. M. and 3:30 P. M.
Arrive at Portsmouth at 10:12 A. M., 6:06 P. M.

All trains connect at New Market Junction with trains of the Boston & Maine Road for Exeter, Haverhill, Lawrence and Boston; and for Dover, Great Falls and Portland. At Concord with trains to and from all the upper Railroads.

J. R. KENDRICK, Supt.

FALL RIVER LINE

FOR New York, Philadelphia, Baltimore, Washington, and all principal points West, South and Southwest.

VIA TAUNTON FALL RIVER AND NEWPORT.

Cabin, $5.00; Deck, $4.00.

Baggage checked through and transferred in New York free of charge.

New York trains leave the Old Colony and Newport Railway Depot, corner of South and Kneeland Streets, daily, (Sundays excepted,) as follows: at 4.30 P. M., arriving in Newport 40 minutes in advance of the regular Steamboat Train, which leaves Boston at 5.30 P. M., connecting at Newport with the new and magnificent steamers PROVIDENCE, Capt. B. B. Simmons, and BRISTOL, Capt. Benj. Brayton. These steamers are the fastest and most reliable boats on the Sound, built expressly for speed, safety and comfort. This Line connects with all the Southern Boats and Railroad Lines from New York going West and South, and convenient to the California Steamers.

"To Shippers of Freight," this Line, with its new and extensive depot accommodations in Boston, and large pier in New York, (exclusively for the business of the Line,) is supplied with facilities for freight and passenger business which cannot be surpassed. Freight always taken at low rates, and forwarded with despatch.

New York Express Freight Train leaves Boston at 1.30 P. M.; goods arrive in New York next morning about 8 A. M. Freight leaving New York reaches Boston on the following day, at 9.45 A. M.

For tickets, berths and staterooms, apply at the Company's office at No. 3 Old State House, corner of Washington and State Streets, and at old Colony and Newport Railroad Depot, corner of South and Kneeland Streets, Boston.

☞ Sunday Night Line. ☜

Cars leave every Sunday evening, at 6.30 P. M., connecting as above.

The Office, 3 Old State House, Boston, will be open every Sunday afternoon from 2 to 6 o'clock, and at the Depot from 5 to 10 A. M., and from 5 to 6.30 P. M., for sale of tickets and staterooms.

Steamers leave New York daily, (Sundays included,) from Pier 28 North River, foot of Murray Street, at 5 P. M.

GEO. SHIVERICK, Passenger & Freight Agt. Boston, May 12, 1869.—d1y

JAMES FISK, JR., Managing Director Narragansett Steamship Co.

The Chronicle.

New Hampshire Items.

A little boy named Grafton, 3 years old, was killed in Meredith last week, by a wagon, in which he was riding with his parents, being overturned.

Colebrook has seven new starch factories and an iron foundry, just started.

Mr. Charles Slyfield of Keene was killed at Washington last week by a falling derrick.

Senator Cragin has received an earnest invitation to speak in Pennsylvania before the October election.

The mill of A. A. Cox of Enfield has sawed 1,000,000 feet of lumber, this season.

The Savings Bank of the County of Strafford, in the plentifulness of funds has declared an extra dividend of $75,000, payable to depositors the second Tuesday in October.

According to the Statesmen, "F. F." the Concord correspondent of the Journal, keeps the most luxurious bachelor's hall in Concord. The Nashua Telegraph says: "To make the thing equal, he should be compelled to sustain a small orphan asylum, an institution much needed by the State, and which, of course, should be located in Concord. Who but 'F. F.' should become a Friend to the Friendless?"

Mrs. Betsey S. Howard was the wife of a soldier killed in battle; her second husband was murdered at Claremont, and her third has recently died in Lebanon. As widow of her third husband she appeared at the trial of the murderer of her second.

The Band Convention will meet at Leominster this year.

The Boston & Maine R. R. Company have contracted for an iron bridge of the Moseley pattern over the river at Exeter.

Amongst patents recently granted was one to "Horace Thompson, Concord, for beef-steak crusher."

In thirty minutes Milton Page of Alexandria guzzled down seventy-four raw eggs.

Elisha Locke, of Barrington, is to be at the State Fair with his cottage on wheels. He is to go *via* Northwood and Suncook with ten pairs of oxen.

J. B. Ellinwood is about to arrange a fish-breeding farm in Manchester.

New Hampshire has more miles of railroad in proportion to her population than any other State in the Union—one mile to five hundred inhabitants.

John W. Hoyt, aged 74, said to be from New Hampshire, died on Monday in Bellevue Hospital, New York, having fallen from a stage.

A valuable cow, belonging to Charles S. Jones, Great Falls, got into a mud hole in the pasture and could not be removed. The animal was valued at $100.

The Battalion of Amoskeag Veterans, under command of Gen. Natt Head, visited Hooksett, Friday, where they spent the day in jollification.

Arthur Collins, 11 years of age, in attempting to cross the railroad track, Manchester, in front of the train coming from Portsmouth, slipped and fell so as to bring his hand under the rail, and was caught and run over by the wheels. Two fingers were cut off and the hand badly crushed.

The Mirror says that Mr. Ithiel W. Bryant, of Effingham, had corn, the growth of the present season, ground into meal, on the 30th day of August.

The basement wall of the new Catholic church at Dover contains 10,000 cubic feet of Durham granite, which was all quarried, hauled to the city and laid, in forty days.

Peter Follansbee of Manchester has an apple tree in full bloom. It was in bloom last spring.

A wildcat is roaming round the wood of Belmont and the borders of Sanbornton.

Luther F. Spofford, the Dover bigamist, has been sentenced to 90 days' imprisonment in jail and to pay the costs of trial.

Capt. S. C. Davis, of Newmarket, planted a grain of mustard in his garden on the 20th of last May. It has grown like Jack's bean stalk, the main stalk and its branches having attained a length of 115 feet.

Nashua has settled the suit which Mrs. Almon Wood brought against it, for injuries received on a defective bridge, by paying her $2,200.

PERRY DAVIS' PAIN KILLER, as an internal remedy has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, Dysentery, Asthma, it cures in one night, by taking internally, and bathing with it freely. It is the best liniment in America. Its action is like magic, when externally applied to bad sores, burns, scalds and sprains. For the sick headache and tooth ache, don't fail to try it. In short, it is a Pain Killer. 4ws7

DODD'S NERVINE AGAIN.
ANOTHER CERTIFICATE.
LEDYARD, CONN., April 3, 1869.
Accept thanks for calling my attention to DODD'S NERVINE AND INVIGORATOR. It has done me more good than any other medicine I ever took. I have gained twelve pounds in flesh, and am correspondingly better every way. It is an invaluable remedy.
8wau23 MRS. JOHN T. LEACH.

WHAT ARE
DR. J. WALKER'S CALIFORNIA Vinegar Bitters.
THEY ARE NOT A VILE FANCY DRINK Made of Poor Rum, Whiskey, Proof Spirits, and refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetisers" "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD-PURIFIER and LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell. $100 will be given for an incurable case, providing the bones are not destroyed by mineral poisons or other means, the vital organs wasted beyond the point of repair.
FOR INFLAMMATORY AND CHRONIC RHEUMATISM, AND GOUT, DYSPEPSIA, or INDIGESTION, BILLIOUS, REMITTENT, and INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS have been most successful. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.
These Bitters are not a gilded pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.
They are Alterative, Tonic, Diuretic, Sedative, Diaphoretic, and Gentle Purgative.
"The Life of all Flesh is the Blood thereof."—Purify the blood and the health of the whole system will follow.
R. H. McDONALD, J. WALKER, & CO., Proprietors,

AVERILL CHEMICAL PAINT!
THE RIGHT THING AT LAST!
BENJAMIN NORTON,
Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of
THE BEST PAINT!
ever offered in this city.
It is Durable, Beautiful, Water Proof, Elastic and Economical.
This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.
It is prepared in pure White and one hundred Different Shades, and is unsurpassed in all respects.
It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.
Many testimonials from those who have used it in other places of its superiority over other Paints might be given; but I will only invite those of this city and surrounding towns who intend using Paints, to call at the
GROCERY AND PROVISION STORE,
Nos. 16 & 18 Cabot Street,
which is the ONLY PLACE in the City where it has been used, and examine the Paint where it has been applied in ten or twelve different shades, and where they can choose any color they desire for use, outside or in, and buy from one pound upwards.
In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.
These Paints are manufactured in New York, and Newburgh, Ohio. BENJ. NORTON, Agent for Chemical Paint Company.
Also for sale, at the same place, the Best Quality of
MEATS AND GROCERIES!
AS LOW AS CAN BE BOUGHT IN THE CITY.

TRAFTON'S PATENT
GRAPPLE AND ANCHOR,
MANUFACTURED BY
Trafton Brothers, Blacksmiths.
SHIP WORK, EDGE TOOLS AND JOBBING
No. 112 Market St.....Portsmouth.

"Ingenio Stat Sine Morte Decus."
ROCKY MOUNTAIN BITTERS
IS a very superior Regulating Tonic, imparting vigor and strength to the constitution—a thoro'
PURIFIER OF THE BLOOD,
a regulator of nervous force, and a powerful sustainer of health against the encroachments of disease.
The invalid and convalescing seeking restoration, and yearning for the healing virtues of some magic balm, will find in these Bitters a hidden mysterious power, which QUIETLY RESTORES, yet resolves to reveal to the senses anything but taste and color.
It is a pleasant Bitter, free from all nauseous properties odor, entirely vegetable, being mainly grown at the base of the mountains from which they derive their name, and is particularly adapted to all forms of
DYSPEPSIA OR INDIGESTION,
manifesting themselves by the following symptoms: headache, nervousness, loss of memory, low spirits, giddiness, dimness of sight, dullness of hearing, and ringing noises in the ears, eructations, of belching of wind, tightness of breathing, weight and oppression of the chest, uneasy feeling about the heart, palpitation, &c.
Also for Liver Diseases, Disorders of the Kidneys, Restlessness and loss of Muscular Power these Bitters will be found almost a specific; as a preventative of
FEVER AND AGUE,
or a restorer of the natural powers of the system, when broken down by continued ague attacks; it has no equal.
Being stimulating, (but not intoxicating), they refresh and invigorate both mind and body, heighten the sensibility, clear and sharpen the faculties, and bestow alacrity and cheerfulness of spirit.
CAUTION.—There have been, and still are several parties manufacturing and selling so-called "Langley's Bitters," many of which are worthless. As a guide against such, I would say that in 1866, I secured my copy-right, in the United States Court, a trade mark and name, "Rocky Mountain Bitters," and all Bitters of my manufacture are put up in *dark, long neck, quart bottles* with red label printed with gold; also, direction label, bearing my seal and directions printed in red, with a red cap and my seal printed in gold, over the cork. Beware of all others, and ask for
"Rocky Mountain Bitters."

The Daily Chronicle.

Portsmouth, N. H.

TUESDAY, SEPT. 28, 1869.

The News.

A new line of telegraph cable, to be laid between Ireland and Nova Scotia, is projected.

At a special meeting of the Chamber of Commerce of San Francisco on Friday, resolutions favoring the postal telegraph system and requesting the State Congressional delegation to adopt the same, were adopted.

Harvards 39, Lowells 16.

Bonner denies that Dexter will trot against Lady Thorne.

The remainder of the Harvard crew have returned from Europe.

Minnesota has suffered from heavy rain storms. It is said that 5,000,000 bushels of wheat and two-thirds of the hay-crop are ruined.

Mr. Lorillard, owner of the American yacht Meteor, has challenged the English yachts to an ocean race for five thousand dollars.

Immense amounts of specie have been forwarded during the past week from Europe to New York.

The Secretary of the Treasury has authorized the sub-treasurer in New York to sell one million dollars in gold each Tuesday and Friday until November first.

A defalcation of $25,000 has been discovered in the accounts of the cashier of the National Exchange Bank of Providence.

The ice in the Northern Pacific has been heavy this year. The whaling season has not been very successful.

The U. S. Supreme Court will meet at Washington, next week.

Exciting disturbances are occurring in Spain, and a counter revolution by the Republicans is feared. At Barcelona, a cartmen's barricade was assaulted by the regular troops, and carried by a bayonet charge after a very desperate resistance on the part of its defenders, and a heavy loss of life. During the engagement the insurgents had 24 killed, a large number wounded and 70 of their more active brethren made prisoners. The troops had two commissioned officers killed and several soldiers wounded.

The New York brokers are busily engaged in counting their gains and losses by the late "bull" movement. The Gold Exchange Bank gives the following names of the dealers omitted from the clearing; Zerega & Graves; Galway, Hunter & Co.; P. H. Williams, Jr. & Co.; James Brown & Co.; Dornian & Bocock; Chase, McClure & Co.; William P. Belden & Co.; Albert Speyers; Charles W. Keep & Co. Money is exceedingly stringent in New York at 7 per cent. per day.

Several more war vessels are to be added to the American squadron in Cuban waters.

The time of the election in Mississippi has been extended one day. It will commence on Tuesday, November 30, and end on Wednesday, December 1.

Chas. E. Hall, the arctic explorer has arrived at New Bedford, with his party. He brought as among the results of his five years' residence in the Arctic regions the most interesting intelligence in regard to the death of Sir John Franklin and his companions, and conclusive proof that none of them ever reached Montreal Island. He saw the natives who were the last to look upon Crozier and his party, and brings with him the remains of a young man who belonged to that ill-fated band of explorers, with various relics of the expedition. Mr. Hall is by no means tired of exploration, and purposes next spring to start anew and push his journeying to the north pole.

The Cincinnati Red Stockings have astonished the Eagles of San Francisco at base ball—35 to 4.

Hon. Daniel Sawyer died at Alton Corner, on the 13th inst. He was a member of the Executive Council during the last year of Gov. Goodwin's administration, and the first of Gov. Berry's. He was 67 years of age.

There is a tomato vine in the nursery of the Messrs. Shaw in Sanbornton, that is now over two years old. It is six feet high and the stalk is two inches in diameter and hard as any wood. It is near four feet to the first limb. The branches are laden with fruit.

Mr. John Plumer, a prominent merchant of Manchester, principal proprietor of Barrett's Hair Restorative, died in the McLean Asylum, at Somerville, Mass., on the 17th. Anxiety about his business affairs had made him insane. His life was insured for $19,000.

Many new buildings have been erected in Laconia this season.

Mr. Lewis Allard, who belongs in Eaton, had one of his hands sawed nearly off Thursday afternoon, while at work at the shop of Mr. Jeremiah Hodge, in Manchester.

WILL IT ADVANCE THE TEMPERANCE CAUSE?—In a few weeks the people of this State will be called upon to record their votes on the question as to whether a State Constabulary shall be established in New Hampshire, to be charged specially with the enforcement of State laws which may not be enforced by local officials. This question particularly affects the Temperance cause, as it is certain that the so-called prohibitory law is more generally defied, evaded or ignored, than any other; and the principal inducement for temperance men to vote for State constables is, that they will do the duty which is not done by many town and city officers, in enforcing the law for the promotion of Temperance.

I make no question as to the State's right to enforce the State's laws; I have lived for some years where State officers enforced not only State but Municipal laws, instead of municipal officers being trusted to for the execution of State laws,—and am satisfied of the vast superiority of a police appointed and controlled by a central power over those appointed by local authorities. I am a strict Temperance man, and an advocate of Prohibition; and as a friend of Temperance, I intend to vote against the Constabulary law. I am open to conviction, however, and if the question at the head of this article can be satisfactorily answered in the affirmative, I have plenty of time yet to reconsider my resolution.

In Australia and New Zealand there is no such thing as a city police. All officers are appointed and paid by the Colony or Province, (corresponding nearly enough to our State,) and their duty is to enforce all laws, local and general, no matter whether they please everybody or not. And they *do* effectually carry out laws far more distasteful in some places there than even a prohibitory liquor law is here,—and which no local force would attempt to execute. Popularity has nothing to do with an officer's standing in the force; zeal and efficiency are the qualifications required, and if he has not these he is soon weeded out, and a better man put in his place. And a great advantage of the system is, that an officer in one part of the State is equally an officer in any other part, which enables those having charge of the peace to quickly concentrate a powerful body of tried and disciplined policemen, accoustomed to act in concert, at any point where they may be needed, without any additional expense or increase of the total police force,—instead of having to swear in, for special occasions, special constables who may be worse than those they are set to watch, and at the best are but poor substitutes for the regular article, —and for whom somebody has to pay roundly. A municipal policeman, if he should attempt to enforce a State law of which the municipal authorities did not approve, would soon be abolished; he must be popular or not be a policeman. A State constable has but to do his whole duty, and he is sure of commendation and advancement; this is the case at least in the two countries I have named. There can be no possible question as to which of the two is most likely to be active and efficient in enforcing *all* laws.

Were the question involved the expediency or wisdom of having all local police done away with, and a force organized to execute all laws, municipal as well as State, such force to be controlled by the State authorities and paid from the State treasury, I should advocate and vote for it. But no such arrangement is contemplated. The enforcement of a law in itself defective, and opposed by a large class of people, is the point aimed at; and in face of the opposition of many Republicans, and of the Democratic party as a unit, the Temperance party is not strong enough to disregard the odium which the creation of an official body especially to enforce the prohibitory law would bring upon the Temperance cause. Instead of advancing that cause, the effect of creating a State Constabulary without it being demonstrated that local officers will not enforce a real prohibitory law, —the present one being merely an imitation,—would almost certainly be similar to that of the Hichborn movement in Maine, — would serve merely as a Democratic masked battery, to thin the Republican ranks.

The Temperance men are nearly all in the Republican party; and acting in that party is at present their only chance of effecting anything politically. Whatever tends to disintegrate that party and strengthen the opposition is a hindrance to the progress of Temperance; and that pressing this question is expected to have such an effect was evident enough from the earnest endeavors of the Democrats in the Legislature to have it considered at the March election instead of in November. Let every friend of Temperance, before voting for a State Constabulary, consider well whether by so doing he may not assist in restoring to power a party which has always demanded that all fluids—excepting human blood—should be free. PAKEHA.

☞ There can scarcely be reason to expect we shall have a through Pacific Railway, a road that will run every day in the year and be free from the dangers of snow and storm, until we have built it through New Mexico and Arizona, along the 35th parallel. The Great Trunk line between San Francisco and New York must, it seems to us, be in this warm country, for here snow rarely falls, and the local wealth of the region will guarantee to the road an immense trade. This is the old Aztec country; here the Spaniards found gold and silver long before the English settled on the Atlantic coast; here are remnants of that singular civilization which built towns and fashioned cunning instruments of domestic and warlike service, long before Columbus saw the American continent.

It seems a singular demonstration of the growth of our civilization that this country, which has been abandoned by Spanish trepidity and Indian violence to silence and decay, should be reopened by an energetic Company of Saxon road builders. For this reason we look upon the enterprise of the Kansas Pacific Railway, set forth in another column, as one of material importance. The Kansas road runs through one of the richest parts of the American continent. Ten years ago the plains upon which it is built were abandoned to the Indian and buffalo; now they are settled by a hardy population, and clusters of thriving towns.

The loan is to be six and a half millions of dollars; it is offered by M. K. Jesup & Co. and Dabney, Morgan & Co., two of the best houses in New York; pays 7 per cent, in gold, free of taxes, has 30 years to run, and is secured by a first mortgage upon the extension of the Kansas Pacific road to Denver, and a second mortgage upon the rolling stock and franchise of the whole road, together with 3,000,000 of acres of land in Kansas which are being sold for its development, and 3,000,000 of acres in Colorado and Kansas, which are set apart as a sinking fund for the payment of the principal.

At a time when Government securities are selling so high, it would be well for those holding them to look into this new 7 per cent. gold loan, and see whether it would not be a matter of economy to take advantage of the security which these bankers offer.

New Hampshire Items.

Mr. John A. King, of Jefferson, set a graft of the Green Gage plum in May, 1869, which has borne four quarts of plums this year.

A musical convention was held in Lancaster, Sept. 14th—17th. It is said to have been very successful.

The old burying ground at Lancaster, having been used for a century, has become so fully occupied by interments that new grounds are considered necessary. The citizens held a town meeting on the 18th and voted to purchase a tract of land, of nineteen acres, for $2,600. The tract will be divided into sixteen hundred lots, each large enough for eight interments.

Henry Ide, of Hinsdale, after living eighty-four years with two arms, has had to have one arm amputated on account of a cancer.

A large number of new buildings have been erected in Laconia and vicinity this season.

Mr. Robert B. Neal, of Manchester, while gathering grapes Friday morning, fell and broke his left arm below the elbow.

Robinson Female Seminary, at Exeter, begins with two hundred and sixty-five pupils.

BUSINESS NOTICES.

ONLY THREE WEEKS LONGER to treat all Cutaneous Diseases of the Head, falling, loss and prematurely grey hair, with special prescriptions, at No. 7 West street, room 3, by Dr. B. C. PERRY, the well-known skillful Dermatologist of New York and Boston. No charge for consultation. Send for an interrogatory circular. Don't forget the number. The Doctor will close his office in Boston Saturday, October 16th.

UNNATURAL REDNESS OF THE NOSE, pimply faces and black worms (or grubs) are cured by Dr. B. C. PERRY, Dermatologist, at his Boston office, No. 7 West St. room 3.

MOLES AND WENS are cured by Dr. B. C. PERRY, without cutting, pain or scars, at his Boston office, No. 7 West street. Don't forget the number. No charge for consultation.

For all Neuralgic affections Turner's Pill is offered as a certain and speedy cure. See Notice.

FACTS FOR THE LADIES.—I have used my Wheeler & Wilson Sewing Machine over ten years without repairs, and without breaking a needle, although I commenced the use of it without any instruction. Have used it constantly for family sewing; have quilted whole quilts of the largest size, and it is still in complete order, runs like a top, and bids fair to be willed to those who come after me, with better powers of production than an unbroken prairie farm.

Whitewater, Wis. MRS. H. E. G. ABBY.

☞ A great public convenience—the new employee of the Eastern Railroad at the Depot in Boston, whose business it is to "answer all questions concerning trains and baggage."

—Money is so scare in Minnesota that traders and banks are issuing shinplasters.

SPECIAL NOTICES.

Keep the Body in Good Repair.

It is much easier to keep the system in good condition than restore it to that condition when shattered by disease. The "House of Life," like other houses, should be promptly propped up and sustained whenever it shows any sign of giving way. The first symptom of physical debility should be taken as a hint that a stimulant is required. The next question, "What shall the stimulant be?"

A wholesome vegetable tonic, the stimulating properties of which are modified by the juices and extracts of anti-febrile and laxative roots and herbs,—something which will regulate, soothe and purify, as well as invigorate,—is the medicine required by the debilitated. There are many preparations which are claimed to be of this character, but HOSTETTER'S STOMACH BITTERS, the great vegetable preventive and restorative that has won by its way to the confidence of the public and the medical profession by a quarter of a century of unvarying success, stands pre-eminent among them all. To expatiate on its popularity would be to repeat a twice-told tale. It is only necessary to consult the records of the United States Revenue Department to learn that its consumption is greater than that of any other proprietary remedy of either native or foreign origin. As a means of sustaining the health and strength under the fiery temperature, this BITTERS have a paramount claim to consideration. It has the effect of fortifying and bracing the nervous and muscular systems against the ordinary consequences of sudden and violent changes of temperature, and is therefore peculiarly useful at this season, when hot sunshine by day, and ice-cold dews by night, alternately heat and chill the blood of those who are exposed to them.

HOSTETTER'S STOMACH BITTERS are sold in bottles only. To avoid being imposed upon by forfeiters, see that the name of the article is on the label, and embossed on the glass of the bottle and our revenue stamp over the cork.

Batchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. Sold by all Druggists and Perfumers, and properly applied at the Wig Factory 6 Bond Street, New York.

Ellis' Iron Bitters

Will enrich the blood and prevent it from becoming watery and weak, give a healthy complexion, restore the appetite, invigorate the system, and are very palatable. These Bitters are recommended to all persons requiring a safe and valuable tonic, to impart tone and strength to the system, not given by Bitters merely stimulant in their effects; which, although they may possess tonic vegetable properties, cannot give the strength to the blood which the *Iron Bitters* will give.

Prepared by Wm. Ellis, Chemist. For sale in Portsmouth by WILLIAM R. PRESTON; by Weeks & Potter, Wholesale Agents, 170 Washington Street, Boston; and by Druggists and Grocers generally. mh28ne6md

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Testimony will be found in a pamphlet, which can be had of the agents where the medicine is for sale. d25

☞ PERRY DAVIS & SON, Providence, R.I., general wholesale Agents for the Eastern States.

TO OWNERS OF HORSES AND CATTLE.

TOBIAS' DERBY CONDITION POWDERS are warranted superior to any others, or no pay, for the cure of Distemper, Worms, Bots, Coughs, Hide-bound, Colds, &c., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Horn Distemper, &c., in Cattle. They are perfectly safe and innocent: no need of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs; also increase the milk of cows. Try them and you will never be without them. The late Hiram Woodruff, celebrated trainer of trotting horses, used them for years. Col. Phila. P. Bush, of the Jerome Race Course, Fordham, N. Y., would not use them until he was told of what they are composed, since which he is never without them. He has over twenty running horses in his charge, and for the last three years has used no other medicine for them. He has kindly permitted me to refer any one to him. Over 1,000 other testimonials can be seen at the Depot.

Sold by Druggists and Saddlers. Price 25 cents per box. Depot, 10 Park Place, New York. auis

PAIN KILLER.

MANHATTAN, Kansas, April 17, 1866.

MESSRS. PERRY DAVIS & SON:

Gentlemen:—* * * I want to say a little more about the Pain Killer. I consider it a very valuable medicine, and always keep it on hand. I have traveled a good deal since I have been in Kansas, and never without taking it with me in my practice I used it freely for the Asiatic Cholera in 1849, and with better success than with any other medicine. I also used it here for Cholera in 1855, with the same good results.

A. HUNTING, M. D.

* * * "I regret to say that the Cholera has prevailed here of late to a fearful extent. For the last three weeks, from ten to fifty or sixty fatal cases each day have been reported. I should add that the Pain Killer sent recently from Mission House, has been used with considerable success during this epidemic. If taken in season, it is generally effectual in checking the disease.

Rev. CHAS. HARDING, Shoalapore, India." au20

The President Declares War

Against all impositions upon the people, and Science, following the glorious example, is out

AGAINST THE POISONERS

who sell sugar of lead hair dyes, that not only ruin the hair, but paralyze the system. Impostors

WHO DESTROY THE UNWARY

should be put down by law. In the meantime,

SPECIAL NOTICES.

CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS for Diseases of the Liver, or to act as a gentle Purgative.

All of these three medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills assist in regulating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These medicines are conscientiously offered to the public as the only safe, certain and reliable remedies for Pulmonary Consumption, and for all those morbid conditions of the Liver which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long probation before the public. Its sale has been through a period of more than thirty-five years, in all of which time its reputation has constantly increased, and the most obstinate skeptics can no longer doubt that it is a remedy which may be used with confidence in all cases which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, he will certainly be cured, if his lungs are not too much wasted to make a cure possible. Many who are supposed to be incurable, when friends and physicians have despaired, the use of the medicine has saved the life of the patient, and restored him to perfect health.

Dr. Schenck himself was cured in precisely such circumstances, and many others have been equally fortunate by judiciously making a timely use of Dr. Schenck's remedies.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he emphatically asserts, that often when patients have the most alarming symptoms, such as a violent cough, creeping chills, night sweats, and general debility, even to such a degree that they are obliged to lie in bed, and when they are given up by their physicians, they may still be cured. No medical treatment can create new lungs, but when the lungs are very badly diseased, and to some extent destroyed, a cure may be effected by Dr. Schenck's medicines.

Also in Scrofulous diseases these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores, and now all healed up. This shows its purifying properties, which must be done to heal cavities in the lungs.

In the treatment of Consumption, it is of the utmost importance to give vigor and a healthy tone in the system. Hence it is necessary to strengthen the appetite, to aid digestion and improve the digestion. Proper nourishment is required, together with such means as will make the food easily digestible. The articles most suitable for the diet of consumptive patients are designated in Dr. Schenck's Almanacs, which are distributed gratuitously. In general, the most nutritious articles are to be preferred, but the digestive organs must be strengthened in order to make either food or medicine serviceable. This requirement is met by the Sea Weed Tonic, and for this purpose it was designed.

When the digestive powers are put in good order, the food has its proper effect, the strength of the patient is invigorated, and the lungs begin to exercise their functions in a normal and healthy manner. Then the healing properties of the Pulmonic Syrup will complete the cure.

Pulmonary Consumption is almost always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills are intended to remove obstructions from the liver and restore its healthy action. They have all the efficacy which is ascribed to mercury or "blue mass," but are warranted not to contain a particle of any mineral poison. These pills cure the the most obstinate costiveness, sick headache, jaundice, bilious affections, and all other diseases which arise from a torpid or obstructed condition of the liver. One box of these pills will prove the efficacy of the medicine.

In Consumption, the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines. They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. They have been found useful in advanced stages of Consumption, when the lungs were almost entirely destroyed, and all symptoms, according to the judgement of physicians, indicated speedy death. Lives of patients who were actually in a dying condition have been preserved for months by the use of Schenck's three great remedies.

DR. SCHENCK'S Almanac, containing a full treatise on the various forms of disease, his mode of treatment and general directions how to use his medicines, can be had gratis of any druggist, or by addressing his Principal Office, No. 15 North Sixth Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggist and dealers.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excipient is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to public notice, and not a single failure was recorded in the long round of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge**, will ever again take a purgative powder, or drink a bitter cup.

Wholesale agent, John F. Henry, No. 8 College Place, New York City.

PECULIAR ADAPTABILITY.

Brandreth's Pills.

Their peculiar adaptability to all constitutions as cleansers of the bowels and the blood has established their great merit. They restore the liver, the spleen and even the heart to healthy action when cancer remedies have been used without producing any benefit. They do not expose those who use them to any danger, being as safe as salutary.

Extract from Letter to Dr. Brandreth, from C. J. Fay, Esq., P. M., Hammonton, N. J.

"In 1838 I was in poor health, and my friends as well as myself supposed that my earthly voyage would soon terminate. But after taking one box of Brandreth's Pills, I began to feel better. Well, sir, when I had used up twelve boxes I was a well, healthy man—my weight having gone from 131 pounds up to 152 pounds. I then ordered a supply, and between that time and the present I have retailed three thousand dollars' worth of these invaluable pills, and am quite sure that I have thereby been instrumental in saving thousands of lives.

Yours, truly, C. J. FAY, P. M."

Sold by all Druggists. Observe my name in white letters in the government stamp.

au20 B. BRANDRETH.

Holloway's Pills.—More than two-thirds of the sickness which occurs in the summer proceeds from a disordered condition of the liver. Persons of a bilious habit suffer most in warm weather. They are languid, low spirited troubled with pain in the side, head-ache, and a constant feeling of weariness. The immediate and certain remedy for these symptoms, and all others proceeding from biliousness, is HOLLOWAY'S PILLS. Of all anti-bilious medicines they are safest, surest and best. Sold by all Druggists. s6

CANCERS AND HUMORS!

DR. J. W. CHANNING,

THE GREAT CANCER & HUMOR DOCTOR, of New Bedford,

Has arrived at Portsmouth, and taken Rooms at the FRANKLIN HOUSE, where he will remain until September 22.

Dr. C. gives particular attention to the cure of CANCERS, Swelled Neck, and Piles in all forms, Catarrh, Mouslin in the Throat, Asthma, Liver Complaints, which he cures without pain and without the use of the knife.

Do not say that you cannot get any relief until you have tried his Medicines, which will remove all Humors such as Cancers, White Swelling Affections, Erysipelas Salt Rheum, Inflammatory, Chronic, Mercurial, and Syphilistic Rheumatism, Fever Sores, Oil and stubborn Ulcers and Sores of all kinds cured, whatever may be the cause that produced them.

Dr. C. will give examinations free on all diseases. Invalids of both sexes are respectfully invited to call and consult the Doctor. s16

MUSIC, AND OIL LANDSCAPE PAINTING.

THE SUBSCRIBER continues to give lessons on the PIANO and in SINGING. Also, in Oil Painting, at his Studio, over the Book Store of J. H. HEAD, opposite the Post Office. THOMAS P. MOSES.

IRON MANDRAKE SYRUP.

FREEMAN'S

FREEMAN'S

FREEMAN'S

IRON MANDRAKE SYRUP

IRON MANDRAKE SYRUP

IRON MANDRAKE SYRUP

Is an excellent combination of IRON with MANDRAKE and vegetable tonic.

The Mandrake acts on the Liver and prevents the bracing effects which Iron has on many other preparations; while the vegetable tonic strengthens the stomach, and promotes Digestion of Food and facilitates the absorption of Iron into the blood.

MANDRAKE

MANDRAKE

MANDRAKE

Is the great vegetable substitute for Calomel to act on the Liver.

In Freeman's Mandrake Syrup it is combined with Iron and Vegetable Tonics, and forms the most perfect Spring Medicine.

It purifies the blood and imparts IRON to it.

It acts on the Liver and removes foul humors from the body. It is a most excellent remedy for debility, especially for mothers who are worn down by nursing infants, and for all persons whose blood is pure, and who need iron and a strengthening medicine.

New Advertisements to-day.

Dry Goods—L. Blumauer & Co.
Flower Pots—Lafayette Laighton.
Life Insurance—Agents Wanted.
Nice Piano For Sale—F. W. Miller.]
5 Horses For Sale—Wm. Plaisted.

☞ A gentleman living on State St., having lost his crop of Pears by robbery of the trees, for three or four years—last Spring had them all removed from his garden, to that of a friend in a less exposed situation.

☞ The Sale of Mr. Head's Furniture, at his house on State Street, was postponed from Monday on account of the storm, and will take place this (Tuesday) morning at 10 o'clock—affording a good chance to purchase nice articles at a low price.

☞ A drenching southerly rain storm increased the supply of water in this vicinity, Sunday night, just at the time when it was greatly needed. The weather on Monday was cold and clear. At sunset the thermometer went down to 47, and there was a billiant auroral display afterwards.

☞ Steamer Katahdin, Rich, of Bangor, which arrived at Boston, 25th, reports at 8 A. M., 24th, ran into and sunk schooner Betsey Ames, of Portsmouth, bound east; thick fog at the time. A boy of six years, son of the mate of the schooner, asleep at the time of the disaster, went down with the vessel. The Ames was not insured and was owned by Jas. Dodge, John E. Rider and others.

☞ The Eastern Railroad Company have purchased of Mr. Benj. Cheever *et als* all the land between their property and the North mill pond, and are contemplating many improvements to their property.

It is also reported that the Company have purchased the cess-pool at the Creek and will fill it up—thus settling the vexed question of liability.

☞ Messrs. G. B. & S. W. Came of this city are constantly turning out some of the handsomest buggies made in the country. On Monday they exhibited five in front of the Post Office, and they were enthusiastically praised by the spectators. These carriages go to the State Fair, for exhibition, and we venture to assert that no vehicles will be entered there that can excel in elegance or workmanship those of the Came Brothers. The little double wagon is for the ponies at the Sagamore House.

☞ Mr. Lowell Jenness of this city, was much interested in the Fair, and the contributions of himself and his tasteful wife were very beautiful, chiefly cut flowers. He shew a plate of Hartford Prolific Grapes, of superior quality, taken from a very small rooted cutting, set in his garden on Anthony Street two years ago last May, (1867,) which vine is now 18 feet long, and bore and well ripened this year 95 bunches of grapes. While the family were absent at the Fair, a few hours Friday afternoon, some mean thief entered his garden and stripped the vine of all within his (or her) reach, carrying off a peck or so probably. Not much encouragement to raise fruit, this sort of result.

PORTSMOUTH SAVINGS BANK.—At the meeting of this corporation on Wednesday last, Jonathan M. Tredick was elected President, and Jas. F. Shores Jr. Treasurer, in place of Messrs. Shackford and Lord, resigned. J. M. Tredick, Geo. Tompson and C. H. Mendum were elected Directors, to fill vacancies occasioned by the decease of Capt. N. G. Weeks and the resignation of Jona. Morrison, and Dr. R. O. Treadwell. The following resolutions were passed, and voted to be published in the Journal and Chronicle.

Whereas, William M. Shackford who has been for 25 years President of this Savings Bank, and Samuel Lord who for 46 years has filled the office of Treasurer thereof, have positively declined a re-election to those offices, therefore

Resolved, that the thanks of this Corporation be presented to those gentlemen, for their long and faithful services and for the unwearied and watchful solicitude with which they have cared for the interest of the depositors.

Resolved, that in the present most gratifying condition of the Bank we recognize the result of the eminent financial skill with which they have conducted all its operations during the various stages of its growth—and that we regard the maxims which have ever regulated their conduct as a most valuable contribution towards the future management of the institution.

☞ Mr. Jefferson's recent engagement at Booth's New York Theatre netted the management $25,000, after paying actors, advertising and all incidental expenses. Mr. Jefferson himself received $27,000 for the seven weeks, he having been paid at the rate of $500 a night, and one-half the gross receipts of the matinee performances.

☞ "If you do, you wish you hadn't; if you don't, you wish you had." True enough, this is often the case, if people allow themselves to be so wavering, undecided and foolish. Last Wednesday, when the face of the sky promised rain,—the Piscataqua Fair was put over for a day; and although the wet did not come quite so soon as expected, yet it did arrive in time to indicate the decision of the managers, and drench the few who would go to the Fair, weather or no. And as the following days were beautiful, probably the Fair suffered no detriment. Be that as it may, the decision to postpone was made much against our wish, (though we finally consented to it,) solely by advice of the efficient Secretary of the Fair and the usually sagacious President of the Society—and even if they did make a mistake, we do not see in that, a reason for their abuse by the Opposition organ, which has evidently been barking up the wrong tree.

Now per contra, the Claremont Eagle says of their Fair, the same day:

Wednesday morning, the day set for the Fair, opened dull and cloudy, There was something said of a postponement, but the weather was not sufficiently pronounced to warrant that step, so the ceremonies went on. The Band and Marshals were early on hand, district teams we did not see, though there were plenty of them—at home. The sky looked so threatening that many of our friends were constrained to stay at home, and numerous handsome specimens of fruit and vegetables, dairy products, &c., were lost to the show. * * *

On the Fair Ground—the show was sadly interrupted by the rain. * * * After noon the rain began to pour down so vigorously as to make postponement of the races absolutely necessary, and it was accordingly done.

☞ The New Hampshire State Fair commences at Manchester, to-day, and continues through Friday. The entries of horses to compete for the citizens' purses, were closed Saturday evening. Thirty-seven entries were made. Nellie Locke and Empress are not included. It would seem to be a pity that the best horse in the State should not appear at the State Fair, but the 2:30 purse being changed to 2:32, left Nellie no chance.

On Tuesday, John Bedel, of Littleton, had two fingers of his left hand taken off, and another, with the thumb partially, while at work with a clapboard machine in McIntire's mill.

☞ The Supreme Judicial Court, at Nashua, closed its session on Tuesday. The following persons were sentenced to the State Prison, in addition to those previously sent during the term: Charles Brown, arraigned for theft, retracted his plea of not guilty, and was sent to State Prison for three years. Amos Smith retracted plea, and was sentenced to two years in State Prison, Amasa Allen was sentenced to three years in State Prison.

An order of the "Daughters of St. Crispin" was formed in Dover, last week.

William W. Shaw, a shoe freighter of Pittsfield, was last seen in Lynn, Mass., on the 16th inst. He had $500 in his possession, the result of his collection in Lynn, for work returned to the shoe manufacturers, and it is feared that he has been foully dealt with.

Dover is reported to have 114 places where liquor is sold.

SPEER'S SAMBUCI WINE.

CATAWBA, PORT, GRAPE and P. J. SHERRY.
The above Wines are made by Mr. Speer, whose reputation as a wine grower stands pre-eminent. They are well established, and long known by the Medical Profession as the most reliable and valuable wines to be had.
Every family at this season should use
SPEER'S SAMBUCI WINE,
celebrated in Spain and Portugal for its beneficial qualities, highly esteemed by eminent physicians, used in European and American Hospitals and by the first families in Europe and America.
Excellent for weak and debilitated persons, the aged and infirm, improving the appetite and benefitting the ladies and children.
AS A DIURETIC
it imparts a healthy action to the Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic affections. Also,
SPEER'S PORT GRAPE WINE
is pure juice of the Oporto Grape, recommended by Physicians as possessing medical properties superior to California or Imported Wines.
SPEER'S STANDARD WINE BITTERS
The Best and Most Reliable Tonic and Bitters in the market, which is always the CHEAPEST.
☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

ALFRED STAVERS, No. 12 Market St.

RISING SUN Stove Polish For sale by E. A. STEVENS.

A PACIFIC RAILWAY
GOLD LOAN $6,500,000.
We beg leave to announce that we have accepted the agency of the
KANSAS PACIFIC RAILWAY COMPANY,
For the sale of its
NEW SEVEN PER CENT.
Thirty Year Gold Loan,
Free from Tax.
This Loan amounts to $6,500,000.
First Mortgage Land-Grant and Sinking Fund Bonds,
secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 337 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon the Road, the Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,
And in successful operation for 437 miles
west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the
GOVERNMENT LAND GRANT OF THREE MILLION ACRES,
extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as A SINKING FUND FOR THE REDEMPTION OF THE BONDS.
The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of
Three Millions of Acres in the State of Kansas,
and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the
Value of the Company's property, covered by this mortgage at $23,000,000 net, while the Loan is merely $6,500,000.
The Bonds have
THIRTY YEARS TO RUN,
from May 1, 1869, and will pay
SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.
The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be
PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:
On $1,000 Bond in N. Y. $35 (gold) each half year.
" London....67 sh. 10. "
" Frankfort..87 flr. 30 krtzs., "
The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a
FIRST CLASS INVESTMENT,
in every respect perfectly sure, and in some essential even
Better than Government Securities.
The Bonds will be sold for the present at
96, *and accrued Interest, both in Currency,*
the Agents reserving the right to advance the rate.
The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.
Gold and Government Securities taken in payment at their market value, without commission.
Pamphlets, with maps giving full information, sent on application.

PICNIC BASKETS, For sale by E. A. STEVENS.

Morning Chronicle.

THE GOLD GAMBLERS of New York had a field day on Friday, and many millions were lost and won.

The market opened and gold sold at 145. The next sale was at 144 1-2 then 145 was again reached. At this juncture the excitement fairly commenced, and the price rose to 146, then to 147, then to 148, when it suddenly fell back to 146 1-2, but in the next instant was up to 150 1-2. The next step was a decline to 150, where it remained some time, and everybody stopped to take breath, and the crowd were amazed. A death-like stillness pervaded the room, and the bears, who were being slaughtered frightfully in a pecuniary point of view, looked on the scene with pale and anxious faces.

At this crisis Wall and Broad streets presented a lively scene, with the brokers and clerks running in all directions and endeavoring to collect margins to make the gold up to the market price. The crowd did not have long to wait, for in rushed a prominent banker and taking a position in the circle he bid 150, then 150 1-2, then 151, then 151 1-2, then 152, then 152 1-2, then 153, then 153 1-2, then 154, then 154 1-2, and he finally stopped at 155. Not one dollar of gold sold at any of the above figures. There was another panic and another running for margins.

Some few of the bears settled with the bulls at this juncture at prices ranging from 148 to 152, but the prominent bears generally refused to settle. As soon as margins were made up to 155 and the big bears were still stubborn the screws were put to the market once more. In rushed a prominent broker and in an instant he bid 160 for any part of $5,000,000; this was followed by the bidding price being raised to 162 1-2, and finally it reached 164.

Here followed another calm, which was succeeded by the appearance in force in the room of the foreign bankers, who threw considerable gold on the market, causing the price to break from 164 to 159 7-8. The excitement at this juncture was of the wildest description, it being reported that Secretary Boutwell would sell $4,000,000 in gold to-morrow and $4,000,000 the next day. This triumph of the bears was not of long duration, for the bulls rushed madly to the rescue and immediately jamped the price up again to 160. At this juncture the bears returned to the attack and the contest was very bitter for a short time, but the bull army was forced back again and the price tumbled to 155. The bear fraternity could not be restrained at this point, and cheer after cheer went up in the room on New street. Suddenly the bull generals rallied their forces and up went the price and the cheers were soon on the other side of the house. The excitement ran so high that some of the bears threatened to shoot the leading brokers on the bull side. One of these brokers then stepped forward and dared any one to shoot him. None of the bears accepted the invitation, however, and this excitement had scarcely died out before in rushed the bears once more. Another attack was made on the market, and down went the price to 134, but it rallied to 136 1-2, and then settled down again to 134 a 134 1-2.

Albert Sleeper went crazy and has failed. William Belden failed. Several houses are reported to have failed. The Gold Exchange Bank that afternoon became completely clogged by the enormous clearings of the gold brokers, and had not make the usual settlements, which threw the whole street into utter confusion. None of the large firms failed although the confusion in the Gold Exchange Bank prevented them from making their margins good before the close of Bank hours.

CURIOUS LOCK.—One door of the vault of the Rochester, N. H. Bank, which the burglars unsuccessfully attempted to rob a short time since, has on it a lock that was invented and made by the late Charles Dennett, thirty-five years ago. It is perfectly original in its design, and there is no other one like it in the world. At the time the attempt was made to rob the Bank in 1843, the lock was twice charged with powder and exploded, but it made no impression on the lock, which it is in good condition to-day.

The Cashier, Mr. McDuffee, says that a number of years ago a locksmith from New York tried to sell the bank a lock, and assured the cashier that he could pick the lock made by Mr. Dennett in half an hour. He was told that if he could pick the lock, they would buy one of his. The bolt was then thrown out with the door open, to give him a good chance to operate, after several hours of hard labor he gave it up as a bad job, and went home, taking his own lock with him.

—"I should be ashamed," said an old lady to a girl dressed for a party, "to make such a show of myself." "It is not what I show, Aunty" returned the young lady, "that makes me ashamed, but what I lack;" and she pointed to her thin chest and slender arms.

CHURCH DISCIPLINE IN KENTUCKY. The Lexington (Ky.) Statesman relates that some time ago a church in Fayette county, Kentucky, gave letters of commendation and dismission to three of her members, all of whom were well advanced in life. Two of these had held the office of elder in several churches for many years, and with more than ordinary success; the third had for many years been a deacon. These three brethren were not able to bring their convictions to the point of uniting themselves to another congregation, though they all attend meeting regularly. They were summoned to appear before the church from which they had been dismissed, to show cause why they did not formally join some other congregation. Upon their failure to do this, they were expelled. The secret of this action is said to be the fact that the parties were "radicals."

We remember some "Discipline" of a similar kind, which was put in motion many years ago, in New England. It was a serious matter then; it is laughed at, now.

—An old Scotchman of Boston used to say: "I'm open to conviction; but I'd like to see the man that can convince me." Old Minister Wells, the predecessor of Rev. Dr. Storrs, of Braintree, Mass., himself a Scotchman, used to say: "It behooveth a Scotchman to be right; for if he be wrong, he will be forever and eternally wrong."

—A Hartford dealer in furniture and coffins lost a lucrative customer lately, who happened to patronize a rival undertaker upon the death of his wife, by hailing him on the street with: "You buy your furniture of me, but what's the reason you don't give me your funeral business?"

—The Boston Post says: A well-meaning gentleman in this city, the other day, in trying to offer something soothing to the feelings of a lady who had lost her husband, said, somewhat tenderly, "My dear friend, we all have troubles—*pray don't let trifles disturb you.*"

—Rubinstein has just finished a grand cantata entitled "The Tower of Babel," which will be performed for the first time at Konigsburg.

—Life is a disease of which one dies at last.

WITH DYSPEPTICS everything is wrong. Food does not digest; sleep does not refresh; wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it or it will become seated and confirmed, and life will be a burden and existence a curse. PLANTATION BITTERS will do away with all this. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the lustre in your eye will again be as bright as in your healthiest, happiest and most joyous days.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the United States Patent Office, Washington, under the Act of 1837,

NO. 78 STATE ST., OPPOSITE KIRBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Research made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During the eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in asaurring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Boston, Jan. 1, 1869.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Bedford street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United states.

CERTAIN CURE in all cases or no charges made.

DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar, or they will not be answered.

Office hours from 8 A. M. to 9 P. M.

Boston, April 11, 1869. eodag 1y

RAILROADS, &c.

J. R. KENDRICK, Supt.

FALL RIVER LINE

FOR New York, Philadelphia, Baltimore, Washington, and all principal points West, South and South-west.

VIA TAUNTON FALL RIVER AND NEWPORT.

Cabin, $5.00; Deck, $4.00.

Baggage checked through and transferred in New York free of charge.

New York trains leave the Old Colony and Newport Railway Depot, corner of South and Kneeland Streets, daily, (Sundays excepted,) as follows: at 4.30 P. M., arriving in Newport 40 minutes in advance of the regular Steamboat Train, which leaves Boston at 5.30 P. M., connecting at Newport with the new and magnificent steamers PROVIDENCE, Capt. B. M. Simmons, and BRISTOL, Capt. Benj. Brayton. These steamers are the fastest and most reliable boats on the Sound, built expressly for speed, safety and comfort. This Line connects with all the Southern Boats and Railroad Lines from New York going West and South, and convenient to the California Steamers.

"To Shippers of Freight," this Line, with its new and extensive depot accommodations in Boston, and large pier in New York (exclusively for the business of the Line,) is supplied with facilities for freight and passenger business which cannot be surpassed. Freight always taken at low rates, and forwarded with despatch.

New York Express Freight Train leaves Boston at 1.30 P. M.; goods arrive in New York next morning about 6 A. M. Freight leaving New York reaches Boston on the following day at 9.45 A. M.

For tickets, berths and staterooms, apply at the Company's office at No. 3 Old State House, corner of Washington and State Streets, and at old Colony and Newport Railroad Depot, corner of South and Kneeland Streets, Boston.

☞ **Sunday Night Line.** ☜

Cars leave every Sunday evening, at **6.30 P. M.**, connecting as above.

The Office, 3 Old State House, Boston, will be open every Sunday afternoon from 2 to 6 o'clock, and at the Depot from 9 to 10 A. M., and from 5 to 6.30 P. M., for sale of tickets and staterooms.

Steamers leave New York daily, (Sundays included,) from **Pier 28 North River**, foot of Murray Street, at **5 P. M.**

The Chronicle.

TAXING THE BONDS.—Nasby has a letter from his friend Deacon Pogram from the Confederit X Roads, in which he says:—

You remember three years ago, corporashen ishood its bonds bearin 6 per cent. for $2,600 to build a lock-up, and a yeer later when it wuz found necessary to gravel the road bewixt the Corners and the stashen at Secessionvill, so ez to redoose the freight on whiskey consumed by us, we ishood bonds bearing eight per cent. to the amount of $4000, both ishoos running 25 yeers. These bonds were taken by Pollock of Illinois.

Last yeer we paid the interest on these bonds, but this yeer the people felt that the burden wuz too heavy, they could not reconcile themselves to the idea uv sweatin to support in idle luxury the bloated bondholders and the populis murmured agin it. Wat to do we didn't know, till finally Elder Pennibacker, who borrows my paper regierly, remarked, "Eureker—I've got it." He had bid readin the Democratic proposition to tax bonds, and a lite dawned onto him.

"We'll tax these bonds of Pollock's!" said the Elder, "and thus releeve ourselves uv this thraldom to this money-power. Thank Heaven the people heven't yet parted with all their power."

The segestion wuz acted on tu-wunst. The council wuz assembled, and by a yoonanymus vote an ordinance wuz passed levying a tax uv eight cents onto the dollar on all bonds ishood by the corporashun for moneys borrowed uv all sorts.

Pollock wuz away when the ordinance wuz passed, and it so happened that he returned the very day that his interest wuz due. Immejitly he proceeded to the Trezrer's office, wich is Captain McPelters,' with his Coopons. Captain McPelter received him blandly, and putting the coopons away tendered him in loo thereof a receipt for $320 taxes on them sed bonds.

"Wat is this?" ejakilated the astonished Pollock.

"Taxes!" returned McPelter, smilingly. "We hev assessed a tax onto our bonds uv eight cents onto the dollar, which, it happens, is just what your interest is. We skorn repudiation—we shall pay principal and interest; but we hev the right to tax bonds and tax'm we will."

Is the tax eight cents on the dollar on all bonds of the corporashen? asked Pollock.

"Trooly it is," sed McPelter.

"I hold also the bonds issued a year before these, for building a lock-up; but which only bear six per cent. The tax pays the interest and two per cent, over—what will you do with that two per cent?"

"Do with it?" exclaimed McPelter, "Why we shel apply it to the payment uv the principal, uv course. The entire revenoo uv the corporashun is pledged to the extinguishment uv this debt, and we shel not be recreant to our trust."

Pollock went away, but McPelter had a new idea. He immejitly called the council together, and segested that the tax on the bonds ought to be twelve, instead of eight per cent., ez the tax would not only pay the interest on the eight per cent. bonds, but wood extinguish the bonds their-selves. The six per cent. bonds wood not only be eaten up, but wood leave Pollock in debt to the corporashen long before they wuz doo. The way of escape from our troubles wuz so very plain that the council to wunst acceded to it, and notis wuz given to Pollock of the new ackshen. Immejitly the craven wretch wantid to sell the bonds to the city at half their face, but the proposition was rejected with skorn. The council passed a resolooson rebooking him for intimating that the Corners wood not live up to its obligations.

"Ez much ez we loathe yoo," remarked Elder Pennibacker, the Municipal President, "we shall pay yoor bonds, dollar for dollar, principal and interest requiring yoo however, to bear sich taxation ez may be levied onto yoo."

"But as the tax eats up both interest and principal, what do I get for my money?" askt the stiff neckt man.

"The protection of our laws," thundered Pennibacker.

—Moses H. Hussey of North Berwick took the premium for the best show of seed potatoes at the New England Fair at Portland. This year he will raise about two thousand bushels. With truth he may be called the greatest potato grower in the country.

—An infant child of Mr. F. S. Giles, of York, died in Westport, Conn., recently from poison taken into his stomach by sucking a green yell the nurse had thrown over its face to keep the flies off.

—It is said to be a common practice in Paris to hire people to attend fashionable churches, so that the preachers may say that they always have crowded houses. Two or three cents pay for a worshipper.

—Everything is said to have a good side. The best side for bores, as you believe, is outside your door.

—A vigilance committee in Tennessee finds that it has hanged the wrong man.

PERRY DAVIS' PAIN KILLER, as an internal remedy has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, dysentery, Asthma, it cures in one night, by taking internally, and bathing with it freely. It is the best liniment in America. Its action is like magic, when externally applied to bad sores, burns, scalds and sprains. For the sick headache and tooth ache, don't fail to try it. In short, it is a Pain Killer. 4ws7

DODD'S NERVINE AGAIN.
ANOTHER CERTIFICATE.
LEXPARD, IOWA, April 5, 1869.
Accept thanks for calling my attention to DODD'S NERVINE AND INVIGORATOR. It has done me more good than any other medicine I ever took. I have gained twelve pounds in flesh, and am correspondingly better every way. It is an invaluable remedy.
Swan23 HIS. JOHN T. LEACH.

WHAT ARE
DR. J. WALKER'S CALIFORNIA Vinegar Bitters.
THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits, and refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetisers" "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, *free from all Alcoholic Stimulants.* They are the GREAT BLOOD-PURIFIER and LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell. $100 will be given for an incurable case, providing the bones are not destroyed by mineral poisons or other means, the vital organs wasted beyond the point of repair.
FOR INFLAMMATORY AND CHRONIC RHEUMATISM, AND GOUT, DYSPEPSIA, or INDIGESTION, BILLIOUS, REMITTENT, and INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS have been most successful. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.
These Bitters are not a gilded pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.
They are Alterative, Tonic, Diuretic, Sedative, Diaphoretic, and Gentle Purgative.
"The Life of all Flesh is the Blood thereof."—Purify the blood and the health of the whole system will follow.

AVERILL CHEMICAL PAINT!
THE RIGHT THING AT LAST!
BENJAMIN NORTON,
Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of
THE BEST PAINT!
ever offered in this city.
It is Durable, Beautiful, Water Proof, Elastic and Economical.
This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.
It is prepared in pure White and one hundred Different Shades, and is unsurpassed in all respects.
It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.
Many testimonials from those who have used it in other places of its superiority over other Paints might be given; but I will only invite those of the city and surrounding towns who intend using Paints, to call at the
GROCERY AND PROVISION STORE,
Nos. 16 & 18 Cabot Street,
which is the ONLY PLACE in the City where it has been used, and examine the Paint where it has been applied in ten or twelve different shades, and where they can choose any color they desire for use, outside or in, and buy from one pound upwards.
In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.
These Paints are manufactured in New York, and Newburgh, Ohio. BENJ. NORTON,
Agent for Chemical Paint Company.
Also for sale, at the same place, the Best Quality of
MEATS AND GROCERIES!
AS LOW AS CAN BE BOUGHT IN THE CITY.

"Ingenie Stat Sine Morte Decus."
ROCKY MOUNTAIN BITTERS
IS a very superior Regulating Tonic, imparting vigor and strength to the constitution—a thoro'
PURIFIER OF THE BLOOD,
a regulator of nervous force, and a powerful sustainer of health against the encroachments of disease.
The invalid and convalescing seeking restoration, and yearning for the healing virtues of some magic balm, will find in these Bitters a hidden mysterious power, which QUIETLY RESTORES, yet refuses to reveal to the senses anything but taste and color.
It is a pleasant Bitter, free from all nauseous properties, odor, exciting noises in the ears, emetations, of belching of wind, tightness of breathing, weight and oppression of the chest, uneasy feeling about the heart, palpitation, &c.
Also for Liver Diseases, Disorders of the Kidneys, Restlessness and loss of Muscular Power these Bitters will be found almost a specific; as a preventative of
FEVER AND AGUE,
or a restorer of the natural powers of the system, when broken down by continued ague attacks; it has no equal.
Being Stimulating, (but not intoxicating), they refresh and invigorate both mind and body, heighten the sensibility, clear and sharpen the faculties, and bestow alacrity and cheerfulness of spirit.
CAUTION.—There have been, and still are several parties manufacturing and selling so-called "Langley's Bitters," many of which are worthless. As a guide against such, I would say that in 1866, I secured my copy right, in the United States Court, a trade mark and name, "Rocky Mountain Bitters," and all Bitters of my manufacture are put up in *dark, long neck, quart bottles* with red label printed with gold; also, direction label, bearing my seal and directions printed in red, with a red cap and my seal printed in gold, over the cork. Beware of all others, and ask for **"Rocky Mountain Bitters."**

The Daily Chronicle.

Portsmouth, N. H.

WEDNESDAY, SEPT. 29, 1869.

The News.

The typhus fever is raging at Curacoa.

Jefferson Davis, once a noted public man, is on his way to America from Europe.

Mount Etna is in a state of violent eruption.

Late advices from Hayti report important military operations and successes for the rebels.

For the quarter ending with June, the immigration returns show 117,582 passengers arriving in this country.

The government property at Harper's Ferry, Virginia, is to be sold on the 30th of November.

The citizens of San Jose, New Mexico, report that a party of five or six Apache Indians attacked four boys who were herding sheep near that town on the evening of the 10th of August. Two of the boys escaped, one was killed on the spot, and one, Francis Blea, aged thirteen years, was carried into captivity. The country inhabited by these Indians is so rough and mountainous that it is difficult to find them. Official information has also been received confirmatory of the report of the killing of four men (wood-choppers) in the employ of a contractor from St. Paul. The men made a hard fight and it is thought killed several Indians. One dead Indian was left on the ground.

Several severe shocks of earthquake were felt at Hawaii in August, and it was thought generally that there would be harder shocks in September.

Hon. Wm. Richardson has sent in his resignation as Assistant Secretary of the Treasury, to take effect January 1, 1870.

Jay Gould has had the modesty to ask Secretary Boutwell to loan him $800,000 of government money on good security. The Secretary refused.

Nashville had a frost Sunday night.

New York had a frost Monday night.

Another unsuccessful attempt was made to rob the Norway Plains Bank at Rochester, Sunday night.

The State Fair opened successfully at Manchester on Tuesday.

THE GOLD GAMBLERS of New York have not yet settled their differences and are engaged in growling at each other about the late "lift."

☞ Carlotta Patti has been singing again in New York. The Tribune critic says that she has lost nothing of her personal charms during her six years' absence.

Reported for Chronicle and Gazette.

—The latest sensation—A mosquito bite at 11:59, P.M.

Correspondence of Chronicle and Gazette.

THE BOSTON FAIR.—Your correspondent has spent five or ten hours in the Mechanics' Charitable Fair. He writes in some haste, as more or less of the readers of the Chronicle will be visiting Boston, and as this opportunity occurs but once in four years, many would regret a failure to see it.

Most of the visitors to Boston know something of the extent of Quincy Market,—well named, for it was the enterprise of Josiah Quincy that gave to Boston, in the place of a nuisance and a labyrinth (do you know what a Boston labyrinth is?) three long parallel lines of building, the central of which is a continuation of Faneuil Hall. Quincy Hall is narrower than Faneuil, and their centres are not opposite. Boston's title to the south side of the space in which the Hall stands, is less perfect than the north; hence the northern edge of the two buildings are flush, and South Market Street is wider than North.

The Fair occupies all the space in these buildings over the markets. You enter Faneuil Hall at a door between the two. Let us go up flight after flight, and we are in Sec. 1. It is filled with furniture, and as there are several large alcoves, it looks like intrusion to go into some of these splendidly furnished *bedrooms*. Here are tricycles if not bicycles. One convenience only we note. Is it a desk? No, for the drawers are too deep. Let down the front of the upper part. It is a table, ready to make the most elaborate cake without moving away from it, (had only the grocer done his duty,) save for hot and cold water. Price $35; patentee J[osh?] Billings of Brighton.

Descend a flight, and you are in the gallery of Faneuil Hall. The pianos and organs, which had a better place above, four years ago, are now here with children's cabs. Descend to the lower floor, and you find all that the less intellectual go to see. Dresses, dress goods, girls' achievements, (a shirt by a child of 5 1-2 among them,) a collection of buttons, stuffed birds, meerschaums, gas-fixtures, — and, as we leave, we absolutely know not what. We cross the bridge which none may re-cross, and are in Sec. 3. Here we find leather, stoves, and fancy ironwork. A Peerless, which was the admiration of Paris, excites less attention here. Years of trial but make me more satisfied with my Governor stove, and we pass on. Sec. 4.—Agricultural implements, carriages, &c. We will look another time. Sec. 5 is very miscellaneous. We notice now only the Novelty press, combining the amateur's and the job press. The man has the audacity to say that unaided he takes 1000 impressions per hour, and I reluctantly believe him, for a bank cashier says the same. The blurry pressure of the Howe is changed for that of the best job presses; it can do the nicest printing of which man is capable, and the price is from $15 to $50, unfurnished probably.

Sec. 6 is the rotunda and two stories. In the upper part are sewing machines, knitting-machines and photographs. Whipple's eclipse at Shelbyville is more interesting than any we saw at Salem. The knitting-machines are three. All can take the common stitch as in knitting a garter, and can widen and narrow. Here the Hinkley stops. Its flat webs can be joined side by side, or into a tube. The Bickford can knit a tube of fixed diameter of this same stitch. By dropping part of the needles or knitting closer, it can diminish the diameter of the tube somewhat. The Lamb can take this one stitch with them, and can take more others than the unaided human fingers are capable of. Its tube can be reduced to three stitches, its flat web may be ribbed. It will knit a glove, a whip-cover, curtain-cord, nubia or shawl. It is the slowest and most costly. Below are clocks, pistols, cutlery, and sportsmen's articles. We must yet return here.

Sec. 7. The clank of machinery meets us. Two machines are cutting a cross-grained flat ribbon of wood into shoe-pegs, and noisily driving them like lightning. A huge press is cutting out shoe-soles. Another Briareus is lifting up an iron hoop and chewing it into tacks. The Gillespie Governor opens and shuts an imaginary gate with no perceptible variation of speed. Strange that this problem of uniform rapid motion should be so difficult. Here we have the nearest approximation yet known, but it involves a hidden pump that dashes a stream of oil against a sensitive buffer.

There! our feet ache, our brain whirls,—there are two Sections beyond, but here is an outlet and we are in South Market Street.

Yours, I. F. HOLTON.

The telegraph wire is being put up from South Vernon, Vermont, to Keene, by the way of Winchester.

The Overland Monthly for October is received from the publishers, A. Roman & Co., San Francisco. It has an interesting table of contents and the Magazine is rapidly growing in popularity. Knapsack and Blanket, Why She never Married Charlie, Our Antipodean Cousin, Autographomania, Geological Notes from Oregon and The North West form some of the most readable portions. $4 pr. year in advance.

The Teacher's Institute for Grafton county will be holden in Lebanon, beginning Oct. 4 and continuing through the week.

Cattle Market at Brighton.

FOR THE WEEK ENDING THURSDAY, SEPT. 23.

[Reported for the Boston Journal.]

At market for the current week—Cattle 4180; Sheep and Lambs 12,653; Swine 5325; number of Western Cattle 2687; Eastern Cattle 663; Northern Cattle and Working Oxen 730. Cattle left over—.

Prices Beef Cattle—Extra $13 00 @ $13 50; first quality $12 25 @ $12 75; second quality $11 50 @ $12 50; third quality $10 25 @ $11 25; poorest grade of coarse Oxen, Bulls, &c., $8 00 @ $10 00 ℔ cwt, (the total weight of hides, tallow and dressed beef.)

Brighton Hides 9½ @ 10c ℔ lb; Country Hides 9 @ 9½c ℔ lb.

Brighton Tallow 8 @ 8½c per lb; Country Tallow 7 @ 7½c ℔ lb.

Wool Sheep Skins $1 50 @ 2 25 each; Sheared Sheep Skins 37c each; Lamb Skins 75 @ 87½c each Sheep Skins 75 @ 87½c each; Calf Skins 20 @ 22c ℔ lb.

There was a large supply of Cattle in Market for the week, mostly of an ordinary grade. The best lots sold full as high as they did last week, and there were several large lots of Cattle taken at a commission. Common grades of Beeves sold from ½ to ½ a cent per pound lower than our last quotations. There was a large number of Store Cattle and working Oxen among those from Maine The trade for workers has not been very active, and on account of the large supply of small Cattle prices are lower for Store Cattle.

Store Cattle—Yearlings $18 @ $28; two year olds $30 @ $45: three year olds $45 @ $65 ℔ head, or much according to their value for Beef. Most of those which are in a fair condition are bought up to slaughter. Prices of small cattle depend much upon their value for Beef.

Milch Cows—Extra $85 @ $115; ordinary $50 @ $80; Store Cows $35 @ $55 ℔ head, or much according to their value for Beef. Prices depend a great deal upon the fancy of the purchaser. Most of the Cows brought into market are of an ordinary grade, there being but a few of the fancy breeds Cows brought into market.

Working Oxen—The supply in market is large. We quote at $140, $155, $170, $180, $200, $205, $220, $230, $230, $265, $215 @ $225. Nearly all the Working Oxen are brought from Maine.

Sheep and Lambs—Those from the West this week were owned by butchers and taken direct to be slaughtered. Prices were about the same as those of last week. We quote prices—Extra $3 75 @ $4 50; ordinary lots $5, $2 60, $2 75 @ $3, or from 3½ @ 7c ℔ lb. Lambs $3 00 @ $4 50 ℔ head.

Swine—Store Pigs, wholesale 10c ℔ @: retail 10 @ 11c ℔ lb. Fat Hogs—4600 at market. We quote prices at 10½ @ 11c ℔ lb. Columbia County Store Pigs, wholesale 10½ @ 11½c ℔ lb; retail 12 @ 14c ℔ lb.

PERRY, the well-known skillful Dermatologist of New York and Boston. No charge for consultation. Send for an interrogatory circular. Don't forget the number. The Doctor will close his office in Boston Saturday, October 16th.

UNNATURAL REDNESS OF THE NOSE, pimply faces and black worms (or grubs) are cured by Dr. B. C. PERRY, Dermatologist, at his Boston office, No. 7 West St. room 3.

MOLES AND WENS are cured by Dr. B. C. PERRY, without cutting, pain or scars, at his Boston office, No. 7 West street. Don't forget the number. No charge for consultation.

☞ The latest supposition regarding the Byron case is that Mrs. Byron was laboring under hallucination when she related to Mrs. Stowe the particulars which have been published.

—The Springfield Republican asks—"Will the coming woman be a man?"

SPECIAL NOTICES.

Keep the Body in Good Repair.

It is much easier to keep the system in good condition than restore it to that condition when shattered by disease. The "House of Life," like other houses, should be promptly propped up and sustained whenever it shows any sign of giving way. The first symptom of physical debility should be taken as a hint that a stimulant is required. The next question, "What shall the stimulant be?"

A wholesome vegetable tonic, the stimulating properties of which are modified by the juices and extracts of anti-febrile and laxative roots and herbs,—something which will regulate, soothe and purify, as well as invigorate,—is the medicine required by the debilitated. There are many preparations which are claimed to be of the description, but HOSTETTER'S STOMACH BITTERS, the great vegetable preventive and restorative that has won by its way to the confidence of the public and the medical profession by a quarter of a century of unvarying success, stands pre-eminent among them all. To establish on its merits a purity would be to repeat a twice-told tale. It is only necessary to consult the records of the United States Revenue Department to learn that its consumption is greater than that of any other proprietary remedy of either native or foreign origin.

As a means of sustaining the health and strength under a fierce temperature, the BITTERS have a paramount claim to consideration. It has the effect of fortifying and bracing the nervous and muscular systems against the debilitating influences of sudden and violent changes of temperature, and is therefore peculiarly useful at this season, when hot sunshine by day, and a cool dewy by night, alternately heat and chill the blood of those who are exposed to them.

HOSTETTER'S STOMACH BITTERS are sold in bottles only. To avoid being deceived by counterfeiters, see that the name of the article is on the label, and embossed on the glass of the bottle and our revenue stamp over the cork.

Batchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. Sold by all Druggists and Perfumers, and properly applied at the Wig Factory 6 Bond Street, New York.

Ellis' Iron Bitters

Will enrich the blood and prevent it from becoming watery and weak, give a healthy complexion, restore the appetite, invigorate the system, and are very palatable. These Bitters are recommended to all persons requiring a safe and valuable tonic, to impart tone and strength to the system, not given by Bitters merely stimulant in their effects; which, although they may possess some vegetable properties, cannot give the strength to the blood which the *Iron Bitters* will give.

Prepared by Wm. Ellis, Chemist. For sale in Portsmouth by WILLIAM R. PRESTON; by Weeks & Potter, Wholesale Agents, 170 Washington Street, Boston; and by Druggists and Grocers generally. mh29m6md

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet, which can be had of the agents where the medicine is for sale. d25

☞ PERRY DAVIS & SON, Providence, R.I., general wholesale Agents for the Eastern States.

TO OWNERS OF HORSES AND CATTLE.

TOBIAS' DERBY CONDITION POWDERS are warranted superior to any others, or no pay, for the cure of Distemper, Worms, Bots, Coughs, Hide-bound, Colds, &c., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Horn Distemper, &c., in Cattle. They are perfectly safe and innocent; no need of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs; also increase the milk of cows. Try them and you will never be without them. The late Hiram Woodruff, celebrated trainer of trotting horses, used them for years. Col. Philo. P. Bush, of the Jerome Race Course, Fordham, N. Y., would not use them until he was told of what they are composed, since which he never without them. He has over twenty running horses in his charge, and for the last three years he used no other medicine for them. He has kindly permitted me to refer any one to him. Over 1,000 other references can be seen at the Depot.

Sold by Druggists and Saddlers. Price 25 cents per box. Depot, 10 Park Place, New York. au19

PAIN KILLER.

MANHATTAN, Kansas, April 17, 1866.

MESSRS. PERRY DAVIS & SON,

Gentlemen:—* * * I want to say a little more about the Pain Killer. I consider it a very valuable medicine, and always keep it on hand. I have traveled a good deal since I have been in Kansas, and never without taking it with me. In my practice I used it freely for the Asiatic Cholera in 1849, and with better success than with any other medicine. I also used it here for Cholera in 1855, with the same good results.

A. HUNTING, M. D.

* * * "I regret to say that the Cholera has prevailed here of late to a fearful extent. For the last three weeks, from 40 to 60 per day. Fifty fatal cases each day have been reported. I should add that the Pain Killer sent recently from the Mission House, has been used with considerable success during this epidemic. If taken in season, it is generally effectual in checking the disease.

Rev. CHAS. HARDING, Shelapore, India." au20

SPECIAL NOTICES.

CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS for Diseases of the Liver, or to act as a gentle Purgative.

All of these three medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills assist in regulating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These medicines are conscientiously offered to the public as the only safe, certain and reliable remedies for Pulmonary Consumption, and for all those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long probation before the public. Its value has been through a period of more than thirty-five years, in all of which time its reputation has constantly increased, while the most obstinate skepticism can no longer doubt that it is a remedy which may be used with confidence in all cases in which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, he will certainly be cured, if his lungs are not too much diseased to make a cure possible. Even in cases supposed to be incurable, when friends and physicians have despaired, the use of the medicine has saved the life of the patient, and restored him to perfect health.

Dr. Schenck himself was cured in precisely such circumstances, and numerous others have equally fortunate by judiciously making a timely use of Dr. Schenck's remedies.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he emphatically asserts, that often when patients have the most alarming symptoms, and are so wasted up by their physicians, they may still be cured. No medical treatment can create new lungs, but when the lungs are very badly diseased, and to some extent destroyed, a cure may be effected by Dr. Schenck's medicines.

Also in Scrofulous diseases these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores, and now all healed up. This shows its purifying properties, which must be done before a healing can take place.

In the treatment of Consumption, it is of the utmost importance to give vigor and a healthy tone in the system. Hence it is necessary to strengthen the appetite of the patient that will prove the digestion. Proper nourishment is required, together with such means as will make the food easily digestible. The articles most suitable for the diet of consumptive patients are designated in Dr. Schenck's Almanac, which are distributed gratuitously. In general, the most nutritious articles are to be preferred; but the digestive organs must be strengthened in order to make other food or medicine serviceable. This requirement is met by the Sea Weed Tonic, and for this purpose it was designed.

When the digestive powers are put in good order, the food has its proper effect; the system of the patient is invigorated, and the lungs begin to exercise their functions in a normal and healthy manner. Then the healing powers of the Pulmonic Syrup will complete the cure.

Pulmonary Consumption is almost always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills are intended to remove obstructions from the liver and restore its healthy action. They have all the efficacy may be ascribed to calomel or "blue mass," and are warranted not to contain a particle of any mineral substance. These pills cause the most thorough costiveness, sick headache, piles, billious affections, and all other diseases which arise from a torpid or obstructed condition of the liver. One box of these pills will prove the efficacy of the medicine.

In Consumption, the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines. They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. They have been found useful in advanced stages of Consumption, where the lungs were almost entirely destroyed, and all symptoms, according to the judgement of physicians, indicated speedy death. Lives of patients who were actually in a dying condition have been preserved for months by the use of Schenck's three great remedies.

DR. SCHENCK'S Almanac, containing a full treatise on the various forms of disease, his mode of treating them and general rules for the use of his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North Sixth Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggist and dealers.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but possessing all the medicinal properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which it is a dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative component is so disguised that even the most fastidious, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the female sex are subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmopœia.

☞ It is guaranteed that no one who has once tried Dr. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

Wholesale agent, John F. HENRY, No. 8 College Place, New York City.

PECULIAR ADAPTABILITY.

Brandreth's Pills.

Their peculiar adaptability to all constitutions as cleansers of the bowels and the blood has established their great merit. They restore the liver, the spleen and the blood to a healthy action when other remedies have been used without producing any benefit. They do not expose those who use them to any danger, being as safe as salutary.

Extract from Letter to Dr. Brandreth, from C. J. Fay, Esq., P. M., Hammonton, N. J.

"In 1836 I was in poor health, and my friends as well as myself supposed that my earthly voyage would soon terminate. But after taking one box of Brandreth's Pills, I began to feel better. Well, sir, when I had used twelve boxes I was a well, healthy man—my weight having gone from 131 pounds up to 152 pounds. I then ordered a supply, and between that time and the present I have retailed three thousand dollars' worth of these invaluable pills, and am quite sure that I have thereby been instrumental in saving thousands of lives.

Yours, truly, C. J. FAY, P. M."

Sold by all Druggists. Observe my name in white letters in the government stamp.

B. BRANDRETH. au20

Holloway's Pills.—More than two-thirds of the sickness which occurs in the summer proceeds from a disordered condition of the liver. Persons of a bilious habit suffer most in warm weather. They are languid, low spirited troubled with pain in the side, head-ache, and a constant feeling of weariness. The immediate and certain remedy for these symptoms, and all others proceeding from biliousness, is HOLLOWAY'S PILLS. Of all anti-bilious medicines they are safest, surest and best. Sold by all Druggists. s8

CANCERS AND HUMORS!

DR. J. W. CHANNING,

THE GREAT CANCER & HUMOR DOCTOR, of New Bedford,

Has arrived at Portsmouth, and taken Rooms at the FRANKLIN HOUSE, where he will remain until September 28.

Dr. C. gives particular attention to the cure of CANCERS, Swelled Neck, and Piles in all forms, Catarrh, Monsits in the Throat, Asthma, Liver Complaints, which he cures without pain and without the use of the knife.

Do not say that you cannot get any relief until you have tried his Medicines, which will remove all Humors such as Cancers, White Swelling Affections, Erysipelas Salt Rheum, Inflammatory, Chronic, Mercurial, and Syphilitic Rheumatism, Fever Sores, old and stubborn Ulcers and Sores of all kinds cured, whatever may be the cause that produced them.

Dr. C. will give examinations free on all diseases. Invalids of both sexes are respectfully invited to call and consult the Doctor. s16

IRON MANDRAKE SYRUP.

FREEMAN'S

FREEMAN'S

FREEMAN'S

IRON MANDRAKE SYRUP

IRON MANDRAKE SYRUP

IRON MANDRAKE SYRUP

Is an excellent combination of IRON with MANDRAKE and vegetable tonic.

The Mandrake acts on the Liver and prevents the bracing effects which Iron has on many other preparations; while the vegetable tonic strengthens the stomach, and promotes Digestion of Food and facilitates the absorption of Iron into the blood.

MANDRAKE

MANDRAKE

MANDRAKE

is the great vegetable substitute for Calomel to act on the Liver.

In Freeman's Mandrake Syrup it is combined with Iron and Vegetable Tonics, and forms the most perfect Spring Medicine.

It purifies the blood and imparts IRON to it.

It acts on the Liver and removes foul humors from the body. It is a most excellent remedy for debility, especially for mothers who are worn down by nursing infants, and for all persons whose blood is pure, and who need iron and a strengthening medicine.

LOCAL AFFAIRS.

☞ There was a slight frost in this city and vicinity, Monday night.

☞ Mr. John Peverly, of Newington, the well known dead shot, recently killed 10 out of 11 wild Ducks, at three shots—five at the first, all the flock; then three in another group; then two out of another triplet.

THE NEW HAMPSHIRE GAZETTE for this week, Oct. 2nd, commences the 114th yearly issue of the oldest paper in America; Daniel Fowle having printed the first number Oct. 6th, 1756, in this city. The paper is four times as large as at the start, and probably costs fully ten times as much to publish. The original building in which Fowle worked is still standing, at the junction of Pleasant with Washington Street, and we intended presenting a picture of the same in this number of the paper, but could not get the engraving in time. Our illustrious predecessor never had more hopes for his bantling, than we retain to this day; nor greater reason to be satisfied with an ever-increasing subscription list, than we.

☞ The Boston Ancient and Honorable Artillery Company voted to accept the invitation to visit Portland. On their way down next Monday morning they will be entertained with a collation at Exeter, and on arriving at Portland will be received by all the military of that city and escorted to the Falmouth House, where they will quarter during their stay. A collation, reception by the Mayor and citizens, a ball in the evening, and a clam-bake on Tuesday, will comprise the round of pleasure,—a programme which the A. H. A. regarded as more attractive even than a visit to Portsmouth and the Sagamore House, but doubtless would not have so decided, had the citizens of Portsmouth taken hold of the matter as the Portlanders did, and offered all the inducement in their power.

EXETER AND PORTSMOUTH. — The News Letter folks seem to be trying to show how big fools they can be, in regard to this city. They needn't try any further: the last number contains this item:

A Portsmouth paper "alludes to Exeter as the 'Rockingham centre of gravity,' which we accept; and dub Portsmouth an excrescence upon the side of the County and the State, which excrescence commenced to discharge nauseating, virulent, offensive and effete matter shortly before the war, and all the soap that Prof. Gardner ever sold would not wash it clean or blot out one page of its blackened record of the last ten years."

Poor creature! to what a state of mind (or *spirit!*) is he reduced. If the writer of the above was sober when he wrote it, he deserves first premium for gentlemanly language and refined ideas.

The News Letter also says, "It's a great pity Portsmouth enterprise didn't run more to advertising, and less to 'agricultural horse trots.'"— While in another column it is glad to copy the false statement of another sore-head, that the Fair here was *not* a success.— As to advertising, the overrunning columns of the Chronicle and the Journal for many years, show that the merchants of Portsmouth have always been liberal advertisers.

THE SEELY COURT MARTIAL is in session at the Charlestown Navy Yard. On Monday the Court received advices from headquarters at Washington, not to change the word "seaman," as set forth in the specifications of charges relating to the alleged cruel treatment of one Patrick O'Brien, as objected to by the counsel for Lieut. Seely on Thursday.

Patrick O'Brien was sworn and testified as follows: On the 4th of June I was lying on the deck, when the steward came and woke me up; I was ordered to the quarter master-at-arms and went to the spar deck, where I met Lieut. Commander Seely; he said, "O'Brien, where is that money;" what money," I said; "sir, you know; go and find it, and it will be better for you;" I said, "I know nothing about the money;" he then said—"go to the engine room," and I was ordered into the lower galley: the engineer and Commander Seely consulted together, when he ordered the master-of-arms to take me; he took me forward on the quarter-deck and I was placed under the sentry's charge; from the sentry's charge I was taken to the forepeak, where he ironed me, hands and feet, and tied me up; I was left there until eight o'clock in the morning, when I was taken down for ten minutes for breakfast; I was tied up for two days and two nights, and after being taken down was insensible. The apothecaries came and cared for me; there were blisters on my hands; I was brought out of the forepeak by the Master-at-Arms and put under the sentry's charge, and kept until the morning of the 5th of July, when I was liberated; I could not use my hands for three days; sent for the doctor, but he did not attend me; the marine sergeant brought me a bucket of water to put my hands in; after the third day I was cared for until sent to the hospital; one of my legs was swollen; I have vomited blood since I came home, and feel sore across my chest; I screamed most the time when tied up; the irons used were chain irons, so constructed that one wrist cannot be made independent of the other; the greater part of my weight when tied up was thrown on my arms; my toes only touched the floor; was tied up sixteen hours; I did not hear Lieut. Seely give any orders in relation to my comfort; two men attended me, each four hours on duty and four off; did not send any message to Lieut. Seely while I was tied up; did not speak to him after being released; while tied up was questioned in relation to stolen money by the master-at-arms, who said to me, "You will be made to tell something about it." I replied, "I will die first, because I know nothing about it." He said, "Very well, you shall die then." I was kept in the hospital from the 12th of July until the 11th of August in consequence of the injuries received while in confinement; my wrists were in a healthy condition before being tied up; the irons were not tight on my wrists when first put on; the wrists swelled afterwards.

Surgeon Eckstein testified; About the 23d of June I was sent for by a seaman named Turner, who was in irons; I went to the executive officer, Lieut. Commander Seely, and he gave me permission to see Turner, and conducted me down the fore passage; it was dark at the time, but I could see Turner and another seaman, named Symons, who were iron'd; they were back to back, and in an uncomfortable position; on a second visit to Turner I noticed that his hand irons were united with those of Symons; on the third visit they made no complaint to me; at another visit to them they were separated from being ironed together hands and feet; I made two visits each day to Turner, and his injuries were slight; he had been in the habit of feigning sickness; on the 24th of June they had medical treatment; found Turner's hands in bad condition and sore; I reported the same to Lieut. Seely, and informed him that the irons ought to be removed from Symons; he was released the next day and applied for medical treatment; his cuts were cleaned every day by the nurse until he was sent to the hospital at Portsmouth, N. H.; I cannot say whether it was unusual or unlawful punishment.

☞ The U. S. S. Gettysburg sailed for New York on Tuesday.

NAVAL. — The frigate Powhattan, which had been ordered to the Charlestown Yard to go out of commission, sailed suddenly Monday with Admiral Poore on board, for Key West.

—"Now the swallows are returning," said a man on shipboard as he threw up his breakfast.

TO BE, CERTAINLY!

WHY NOT?

The FACT that T. F. BURTT has about the finest assortment of fine Gold WATCHES, Gold JEWELRY in sets, Fine Gold Rings, Brooches, Pearl and Garnet Rings, Masonic and Odd Fellows Pins, Gold Chains, Clocks, Spectacles, Silver and Plated Ware, is too well known to be disputed.

THE LADIES who have been so well suited from his elegant stock of valuables, know it!

THE GENTLEMEN, whose opinions are nearly as reliable as those of the ladies, are convinced of its truth!

THE PATRONS GENERALLY testify that it is best to purchase THE BEST, and that the BEST PLACE is at

A PACIFIC RAILWAY

GOLD LOAN $6,500,000.

We beg leave to announce that we have accepted the agency of the

KANSAS PACIFIC RAILWAY COMPANY,

For the sale of its

NEW SEVEN PER CENT.

Thirty Year Gold Loan,
Free from Tax.

This Loan amounts to $6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds,

secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon the Road, the Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,

And in successful operation for 437 miles

west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as

A SINKING FUND FOR THE REDEMPTION OF THE BONDS.

The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the

Value of the Company's property, covered by this mortgage at $23,000,000 net, while the Loan is merely $6,500,000.

The Bonds have

THIRTY YEARS TO RUN,

from May 1, 1869, and will pay

SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be

PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:

On $1,000 Bond in N. Y. $35 (gold) each half year.
" London. . .87 sh. 10. "
" Frankfort. .87 fr. 30 krtzs., "

The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a

FIRST CLASS INVESTMENT,

in every respect perfectly sure, and in some essential even

Better than Government Securities.

The Bonds will be sold for the present at

96, and accrued Interest, both in Currency,

the Agents reserving the right to advance the rate.

The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

Pamphlets, with maps giving full information, sent on application.

Morning Chronicle.

Correspondence of Chronicle and Gazette.

BOSTON, Sept. 27.

Nearly every public man has been "interviewed" by (what must have seemed to him) hosts of newspaper correspondents. As yet, I have refrained from boring into the intellectual anatomy of any high functionary with my mental augur, fancying that the chips thus obtained would be hardly more nutritious as mental pabulum than sawdust pudding as a physiological diet.

Still I have made a discovery. By assuming a degree of reticence and a look of interest, a man can extract a deal of gratuitous information, even from strangers; in short, a large portion of them will "interview" themselves for his benefit. The merits of paintings, the relative value of soldiers of different nationalities, the capacities of steam fire engines, the contrast between popular military bands, the moral failure of the prohibitory law, the private delinquencies of offenders against the peace of the city, and I know not how many other interesting (!) topics, have all been thoroughly explained to me within a few weeks past, with no solicitation on my part, by persons whom I had never seen before, and whom I trust to Heaven I shall never see again.

Doubtless they imagined me the prince of good fellows, because I held my peace and allowed them to vent their favorite theories or pet grievances without comment; but the fact is I am growing callous to the imprudent boredom which tenders its opinion to every stranger who examines a picture in a window or gazes upon a street show.

The National Musical Convention closed its inaugural session at the Music Hall, on Thursday evening of last week, after continuing two days. The great hall was well filled, the public being excluded to allow the Boston Jubilee Chorus to participate in the final exercises of the society, which is a direct result of the great musical peace festival. It was a rare treat to the comparatively small number who possessed an entree, the grand chorus with their noble rendition carring us back to the summer days when we formed an atom in the sea of humanity that surged and swelled in the Coliseum. Mrs. Barry, Mrs. H. M. Smith and Miss Anna F. Whitten added much as soloists, the latter being particularly fine in her performance of Parepa-Rosa's difficult part in the "Inflammatus." Bishop Clark, of Rhode Island, delivered a pleasing address on "Oratorio Music as a means of elevating the popular taste." Although humorous in many parts, his address was an earnest appeal for the powerful aid of good music as an adjunct of religious worship. AHEM.

New Hampshire Items.

On Friday, in Nashua, a boy named Kimball, age two years, was playing with a youthful companion of the tender age of four. Four years old let an axe drop on the back of one of two years old's hand, severing the tendons and injuring it badly.

Tilden Female Seminary, at West Lebanon, has representatives from 11 different States among its scholars.

Rev. Benj. Dorr, a native of Salisbury and a graduate of Dartmouth in 1817, died at Germantown, Pa., on the 18th.

George W. Wilkins of Piscataquog bought a lot a forty Texas cattle and turned them into a large pasture. They are wild as hawks and have to be shot when meat is needed.

The Wilton Company is now manufacturing 500,000 pounds of yarn annually and consuming 600,000 pounds of wool. It began operations in 1851.

A child of Frank Hastings, of Fisherville, fourteen months old, was left alone in the kitchen a few moments last Friday, while its mother was in an adjoining room. Hearing a noise she returned immediately, and found that the child had tipped a small clothes-horse over against a kettle of ketchup on the stove, and some of the contents of the kettle was found upon the head and stomach of the little one, scalding it is so badly that it died on Sunday morning.

There is an old lady in Grafton about 109 years of age, according to her own account, who threads her needle and sews without glasses. Her maiden name was Moody, and she was born in Hampton.

General Sylvanus Thayer, of South Braintree, has added $10,000 to the $50,000 previously given by him for the purpose of establishing the Thayer School of Civil Engineering in connection with Dartmouth college, making $60,000 in all. Unexpected hindrances have prevented the opening of the school this fall, but arrangements for it are in progress.

ON A STRIKE.—There is a strike among the Knights of St. Crispin at Rochester. On the night of the 20th the workmen in the sewing room of the large factory of E. G. & E. Wallace were informed of the intention of the proprietors to reduce their pay one dollar per week; whereupon, on the morning of the 21st, they packed up their kits filled out of the shop, and took up their quarters in and about the Crispins' Hall. The employees, about fifty in numbers, were engaged upon work for the McKay sewing machines, two of which were kept in constant operation. The men, with two or three exceptions, were members of the secret order of St. Crispin. Other members of the order throughout the establishment, though their wages had not been reduced, immediately followed the example of their brethren, and many who had worked out of the factory, as soon as they were notified, finished and returned it, but took no more. The Wallaces have receded from their reduction on learning the extent of the dissatisfaction among the employes. The only obstacle to resumption of work is a demand of the Crispins for a discharge of one of their number who had be en previously hired by the proprietors for a year and who refused to join the movement.

HOW TO TREAT SMALL BURNS.—Apply wet clay, cloths wet in cold water, or a potato grated to a pulp. Either of them are easy of application and grateful. The potato dressing and wet clay need changing less frequently than the wet cloths. They all produce their effect on the same principle, and are harmless unless the burn is of a character that requires their application for a long time, in which case the dry earth dressing will be found useful.

NEW BOOKS! NEW BOOKS!!

HURD & HOUGHTON, Riverside, Cambridge, publish the following:

DARLEY'S SKETCHES.

We strongly recommend our readers to procure the book. It is written with the buoyant spirit of a man who is enjoying himself thoroughly with the discrimination of one who can duly appreciate the treasures, the antiquities, or the novelties that are shown to him.—*London Examr.*

SKETCHES ABROAD WITH PEN AND PENCIL. By FELIX O. C. DARLEY. With 15 full-paged and 74 smaller illustrations on wood. A new edition, with three additional vignettes, and printed on toned paper. In 1 volume, 4to. Price in cloth, $3.50; cloth, gilt, $4.00; morocco, $8.00.

Mr. Darley seems at his happiest here, and his pen has plenty of work to do, the little his pencil did not do. Europe has been an inspiration to him. *Atlantic Monthly.*

H. O. HOUGHTON & Co., Riverside, Cambridge, Mass. For sale by all booksellers.

MOZART'S LETTERS. 2 volumes. $2.50.
BEETHOVEN'S LETTERS. 1 volume. $2.00.

The best exponent of music is the life of the music-writer and these letters are the most truthful and satisfactory representations of the life of these great men. Portraits are prefixed to the volumes.

The Letters Mozart, giving us at once a view of his inner life and a glimpse at social life in Germany nearly a hundred years ago, will be doubly prized. They are nearly all written in a light, gossipy style, preserving till the last the lightheartedness of a child—a common characteristic or accompaniment of genius.—*Musical Pioneer.*

The man and his creations are signally illustrated by the correspondence here published.—*London Athenæum.*

For sale by all booksellers. Sent prepaid, on receipt of price, by the publishers, HOUGHTON & Co., Riverside, Cambridge Mass.

OLD ENGLAND.—Its Scenery, Art, and People. By JAMES M. HOPPIN, Professor in Yale College. 1 volume, 16mo. Price $2.00.

Professor Hoppin has laid the American and Christian public under great obligation by his book on Old England. It is a most readable volume, and at the same time most valuable. In a style remarkable for purity and graceful flexibility he has given a great amount of information upon the great themes of his book. He is never tedious—just touches many subjects, sketches more, but suggests more than he says, and seems imbued with the very spirit and flavor of the men and things among which he moves. The effect of the book is like the companionship of a scholarly and Christian traveller.—*W. J. Budington, D. D., in New York Independent.*

For sale by all booksellers. Sent post-paid, on receipt of price, by the Publishers, H. O. HOUGHTON & Co., Riverside. Cambridge, Mass.

Mr. Howell's two books, "VENETIAN LIFE" and "ITALIAN JOURNEYS," are placed by the foremost English and American reviewers in the first rank of books of travel. Each $2.00.

W know of no single word which will so fully characterize Mr. Howell's new volume about Venice as "delightful."—*N. A. Review.*

Every sentence of this charming book is characteristic. Is the very model of what a light book of travels ought to be.—*London Contemporary Review.*

For sale everywhere. Sent free, on receipt of price, by H. O. HOUGHTON & Co., Publishers, Riverside, Cambridge, Mass.

"His book preserves the flavor and zest of the old-fashioned villages and farming towns, as they were before the four-horse stage-coaches had given place to the fiery locomotives of our day, and will recall to many readers the scenes of a past generation, among which they started on the race of life."

From a long review of the New York Tribune, of the picturesque book "HOMESPUN; OR FIVE AND TWENTY YEARS AGO." By THOMAS LACKLAND. Price $1.25. For sale by all booksellers, and sent free on receipt of price, by H. O. HOUGHTON & Co., Publishers, Riverside, Cambridge, Mass.

"We know no book," says the Congregationalist, of Dr. PEABODY'S "REMINISCENCES OF EUROPEAN TRAVEL," which would be a better preparation for a trip to Europe, or which will more pleasantly recall to any one on his return the pleasures which he enjoyed abroad." Price $1.50. For sale everywhere. Sent by mail, on receipt of price, by H. O. HOUGHTON & Co., Riverside, Cambridge, Mass., Publishers.

UNDINE.

The exquisite romance of "UNDINE" was intended by its author as the embodiment of the idea of Spring. With three other tales it made a round of the Four Seasons. Hard & Houghton's edition embraces these four, under the title, "UNDINE AND OTHER TALES." Price $1.50. Sold everywhere, and sent free, on receipt of price, by H. O. HOUGHTON & Co., Riverside, Cambridge, Mass.

SPEER'S SAMBUCI WINE.

CATAWBA, PORT, GRAPE and P. J. Sherry.

The above Wines are made by Mr. Speer, whose reputation as a wine grower stands pre-eminent. They are well established, and long known by the Medical Profession as the most reliable and valuable wines to be had.

Every family at this season should use

SPEER'S SAMBUCI WINE,

celebrated in Spain and Portugal for its beneficial qualities, highly esteemed by eminent physicians, used in European and American Hospitals and by the first families in Europe and America.

Excellent for weak and debilitated persons, the aged and infirm, improving the appetite and benefitting the tender and children.

AS A DIURETIC

It imparts a healthy action to the Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Complaints.

SPEER'S PORT GRAPE WINE

is pure juice of the Oporto Grape, recommended by Physicians as possessing medical properties superior to California or Imported Wines.

SPEER'S STANDARD WINE BITTERS

The Best and Most Reliable Tonic and Bitters in the market, which is always the CHEAPEST.

☞ None genuine unless the signature o "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

For sale by Druggists and Town Agents, who also sell Speer's Standard Wine Bitters.

A. SPEER, Proprietor,
VINEYARDS, Passaic, New Jersey.
JOHN LA FOY, Paris, Agent for France.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the United States Patent Office, Washington, under the Act of 1837.
No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of inventions and inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, had to contend with *twice rejected* applications, SIXTEEN APPEALS, SEVEN ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners before whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Boston, Jan. 1, 1869.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your case.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

Certain CURE in all cases or no charges made.

DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar, or they will not be answered.

Office hours from 8 A. M. to 9 P. M.
Boston, April 11, 1869. sodag 1y

J. R. KENDRICK, Supt.

FALL RIVER LINE

FOR New York, Philadelphia, Baltimore, Washington, and all principal points West, South and South-west.
VIA TAUNTON FALL RIVER AND NEWPORT.
Cabin, $5.00; Deck, $4.00.

Baggage checked through and transferred in New York free of charge.

New York trains leave the Old Colony and Newport Railway Depot, corner of South and Kneeland Streets, daily (Sundays excepted,) as follows: at 4.30 P. M., arriving in Newport 40 minutes in advance of the regular Steamboat Train, which leaves Boston at 5.30 P. M., connecting at Newport with the new and magnificent steamers PROVIDENCE, Capt. B. M. Simmons, and BRISTOL, Capt. Benj. Brayton. These steamers are the fastest and most reliable boats on the Sound, built expressly for speed, safety and comfort. This line connects with all the Southern Boats and Railroad Lines from New York going West and South, and convenient to the California Steamers.

"To Shippers of Freight," this Line, with its new and extensive depot accommodations in Boston, and large pier in New York, (exclusively for the business of the Line,) is supplied with facilities for freight and passenger business which cannot be surpassed. Freight always taken at low rates, and forwarded with despatch.

New York Express Freight Train leaves Boston at 1.30 P. M.; goods arrive in New York next morning without S. A. M. Freight leaving New York reaches Boston on the following day, at 9.45 A. M.

For tickets, berths and staterooms, apply at the Company's office at No. 3 Old State House, corner of Washington and State Streets, and at Old Colony and Newport Railroad Depot, corner of South and Kneeland Streets, Boston.

☞ Sunday Night Line. ☜

Cars leave every Sunday evening, at 6.30 P. M., connecting as above.

The Office, 3 Old State House, Boston, will be open every Sunday afternoon from 3 to 4 o'clock, and at the Depot from 9 to 10 A. M., and from 5 to 6.30 P. M., for sale of tickets and staterooms.

Steamers leave New York daily, (Sundays included,) from Pier 28 North River, foot of Murray Street, at 5 P. M.

GEO. SAWYER, Passenger & Freight Agt.

The Chronicle.

STORM TALK.—A correspondent of a Boston paper has some interesting speculations on the great gale. After noting that we learned by telegraph of a storm which began at Philadelphia at 7 P. M., Monday night, and reached New England in due season, so that the hurricane of Wednesday night passed away in the evening leaving the other prevailing storm to clear off at leisure during the night; he says it would appear that we had the phenomena of a storm within a storm, a hurricane or cyclone, of lesser though intenser magnitude, passing under or through a cyclone of larger diameter.

The hurricane, felt at its height in Providence about 5 P. M. on the 8th, struck Portsmouth at about 6, arrived in Portland about 8, and was next heard from at Bath and then still later on the Penobscot. Travelling in a circular course it was not felt in the Provinces.

Again, on the morning of the 13th the cable reports a devastating hurricane as sweeping over the north of France. From Providence to Boston, a little over an hour: from Boston to Portland two hours—from which a deducible rate is about 40 miles per hour for the speed with which the hurricane traveled. At this rate it would have required about three days to traverse the Atlantic.

Was not, then, our hurricane on time? May it not have come up on a tour of inspection from the Gulf of Mexico, following the trend of the coast, have crossed New England as above, and continued on for further exhibition of itself to the Old World? And are we now entirely sure of its riddance? May it not speed on with undiminished activity, like the man with the cork leg, never able to stop, till, at last, circling about the Pole, arrived over Symmes' hole, drawn by suction within, may there not be caused such unpleasant rumblings in the bowels of old mother earth as to cause her to evince disgust by a general upheaval of the surface in the form of earthquakes and other disgusting manifestations? Is the end yet? May not this explain earthquakes? The subject is a windy one.

☞ After the acquittal of Griffin, the engineer whose carelessness caused the fearful accident on the Erie Railroad, Judge Barrett rebuked the jury for rendering their verdict of not guilty and dismissed them with the following refreshing remarks;

"Your verdict was against law, against justice, and an outrage against humanity. You violated the obligations of your oath—a plain, simple obligation to render a verdict according to the evidence. Instead of that you rendered a verdict against every particle of evidence. The cause of the defendant was abandoned by his counsel. The theory of the defence is unknown to the law, and the counsel for the defendant did not believe it themselves. I was, and still am, astonished at your verdict. And I trust that the spirits of the dead, dying, bleeding and burnt victims of Mast Hope will rebuke you as long as you live. *We* have no power to cure the great wrong which you have inflicted on the community.

In future, I hope that you will feel a proper regard for your oaths. You are now discharged from any further duty at this court. You are not fit to sit as jurymen. I will not try causes before such a jury."

NEW HAMPSHIRE EXHIBITORS.—Among the entries of the Mechanic Association, whose eleventh exhibition is now being held at Faneuil and Quincy Halls, at Boston, we notice the following from New Hampshire: W. A. Currier, Exeter, corn-poppers and coffee-roaster; D. W. Bill, Gilsum, chopping trays; J. L. Pease, Laconia, hand hoe; W. I. Trafton, Portsmouth, miniature steam engine; J. T. Kendall, Concord, hubboring machine; G. W. Davis & Co., Nashua, steam engine of fifteen horse power; D. Arthur Brown & Co., Fisherville, axles; Page Brothers, Franklin, sides of lacing and rolls of belting; J. Burgum, Concord, device for keeping meats and pickles under brine; A. M. Stewart, Franklin, sides lace leather and cut belt lacing; Geo. Thompson, Nashua, endless belt saw; Charles Williams, Manchester, soapstone stove; Joshua Briggs, Peterborough, piano stools; Mrs. I. B. Hovey, Atkinson, ladies' work basket; Miss C. M. Patterson, Nashua, cotton stockings; Miss Amanda S. Ham, Rochester, rag rug; Miss Mary A. Adams, Portsmouth, affghan.

INTERESTING TO MOTHERS.—An eminent physician says that the white rubber used for nursing bottles and infants' toys is very poisonous, causing sore mouth, skin eruptions, decayed teeth, spinal curvature and death. In Europe the sale of it is prohibited by law.

It is settled that the baby of the future shall sleep in brass. The French doctors have decided that brass is the best cover-lid for the infantile baby, inasmuch as it has remarkable cleansing properties, and affords besides a very equable and pleasant warmth.—*Boston Herald.*

—George Springer, who attempted to throw off the train from Lowell to Lawrence, in May last, committed suicide in the Lowell jail, on Sunday night last.

PERRY DAVIS' PAIN KILLER,
as an internal remedy has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, dysentery, Asthma, it cures in one night, by taking internally, and bathing with it freely. It is the best liniment in America. Its action is like magic, when externally applied to bad sores, burns, scalds and sprains. For the sick headache and tooth ache, don't fail to try it. In short it is a Pain Killer. 4w27

DODD'S NERVINE AGAIN.
ANOTHER CERTIFICATE.
LEDYARD, CONN., April 3, 1869.
Accept thanks for calling my attention to DODD'S NERVINE AND INVIGORATOR. It has done me more good than any other medicine I ever took. I have gained twelve pounds in flesh, and am correspondingly better every way. It is an invaluable remedy.
8wa23 MRS. JOHN T. LEACH.

WHAT ARE
DR. J. WALKER'S CALIFORNIA
Vinegar Bitters.
THEY ARE NOT A VILE FANCY DRINK Made of Poor Rum, Whiskey, Proof Spirits, and refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetisers" "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, *free from all Alcoholic Stimulants.* They are the GREAT BLOOD-PURIFIER and LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell. $100 will be given for an incurable case, providing the bones are not destroyed by mineral poisons or other means, the vital organs wasted beyond the point of repair.
FOR INFLAMMATORY AND CHRONIC RHEUMATISM, AND GOUT, DYSPEPSIA, or INDIGESTION, BILLIOUS, REMITTENT, and INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS have been most successful. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.
These Bitters are not a gilded pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.
They are Alterative, Tonic, Diuretic, Sedative, Diaphoretic, and Gentle Purgative.
"The Life of all Flesh is the Blood thereof;" Purify the blood and the health of the whole system will follow.
R. H. McDONALD, J. WALKER, & CO., Proprietors,
San Francisco and Sacramento, California, and 32 and 34 Commerce St. (Commerce, a short street) running from Bleeker to Barrow), N. Y.

AVERILL CHEMICAL PAINT!
THE RIGHT THING AT LAST!
BENJAMIN NORTON,
Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of
THE BEST PAINT!
ever offered in this city.
It is Durable, Beautiful, Water Proof, Elastic and Economical.
This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.
It is prepared in pure White and one hundred Different Shades, and is unsurpassed in all respects.
It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.
Many testimonials from those who have used it in places of its superiority over other Paints might be given; but I will only invite those of this city and surrounding towns who intend using Paints, to call at the
GROCERY AND PROVISION STORE,
Nos. 16 & 18 Cabot Street,
which is the ONLY PLACE in the City where it has been used, and examine the Paint where it has been applied in ten or twelve different shades, and where they can choose any one they desire for use, outside or in, and buy from one pound upwards.
In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.
These Paints are manufactured in New York, and Newburgh, Ohio. BENJ. NORTON,
Agent for Chemical Paint Company.
Also for sale, at the same place, the Best Quality of
MEATS AND GROCERIES!
AS LOW AS CAN BE BOUGHT IN THE CITY.

Manufacturing Opticians,
my22 HARTFORD, CONN.

"Ingenio Stat Sine Morte Decus."
ROCKY MOUNTAIN BITTERS
IS a very superior Regulating Tonic, imparting vigor and strength to the constitution—a thoro'
PURIFIER OF THE BLOOD,
a regulator of nervous force, and a powerful sustainer of health against the encroachments of disease.
The invalid and convalescing seeking restoration, and yearning for the healing virtues of some magic balm, will find in these Bitters a hidden mysterious power, which QUIETLY RESTORES, yet resuses to reveal to the senses anything but taste and color.
It is a pleasant Bitter, free from all nauseous properties odor, entirely vegetable, being mainly grown at the base of the mountains from which they derive their name, and is particularly adapted to all forms of
DYSPEPSIA OR INDIGESTION,
manifesting themselves by the following symptoms: headache, nervousness, loss of memory, low spirits, giddiness, dimness of sight, dullness of hearing, and ringing noises in the ears, eructations, of belching of wind, tightness of breathing, weight and oppression of the chest, uneasy feeling about the heart, palpitation, &c.
Also for Liver Diseases, Disorders of the Kidneys, Dissuseases and loss of Muscular Power these Bitters will be found almost a specific; as a preventative of
FEVER AND AGUE,
or a restorer of the natural powers of the system, when broken down by continued ague attacks; it has no equal.
Being stimulating, (but not intoxicating), they refresh and invigorate both mind and body, heighten the sensibility, clear and sharpen the faculties, and bestow alacrity and cheerfulness of spirit.
CAUTION.—There have been, and still are several parties manufacturing and selling so-called "Laugley's Bitters," many of which are worthless. As a guide against such, I would say that in 1865, I secured my copy-right, in the United States Court, a trade mark and name, "Rocky Mountain Bitters," and all Bitters of my manufacture are put up in *dark, long neck, quart bottles* with red label printed with gold; also, direction label, bearing my seal and directions printed in red, with a red cap and my seal printed in gold, over the cork. Beware of a fill others, and ask for **"Rocky Mountain Bitters."**

The Daily Chronicle.

Portsmouth, N. H.

THURSDAY, SEPT. 30, 1869.

The News.

Two-thirds of the village of Port Dalhousie, at the Lake Ontario end of the Welland Canal, was destroyed by fire, Tuesday.

Collector Wilcox of Virginia reports the seizure and destruction of thirteen illicit stills and the arrest of twelve men in one week.

A Labor Reform Convention in Massachusetts has nominated Mr. F. E. Chamberlain of Boston for Governor.

Republican prospects brighten in Ohio and Pennsylvania.

The new minister to China is ex-Governor Low, of California. He was a member of the 37th Congress, and is a strong and able Republican.

Secretary Boutwell has ordered awards for the government sale of gold to the extent of $897,000, at prices ranging from 130 to 132 1-2.

Rev. Geo. H. Hepworth has left Boston to preach in New York.

A very gloomy feeling prevails in Wall street, which is intensified by flying rumors that some large firms which have been in a state of partial suspension for some days would not be able to resume. Distrust prevails generally and almost every one is looking to the future with fear and trembling.

Another small Cuban expedition is said to have left New York.

New Hampshire Items.

The last stones of the Portland Custom House, were sent from the Concord Granite Company, last week. The Company has been at work on the Custom House about a year and a half, and has turned out some elegant work for it. There is no handsomer building material in the country.

At two brick-yards in close proximity to each other in Hooksett,—that of Jesse Gault, and Natt & W. F. Head,—there have been over 2,700,000 brick manufactured at each, the present season, which sold at the kiln for $8.25 per thousand.

N. B. Bryant, Esq., of Boston, has purchased the residence of Willard Williams, on Main street, in Concord, and intends taking up his residence here about the first of November.

Mr. Calvin Eaton has an Agriculturist Strawberry plant in his garden at Concord which has one large ripe berry, five out of blossom, and one full blossom,—a second crop this season.

Hon. Moses Hodgdon, of Weare, raised this year 152 1-2 bushels of oats from four bushels of seed. The secret was in the culture, not the variety.

The Milkmen of this State have reduced the size of their quart measure, in accordance with the new law upon the Subject. Eight quarts of the old measure makes nine and a half of the new.

THE STATE FAIR.—The fifteenth annual New Hampshire State Fair and Farmers' Festival was commenced in Manchester, Tuesday, and bids fair in all departments, barring the mechanical, to outshine its predecessors.

In the trot for 2:50 horses, S. M. Buchanan's bk. s. Morrill Prince won first money, after six heats; Geo. H. Pierce's Gen. Hancock of Dover the second, and Nellie Moody third.

At the end of the fifth heat by some mishap, the sulky of Black Prince was run into that of Gen. Hancock and a wheel of the latter was knocked off. In the collission, Black Prince fell heavily upon the track, throwing his driver, Aldis Walton of Wakefield, Mass. The driver of Gen. Hancock, John Wiggin of Dover, was also thrown out and dragged over the track. He was bruised somewhat, but drove in the next heat. Gen. Hancock ran a part of the way round the track, when he was seized by his owner, Col. Pierce.

The second race was for a purse of $50, between four year old colts, but only two horses took part therein, viz: Sorrel gelding Bully of the Woods and bay stallion Shakespeare. This race was a very one-sided contest, the stallion having everything his own way, winning quite easily in 3:18, 3:16 3-4, 3:19.

THE ROCKINGHAM COUNTY FARM is ready for company; and the removal to this institution of such persons as are dependent on the County for support, will commence immediately. The idea has obtained to some extent, that *all* paupers requiring more than temporary assistance, will be sent to the County Farm. This is an error; as we learn from Commissioner Leavitt that only county paupers will be required to go there.

—Hon. Wm. C. Patten of Kingston has a five year old colt he calls Natt Head.

For the Chronicle & Gazette.

CANNING FRUIT.—I have made three careful experiments lately in canning *water*, and I made them in the interest of the readers of the Chronicle and the Gazette. I have made them with only (1) glass jars, (2) with glass covers, (3) with an appliance to hold the cover down, and (4) with no metal coming in contact with the contents of the jar. I have taken no jar from which (6) the mechanical pressure could not be removed without disturbing the cover, (6) none into which air could not be admitted by pushing in a pin between rubber and glass, and lastly, (7) that could not be filled to overflowing. And I have found each trial perfectly satisfactory, and the cover as fast as if soldered. In the first case I have gone to Williams, at the green sign in Union St., Boston, and when he was short I went elsewhere and took a Hilton.

Now, good housekeeper, see me can something else, say tomatoes. We boil our fruit thoroughly in something that will not injure it; say, a porcelain kettle. In case of tomatoes we will drive off as much water as we can. Now beneath the surface of this boiling mass there is no air. So we will take a jar with the seven requisites; set it into a tin pan; pour in a little cold water; then a little boiling water, not touching the glass with the stream; put on the cover and shake it. A little more boiling water and another shake. Pour half the water into the pan, add more boiling water and give another shake. Again. Now the jar will bear boiling water from top to bottom. Empty it into the pan, and put in all the parts of the cover.

Now set your tin pan, jar, covers and all, near your boiling fruit, with boiling water also within reach. Dip fruit into the jar in no hurry. If it wants to cool, let it; but dip in only what is boiling. Get to the top before the glass there will break by boiling liquid. At an eighth of an inch, stop. Put on a little circle of stiff, clean paper. No hurry yet. Lastly, pour on boiling water till the jar runs over and every bubble is washed off; then instantly clap on your glass cover with its rubber ring, and apply the external pressure. If it be a collar or screw, follow it up as the jar cools. There is not a particle of air, or steam even, in the jar, if your cover be convex on the under side; but, when cool, you will see a vacancy there. The paper was only to keep from washing out the juice when we poured the water in.

Next day take off the collar, strap or screw. Pull off the cover if you can, and heat the jar and seal it as before. But if all is right you will not be able to pull off the cover, though you lift the whole jar by it. Replace the collar or strap, so as not to lose it, and set it away without fear. Some jars are defective, will not seal perfectly, and must be sent back.

My last experiment, the Hilton, stands by me now. I have lifted the two quarts of water by the cover. My only objection to this individual cover is, that it left under it a fiftieth of a cubic inch of air or steam,—a matter of little moment, but theoretically a needless imperfection. I. F. HOLTON.

THE ST. CLOUD HOTEL is a new building lately erected at the corner of Broadway and Forty-Second Street, New York. It is a handsome structure, and contains all the modern improvements. The location is one which will prove most desirable to the travelling public, being near the Union depot. Messrs. T. B. & J. H. Rand, the proprietors of the Parks house in Boston will soon open the new hotel on the European plan.—Their ability has been well demonstrated during their several years' experience in Boston, and the St. Cloud will prove a welcome resort for many from this section while visiting New York. They are young men of enterprise and sagacity, faithful to their business, and always studying to meet the wants of their patrons. With an enlarged field for the exercise of their capacities, they cannot fail to enjoy the success they so richly deserve. New York has claimed many young men from Boston and east, who occupy responsible positions in various branches of business. The St. Cloud is now added to the lists of places in which Bostonians and down easters have a peculiar interest.

☞ Surgeon Eckstein testified as follows at the Seely Court Martial at Charlestown Navy Yard, Tuesday.

"The reason why O'Brien's condition was not reported by me as soon as I was aware of it. was because I thought the punishment had been ordered by Lieutenant Seely, and considered it would be equivalent to reporting Seely, which I did not wish to do."

☞ Vesical hemorrhoids is said to be Napoleon's trouble.

☞ Vaccination and the gold panic agitate New York.

☞ The consul-general of Switzerland recently paid a visit to a Swiss colony or settlement in Grundy County, Tennessee. The tract they occupy embraces nearly ten thousand acres of land, producing an abundant growth of yellow pine, holly, laurel and other woods, which the Swiss carvers delight to work up into toys and domestic implements. Some of the colonists have sufficient means to engage at once stock raising and grape growing. The land they own was bought for fifty cents an acre, is within twelve miles of Tracy City, and the settlers have access to coal and water-power enough to run the machinery in Tennessee for fifty years to come.

MASSACHUSETTS EDITORS.—The editors and publishers of Massachusetts elected a permanent organization at Worcester, on Wednesday. The following officers were chosen: President, Stephen N. Stockwell, Boston Journal; Vice Presidents, F. B. Sanborn, Springfield Republican; George S. Merrill, Lawrence American; Recording Secretary, C. H. Lyman, Holyoke Transcript; Corresponding Secretary, J. A. Dresser, Webster Times; Treasurer, C. H. Woodwell, Worcester Gazette. The officers were instructed to call a meeting of the Association in June next, for social and business purposes.

DEDICATION BY PROXY.—The dedication of the new Robinson Seminary building, took place at Exeter last week. It was intended that the dedicatory services should be held on the Seminary ground; but unfavorable weather prevented, and the programme was carried out under cover of the Town Hall building! Hon. Amos Tuck, President of the Board of Trustees, delivered an address, and was followed by Hon. Charles H. Bell.

GOOD JUMPING,—Kate Murphy and Maggie Fisher, indulged in a jumping match at Savin Hill' Dorchester, Mass., for $150 a side, and in the first jump Kate cleared 10 feet 9 inches; on the second, 11 feet 2 1-2 inches. Maggie's first jump measured 10 feet 7 1-4 inches; on the second trial, she cleared 10 feet 8 1-2 inches.

☞ Protecting the toes of children's Shoes from wear by Metal Tips, has proved a most important and useful invention. But until lately a great mistake has been made in applying them chiefly to the coarser grades of shoes. For the higher the cost of the shoe the more there is saved by protecting the toe from wear, which can only be done by a Metal-Tip. Genteel Metal-Tipped shoes are now being made and are worn by the best families in the city. Manufacturers could not have conferred a greater public favor than by supplying this great want.—*Boston Journal.*

—A collection of twenty-five pins very well made, has just been placed in the Louvre. They were found in the subterranean vaults of Thebes and were made three thousand years ago, showing that the modern invention is only a re-invention.

—In some parts of Wisconsin the whole population is at work gathering cranberries. The yield is larger than for several years past.

—Times are getting squally in Buffalo. They have over three thousand babies there under the age of seven months.

—Great herds of cattle have been driven from Iowa to spend the winter on the prairies of Southern Illinois.

—In a New Orleans public square is a date tree loaded with bushels of fruit which is now rapidly ripening.

—A Tennessee apple tree has yielded this year ninety bushels of fruit of excellent quality.

—A thirty-four pound mackerel is the latest achievement of the Pacific coast.

Keep the Body in Good Repair.

It is much easier to keep the system in good condition than restore it to that condition when shattered by disease. The "House of Life," like other houses, should be promptly propped up and sustained whenever it shows any sign of giving way. The first symptom of physical debility should be taken as a hint that a stimulant is required. The next question, "What shall the stimulant be?"

A wholesome vegetable tonic, the stimulating properties of which are modified by the juices and extracts of anti-febrile and laxative roots and herbs,—something which will regulate, soothe and purify, as well as invigorate,—is the medicine required by the debilitated. There are many preparations which are claimed to be of this description, but HOSTETTER'S STOMACH BITTERS, the great vegetable preventive and restorative which has been by its way to the confidence of the public and the medical profession by a quarter of a century of unvarying success, stands pre-eminent among them all. Do expatiate in its popularity would be to repeat a twice-told tale. It is only necessary to consult the records of the United States Revenue Department, to be aware that its consumption is greater than that of any other proprietary remedy of either native or foreign origin.

As a means of sustaining the health and strength under a fiery temperature, the BITTERS have a paramount claim to consideration. It has the effect of fortifying and bracing the nervous and muscular systems against the ordinary consequences of sudden and violent changes of temperature, and is therefore peculiarly useful at this season, when hot sunshine by day, and ice-cold dews by night, alternately heat and chill the blood of those who are exposed to them.

HOSTETTER'S STOMACH BITTERS are sold in bottles only. To avoid being deceived by counterfeiters, see that the Trade Mark Article is on the label, and embossed on the glass of the bottle and our revenue stamp over the cork.

Ellis' Iron Bitters

Will enrich the blood and prevent it from becoming watery and weak, give a healthy complexion, restore the appetite, invigorate the system, and are very palatable. These Bitters are recommended by all persons requiring a safe and valuable tonic, to impart tone and strength to the system, not given by Bitters merely stimulant in their effects; which, although they may possess tonic vegetable properties, cannot give the strength to the blood which the *Iron Bitters* will give.

Prepared by Wm. Ellis, Chemist. For sale in Portsmouth by WILLIAM R. PRESTON; by Weeks & Potter, Wholesale Agents, 170 Washington Street, Boston; and by Druggists and Grocers generally. mh29eod6md

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and thereby producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet, which can be had of the agents where the medicine is for sale. d25

☞ PERRY DAVIS & SON, Providence, R.I., general wholesale Agents for the Eastern States.

TO OWNERS OF HORSES AND CATTLE.

TOBIAS' DERBY CONDITION POWDERS are warranted superior to any others, or no pay, for the cure of Distemper, Worms, Bots, Coughs, Hide-bound, Colds, &c., in Horses; and Colds. Coughs, Loss of Milk, Black Tongue, Horn Distemper, &c., in Cattle. They are perfectly safe with any kind of food or milk of cows. Try them and you will never be without them. The late Hiram Woodruff, celebrated trainer of trotting horses, used them for years. Col. Pillo, P. Bush, of the Jerome Race Course, Fordham, N. Y., would not use them until he was told of what they are composed, since which he is never without them. He has over twenty running horses in his charge, and for the last three years has used no other medicine for them. He has kindly permitted me to refer any one to him. Over 1,000 other references can be seen at the Depot.

Sold by Druggists and Saddlers. Price 25 cents per box. Depot, 10 Park Place, New York. au19

PAIN KILLER.

MANHATTAN, KANSAS, April 17, 1866.

MESSRS. PERRY DAVIS & SON,

Gentlemen:—* * * I want to say a little more about the Pain Killer. I consider it a very valuable medicine, and always keep it on hand. I have traveled a good deal since I have been in Kansas, and never without taking it with me. In my practice I used it freely for the Asiatic Cholera in 1849, and with better success than with any other medicine. I also used it here for Cholera in 1855, with the same good results.

A. HUNTING, M. D.

* * * "I regret to say that the Cholera has prevailed here of late to a fearful extent. For the last three weeks, from ten to fifty or sixty fatal cases each day have been reported. I should add that the Pain Killer sent recently from the Mission House, has been used with considerable success. I believe it to be a specific and genuine remedy, it is generally effectual in checking the disease.

Rev. CHAS. HARDING, Sholapore, India." au20

MANUFACTURED BY HOPKINS & CO., Proprietors of the Celebrated CATARRH TROCHES and the ELECTRIC HAIR RESTORER, 138 MAIN STREET, CHARLESTOWN, MASS. For sale by all Druggists. ja18

DAVID RODRICK, Hair Dresser, Congress St., Agent in Portsmouth for the sale of Hopkin's Electric Hair Restorative.

Batchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. Sold by all Druggists and Fur famers, and properly applied at the Wig Factory 6 Bond Street, New York.

CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS for Diseases of the Liver, or to act as a gentle Purgative.

All of these three medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills assist in regulating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These medicines are conscientiously offered to the public as the only safe, certain and reliable remedies for Pulmonary Consumption, and for all those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long probation before the public. Its value has been through a period of more than thirty-five years, in all of which time its reputation has constantly increased, and the most obstinate dispticism can no longer doubt that it is a remedy which may be used with confidence in all cases of which admit of a cure.

The patient will unreservedly follow the directions which accompany each bottle, he will certainly be cured, if his lungs are not too much wasted to make a cure possible. Even in cases supposed to be incurable, when friends have to stand by and general debility, even to such a degree that they are obliged to lie in bed, and when they are given up by their physicians, they may still be cured. No medical treatment can create new lungs, but when the lungs are very badly diseased, and to some extent destroyed, a cure may be effected by Dr. Schenck's medicines.

Also in Scrofulous diseases these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores, and who are now healthy. This shows its purifying properties, which must be done to heal cavities in the lungs.

In the treatment of Consumption, it is of the utmost importance to give vigor and a healthy tone in the system. Hence it is necessary to strengthen the appetite of the patient and to improve the digestion. Proper nourishment is required, together with such means as will make the food easily digestible. The sea weed preparations for the diet of consumptive patients are designated in Dr. Schenck's Almanacs, which are distributed gratuitously. In general the most nutritious articles are to be preferred; but the digestive organs must be strengthened in order to make either food or medicine serviceable. This requirement is met by the Sea Weed Tonic, and for this purpose it was designed.

When the digestive powers are put in good order, the food has its proper effect, the blood is made, the patient is invigorated, and the lungs begin to exercise their functions in a normal and healthy manner. Then the healing powers of the Pulmonic Syrup will complete the cure.

Pulmonary Consumption is almost always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills are intended to remove obstructions from the liver and restore its healthy action. They have all the effects which are ascribed to calomel or "blue mass," and are warranted not to contain a particle of any mineral poison. These pills cure the three most obstinate costiveness, sick headache, piles, billious affections, and all other diseases which arise from a torpid or obstructed condition of the liver. One box of these pills will prove the efficacy of the medicine.

In Consumption, the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines. They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. These have been found useful in advanced stages of Consumption, where the lungs were almost entirely destroyed, and all symptoms, according to the judgement of physicians, indicated speedy death. Lives of patients who were actually in a dying condition have been preserved for months by the use of Schenck's three great remedies.

DR. SCHENCK'S Almanac, containing a full treatise on the various forms of disease, his mode of treatment and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North Sixth Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggist and dealers.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been achieved. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as confectionery, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the medicinal properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative properties is so skillfully concealed, that in our art, their virtues remain as active and potent as ever.

In Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy, and the irregularities to which the female sex are peculiarly liable, it is specific and genuine superlativ, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopoeia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

Wholesale agent, John F. Henry, No. 8 College Place, New York City.

PECULIAR ADAPTABILITY, Brandreth's Pills.

Their peculiar adaptability to all constitutions as cleansers of the bowels and the blood has established their great merit. They restore the liver, the spleen and even the heart to healthy action when other remedies have been used without producing any benefit. They do not expose those who use them to any danger, being as safe as salutary.

Extract from Letter to Dr. Brandreth, from C. J. Fay, Esq., P. M., Hammonton, N. J.

"In 1836 I was in poor health, and my friends as well as myself supposed that my earthly voyage would soon terminate. But after taking one box of Brandreth's Pills, I began to feel better. Well, six when I had used twelve boxes I was a well, healthy man—my weight having gone from 131 pounds up to 152 pounds. I then ordered a supply, and between that time and the present I have retailed three thousand dollars' worth of these invaluable pills, and am quite sure that I have thereby been instrumental in saving thousands of lives.

Yours, truly, C. J. FAY, P. M."

Sold by all Druggists. Observe my name in white letters in the government stamp.

au20 B. BRANDRETH.

Holloway's Pills.—More than two-thirds of the sickness which occurs in the summer proceeds from a disordered condition of the liver. Persons of a bilious habit suffer most in warm weather. They are languid, low spirited troubled with pain in the side, head-ache, and a constant feeling of weariness. The immediate and certain remedy for these symptoms, and all others proceeding from biliousness, is HOLLOWAY'S PILLS. Of all anti-bilious medicines they are safest, surest and best. Sold by all Druggists. s6

BOY WANTED at ROWELL & HUTCHINSON'S Jewelry Store, Market Square.

LOCAL AFFAIRS.

☞ The City is laying a stone tube sewer in Vaughan Street—long needed.

☞ How many Lyceum Course tickets can be sold in Portsmouth this season?

☞ September leaves us with to-day, and then yonder comes the brown October, nodding on.

☞ Trafton's private Course of Assemblies commences this (Thursday) evening at Irving Hall.

☞ One of the greatest and most urgent needs of Portsmouth, is more good tenements at a moderate rent.

☞ Government employees are engaged in putting new copper roof on the Custom House and Post Office building.

☞ Twenty five California beets make a ton. Twenty five Portsmouth beats make a living without any visible means of support.

☞ We regret to hear of the serious illness of Cedric Laighton, one of the proprietors of Appledore. His hosts of friends all over the country wish him a speedy recovery.

☞ The fine Ayrshire Cattle of C. Hayes & Son of this city, were taken per the C. & P. R. R. to the State Fair on Tuesday, by Mr. Ephraim Pickering of Newington.

☞ A new street Pump, with dipper for man and tub for beast, has been placed between the willows on South Summer Street, for public accommodation. The Springs there never shrink or freeze, and the water is of the purest quality.

☞ Meeting of the City Council this evening. It is understood the Common Council are called by the Mayor, at request of several of the Aldermen, to consider the Summer Street grade and appropriation, relative to the injunction, and other matters,—their first meeting for several months.

☞ Steve of the Portland Press has been attending the Piscataqua Fair at Portsmouth, and pronounced it a success. He says the farmers thereabout are "great on oxen and bulls" but make a poor show of cows. Steve thinks the cow deserving of the farmer's best intention.

STAND FROM UNDER. — There is an elm tree on the corner of Fleet and Hanover streets, from the top of which hangs a limb, broken nearly off by the big breeze. It is not very large, but is pretty high up; and may cause a funeral if allowed to find its own way to the ground;—lots of little boys play round that way.

☞ The fourth National Trotting Fair is now in progress at the Mystic Park, Boston. On Tuesday, in a trot for horses that never beat 2:50, Mr. F. Jones' ch. m. Lady Emma of this city was 2d in the first heat, in a field of ten horses, which was won in 2:34; but after being 5th and 4th in the next heats, she was distanced in the fifth heat. She is a nice little trotter, sure.

GOOSE RACING seems to be gaining in popularity; it is a western novelty and is rapidly becoming acclimated to a more civilized atmosphere. Chicago has had it ludicrous and interesting, and we hear a race talked of on one of our mill ponds, between a couple of tandem goose teams, which will attract thousands of spectators if the parties interested do not fail to carry out their novel programme.

COMPLIMENTS. — We acknowledge with pleasure the receipt of invitations to the New Hampshire State Fair, at Manchester this week; the Veteran's Levee, at the same city next week; the Massachusetts Mechanics' Fair in Boston, and the New York Mechanics' Exhibition, — now open; the second annual Horse Fair at Providence next week, and various other public gatherings.

☞ It is not an uncommon event for sea-sick passengers to lose false teeth overboard,— one of our city dentists having replaced four such cases with new plates last season; but how any one could lose their teeth at a Fair is not so clear. This was done at the Piscataqua Fair last week, however; and the plate can be secured by the owner calling at the Chronicle Office. Also a piece of needle-work entered by Miss Katie Stevens, unknown, awaits the owner.

New Publications.

Arthur's Home Magazine — Once a Month,—and the *Children's Hour*, for October,—three of our very best monthlies: Philadelphia, published by T. S. Arthur & Sons.

☞ Fiske's profits by the gold gambling are said to be $30,000,000.

☞ An examination of the sheets of the Wentworth Memoirs, now being printed for the family, shows Lady Byron's connection with the old and distinguished family of Wentworth. Her great ancestor was Reginald Wentworth, Lord of the Manor of Wentworth in Yorkshire, A. D. 1066, who is the common ancestor of the Wentworth families in England, and the branch in New Hampshire. From Lady Anna Wentworth, who married John, Lord Lovelace, was descended Lady Anna Isabel, daughter and heir of Sir Ralph Milbanke, and granddaughter of Sir Edward Noel, Baronet, Lord Wentworth. Lady Byron became Baroness of Wentworth in 1856.

☞ A special to the Boston Herald says a fire broke out Tuesday morning in the stable of Harrison S. Smart of Newmarket. The stable was total ly destroyed. Mr. Smart's celebrated Durham bull, which he had recently exhibited at the New England Fair at Portland, 12 cows, a pair of horses, a yoke of oxen and 60 tons of hay were also destroyed. The fire is supposed to have been set by an incendiary. Mr. Smart was intending to exhibit his bull and other stock which was consumed, at the State Fair.

☞ A Physician by smoking or drinking, must in this practice neutralize considerable of the good tendency of his legitimate practice. Just as a leader or teacher in any department of life, may by example defeat the otherwise good effect of many a precept, Lamentable indeed is it, to see schoolmasters, physicians or clergymen addicted to tobacco or rum.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Chronicle office. Price 5 cts. per copy—$2. per year. Contains *all* the Local and other reading from the Daily Chronicle.

ROCKINGHAM COUNTY FAIR. — The News Letter says the Exeter Fair "was one of the most successful ever held in the county, both as regards the show itself, which was good when we consider the season and the drouth, and the shortness of time taken to make requisite arrangements, (in the face of an apathy wholly unaccountable,) on the part of a very few. * * * We hope to give a better report from more distant towns next year."

Town teams—First premium of $15, to south Newmarket; 2d, of $10, to Kensington; 3d, $10, to Exeter; 4th, $10, to Stratham.

Best team owned and entered by one man, $5, C. A. Evans, Kensington; 2d best $4, Edward Giddings, Exeter.

Trimmed Wagons—First premium of $10. to South Newmarket; second, of 7, to Kensington.

Plowing—Best exhibition of plowing by ox teams, $10, E. Giddings, Exeter; 2d best, 7, C. A. Evans, Kensington; best with horses, 7, Oliver Brown, North Hampton; 2d do. 5, to James R. Leavitt, North Hampton.

Veronique, a romance by Florence Marryatt is received. It is the latest of the popular Railway novels issued by Loring, Boston. Price, 75 cents. For sale by S. F. Shores, Jr., at the Congress Block Book Store.

A PACIFIC RAILWAY

GOLD LOAN $6,500,000.

We beg leave to announce that we have accepted the agency of the
KANSAS PACIFIC RAILWAY COMPANY,
For the sale of its

NEW SEVEN PER CENT.
Thirty Year Gold Loan,
Free from Tax.

This Loan amounts to $6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds,

secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles, of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon the Road, the Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,

And in successful operation for 437 miles

west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as

A SINKING FUND FOR THE REDEMPTION OF THE BONDS.

The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the

Value of the Company's property, covered by this mortgage at $23,000,000 net, while the Loan is merely $6,500,000.

The Bonds have

THIRTY YEARS TO RUN,

from May 1, 1869, and will pay

SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be

PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:

On $1,000 Bond in N. Y. $35 (gold) each half year.
" London....£7 85. 10. "
" Frankfort..8f fir. 30 krtzs., "

The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a

FIRST CLASS INVESTMENT,

in every respect perfectly sure, and in some essential even

Better than Government Securities.

The Bonds will be sold for the present at

96, *and accrued Interest, both in Currency,*

the Agents reserving the right to advance the rate.

The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

Pamphlets, with maps giving full information, sent on application.

PICNIC BASKETS,
For sale by B. A. STEVENS.

Morning Chronicle.

THE GOOSE RACE IN CHICAGO is said to have been the great sporting event of the season. It was funny, and, better still, it was free. Consequently, a crowd numbering at least 10,000 people were on hand to witness the novel affair.

On the day previous eighteen full-grown geese were "rented" of an old lady at the Stock Yards, who required a deposit of two dollars each as collateral, and a similar amount for the service of the number. They had no training whatever further than that conferred by nature—to stick together and go straight ahead. True to their proverbial unreliability some of them went back on this even. The terms of the match required each of the drivers to sit in an ordinary wash-tub and be drawn by three pair of geese. Let no one infer from this that one's self in a wash-tub in the water and one's equilibrum are easily rendered compatible. It is not the case. A man's weight will not sink the tub, to be sure, but let him vary so much as the thousandth part of an inch from an absolutely perfect perpendicularity and he gets spilled to a certainty. To obviate this difficulty the goose drivers resorted to an ingenious contrivance, which consisted of a platform of inch pine boards about three and a half feet wide and five feet long, in which was made a circular hole large enough to slip through a tub. To this float was attached a pole with cross bar at the extreme end, from which were tightly stretched laterally two stout cords on either side, between which the geese were tied by the wings and as firmly secured as a horse between the shafts of a wagon.

When ready to start the driver got in the tub, which was then tightly wedged in the float, and there was no tipping over, the float sinking a few inches below the surface of our sight. Considerable delay ensued in properly harnessing the geese and arranging the tubs. Bob Hart was the first to get his six-in-hand hitched up, and so while the other two—George Morris and Jim Maas, of the Winter Garden, were getting ready he turned out to exercise the team. He got along first rate, barring a good deal of flutter and flopping at first, and would have showed off to excellent advantage but for the embarrassment occasioned by the several hundred boats which had been hired by spectators, and which literally covered the surface of the basin. In dodging about them Bob's tub worked loose from its float, and he was obliged to swim back to the shore and make fast again, which he did in short order, and soon after three o'clock everything was in readiness for the race.

Billy Emerson had been selected as Morris' umpire, Mr. Boyd for Hart, Mr. McHale for Maas, and Mr. Dratt, manager of the Winter Garden, acted as referee. A roomy yawl was provided for these officials, who kindly tendered the reporters a place in the boat. Each of the drivers were in light costume—hat, shirt, pants and stockings — ready to swim if necessary. Their forethought was amply justified anon. A long carriage whip, with which to urge on or alter the course of the geese, and a paddle to steer the craft, comprised their accoutrements. Morris drew the pole, Maas the middle and Hart the outside. An entirely even send-off was effected at once, and away they started, accompanied by the boat of the umpires, referee and reporters, who were sufficiently close to enforce fair play. Morris and Maas at once pushed for the front, and their urging resulted in a series of bad breaks. Maas' on-wheel goose lost her feet wholly, turning a somersault and coming up facing the driver. She couldn't be brought to work again, but swam backwards for a long distance, to the serious impediment of the rest of the sextet. Bob, like an experienced jockey, took the matter cooly, simply administering an occasional punch to a refractory goose and soon had gained a strong lead over both the others.

But Morris was not idle. His team had a weakness for the shore, and his assiduous efforts with the paddle, necessary to keep them in the water, helped him to that extent that he was enabled to overhaul Bob and go to the front. Bob saw his disadvantage and declared the excessive paddling to be "foul," but by no means "fowl." "George is no goose," said Bob, "and I bar his paddle." But there was no choice; George must either paddle or be ignominiously towed ashore against his will, and so Bob's protest was unavailing. Maas, whose perverted wheel goose had placed him badly in the rear, having somehow contrived to change ends with the recalcitrant bird, now showed an extraordinary burst of speed and was fast closing the gap. Had the remaining distance been greater, he would have seriously endangered the success of the others.

As it was, the contest rested between Morris and Hart, the former having a slight lead. Bob called upon his white thoroughbreds for an extra effort, and it was intensely ludicrous to see the earnestness with which they seemed to respond. They actually "took turns." First, the middle pair would vigorously ply their web feet for a minute, perhaps; then the leaders would dig in for dear life, to be in turn "spelled" by the wheelers. But all would not do. Morris' gray team were good stayers, and he steered to excellent advantage, it must be confessed. He reached the end of the 300 yards about four feet ahead of Bob, Maas being about two lengths in the rear. Time, seven minutes and thirty seconds. A hearty cheer went up from the crowd, and the goose race was at an end.

Ad Morris and Hart attempted to land from their tubs, both capsized and fell into the water. Being good swimmers they were not in the least alarmed, and the incident would have had no more serious result but for the fact that Bob, in trying to get into a boat near by upset it and its occupants, two of whom swam to the pier, while the third attempted to climb into the official boat. Billy Emerson, fearful of another overturn, made a "jumping jack" leap into the nearest boat, almost capsizing it in turn. No more casualties of the kind occurred, however, and beyond the wetting nobody suffered any damage.

The umpires and referee, after canvassing the various features of the race, at the time rendered their decision as follows:

LAKE FRONT BASIN, CHICAGO, Sept. 23, 1869. — Race for sweepsteaks of $200 between sextuble goose teams, dash of 300 yards, to wash tubs.

George Morris enters gray goose Anna Dickinson, and mates, sired by their respective progenitors and dammed by all the neighbors in the vicinity of their birthplace. 1

Bob Hart enters white goose Formosa and mates pedigree unknown, but believed to be disreputable. 2

Jim Maas enters blue goose Queen Isabella, and mates, pedigree forgotten. 3

Time, 7:30.

—Much of the popularity of the Martha's Vineyard camp-meeting grows out of the fact that it is such a pleasant pic-nic ground and summer resort. An observer counted 763 croquet sets on the camp-ground this summer. But the click of the mallets is forbidden during camp-meeting time proper.—*Advance.*

—When a man draws a crowd in New Orleans by preaching in the street he is arrested and fined.

—The Harvard defeat was four-oar-dained.

NEW BOOKS! NEW BOOKS!!

HURD & HOUGHTON, Riverside, Cambridge, publish the following:

DARLEY'S SKETCHES.

We strongly recommend our readers to procure the book. It is written with the buoyant spirit of a man who is enjoying himself thoroughly with the discrimination of one who can duly appreciate the treasures, the antiquities, or the novelties that are shown to him.—*London Exam.*

SKETCHES ABROAD WITH PEN AND PENCIL. BY FELIX O. C. DARLEY. With 15 full-paged and 74 smaller illustrations on wood. A new edition, with three additional vignettes, and printed on toned paper. In 1 volume, 4to. Price in cloth, $3.50; cloth, gilt, $4.00; morocco, $8.00.

Mr. Darley seems at his happiest here, and his pen has pleasantly done the little work pencil could not do. Europe has been an inspiration to him. *Atlantic Monthly.*

H. O. HOUGHTON & Co., Riverside, Cambridge, Mass. For sale by all booksellers.

MOZART'S LETTERS. 2 volumes. $2.50.
BEETHOVEN'S LETTERS. 1 volume. $2.00.

The best exponent of music is the life of the music-writer and these letters are the most truthful and satisfactory representations of the life of these great men. Portraits are prefixed to the volumes.

The Letters Mozart, giving us at once a view of his inner life and a glimpse at social life in Germany nearly a hundred years ago, will be doubly prized. They are nearly all written in a light, long carriage whip, with which to urge on or alter the course of the geese, and a paddle to steer the craft, comprised their accoutrements. Morris drew the pole, Maas the middle and Hart the outside. An entirely even send-off was effected at once, and away they started, accompanied by the boat of the umpires, referee and reporters, who were sufficiently close to enforce fair play. Morris and Maas at once pushed for the front, and their urging resulted in a series of bad breaks. Maas' on-wheel goose lost her feet wholly, turning a somersault and coming up facing the driver. She couldn't be brought to work again, but swam backwards for a long distance, to the serious impediment of the rest of the sextet. Bob, like an experienced jockey, took the matter cooly, simply administering an occasional punch to a refractory goose and soon had gained a strong lead over both the others.

But Morris was not idle. His team had a weakness for the shore, and his assiduous efforts with the paddle, necessary to keep them in the water, helped him to that extent that he was enabled to overhaul Bob and go to the front. Bob saw his disadvantage and declared the excessive paddling to be "foul," but by no means "fowl." "George is no goose," said Bob, "and I bar his paddle." But there was no choice; George must either paddle or be ignominiously towed ashore against his will, and so Bob's protest was unavailing. Maas, whose perverted wheel goose had placed him badly in the rear, having somehow contrived to change ends with the recalcitrant bird, now showed an extraordinary burst of speed and was fast closing the gap. Had the remaining distance been greater, he would have seriously endangered the success of the others.

As it was, the contest rested between Morris and Hart, the former having a slight lead. Bob called upon his white thoroughbreds for an extra effort, and it was intensely ludicrous to see the earnestness with which they seemed to respond. They actually "took turns." First, the middle pair would vigorously ply their web feet for a minute, perhaps; then the leaders would dig in for dear life, to be in turn "spelled" by the wheelers. But all would not do. Morris' gray team were good stayers, and he steered to excellent advantage, it must be confessed. He reached the end of the 300 yards about four feet ahead of Bob, Maas being about two lengths in the rear. Time, seven minutes and thirty seconds. A hearty cheer went up from the crowd, and the goose race was at an end.

Ad Morris and Hart attempted to land from their tubs, both capsized and fell into the water. Being good swimmers they were not in the least alarmed, and the incident would have had no more serious result but for the fact that Bob, in trying to get into a boat near by upset it and its occupants, two of whom swam to the pier, while the third attempted to climb into the official boat. Billy Emerson, fearful of another overturn, made a "jumping jack" leap into the nearest boat, almost capsizing it in turn. No more casualties of the kind occurred, however, and beyond the wetting nobody suffered any damage.

The umpires and referee, after canvassing the various features of the race, at the time rendered their decision as follows:

LAKE FRONT BASIN, CHICAGO, Sept. 23, 1869. — Race for sweepsteaks of $200 between sextuble goose teams, dash of 300 yards, to wash tubs.

George Morris enters gray goose Anna Dickinson, and mates, sired by their respective progenitors and dammed by all the neighbors in the vicinity of their birthplace. 1

Bob Hart enters white goose Formosa and mates pedigree unknown, but believed to be disreputable. 2

Jim Maas enters blue goose Queen Isabella, and mates, pedigree forgotten. 3

Time, 7:30.

—Much of the popularity of the Martha's Vineyard camp-meeting grows out of the fact that it is such a pleasant pic-nic ground and summer resort. An observer counted 763 croquet sets on the camp-ground this summer. But the click of the mallets is forbidden during camp-meeting time proper.—*Advance.*

—When a man draws a crowd in New Orleans by preaching in the street he is arrested and fined.

—The Harvard defeat was four-oar-dained.

SPEER'S SAMBUCI WINE.
CATAWBA, PORT, GRAPE and Sherry.
The above Wines are made by Mr. Speer, whose reputation as a wine grower stands pre-eminent. They are well established, and long known by the Medical Profession as the most reliable and valuable wines to be had.
Every family at this season should use
SPEER'S SAMBUCI WINE,
celebrated in Spain and Portugal for its beneficial qualities, highly esteemed by eminent physicians, used in European and American Hospitals and by the first families in Europe and America.
Excellent for weak and debilitated persons, the aged and infirm, promoting the appetite and benefitting the ladies and children.
AS A DIURETIC
It imparts a healthy action to the Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic affections. Also,
SPEER'S PORT GRAPE WINE
is pure juice of the Oporto Grape, recommended by Physicians and Druggists, as being superior to California or Imported Wines.
SPEER'S STANDARD WINE BITTERS
The Best and Most Reliable Tonic and Bitters in the market, which is always the CHEAPEST.
☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.
For sale by Druggists and Town Agents, who also sell Speer's Standard Wine Bitters.

AMERICAN & FOREIGN PATENTS.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the United States Patent Office, Washington, under the act of 1837,
No. 78 STATE STREET, OPPOSITE KILBY ST., BOSTON,
After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Research made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters appertaining thereto. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.
"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."
Boston, Jan. 1, 1869.—1 yr.

The Chronicle.

AN EXTRAORDINARY CASE AT LAW.—Clarence A. Brown of Brighton was brought before Commissioner Hallett, Monday, and held in $300 for trial in October, for the larceny of a letter directed to himself from the post-office in Brighton. The circumstances are as follows:—Some time last week, after the post-office was closed, Brown came into the store in which the office is and asked the proprietor how he could get out a letter which he saw was in his box. He was told he could get it by seeing the postmistress. He said he knew of a better way than that, and took a key from his pocket, and, opening the door which seperates the office from the store, took his letters from the box, relocked the office and departed. The complaint is brought under the United States statute in regard to the larceny of a letter from a postoffice, the penalty being imprisonment for about three years. A case like the present is a rare one, the larceny in this instance being that of a man stealing his own property, when in most cases it is that of the larceny of letters directed to other persons.—*Boston Advertiser.*

HARD OF HEARING.—"I have a small bill against you," said a pertinacious looking collector, as he entered the store of one who had acquired the character of a hard customer. "Yes, sir, a very fine day indeed," was the reply.

"I am not speaking of the weather; but your bill," replied Peter in a louder tone.

"It would be better if we had a little rain."

"Darn the rain," continued the collector; and raising his voice, he bawled: "Have you any money on your bill?" "Beg your pardon, sir, I am little hard of hearing. I have a rule not to loan my funds to strangers, and I really don't recognize you." "I'm collector for the Philadelphia Daily Extinguisher, sir, and I have bill against you," persisted the collector at the top of his voice, producing the bill and thrusting it into the face of the debtor.

"I've determined to indorse for no one, so put your bill back into your pocket book; I really cannot indorse it!" "Confound your indorsements, will you pay it?"

"You'll pay it! No doubt, sir; but there is always some risk about these matters, you know, so I must decline it, sir."

—The coolest reading for dog-days, is a correspodence that lately transpired in Hartford: A young gentleman whose bosom was being rent by the pangs of jealousey, addressed a billet to the lady, enclosing her notes to him and requested she would reciporate the courtesy. In her reply, she thanked him for his consideration, and would "return his letters as soon as a young gentleman, to whom they were loaned, had given them a satisfactory perusal!" That is what may be termed "pouring cold water down one's back."

—It was worth hearing the other night, when a little three-year-old, extemporizing his usual appendix to 'Now I lay me,' full of the desire that had possessed him for an hour past and not forgetful of some elementary teachings on the spirit of prayer, said: 'O Lord! please give me a pair of boots—when—you—get—ready."—*Advance.*

—In speaking of a clerical friend who possesses a very rubicund countenance, some one said, the other day, "I don't think he drinks—fact, I know he does not, for he told me so; but he probably sleeps in a bed with red curtains."

—A paper in New Bedford prints the following extraordinary notice:—Married at Sunberry, by the Rev. Mr. Cranberry, Mr. Nehemiah Blackberry to Miss Catherine Elderberry of Danbury.

—"The blessed man that preached for us to-day, "says Mrs. Partington," served the lord for thirty years—first as a circus rider, then as a locust preacher, and then as an exhauster."

—Josh Billings says: "The mewl is a larger burd than the jguse or terky. It has two legs to walk with, and two more to kick with, and it wears its wings on the side of its head."

—Lavater says: "He who seduously attends, pointedly asks, calmly speaks, coolly answers, and ceases when he has no more to say, is in possession of some of the best requisites of man."

—A susceptible young man in Dubuque, Iowa, has demanded the arrest of a girl at his boarding house who tried to ruin him by throwing her arms around him and hugging him.

—"We see," said Swift, in one of his most sarcastic moods, "what God thinks of riches by the people he gives them to."

—Jenny Lind is forty-eight, and a wicked exchange says she "looks like sixty."

—Why is an overloaded gun like an office-holder? Because it kicks mightily when discharged.

—To what color does a flogging change a boy's complexion! It makes him yell-O.

—What is the only pane we make of? A window pane.

PERRY DAVIS' PAIN KILLER, as an Internal remedy has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, dysentery, Asthma, it cures in one night, by taking internally, and bathing with it freely. It is the best liniment in America. Its action is like magic, when externally applied to bad sores, burns, scalds and sprains. For the sick headache and tooth ache, don't fail to try it. In short, it is a Pain Killer. 4ws7

DODD'S NERVINE AGAIN,
ANOTHER CERTIFICATE.
LEDYARD, CONN., April 3, 1869.
Accept thanks for calling my attention to DODD'S NERVINE AND INVIGORATOR. It has done me more good than any other medicine I ever took. I have gained twelve pounds in flesh, and am correspondingly better every way. It is an invaluable remedy.
8wan23 MRS. JOHN T. LEACH.

WHAT ARE
DR. J. WALKER'S CALIFORNIA Vinegar Bitters.
THEY ARE NOT A VILE FANCY DRINK Made of Poor Rum, Whiskey, Proof Spirits, and refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetisers" "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, *free from all Alcoholic Stimulants.* They are the GREAT BLOOD-PURIFIER and LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell. $100 will be given for an incurable case, providing the bones are not destroyed by mineral poisons or other means, or the vital organs wasted beyond the point of repair.
FOR INFLAMMATORY AND CHRONIC RHEUMATISM, AND GOUT, DYSPEPSIA or INDIGESTION, BILLIOUS, REMITTENT, and INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS have been most successful. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.
These Bitters are not a gilded pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.
They an Alterative, Tonic, Diuretic, Sedative, Diaphoretic, and Gentle Purgative.
"The Life of all Flesh is the Blood thereof."—Purify the blood and the health of the whole system will follow.
R. H. McDONALD, J. WALKER, & CO.,
Proprietors,
San Francisco and Sacramento, California, and 32 and 34 Commerce St. (Commerce, a short street running from Bleeker to Barrow), N. Y.

AVERILL CHEMICAL PAINT!
THE RIGHT THING AT LAST!
BENJAMIN NORTON,
Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of
THE BEST PAINT!
ever offered in this city.
It is Durable, Beautiful, Water Proof, Elastic and Economical.
This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.
It is prepared in pure White and one hundred Different Shades, and is unsurpassed in all respects.
It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface than the same body, and is cheaper, more lasting, and better in every respect than any other Paint.
Many gentlemen from those who have used it in other places of its superiority over other Paints might be given; but I will only invite those of this city and surrounding towns who intend using Paints, to call at the
GROCERY AND PROVISION STORE,
Nos. 16 & 18 Cabot Street,
which is the ONLY PLACE in the City where it has been used, and examine the Paint where it has been applied in ten or twelve different shades, and where they can choose any color they desire for use, outside or in, and buy from one pound upwards.
In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.
These Paints are manufactured in New York, and Newburgh, Ohio. BENJ. NORTON,
Agent for Chemical Paint Company.
Also for sale, at the same place, the Best Quality of
MEATS AND GROCERIES!
AS LOW AS CAN BE BOUGHT IN THE CITY.

UNFAILING EYE PRESERVERS!
OUR CELEBRATED
Perfected Spectacles and Eye Glasses
Are gaining steadily and certainly a reputation unsurpassed. The readily ascertained superiority they possess over the ordinary Spectacles makes them very popular.
IT IS A FACT
That they render impaired sight clear and distinct; strengthen and preserve the eyes; are very easy and pleasant to wear, and last many years without change being necessary, so that in the end they are the cheapest as well as the best.
Notice that Mr. J. F. SHORES, Jr., at the Congress Block Bookstore, is our Sole Agent in Portsmouth, and that
WE EMPLOY NO PEDLERS.
Lazarus & Morris,

my22 HARTFORD, CONN.

"Ingenio Stat Sine Morte Decus."
ROCKY MOUNTAIN BITTERS
IS a very superior Regulating Tonic, imparting vigor and strength to the constitution—a thoro'
PURIFIER OF THE BLOOD,
a regulator of nervous force, and a powerful sustainer of health against the encroachments of disease.
The invalid and convalescing seeking restoration, and yearning for the healing virtues of some magic balm, will find in these Bitters a hidden mysterious power, which QUIETLY RESTORES, yet restines to reveal to the senses anything but taste and color.
It is a pleasant Bitter, free from all nauseous properties odor, entirely vegetable, being mainly grown at the base of the mountains from which they derive their name, and is particularly adapted to all forms of
DYSPEPSIA OR INDIGESTION,
manifesting themselves by the following symptoms: headache, nervousness, loss of memory low spirits, giddiness, dimness of sight, dullness of hearing, and ringing noises in the ears, eructations, of belching of wind, tightness of breathing, weight and oppression of the chest, uneasy feeling about the heart, palpitation, &c.
Also for Liver Diseases, Disorders of the Kidneys, Restlessness and loss of Muscular Power these Bitters will be found almost a specific; & as a preventative of
FEVER AND AGUE,
or a restorer of the natural powers of the system, when broken down by continued ague attacks; it has no equal.
Being stimulating, (but not intoxicating), they refresh and invigorate both mind and body, heighten the sensibility, clear and sharpen the faculties, and bestow alacrity and cheerfulness of spirit.
CAUTION.—There have been, and still are several parties manufacturing and selling so-called "Langley's Bitters," many of which are worthless. As a guide against such, I would say that in 1866, I secured my copy-right, in the United States Court, a trade mark and name, "Rocky Mountain Bitters," and all Bitters of my manufacture are put up in *dark, long neck, quart bottles* with red label printed with gold; also, direction label, bearing my seal and directions printed in red; with a red cap and my seal printed in gold, over the cork. Beware of all others, and ask for "Rocky Mountain Bitters."

The Daily Chronicle.

Portsmouth, N. H.

FRIDAY, OCT. 1, 1869.

The News.

Governor Pile of New Mexico has organized companies of mounted citizens to prevent Indian depredations.

The Delaware, Lackawanna and Western Company sold 90,000 tons of coal in New York on Wednesday at lower prices than at the last sale.

George Peabody has gone to Europe.

The steamer Alabama, from New York, last Sunday, took out two hundred volunteers for Cuba.

Bangor was 100 years old on Thursday. The event was duly celebrated.

The Indians are troublesome in Montana.

Galesburg, Ill., has had a $100,000 fire.

The New Orleans Custom House frauds are being thoroughly investigated.

There have been many fires in San Francisco during the past few days, and the destruction of property has been considerable, with loss of life in one case.

The New York Republican State Convention has nominated George William Curtis, for Secretary of State. A grand selection.

Gen. Alcorn is the Republican nominee for Governor of Mississippi.

Governor Campbell of Wyoming Territory reports Indian troubles. Fights between the United States cavalry and bands of Sioux are frequent. In one of these, one soldier was killed and four wounded. Five Indians were killed. On the retreat of portions of the same tribe, three citizens were killed, and one badly, though not fatally, wounded.

Capt. Hall has furnished a short narrative of his voyage to the Arctic regions. He encountered many difficulties, and ascertained that the Esquimaux allowed Crozier and his party of 105 to starve to death when they could easily have furnished provisions. He says that wherever the Esquimaux have found the graves of Franklin's companions, they have dug them open and robbed the dead, leaving them exposed to the ravages of wild beasts. On Todd's Island the remains of five men were not buried, but after the savages had robbed them of every article that could be turned to any account for their use their dogs were allowed to finish the disgusting work. The white men he had with him mutinied, and he was compelled to shoot one, named Coleman, dead, in self defence, after which the rest behaved themselves.

At the Seely Court Martial, on Wednesday, Paymaster W. H. Stevenson testified that he informed Capt. Clitz, commander of the Pawnee, that it was reported that some of the seamen were being cruelly treated; did not think Turner feigned suffering.

Capt. J. M. B. Clitz testified that he spoke to Lt. Com. Seely about the alleged cruelty, who said he had no idea of punishing the men illegally; and Turner and Symons were punished for disobedience of orders and having soiled clothes in the pantry; they were only suspected of being concerned in the robbery; knew nothing of O'Brien's punishment until O'B. was transferred to the hospital; Seely stated at the Portsmouth Navy Yard that if these men had been punished improperly it was not by his order; Doctor Eckstein refused to see the prisoners and refused to allow the apothecary to see them, according to Seely's statement; asked O'Brien, why he did not complain to me as Captain of the vessel; O'B. replied that he was afraid to report Lt. Seely as he might be confined again by his order.

The Paraguayan War is about over. On the 18th of August the allied army attacked the forces of President Lopez, which were intrenched at Curaguaty. The Paraguayans were entirely defeated, losing 1000 in killed and 300 prisoners. Twelve cannon were also captured by the allies. Lopez, with the remainder of his army, fled to Ignacion, a short distance away. On the 21st he was again attacked by the allies and again defeated, losing in the engagement 25 cannon. Count D'Eu, general commanding the allies, at last advices was closely pursuing the fugitives. Owing to these victories the Paraguayans were compelled to abandon all their steamers which subsequently fell into the hands of the allies. Forty-four of the British subjects who had lately been held in confinement by Lopez were promptly liberated. The provisional government at Asuncion had declared Lopez an outlaw. The news from Rio Janeiro fully confirms the flight of Lopez.

The N. Y. Gold Muddle.—The Express states that the Gold Board adopted a report of their committee, that an arrangement had been made with the Bank of New York whereby Friday's contracts would be cleared at a uniform rate of 135 for gold. The members are to adjust all differences between themselves. A motion was then made to resume business, and it was just on the point of being carried when Mr. Keppler obtained the floor and made a very clear and concise speech. In a few words he stated that to resume business without some restrictions in regard to the buying in and selling out gold under the rule, especially the large amounts to be sold out for the account of Belden and Speyers, would but gold down to par and break every member of the room. The members in an instant saw the precipice on which they were standing, and immediately a resolution was adopted to adjourn over to the next day, the room only to be open for the borrowing and lending of gold. Previous to adjournment, a resolution was adopted to make all loans flat.

The Gold Exchange Bank was put into the hands of a Receiver on Wednesday. More failures are announced; some of them are of firms heretofore considered first-class.

A reporter of the New York Sun has "interviewed" Mr. Albert Speyer, the leading operator of the "bull" clique in New York during the recent gold panic, and in substance elicited the following information from him: Those for whom he operated directly were Messrs. Heath, Smith (of Smith, Gould & Martin), Jay Gould, William Belden and James Fisk, Jr. The latter told Speyer, when he made some expression of uneasiness, that he need not be afraid; "they could not be broke, as they had $110,000,000 of shorts, and were prepared to take all the gold the Government could put into the market." Speyer bought and sold $35,000,000, altogether, from 35 up to 60, and said he was told that Fisk had said he had made $9,000,000 and had got away with it by loaning it on a margin as fast as it was bought and when the price was up to 60, by calling in his margins and so saddling the gold on his borrowers. Speyer also said it was probable that the bull clique did not play square with its own members, as one member was selling out while another was buying. The parties named above, Speyer said, had not settled their margins with him, but they were able to do so, as they had got $40,000,000, which they raised as extra Erie stock, besides all the earnings of that road up to this time — plenty of money if it could be got out of them.

On Thursday, one million of gold was sold at the New York Stock Board on account of Albert Speyer at 132, cash. This gold was purchased by that gentleman last Friday at 160. It was sold under the rule at a loss of $280,000.

The panic continued on Thursday. The Gold Board voted unanimously to suspend the rules for buying in and selling out gold, until Monday.

The failure of Lockwood & Co. is said to involve liabilities to the amount of six or seven millions. The beautiful residence of Mr. Lockwood at Norwalk, Conn., valued at $80,000, has been surrendered to his creditors, together with all his personal property. There are strong indications that a financial revulsion much greater than that of 1857, may be expected with almost certainty. All good financial judges agree that the situation is extremely critical.

The total sales amounted to $1,575,000 in coin, 130 being the ruling rate. Smith, Gould, Martin & Co. hold $30,000,000 in gold. The feeling in the market improved towards night and stocks advanced. There are, however, rumors of other movements which will throw that of Friday, the 23d, in the shade.

Personal.—Our readers will be gratified to learn—as we are to record—that Mr. Cedric Laighton of Appledore is out of danger; an equable temper, assisted by rather more than one man's share of physical strength and "good constitution," having overcome a severe attack of typhoid fever.

☞ They have a base ball club at Belfast, Me., named the Vassaganawaukeags. Their name, however, is the only formidable thing about them.

☞ The York County Agricultural Fair will be held at Saco and Biddeford on the 5th of October, and will continue four days.

☞ New Yorkers are fearful that they will soon need water, as the supply of Croton on hand will only last ten days.

☞ Snow fell at several places in the northern portion of Vermont, on Tuesday morning last.

New Publications.

The Mother at Home, for October, by Mrs. Henry Ward Beecher, has a good table of contents. One article commends Cowper's Poems as a good book for daily reading by ladies who have little leisure and good taste. We agree with the recommendation.

American Commercial Law for Business Men: A new work, and a complete and safe guide for the correct transaction of every kind of business; embracing all the states of the union;—by Franklin Chamberlain, of the United States Bar. There is no book of the kind which will take rank with it for authenticity, intelligence, and completeness. It contains about 1000 octavo pages, printed on fine paper, substantially bound, and is sold to subscribers at $4.50 and $5.00 per copy, according to binding.—O. D. Case & Co., publishers, Hartford; A. H. Hubbard, Gen'l Agent, 400 Chesnut St., Philadelphia. Agents are wanted.

☞ The Washington correspondent of the New York Herald says that Senator Wilson will introduce at the next session of Congress a bill providing that all persons who engage in the purchase and sale of gold shall deliver the actual amount of coin sold or bought, and that in case of failure to do so within a specified time, the person so offending shall be adjudged guilty of a misdemeanor, and, on conviction thereof, shall be punished with heavy fines and imprisonment. The senator has an idea that it will prevent a repetition of such scenes in Wall street as the past eight days have witnessed. He also believes that if the charters of several national banks, who are suspected of of having aided the speculators, were taken away, the lesson would be a wholesome one.

☞ The Newburyport Herald says the schooner Fannie, of that port, was lost in the Bay of St. Lawrence on the 20th Sept., together with her master, Capt. Rolls, and Stephen Lunt and James Beckett, of schooner Crown Point, of Newburyport. The Fannie was run into by an English vessel, and sank in ten minutes, the captain and crew escaping to the other vessel. After that Capt. Rolls and one of his crew, John Kenney, supposing that the Fanny would float, took a dory to board and anchor her. At the same time a boat put off from the Crown Point to save the crew. The Fanny sank, however, before Capt. Rolls could reach her, and he got on board the boat from the Crown Point. Kenney landed safely in his boat, but the Crown Point's boat in running the surf on the beach was upset, and Capt. Rolls and the two men named above were drowned.

A Successful Experiment. — Thos. H. Field of New Rochelle, N. Y., had been greatly annoyed by the frequent visits of some thieves who had stolen his grapes as fast as they became ripe, and to protect his property he arranged a couple of guns charged with buckshot, in his henhouse. To the triggers wires were attached and placed along the ground to the grape-vines, and signboards were posted around the grounds with the warning, "Beware of the spring-guns." On Monday he found his grape-vines badly prostrated by the storm of Sunday, and in attempting to straighten them it is supposed that his feet became entangled in the wires connecting with the guns, for he was found dead with fifteen or twenty shot buried in his head, neck and shoulders.

☞ The Newburyport Veterans, Ben Perley Poore, Commander, will be the guests of the Amoskeag Veterans, Col. Natt Head, Commander, at Manchester, on the 5th and 6th (Tuesday and Wednesday) of October. They will dine with them in the afternoon, and will be given a levee in Smyth's Hall in the evening.

☞ The refusal of the Spanish crown by Louis I. of Portugal has been hailed with enthusiasm in Spain. Formidable bands of republicans are gathering in Catalonia.

BUSINESS NOTICES.

Moles and Wens are cured by Dr. B. C. Perry, without cutting, pain or scars, at his Boston office, No. 7 West street. Don't forget the number. No charge for consultation.

SPECIAL NOTICES.

WORDS OF CHEER,

ON THE ERRORS OF YOUTH and the FOLLIES OF AGE, in relation to MARRIAGE and SOCIAL EVILS, with a helping hand for the erring and unfortunate. Sent in sealed letter envelopes, free of charge. Address, HOWARD ASSOCIATION, Box P., Philadelphia, Pa

Now is the Time

To repair the inroads made upon the physical strength by the heated term which has closed with September. The vitality that has been exerted during the process in the form of perspiration, for the last three months, requires to be replaced, as a preparative to the cold season which makes such disastrous havoc with relaxed and untoned systems. The reserve of vigor with which the strongest man commences the Summer campaign is drained out of him at its close, and unless by some means he acquires a new stock of vital energy wherewith to encounter the shock of a colder season, he may droop and wither like the falling leaves whose life-juices are exhausted. It is to thus with the strong, how much more perilous is the condition of the weak and sickly. Their reason must suggest to them, more forcibly than these printed words, the necessity for invigoration, and the world having decided, after an experience of almost a quarter of a century, that HOSTETTER'S STOMACH BITTERS embraces such restorative properties as are not possessed by any other tonic and alterative preparation in existence.

The importance of restoring to that great RENOVATOR AND REGULATOR OF THE HUMAN MACHINE, at this critical season, is as obvious as the light of day. Let all who desire to escape an attack of chills and fever, bilious remittent fever, dysentery, diarrhœa, dyspepsia, rheumatism, hypochondria, or any other of the diseases of which the fall season is the prolific parent, have recourse promptly to this celebrated preventive and restorative. 61

Ellis' Iron Bitters

Will enrich the blood and prevent it from becoming watery and weak, give a healthy complexion, restore the appetite, invigorate the system, and are very palatable. These Bitters are recommended to all persons requiring a safe and valuable tonic, to impart tone and strength to the system, not given by Bitters merely stimulant in their effects; which, although they may possess tonic vegetable properties, cannot give the strength to the blood which the *Iron Bitters* will give.

Prepared by Wm. Ellis, Chemist. For sale in Portsmouth by WILLIAM R. PRESTON; by Weeks & Potter, Wholesale Agents, 170 Washington Street, Boston; and by Druggists and Grocers generally. mh22eod6md

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by those who use it. Testimony of the most found in a pamphlet, which can be had of the agents where the medicine is for sale. d28

☞ PERRY DAVIS & SON, Providence, R.I., general wholesale Agents for the Eastern States.

TO OWNERS OF HORSES AND CATTLE.

TOBIAS' DERBY CONDITION POWDERS are warranted superior to any others, or no pay, for the cure of Distemper, Worms, Bots, Coughs, Hide-bound, Colds, &c., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Horn Distemper, &c., in Cattle. They are perfectly safe and innocent; no need of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs; also increase the milk flow. Try them and you will never be without them. The late Hiram Woodruff, celebrated trainer of trotting horses, used them for years. Col. Phillip T. Berry, of the Jerome Race Course, Fordham, N. Y., would not use them until he was told of what they are composed, since which he is never without them. He has over twenty running horses in his charge, and for the last three years has used no other medicine for them. He has kindly permitted me to refer to him. Send for circular, other references can be seen at the Depot.

Sold by Druggists and Saddlers. Price 25 cents per box. Depot, 10 Park Place, New York. au19

PAIN KILLER.

Manhattan, Kansas, April 17, 1866.

Messrs. Perry Davis & Son,

Gentlemen:— * * * I want to say a little more about the Pain Killer. I consider it a very valuable medicine, and always keep it on hand. I have traveled a good deal since I have been in Kansas, and never without taking it with me. In my practice I need it freely for the Asiatic Cholera in 1849, and with better success than with any other medicine. I also used it here for Cholera in 1855, with the same good results.

A. HUNTING, M.D.

* * * "I regret to say that the Cholera has prevailed here of late to a fearful extent. For the last three weeks, from ten to fifty or sixty fatal cases each day have been reported. I should add that the Pain Killer sent recently from the Mission House, has been used with considerable success during this epidemic. If taken in season, it is generally effectual in checking the disease.

Rev. CHAS. HARDING, Shelapore, India." au20

SPECIAL NOTICES.

CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS for Diseases of the Liver, or to act as a gentle Purgative.

All of these three medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills assist in cleansing the stomach and Liver, and by aiding Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These medicines are conscientiously offered to the public as the only safe, certain and reliable remedies for Pulmonary Consumption, and for all those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long probation before the public. Its value has been proved by a period of more than thirty-five years, in all of which time its reputation has constantly increased, and the most obstinate skepticism can no longer doubt that it is a remedy which may be used with confidence in all cases which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, he will certainly be cured, it his lungs are not too much wasted to make a cure possible. Even in cases supposed to be incurable, and which friends and physicians have despaired, the use of the medicine has saved the life of the patient, and restored him to perfect health.

Dr. Schenck himself was cured in precisely such circumstances, and many others have been equally fortunate by judiciously making a timely use of Dr. Schenck's remedies.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he emphatically asserts, that often when patients have the most alarming symptoms, such as a violent cough, creeping chills, night sweats, and general debility, even to such a degree that they are obliged to lie in bed, and when they are given up by their physicians, they may still be cured. No medical treatment can create new lungs, but when the lungs are very badly diseased, and to some extent destroyed, a cure may be effected by Dr. Schenck's medicines.

Also in Scrofulous diseases these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores, and are all healed up. This shows its purifying properties, which must be done to heal cavities in the lungs.

In the treatment of Consumption, it is of the utmost importance to give vigor and a healthy tone in the system. Hence it is necessary to strengthen the appetite of the patient and improve the digestion. Proper nourishment is required, together with such means as will make the food easily digestible. The articles most suitable for this diet of consumptive patients are enumerated in Dr. Schenck's Almanacs, which are distributed gratuitously. In general, the most nutritious articles are to be preferred; but the digestive organs must be strengthened in order to make either food or medicine serviceable. This requirement is met by the Sea Weed Tonic, and for this purpose it was designed.

When the digestive powers are put in good order, the food has its proper effect, the appetite of the patient is invigorated, and the lungs begin to exercise their functions in a normal and healthy manner. Then the healing powers of the Pulmonic Syrup will complete the cure.

Pulmonary Consumption is almost always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills are intended to remove obstructions from the liver and restore its healthy action. They have all the efficacy which is ascribed to calomel or "blue mass," and are warranted not to contain a particle of any mineral poison. These pills cure the the most obstinate costiveness, sick headache, piles, billious affections, and all other diseases which arise from a torpid or obstructed condition of the liver. One box of these pills will prove the efficacy of the medicine.

In Consumption, the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines. They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. They have been found useful in advanced stages of Consumption, where the lungs were almost entirely destroyed, and all symptoms, according to the judgement of physicians, indicated speedy death. Lives of patients were actually in a dying condition have been preserved for months by the use of Schenck's three great remedies.

Dr. SCHENCK'S Almanac, containing a full treatise on the various forms of disease, his mode of treatment and general directions how to use his medicines, can be had gratis of any druggist, by addressing his Principal Office, No. 15 North Sixth Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggist and dealers.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any medicine heretofore of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and does not leave the system prone to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before he was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, but their virtues remain in full force and effect.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy**, and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge**, will ever again take a purgative powder, or drastic pill.

Wholesale agent, John F. Henry, No. 8 College Place, New York City.

PECULIAR ADAPTABILITY.

Brandreth's Pills.

Their peculiar adaptability to all constitutions as cleansers of the bowels and the blood has established their great merit. They restore the liver, the spleen and even the heart to healthy action, and thus enable nature to throw off without producing any benefit. They do not expose those who use them to any danger, being as safe as salutary.

Extract from Letter to Dr. Brandreth, from C. J. Fay, Esq., P. M., Hammonton, N. J.

"In 1838 I was in poor health, and my friends and myself were myself supposed that my earthly voyage would soon terminate. But after taking one box of Brandreth's Pills, I began to feel better. Well, sir, when I had used up twelve boxes I was a well, healthy man—my weight having gone from 131 pounds up to 152 pounds. I then ordered a supply, and between that time and the present I have retailed three thousand dollars' worth of these invaluable pills, and am quite sure that I have thereby been instrumental in saving thousands of lives.

Yours, truly, C. J. FAY, P. M."

Sold by all Druggists. Observe my name in white letters in the government stamp.

au20 B. BRANDRETH.

Holloway's Pills.—More than two-thirds of the sickness which occurs in the summer proceeds from a disordered condition of the liver. Persons of a bilious habit suffer most in warm weather. They are languid, low spirited troubled with pain in the side, head-ache, and a constant feeling of weariness. The immediate and certain remedy for these symptoms, and all others proceeding from biliousness, is HOLLOWAY'S PILLS. Of all anti-bilious medicines they are safest, surest and best. Sold by all Druggists. s8

CANCERS AND HUMORS!

DR. J. W. CHANNING,

THE GREAT CANCER & HUMOR DOCTOR, of New Bedford,

Has arrived at Portsmouth, and taken Rooms at the FRANKLIN HOUSE, where he will remain until September 28.

☞ Nothing of public interest done in the Board of Aldermen, Thursday evening. Common Council, not in session.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Chronicle office. Price 5 cts. per copy—$2. per year. Contains *all* the Local and other reading from the Daily Chronicle.

CARELESS.—About 2 o'clock Thursday morning, Officer Shannon, attracted by the smell of smoke, discovered a heap of rubbish smouldering in a yard off Ladd Street. A few buckets of water made all right; and, as the buildings around the yard are mostly brick, perhaps there was no great danger in leaving the rubbish burning. But doing so did not add to the security of that neighborhood from fire, and a breeze might possibly have made mischief. Fires occurring through carelessness may be as destructive as those kindled by the enterprise of the incendiary.

THE MANLY ART OF SELF-DEFENCE. On Tuesday evening last, our staid and sober citizens—those of them who went to the Temple—were favored with an exhibition which combined singing, dancing and banjo-playing, with boxing—otherwise sparring; which means hitting another person with the fist without getting hit by him in return.

The performance was advertised by handbill only; but Mr. Edward E. McIntire, whose name was inserted in the bill without his consent, as one of the performers in the hitting part, thinks that was advertising enough. We did not go to the entertainment, but from information received are satisfied that an intellectual feast was provided for those who did attend. The banjo-man was nervous, spent about ten minutes in tuning his instrument, and then knocked all the music out of it at once with a single masterly sweep of his fingers; the dancing was such as is seldom seen on a public stage, or off it; some of the self-defence men, two in particular, were so anxious to give a good display of their abilities that they pitched into each other in good earnest, "bringing down the house" and giving several other men enough to do to separate them as they rolled on the stage in a fine rough-and-tumble encounter; "Cheap John" sang some comic songs really well, the audience joining in with a will in "Three Cheers for the 'ot Hirish Stew;" and the only drawback to the otherwise unalloyed happiness of the patrons of the exhibition,—including *the* lady, who soon retired, satiated with pleasure, no doubt,—was the then unaccountable non-appearance of Mr. McIntire on the stage. That gentleman,—and his acquaintances,—would have been much astonished had he been seen there.

OUR ADVERTISERS crowd us with their favors, and in the press of other business we have neglected to call attention to the different invitations to the public to "come and buy." J. L. O. Coleman sets forth the claims of the Governor cook stove; C. E. Shedd & Co. call attention to their fine stock of Gentlemen's Furnishing Goods, and notify travellers that they sell railroad tickets to all parts of the country; J. F. Shores, Jr., tempts buyers with his large assortment of Books, Stationery, &c.; T. F. Burtt enlarges on his elegant stock of jewelry and lets people know he is in the Sewing Machine business; Henderson & Co. announce Fall Styles, just opened; J. E. Ham & Co. devote considerable space to make people realize that they can get fits—good ones, too—at No. 9 Congress Street; A. Stavers exercises himself on Gluene and Crockery; E. A. Stevens keeps his patrons posted on Stoves and a large variety of useful articles; Elisha Tripp offers for sale Room Papers, Window Shades, Paints, Oils, &c., in a half column; Benj. Norton enlarges on Groceries, Provisions and the Averill Paint; C. H. Mendum & Co. and L. Blumauer & Co., pleasantly rival each other in calling particular attention to their choice Stocks of Dry Goods; and Wm. P. Walker, of the City Clothing Store and C. E. Myers & Co. of the Market Street Furnishing Establishment, keep their names and places of business in view of the public, knowing that they must be continually known to retain their large trade and increase it.

Of other advertisers, who do not occupy so much space and who are too numerous to mention, there are many, and of all a sufficient number to crowd our columns and reap great benefit from their sagacity. Success to them.

THE METHODIST EPISCOPAL CHURCH in this city has for some time been undergoing long needed repairs and improvements, and now presents a very neat and attractive appearance. The old arched ceiling has been squared, and tastefully ornamented, by Messrs. Frazer & Green; the side galleries removed, and the organ transferred from the end gallery to an alcove behind the pulpit; comfortable slips, finished in chestnut, take the place of the old pews,—and were built by Messrs. Folsom & Pryor, and designed by Mr. John Bailey of Newburyport, by whom the pulpit and altar railings were built; Messrs. Adams & North of Lowell furnish the chairs and carpet for the rostrum, the figure of the carpet being what is called the "Cross and Crown;" a new pattern, at present introduced into but two other churches,—the Metropolitan at Washington and the M. E. Church at Rochester, N. Y.; and the slips are upholstered in green rep, by Sheldon Brothers, who also furnish the marble-top communion table. The bows at the tops of the windows, six in number, are shaded by blinds containing colored glass, a circle in the centre of each being ornamented with an allegorical device; and the general effect of the whole reflects great credit on the taste and enterprise of those who have been instrumental in transforming what was certainly not an attractive place of worship into one of the neatest churches to be found in this vicinity.

The pulpit,—of chestnut and black walnut,—is presented by Mrs. Jonathan Barker, the Bible by Rev. Jas. DeNormandie, and the pulpit hymn-book by Mrs. Cottle. The painting has been done by Mr. Elisha Tripp, who is now engaged in sanding the front of the building; the old triplet of narrow steps has given way to one commodious flight extending across the entire front;—and the whole of these extensive improvements have been carried out without involving the Society in debt, the actual expenses being considerably within the original estimates.

The Dedication takes place Wednesday evening next; and the pastor, Rev. Mr. Kelsey, whose exertions in raising funds and whose endeavors to despatch the work with economy have contributed largely to the success of the undertaking, may be pardoned, with his congregation, if they *do* feel a little proud (we don't say that this *is* the case) of their neat and handsome church.

MARRIAGES.

In this city, Sept. 29, by Rev. W. H. Alden, Mr. ANDREW J. HILL and MISS ARIANNA FOGG, both of Portsmouth.

DEATHS.

In this city, Sept. 30, Mrs. PAMELIA W. WHEELOCK, aged 79.

ALLEN'S LUNG BALSAM.

THE REMEDY FOR CURING

Consumption, Coughs,
Bronchitis, Asthma
And Croup.

AS AN EXPECTORANT
IT HAS NO EQUAL.

It is composed of the active principles of roots and plants, which are chemically extracted, so as to retain all their medical qualities.

Ministers and Public Speakers

Who are so often afflicted with throat diseases, will find a sure remedy in this Balsam. Lozenges and wafers sometimes give relief, but this Balsam, taken a few times, will insure a permanent cure.

Will all those afflicted with Coughs or Consumption, give this Balsam a fair trial, they will be pleased with the result, and confess that the sure remedy is found at last.

IT IS SOLD BY ALL DRUGGISTS.

A PACIFIC RAILWAY
GOLD LOAN $6,500,000.
We beg leave to announce that we have accepted the agency of the
KANSAS PACIFIC RAILWAY COMPANY,
For the sale of its
NEW SEVEN PER CENT.
Thirty Year Gold Loan,
Free from Tax.
This Loan amounts to $6,500,000.
First Mortgage Land-Grant and Sinking Fund Bonds,
secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon the Road, the Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,
And in successful operation for 437 miles
west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the
GOVERNMENT LAND GRANT OF THREE MILLION ACRES,
extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as A SINKING FUND FOR THE REDEMPTION OF THE BONDS.
The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of
Three Millions of Acres in the State of Kansas,
and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the
Value of the Company's property, covered by this mortgage at $23,000,000 net, while the Loan is merely $6,500,000.
The Bonds have
THIRTY YEARS TO RUN,
from May 1, 1869, and will pay
SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.
The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be
PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:
On $1,000 Bond in N. Y. $33 (gold) each half year.
" London....57 sh. 10. " "
" Frankfort..87 fr. 30 kritzs., "
The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a
FIRST CLASS INVESTMENT,
in every respect perfectly sure, and in some essential even
Better than Government Securities.
The Bonds will be sold for the present at
96, and accrued Interest, both in Currency,
the Agents reserving the right to advance the rate.
The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.
Gold and Government Securities taken in payment at their market value, without commission.
Pamphlets, with maps giving full information, sent on application.

Morning Chronicle.

New Hampshire Items.

Colonel King, of Nashua, on a small portion of his garden of 40 feet by 70, has raised, this season, 3227 pounds of squashes. The average weight was over 16 pounds. The Colonel had 206 squashes, twelve of which weighed half a ton.

Samuel S. Sanborn, Esq., one of the oldest and most highly esteemed citizens of Gilford, died, a few days since, aged 82 years.

The Union manufacturing company at Manchester has reached its semi-centennial birthday, having been incorporated in 1819. The company manufactures annually 2,000,000 yards of ginghams.

It is supposed that the burning of the Congregational church at West Concord was occasioned by the spontaneous combustion of oil and paints.

A team employed in carting soapstone from the Francestown quarry to Parker's station, broke through the bridge at New Boston village on Tuesday evening, the 28th ult. The loaded wagon went down into the water a distance of some fifteen feet, but the transom bolt breaking just at the right time the eight horses which formed the team were left on a firm footing.

Benjamin French of Loudon Ridge, who was reported to have broken his back—hasn't.

Mr. Albert B. Chase, of Bakersville, has raised a new variety of squash called the "Gen. Grant," which is very prolific. From a single vine he harvested four squashes, the largest weighing 48 pounds.—*Mirror.*

Gideon F. Silver of Dunbarton stole a two year old heifer from Charles Clifford, carried it home and slaughtered it, He is now under $800 bonds.

A private note to the Manchester Union says the man injured at the Brookline Centennial celebration are likely to recover, but to live in a horribly mutilated condition. The right hands of both are lost, the left hands made useless, and the son's eyesight destroyed forever.

Peter F. Shedd, of Bennington, committed suicide on Monday morning by cutting an artery in one of his legs, in three places, two above his knee, and one below. He was found in his barn on some hay, and was nearly dead. He was 97 years of age. No cause assigned for the deed. He has a wife and several children.—*Monitor.*

A SAD SIGHT.—*A Woman with Delirium Tremens.*—On Wednesday at noon a woman was brought to the station house in a state of intoxication and placed in a cell to sober off. After an hour, she began raving in the most frightful manner, unconscious of all that was real, and her imagination distorted the horrible fancies. Writhing, twisting, crouching to avoid the demons which surrounded her, begging piteously for protection, she would exhaust her energies, and fall to the floor, apparently dead, only to awaken to the fearful dreams again. She stripped most of her clothing off, and was put in the dark paddle cell prepared for cases of insanity; medical aid was summoned, and powerful narcotics given her which had no effect whatever. She remained in this state until evening, when consciousness returned, and with it an overwhelming sense of her shame and degradation. She had been robbed of her clothing by an acquaintance who had exchanged with her while drunk, and the rags which she wore were hardly sufficient for the purposes of decency. The night wore away, morning came, and she said she had friends at Lynn and Salem, where she worked as a domestic, and wished to go hither, and she was permitted to depart. Twice before within a fortnight had she applied here for lodgings but she then was decently clothed, and promised to go to the Institution at Dedham, but she was again tempted and again got drunk, and found her way thither on Wednesday.

She gave her name as Ellen Berry, and said that one year ago she had never tasted liquor, but was living with her family in Bangor, Maine. She at that time left home, came to Massachusetts, where she has worked most of the time as a domestic, and only occasionally falls beneath the temptation of rum. She is a remarkably fine looking woman except that she is haggard, about thirty years old, and her sensibilities are not yet wholly blunted by her habits of drinking.—*Charlestown Adv.*

—Dr. Clersoy has puplished in a French medical journal an account of a complete cure of a bad case of consumption by the use of arseniate of soda. He gave six milligrams a day for twenty consecutive days, and then cod-liver oil for sixteen days, and then returned to the arsenic. A correspondent of an English paper which published the account writes to say that dilutions of arsenic have long been used by the homœopathic school in pulmonary diseases.

—When Miss Kellogg was in England, the Prince of Wales sent up his card, and was very properly refused audience. It should be said that such a call, if accepted, would have been an insult.

—The London Telegraph compliments the Harvards on the spirit manifested by them in presenting to the London Rowing Club the boat they used in the late race.

☞ As the brig Amy, from Portland for New York, was passing Newport on Saturday night, a man was discovered in the water. A boat was lowered and he was picked up. He was very far gone, but the prompt application of remedies soon brought him to, when he said his name was J. H. Brayton, that he belonged in Newport, had been wronged, and was tired of life and determined to die. He then jumped overboard again and refused to take a rope that was thrown to him, saying it was no use. A boat was lowered and a thorough search made for him, but owing to the darkness he could not be found. Before taking the fearful leap he had taken off his coat and thrown it upon the deck. On the lining of one of the sleeves is the name, "J. H. Brayton of Rhode Island," the same as he had given to the captain.

☞ Recently a two year old colt in Phillips, Me., was found literally stuck full of porcupine quills. He was caught and bound, and seven men with nippers worked upon him a considerable portion of a day, to free him from his torment.

☞ The Concord Monitor of Wednesday has a very innocent piece on the Fogg-Ordway & Co. quarrel—*very* innocent, indeed. G.

—Banana trees are growing in the open air in Augusta, Georgia, and are bearing an abundance of blossoms.

NEW BOOKS! NEW BOOKS!!

HURD & HOUGHTON, Riverside, Cambridge, publish the following:

DARLEY'S SKETCHES.

We strongly recommend our readers to procure the book. It is written with the buoyant spirit of a man who is enjoying himself thoroughly with the discrimination of one who can duly appreciate the treasures, the antiquities, or the novelties that are shown to him.—*London Exam.*

SKETCHES ABROAD WITH PEN AND PENCIL. By FELIX O. C. DARLEY. With 15 full-paged and 74 smaller illustrations on wood. A new edition, with three additional vignettes, and printed on toned paper. In 1 volume, 4to. Price in cloth, $3.50; cloth, gilt, $4.00; morocco, $8.00.

Mr. Darley seems at his happiest here, and his pen has pleasantly done the little his pencil could not do. Europe has been an inspiration to him. *Atlantic Monthly.*

H. O. HOUGHTON & Co., Riverside, Cambridge, Mass. For sale by all booksellers.

MOZART'S LETTERS. 2 volumes. $2.50.
BEETHOVEN'S LETTERS. 1 volume. $2.00.

The best exponent of music in the life of the music-writer, and these letters are the most truthful and satisfactory representations of the life of these great men. Portraits are prefixed to the volumes.

The Letters Mozart, giving us at once a view of his inner life and a glimpse at social life in Germany nearly a hundred years ago, will be doubly prized. They are nearly all written in a light, gossipy style, preserving till the last the lightheartedness of a child—a common characteristic or accompaniment of genius.—*Musical Pioneer.*

The man and his creations are signally illustrated by the correspondence here published.—*London Athenæum.*

For sale by all booksellers. Sent prepaid, on receipt of price, by the publishers, HOUGHTON & Co., Riverside, Cambridge Mass.

OLD ENGLAND.—Its Scenery, Art, and People. By JAMES M. HOPPIN, Professor in Yale College. 1 volume, 12mo. Price $2.00.

Professor Hoppin has laid the American and Christian public under great obligation by his book on Old England. It is a most readable volume, and at the same time most valuable. In a style remarkable for purity and graceful flexibility he has given a vast amount of information upon the great themes of his book. He is never tedious—just touches many subjects, sketches most, but suggests more than he says, and seems imbued with the very spirit and flavor of the men and things among which he moves. The effect of the book is like the companionship of a scholarly and Christian traveller.—*W. J. Boisington, D. D., in New York Independent.*

For sale by all booksellers. Sent post-paid, on receipt of price, by the Publishers, H. O. HOUGHTON & Co., Riverside, Cambridge, Mass.

Mr. Howell's two books, "VENETIAN LIFE" and "ITALIAN JOURNEYS," are placed by the foremost English and American reviewers in the first rank of books of travel. Each $2.00.

W know of no single word which will so fully characterize Mr. Howell's new volume about Venice as "delightful."—*N. A. Review.*

Every sentence of this charming book is characteristic. Is the very model of what a light book of travels ought to be.—*London Contemporary Review.*

For sale everywhere. Sent free, on receipt of price, by H. O. HOUGHTON & Co., Publishers, Riverside, Cambridge, Mass.

"His book preserves the flavor and zest of the old-fashioned villages and farming towns, as they were before the horse stage-coaches had given place to the fiery locomotives of our day, and will recall to many readers the scenes of a past generation, among which they started on the race of life."

From a long review of the New York Tribune, of the picturesque book "HOMESPUN; OR FIVE AND TWENTY YEARS AGO." By THOMAS LACKLAND. Price $1.75. For sale by all booksellers, and sent free on receipt of price, by H. O. HOUGHTON & Co., Publishers, Riverside, Cambridge, Mass.

"We know no book," says the Congregationalist, of Dr. PRABODY'S "REMINISCENCES OF EUROPEAN TRAVEL," which would be a better preparation for a trip to Europe, or which will more pleasantly recall to any one on his return the pleasures which he enjoyed abroad." Price $1.50. For sale everywhere. Sent by mail, on receipt of price, by H. O. HOUGHTON & Co., Riverside, Cambridge, Mass., Publishers.

UNDINE.

The exquisite romance of "UNDINE" was intended by its author as the embodiment of the idea of Spring. With three other tales it made a round of the Four Seasons. Hurd & Houghton's edition embraces these four, under the title, "UNDINE AND OTHER TALES." Price $1.50. Sold everywhere, and sent free, on receipt of price, by H. O. HOUGHTON & Co., Riverside, Cambridge, Mass.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS, *Late Agent of the United States Patent Office, Washington, under the Act of 1837,* No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON, After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign Works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of claims of any patent in the United States, by mail, stating one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his practice, made twenty-five hundred applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Boston, Jan. 1, 1869.—1 yr.

The Chronicle.

GARIBALDI.

BY JOHN G. WHITTIER.

In trance and dream of old, God's prophet saw
The casting down of thrones. Thou, watching lone
The hot Sardinian coast line, hazy-hiled,
Where, fringing round Capreva's rocky zone
With foam, the slow waves gather and withdraw,
Behold'st the vision of the seer fulfilled,
And hear'st the sea-winds burdened with a sound
Of falling chains, as, one by one, unbound,
The nations lift their right hands up and swear
Their oath of freedom. From the chalk white wall
Of England, from the black Carpathian range,
Along the Danube and Theiss, through all
The passes of the Spanish Pyrenees,
And from the Seine's thronged banks, a murmur strange
And glad floats to thee o'er thy summer seas
On the salt wind that stirs thy whitening hair,—
The song of freedom's bloodless victories!
Rejoice, O Garibaldi! Though thy sword
Failed at Rome's gates, and blood seemed vainly poured
Where, in Christ's name, the crowned infidel
Of France wrought murder with the arms of hell
On that sad mountain slope whose ghostly dead,
Unmindful of the grave, scorn's ban,
Walk, unappeased, the chambered Vatican,
And draw the curtains of Napoleon's bed!
God's providence is not blind, but, full of eyes,
It searches all the refuges of lies;
And in His time and way, the accursed things
Before whose evil feet thy battle gage
Has clashed defiance from hot youth to age
Shall perish. All men shall be priests and kings,
One royal brotherhood, one church made free
By love, which is the law of liberty!

—Atlantic Monthly for October.

CLEARING PASTURES.—Dr. Cooper, botanist in the Mississippi & Pacific Railroad survey, in speaking of the prairies of Oregon, says that "many of the richest soils are much injured by a dense growth of fern or brakes, which grow on them eight feet high, and it also occurs on the poorer soils, growing about two feet high, being a sure indication of richness. It is said that by cutting off the brakes a few times during the growing season, at the height of several inches, the stem will 'bleed' to death, the sap running so as to exhaust the roots.

I have no doubt of the truthfulness of Mr. Morse and Dr. Cooper. Vegetable physiology tells us of the why and the wherefore of this. The leaves of plants are to them both lungs and stomach. The leaves absorb carbonic acid from the air, and give off its oxygen: and it is through the agency of the leaves that the crude sap taken up from the soil is condensed and prepared for building up the various tissues constituting the entire plant, perfecting the seed, &c., &c. Now, if a plant is deprived of its leaves, through one or two seasons, it must perish root and branch.

The waste of sap by cutting while the plants are in vigorous growth, as said by Dr. Cooper, would soon exhaust the roots; and these, decomposing, would leave a rich vegetable soil, that would if sown with grass-seed produce luxuriant feed for many years. I think it would be better to mow the brakes in damp weather; as then they would bleed longer and more freely.

The only feasible method I know of to clear a pasture of blackberry bushes is to pasture with sheep. This I know by actual experience.

Many years ago came I into possession of a pasture, a few acres of which had many scattering trees upon them, from two to six inches to diameter. These I wished to cut off. For the best way of doing the thing I consulted an old and intelligent farmer. He advised me to cut them off about four feet from the ground—that was, to leave the stumps four feet high. He said cut them in April or May and they would bleed to death. I followed his advice, and the result was as he predicted. In the course of eighteen or twenty-four months, most of the stumps had become so decayed near the surface of the ground, that they could be easily broken off by a blow from an axe. Many of the stumps threw out shoots near the tops; but the cattle in the pasture either rubbed or fed them off; and the result was that scarcely any of the stumps threw out sprouts near the ground. The trees were of several kinds—beech, maple, birch, pine, &c.

For the past four or five years I have pursued a similar course in clearing another pasture of a large amount of bushes and scattering trees, where I have kept forty or more sheep—with this difference however, not cutting the trees till July or August. Cutting a few trees two or three times each week, the sheep eat the leaves with the greatest avidity. If any of the stumps throw out sprouts, these are soon eaten off: and not one stump in twenty ever survives. Previous to making a sheep pasture of this land, I have several times mown the blackberry bushes, and cut large numbers of the small trees and bushes, without much improving the pasture or clearing it of bushes, &c. But the sheep have done what I could not do with the axe and bush-scythe, viz: cleared the pasture of all the useless brush it had formerly grown.—*Levi Bartlett, N. H. Statesman.*

—One bumper at parting, as the drunkard said when he ran against the post.

PERRY DAVIS' PAIN KILLER, as an internal remedy has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, dysentery, Asthma, it cures in one night, by taking internally, and bathing with it freely. It is the best liniment in America. Its action is like magic, when externally applied to bad sores, burns, scalds and sprains. For the sick headache and tooth ache, don't fail to try it. In short, it is a Pain Killer. 4ws7

DODD'S NERVINE AGAIN.
ANOTHER CERTIFICATE.
LEDYARD, CONN., April 3, 1869.
Accept thanks for calling my attention to DODD'S NERVINE AND INVIGORATOR. It has done me more good than any other medicine I ever took. I have gained twelve pounds in flesh, and am correspondingly better every way. It is an invaluable remedy.
8wau23 MRS. JOHN T. LEACH.

WHAT ARE
DR. J. WALKER'S CALIFORNIA Vinegar Bitters.
THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits, and refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetisers" "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, *free from all Alcoholic Stimulants.* They are the GREAT BLOOD-PURIFIER and LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell. $100 will be given for an incurable case, providing the bones are not destroyed by mineral poisons or other means, the vital organs wasted beyond the point of repair.
FOR INFLAMMATORY AND CHRONIC RHEUMATISM, AND GOUT, DYSPEPSIA, or INDIGESTION, BILLIOUS, REMITTENT, and INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS have been most successful. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.
These Bitters are not a gilded pill, to delight the eye, or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.
They are Alterative, Tonic, Diuretic, Sedative, Diaphoretic, and Gentle Purgative.
"The Life of all Flesh is the Blood thereof."—Purify the blood and the health of the whole system will follow.
R. H. McDONALD, J. WALKER, & CO., Proprietors,
San Francisco and Sacramento, California, and 32 and 34 Commerce St. (Commerce, a short street running from Sansome to Barrow), N. Y.

AVERILL CHEMICAL PAINT!
THE RIGHT THING AT LAST!
BENJAMIN NORTON,
Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of
THE BEST PAINT!
ever offered in this city.
It is Durable, Beautiful, Water Proof, Elastic and Economical.
This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.
It is prepared in pure White and one hundred Different Shades, and is unsurpassed in all respects.
It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.
Many testimonials from those who have used it in other places of its superiority over other Paints might be given; but I will only invite those of this city and surrounding towns who intend using Paints, to call at the
GROCERY AND PROVISION STORE,
Nos. 16 & 18 Cabot Street,
which is the ONLY PLACE in the City where it has been used, and examine the Paint where it has been applied in ten or twelve different shades, and where they can choose any color they desire for use, outside or in, and buy from one pound upwards.
In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.
These Paints are manufactured in New York, and Newburgh, Ohio. BENJ. NORTON,
Agent for Chemical Paint Company.
Also for sale, at the same place, the Best Quality of
MEATS AND GROCERIES!
AS LOW AS CAN BE BOUGHT IN THE CITY.

That they render impaired sight clear and distinct; strengthen and preserve the eyes; are very easy and pleasant to wear, and **last many years without change** being necessary, so that in the end they are the **cheapest as well as the best.**
Notice that **Mr. J. F. SHORES, Jr., at the Congress Block Bookstore,** is our Sole Agent in Portsmouth, and that
WE EMPLOY NO PEDLERS.
Lazarus & Morris,
Manufacturing Opticians,
my22 HARTFORD, CONN.

"Ingenio Stat Sine Morte Decus."
ROCKY MOUNTAIN BITTERS
IS a very superior Regulating Tonic, imparting vigor and strength to the constitution—a thoro'
PURIFIER OF THE BLOOD,
a regulator of nervous force, and a powerful sustainer of health against the encroachments of disease.
The invalid and convalescing seeking restoration, and yearning for the healing virtues of some magic balm, will find in these Bitters a hidden mysterious power, which QUIETLY RESTORES yet restores to revival to the senses anything but taste and color.
It is a pleasant Bitter, free from all nauseous properties odor, entirely vegetable, being mainly grown at the base of the mountains from which they derive their name, and is particularly adapted to all forms of
DYSPEPSIA OR INDIGESTION,
manifesting themselves by the following symptoms: headache, nervousness, loss of memory, low spirits, giddiness, dimness of sight, dullness of hearing, and ringing noises in the ears, eructations, of belching of wind, tightness of breathing, weight and oppression of the chest, uneasy feeling about the heart, palpitation, &c.
Also for Liver Diseases, Disorders of the Kidneys, Restlessness and loss of Muscular Power these Bitters will be found aimcet a specific; & as a preventative of
FEVER AND AGUE,
or a restorer of the natural powers of the system, when broken down by continued ague attacks; it has no equal.
Being stimulating, (but not intoxicating), they refresh and invigorate both mind and body, heighten the sensibility, clear and sharpen the faculties, and bestow alacrity and cheerfulness of spirit.
CAUTION.—There have been, and still are several parties manufacturing and selling so-called "Langley's Bitters," many of which are worthless. As a guide against such, I would say that in 1866, I secured my copy-right, in the United States Court, a trade mark and name, "Rocky Mountain Bitters," and all Bitters of my manufacture are put up in *dark, long neck, quart bottles* with red label printed with gold; also, direction label, bearing my seal and directions printed in red, with a red cap and my seal printed in gold, over the cork. Beware of all others, and ask for **"Rocky Mountain Bitters."**

BOUND TO SHINE—Richards' Castor Oil Blacking. For sale by L. LAIGHTON.

The Daily Chronicle.

Portsmouth, N. H.

SATURDAY, OCT. 2, 1869.

The News.

The South Pacific Railroad Company have completed their extension of 60 miles of road, through the Ozark mountains, from Little River to Lebanon, Missouri.

Issac T. Fowler, whose defalcation and disappearance many years ago, when postmaster of New York, is well remembered, died in Chicago, Wednesday.

Forty editors of Texas have nominated Hamilton Smart of Galveston as the Democratic candidate for Governor.

Mexican journals are discussing the question of annexation to the United States.

Population of Mexico is 8,567,000.

Mr. Bigelow has resigned the editorial charge of the New York Times.

Seward has gone to Mexico.

The Mexican Secretary of the Treasury reports that the receipt for the fiscal year ending June 30, were $13,756,000, and the expenditures $13,500,000.

A despatch from Suez announces that the barriers against the passage of the waters of the bitter lakes have been removed, and M. Lesseps has passed through the canal in the steamer from Port Said to Suez in 15 hours.

The Indian troubles still continue; reports from new quarters represent the Indians on the war-path and attacking troops and settlers.

A delegation of New York merchants have gone to Washington for the purpose of conferring with the President on financial affairs.

It is stated that the iron-clad Dictator and frigate Severn are under orders for the Cuban waters.

A Washington despatch states that the Navy is to be put upon a war footing. Not one-fifth of the amount appropriated by Congress for the Navy the present year has been expended.

Gold, 130 3-8.

Correspondence of Chronicle and Gazette.

BUDA, ILL., Sept. 28.

Messrs. Editors:—To show some of the advantages of Railroads to interior towns, I will give a few data relative to this station on the Chicago, Burlington & Quincy Railroad. The freight forwarding business will average four thousand dollars per month; first reports about one thousand. Ticket sales about six hundred dollars. Since the D. P. & H. Railroad has commenced, the business of the C. B. & Q. has increased fully 15 per cent in all its branches. The new road is progressing finely, we having had very good weather for the whole time since it was commenced. Connected in different departments with it, are some six natives of Portsmouth, who (as a gentleman remarked to me) "have the snap to them." There are at the present time twelve new railroads building in Illinois. The people of this town of Buda, about 800 in number, raised about $15,000 for the new road. Other towns on the line have done very well.

I hope that the next time some courageous individual induces the Portsmouth Board of Mayor and Aldermen to purchase Fire Extinguishers, that there will not be a Mayor to put *his* injunction on the sale because the party selling does not happen to be a copper-head. I think it is about time the injunction business—by a Mayor who is very economical in city affairs where his own interest is not affected—was stopped. I will venture to say that the intelligent voters of Portsmouth will never again place a man in office as Mayor, who has "a single eye" to the benefit of the city, and two for a chance to advance his own interest or to injure a political opponent. CAREOLL.

Communication.

☞ Citizens of Portsmouth and vicinity will receive in a few days, a circular giving a list of Lecturers and Readers, who will, upon sufficient inducement being offered, entertain them at the Temple, the coming season. As every one of them possesses more than ordinary abilities, it is to be hoped the Committee will be at once enabled to sell a sufficient number of tickets to warrant the undertaking; and this can only be done by an early response from every one who desires to forward a

LYCEUM.

☞ Misses Philbrook and Haley have this week again left their homes in this city, to resume their teaching in the Freedmen's School at Raleigh, N. C. Miss Haley read a very interesting report of the School, at the Unitarian Chapel in Court St., on Monday evening last. Miss Tucker of Northwood is to go out to join these ladies the coming winter.

☞ The Sunday Vesper service of the Unitarian Church will, for the winter, be at 7 o'clock, commencing to-morrow evening.

Written for the Chronicle and Gazette.

TEMPERANCE IN MASSACHUSETTS.—The Prohibitory law of Massachusetts is being enforced with all the vigor of which the State Constable is capable, with due regard to prudence in the face of a formidable, systematic opposition, backed by wealth, political power, and the daily press of Boston. To listen to the outcry one would suppose there was a great neglect on the part of Major Jones; but those who know his earnest course in relation to temperance during the war, will not be likely to doubt him now. Still the law needs the backing of a successful election. The election of 1867 killed its predecessor by its mere telegraphic returns. But it was all the result of conspiracy, a successful intrigue in hundreds of caucuses.

The case stands about the same this year, except that the liquor men, not now being convicts awaiting sentence, are simply battling to save their business, not, as then, to keep out of jail. They are working less, and the Temperance men more. The Boston Tribune is a new two-cent daily started in this interest for the campaign. It has opened with a good deal of spirit, and, considering the obstacles, success. But you see it daily.

The Seven Curses of London, published by Field, Osgood & Co., interests me chiefly as a Temperance document, but it is a peculiar one. In all the author's dealings with the matters of Neglected Children, Professional Thieves, Professional Beggars, Fallen Women, Betting Gamblers, and Waste of Charity, his fifth curse, Drunkenness, is seen more fearfully than in its own proper chapter. The fact is that James Greenwood, the "amateur casual," has more of the spirit of the detective than of the philanthropist; and while he lets in a terrible amount of light on the dark phases of London life, he is no enemy to ale-houses and gin-palaces. Indeed he seems to think that the normal place for the weary laborer, at evening, is away from his dingy home, his sad wife and his pining babes. As for the gamblers who *do not bet*, (?) or bettors who are not blackiegs, he seems to have no abhorrence of them. There is no doubt that the absurd practise of betting is working no small amount of evil among the nobility, and even royalty, of England.

John and the Demijohn is a very interesting tale, published by Henry Hoyt, 408 pages, 16mo. The story would be more pleasing had the event been better, but it would have been less true to nature, and would probably do less than it now tends to do in the way of implanting a horror of moderate drinking in the mind of the reader. Why is it that sensible people sometimes look with positive disapprobation on the practice of total abstinence by others? Is not this a sort of fanatic severity to an imaginary fanaticism?

I. F. HOLTON.

New Hampshire Items.

The oldest manufacturing firm in Claremont is said to be the Claremont Manufacturing Company, which was incorporated in 1832. They make book, news and colored paper, occupying a mill 100x50 feet, with an ell 50x36, and another 40x20. Their working force is 75 to 100 hands, and it is said their annual business amounts to $100,000.

The tannery of E. K. Pray, at Bristol, turns about 100 sides of upper leather per week, giving employment to 8 or 10 hands. The annual product of this tannery amounts to $50,000.

The Contoocook Mills, at Hillsboro' Bridge, employ 30 hands, and consume 60,000 pounds of wool annually in the manufacture of all-wool shirts and drawers.

Samuel L. Blaisdell, Esq., of East Kingston has been appointed Superintendent of the State Farm of Rhode Island, and the several institutions located thereon.

A line of telegraph is soon to be put up between the Shattuck Observatory at Dartmouth College and the Western Union telegraph office, thus connecting the Observatory with the rest of the world. The primary use of this communication will be to enable Professor Young to determine the exact longitude of the Observatory by ascertaining the local time at some distant place whose longitude is already established. A fine zenith sector, loaned by the United States Coast Survey, has recently been placed in position in the east room of the observatory.

☞ Mr. Bonner says he will pay one hundred thousand dollars in cash for another horse from any part of the world, if the world can produce one, that will trot as Dexter trotted last week, a mile in 2.21 3-4 to a road wagon, and carrying the same weight which he carried.

☞ London has an "Anti-Compulsory Vaccination League."

Correspondence of Chronicle and Gazette.

KITTERY, ME., Oct. 1.

Messrs. Editors:—You have heard about the movement lately made in this town, by the men who do not understand liberty to mean the right to annoy and interfere with others, to close up the rum-peddling business here; and that a large number of respectable citizens have been summoned before the grand jury as witnesses.

One class of these citizens, quite willing to have intemperance kept out of sight, or even to have the saloons—although they occasionally frequent them themselves—closed entirely, if it could be done without bringing them in, are virtuously indignant at being called upon to assist in the work,—"they didn't want to be dragged into the matter at all—why don't those who want the saloons closed find their own evidence?" That's just what we are doing,—and we prefer to have those who patronize such places from private reasons of their own, appear as witnesses for us, to entering the dens ourselves.

There is another class of citizens, equally good with the last, who, altho' they found perhaps as much fault with the liquor-selling as anybody, yet when the pinch comes, find still more fault with the means taken to shut up the nuisances than they previously did with the nuisances themselves. They would like to see the saloons closed, but are so tender-hearted they don't want to hurt anybody's feelings in doing it. The liquor dealers deserve great consideration, certainly; they have always been so very anxious lest their traffic should injure the drinkers, or interfere with the right of the abstainers to live in peace. Much those gentlemen cared who they harmed, so their own pockets were filled.

Some of our good, respectable citizens wish people would mind their own business, and let other folks' alone. We consider that we *are*, just minding our own business; and that when we are disgusted and outraged by drunken men reeling through our streets, engaging in savage brawls, howling and cursing, insulting women and assaulting men,—and the authors of all this refuse to give up their detestable business on being requested so to do,—that it *is* our business to protect ourselves as best we can; and the law gives us a remedy, which we mean to enforce.

If the excellent and consistent Temperance men who object to our proceedings on the "personal liberty" principle, wish to establish a private rummery of their own, and get all the sots and occasional drinkers in the place in there, where they can drink, swear and fight at their leisure, they will probably not be interfered with in so doing so long as they *keep their victims in;* but we have been troubled long enough by having the rum-sellers get men's money and brains, and then *turn them out* to make a pandemonium of our village,—and have struck at the root of the evil; if we can stop the rum-selling, the rum-drinking will not trouble us much.

Yours ever, GAY.

THE GOLD PANIC.—The N. Y. Express says:—"It is estimated that the depreciation in the price of gold and securities dealt in on the New York Exchange since Thursday last, will reach one hundred millions of dollars in currency. Many men have been reduced from affluence to poverty and many sad faces are to be seen in the vicinity of the Stock Exchange. The heavy stock failures of Wednesday have not, as yet, dragged down any other firms, but these failures will cause heavy losses to a large number of people having deposits of money with the suspended firms. The effect of their failures in the country, more especially at the West, remains to be seen."

☞ Vanderbilt styles the gold speculators "a combination of d—d thieves to put money into their pockets."

BUSINESS NOTICES.

Every family in town should keep a bottle of Renne's Pain-Killing Magic Oil in the house. Directions for use will be found on each bottle.

FACTS FOR THE LADIES.—I have used my Wheeler & Wilson Sewing Machine for more than ten years steady, at dress-making, from ten to fourteen hours a day. For the last nineteen months I have used the same needle, and am still using it. My machine is in as good working order to-day as when I first got it.

NEW YORK. MARTHA CAVAN.

There is no disease flesh is heir to more troublesome to manage than Rheumatism. It comes when you least expect it, and generally remains till it gets ready to go away. The most conspicuous remedy for this complaint is "Johnson's Anodyne Liniment."

Two or three doses of "Sheridan's Cavalry Condition Powders" will cure a horse of any common cough or cold, and the very worst cases may be cured in a few weeks. We know this from experience.

TONICS.—Those who resort to tonics will find Speer's "Standard Wine Bitters" the best adapted to benefit the different ailments of the system, whether diseased or debilitated from over exertion or by any other cause. Try them.

Sold by Druggists. s6

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Chronicle office. Price 5 cts. per copy—$2. per year. Contains *all* the Local and other reading from the Daily Chronicle.

SPECIAL NOTICES.

ALLEN'S LUNG BALSAM,

The Remedy for curing CONSUMPTION, COUGHS, BRONCHITIS, ASTHAMA, and CROUP. As an Expectorant, IT HAS NO EQUAL.

It is composed of the active principles of roots and plants, which are chemically extracted, so as to retain all their medical qualities.

Ministers and Public Speakers

Who are so often afflicted with throat diseases, will find a sure remedy in this Balsam. Lozenges and wafers sometimes give relief, but this Balsam, taken a few times, will insure a permanent cure.

Will all those afflicted with Coughs or Consumption, give this Balsam a fair trial, they will be pleased with the result, and confess that the sure remedy is found at last.

IT IS SOLD BY ALL DRUGGISTS.

WORDS OF CHEER,

ON THE ERRORS OF YOUTH and the FOLLIES OF AGE, in relation to MARRIAGE and SOCIAL EVILS, with a helping hand for the erring and unfortunate. Sent in sealed letter envelopes, free of charge. Address, HOWARD ASSOCIATION, Box P., Philadelphia, Pa

Now is the Time

To repair the inroads made upon the physical strength by the heated term which has closed with September. The vitality that has been oozing through the pores in the form of prespiration, for the last three months, requires to be replaced, as a preparative to the cold season which makes such disastrous havoc with relaxed and unstrung systems. The reserve of vigor with which the stoutest man commences the Summer campaign is drained out of him at its close, and unless by some means he acquires a new stock of vital energy wherewith to encounter the shock of a colder season, he may droop and wither like the falling leaves whose life-juices are exhausted. If it is thus with the strong, how much more perilous is the condition of the weak and ailing. Their resource must suggest to them, more forcibly than these printed words, the necessity for *invigoration*, and the world having decided, after an experience of almost a quarter of a century, that HOSTETTER'S STOMACH BITTERS embrace such restorative properties as are not possessed by any other tonic and alterative preparation in existence.

The importance of restoring to that great RENOVATOR AND REGULATOR OF THE HUMAN MACHINE, at this critical season, is as obvious as the light of day. Let all who desire to escape an attack of chills and fever, bilious remittent fever, dyspepsia, diarrhœa, dyspepsia, rheumatism, hypochondria, or any other of the diseases of which the fall season is the prolific parent, have recourse promptly to this celebrated preventive and restorative. ot

Ellis' Iron Bitters

Will enrich the blood and prevent it from becoming watery and weak, give a healthy complexion, restore the appetite, invigorate the system, and are very palatable. These Bitters are recommended to all persons requiring a safe and valuable tonic, to impart tone and strength to the system, not given by Bitters merely stimulant in their effects; which, although they may possess tonic vegetable properties, cannot give the strength to the blood which the *Iron Bitters* will give.

Prepared by Wm. Ellis, Chemist. For sale in Portsmouth by WILLIAM R. PRESTON; by Weeks & Potter, Wholesale Agents, 170 Washington Street, Boston; and by Druggists and Grocers generally. mh29m6md

TO OWNERS OF HORSES AND CATTLE.

TOBIAS' DERBY CONDITION POWDERS are warranted superior to any others, or no pay, for the cure of Distemper, Worms, Bots, Coughs, Hide-bound, Colds, &c., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Horn Distemper, &c., in Cattle. They are perfectly safe in innocuous; no need of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs; also increase the milk of cows. Try them and you will never be without them. The late Hiram Woodruff, celebrated trainer of trotting horses, used them for years. Col. Pelle. P. Bush, of the Jerome Race Course, Fordham, N. Y., would not use them until he was told of what they are composed, since which he is never without them. He has over twenty running horses in his charge, and for the last three years has used no other medicine for them. He has kindly permitted me to refer any one to him. Over 1,000 other references can be seen at the Depot.

Sold by Druggists and Saddlers. Price 25 cents per box. Depot, 10 Park Place, New York. au18

PAIN KILLER.

MANHATTAN, Kansas, April 17, 1866.

MESSRS. PERRY DAVIS & SON,

Gentlemen:— * * * I want to say a little more about the Pain Killer. I consider it a very valuable medicine, and always keep it on hand. I have traveled a good deal since I have been in Kansas, and never without taking it with me. In my practice I used it freely for the Asiatic Cholera in 1849, and with better success than with any other medicine. I used it freely in the Cholera in 1855, with the same good results.

A. HUNTING, M. D.

* * * "I regret to say that the Cholera has grevailed here of late to a fearful extent. For the last three weeks, from ten to fifty, sixty fatal cases each day have been reported. I should add that the Pain Killer sent recently from the Mission, has been used in the most successful process during this epidemic. It taken in season, it is generally effectual in checking the disease.

REV. CHAS. HARDING, Sholapore, India." au20

The President Declares War

Against all impositions upon the people, and Science, following the glorious example, is out who sell sugar of lead hair dyes, that not only ruin the hair, but paralyze the system. Impostors

WHO DESTROY THE UNWARY

should be put down by law. In the meantime,

Cristadoro's Excelsior Hair Dye

is offered under the guarantee of Professor Chilton, the famous analytical chemist, as an efficient, PURE AND HARMLESS PREPARATION.

CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. 1md&wsn19

Holloway's Pills.—More than two-thirds of the sickness which occurs in the summer proceeds from a disordered condition of the liver. Persons of a bilious habit suffer most in warm weather. They are languid, low spirited troubled with pain in the side, head-ache, and a constant feeling of weariness. The immediate and certain remedy for these symptoms, and all others proceeding from biliousness, is HOLLOWAY'S PILLS. Of all anti-bilious medicines they are safest, surest and best. Sold by all Druggists. s8

SPECIAL NOTICES.

CONSUMPTION,

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS for Diseases of the Liver, or to act as a gentle Purgative.

All of these three medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills assist in regulating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These medicines are conscientiously offered to the public as the only safe, certain and reliable remedies for Pulmonary Consumption, and for all those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has a long probation before the public. Its value has been through a period of more than thirty-five years, in all of which time its reputation has constantly increased, and the most obstinate skepticism can no longer doubt that it is a remedy which may be used with confidence in all cases which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, he will certainly be cured, if his lungs are not too much wasted to make a cure possible. Even in cases supposed to be incurable, when friends and physicians have despaired, the use of the medicine has saved the life of the patient, and restored him to perfect health.

Dr. Schenck himself was cured in precisely such circumstances, and many others have been equally fortunate by judiciously making a trial of Dr. Schenck's remedies.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he emphatically asserts, that often when patients have the most alarming symptoms, such as a violent cough, creeping chills, night sweats, and general debility, even to such a degree that they are obliged to lie in bed, and when their friends are given up by their physicians, they may still be cured. No medical treatment can create new lungs, but when the lungs are very badly diseased, and to some extent destroyed, a cure may be effected by Dr. Schenck's medicines.

Also in Scrofulous diseases these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores, and now all healed up. This shows its purifying properties, which must be done to heal cavities in the lungs.

In the treatment of Consumption, it is of the utmost importance to give vigor and a healthy tone to the system. Hence it is necessary to strengthen the appetite of the patient, and improve the digestion. Proper nourishment is required, together with such means as will make the food easily digestible. The article most suitable for the diet of consumptive patients are designated in Dr. Schenck's Almanack, which are distributed gratuitously, in pamphlet form, and nutritious articles are to be preferred; but the digestive organs must be strengthened in order to render either food or medicine available. This requirement is met by the Sea Weed Tonic, and for this purpose it was designed.

When the digestive powers are put in good order, the food has its proper effect, the system of the patient is invigorated, and the lungs begin to perform their functions in a normal and healthy manner. Then the healing powers of the Pulmonic Syrup will complete the cure.

Pulmonary Consumption is almost always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills are intended to remove obstructions from the liver and restore its healthy action. They have all the efficacy which is ascribed to calomel or "blue mass," and are warranted not to contain a particle of any mineral poison. These pills are the most obstinate costiveness, sick headache, piles, bilious affections, and all other diseases which arise from a torpid or obstructed condition of the liver. One box of these pills will prove the efficacy of the medicine.

In Consumption, the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines. They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. They have been found useful in advanced stages of Consumption, where the lungs were almost entirely destroyed, and all symptoms, according to the judgement of physicians, indicated speedy death. Lives of patients who were actually in a dying condition have been preserved for months by the use of Schenck's three great remedies.

DR. SCHENCK'S Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general success in the practice of his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North Sixth Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggist and dealers.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been unfolded. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but combining all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to the public notice in a perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components can be and has been made a delicate art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the fairer sex are peculiarly subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered as cathartics. As an anthelmintic specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

Wholesale agent, John F. Henry, No. 8 College Place, New York City.

PECULIAR ADAPTABILITY.

Brandreth's Pills.

Their peculiar adaptability to all constitutions as cleansers of the bowels and stomach has established their great merit. They restore the liver, the spleen and even the heart to healthy action when other remedies have been used without producing any benefit. They do not expose those who use them to any danger, being as safe as salutary.

Extract from Letter to Dr. Brandreth, from C. J. Fay, Esq., P. M., Hammonton, N. J.

"In 1836 I was in poor health; and my friends as well as myself supposed that my earthly voyage would soon terminate. But after taking one box of Brandreth's Pills, I began to feel better. Well, sir, when I had used up twelve boxes I was a well, healthy man—my weight having gone from 131 pounds up to 152 pounds. I then ordered a supply, and between that time and the present I have retailed three thousand dollars' worth of these invaluable pills, and am quite sure that I have thereby been instrumental in saving thousands of lives.

Yours, truly, C. J. FAY, P. M."

Sold by all Druggists. Observe my name in white letters in the government stamp.

B. BRANDRETH.

BOOK AGENTS WANTED FOR THE AUTOBIOGRAPHY AND *PERSONAL RECOLLECTIONS, By JOHN B. GOUGH.*

A complete history of his life, his almost superhuman struggle against intemperance, with vivid pen pictures of what he saw in Europe. The whole enlivened with affecting incidents full of interest and pathos. The work will be beautifully bound and illustrated. There can be no opposition. Every one wants it. Agents are taking from 20 to 50 orders in a day. The lowest report yet received is 22 orders in 3 days. Address the publishers, BILL, NICHOLS & CO., Springfield, Mass. s30 1md

LOCAL AFFAIRS.

New Advertisements to-day.

Reading for the Winter—H. O. Houghton & Co.
Gunboat for Sale—Navy Department.

☞ Ensigns Jesse B. Smith and M. H. Tallman are ordered to duty at this Navy Yard.

IN THE BOARD OF ALDERMEN, Thursday evening, petition of B. Norton, for Concrete Sidewalks at the residence of Mr. Pickering on Washington St., and at his own premises on Cabot St.,—was referred to Com. on Sts. and St. Commissioner.

Ald. Slater, from Com. on Sts., (the chairman, Ald. Spinney, being absent,) stated that the Com. were not ready to report on the Creek Cess-pool case, but he presented a letter from Supt. Prescott of the Eastern Railroad, stating that he will fill the pool for 45 cts. per square yard.

Ald. Slater was not in favor of the City paying all the expense of this thing; he preferred it should go before the Grand Jury next month—so did Ald. Clark and others.

Mr. Wm. Plaisted had leave to withdraw his petition or inquiry, as to payment of his charges for moving the street-sprinkling tank and pump, from Pleasant St., last summer. Ald. Cotton supposed, when his bill for sprinkling is paid—that he will commence a suit.

Mr. Alphonzo Rand had leave to withdraw his bill of $9 for work done at the High School at the time of the Exhibition—it being approved only by Mr. Payson the Principal, and not by any of the School Committee. Considerable discussion and condemnation of these exhibitions ensued, in which Ald. Nowell, Cotton and others participated. The practice of making such expenditure was denounced by Ald. Cotton especially—and on the Mayor suggesting that the School Committe is the place to discuss the management of Schools; Ald. Nowell replied that the Board could discontenance the useless displays by refusing to pay the bill.

On motion of Ald. Miller, the joint Com. on Sts., with St. Commissioner added, were authorized to change the proposed grade of the extension of Summer Street, if they deem desirable, and make report of same to the City Council.

Mr. W. H. Dennett, 2d, hackman, was given leave to withdraw his petition for payment of a bill of $15; contracted by order of Fireman Chas. S. Tucker, for drawing a Fire Engine in procession on the 4th of July, 1866. The Board of Engineers have repeatedly refused to approve the bill.

Petition of D. Austin, Esq., for sidewalk on Court St., was granted, under the usual restrictions. The Street Commissioner was also requested to repair the drain in Court House Yard, not Mr. Austin's.

On motion of Ald. Cotton, the Board voted to visit the new County Farm at Brentwood, at their own expense, at an early day, not decided on. The City Clerk stated that the first two inmates from Portsmouth were to be conveyed thither on Friday.

Considerable discussion was had, whether to adjourn for one week or two; but on motion of Ald. Slater, it was decided to meet next week.

The Common Council was not called in session, as several members were absent from the city.

From the Portsmouth Journal.

The printing of the Second series of "Rambles about Portsmouth," is making steady progress, and the sheets will shortly be in the binders' hands. Having been frequently requested to do so, the publisher will add to the book a lithograph likeness of the author, which is now being prepared by Mr. John H. Bufford of Boston. This considerably increases the expense of the book, but is given without additional charge to subscribers. The subscription list at $2,25 per copy will close as soon as the book is issued, and the price will then be $2,75.

A LARGE FORCE OF MEN are now at work taking out the machinery of the Penobscot, preparatory to offering this vessels for sale at auction.

THE RECENT ORDER for the payment of the men semi-monthly, went into effect this week. The delay of a few days was occasioned by a scarcity of small denominations of greenbacks.

LIEUT. LYMAN P. FRENCH of the Marine Corps, at this station, received orders Monday afternoon to proceed to New York for duty on board the Albany, now fitting out at that yard.

The Eastern Railroad is spreading its territory in Portsmouth. The purchase of the land lying between the railroads and the North mill pond, known as Hale's Point, will give much needed space for improvements, that may be made mutually beneficial to the road and the city. If the Railroad should take measures to erect here a machine and repair shop, or any other works which will give employment to labor, it is to be hoped that every means of encouragement to the road will be given by our citizens and city government. We understand that plans for somewhat extensive operations are now being drawn and will soon be carried out.

The new stone sewer on Vaughan street, a much needed and long talked of improvement in process of being laid, this week, under the directions of the Street Commissioner. When Congress street is reconstructed and the water that now flows over the crossing at the head of Vaughan st. is turned into the sewer before it leaves Congress st., the work will be accomplished. Another year will probably finish that job. Formerly the North and South Mill ponds were connected by a small, the bed of which was near the line of this sewer. It is said that less than one hundred years ago the boys fished for smelts near what is now the corner of Vaughan and Congress streets.

I. O. OF O. F.—The Grand Encampment and Grand Lodge, I. O. of O. F., of N.H. hold their annual session at Manchester on the 12th and 13th of Oct. The Representatives elect from this city are as follows:

From Strawberry Bank Encampment, Moses H. Tilton, James W. Wingate

From Piscataqua Lodge, James R. Morrison John H. Locke

From New Hampshire Lodge, John M. Clark Thornton Betton.

From Osgood Lodge, John F. Leverton.

DEATHS.

☞ The Funeral of Mrs. WHEELOCK will take place at the North Church this (Saturday) afternoon at 3 o'clock.

VALUABLE BOOKS PUBLISHED BY

H. O. HOUGHTON & CO.,

Riverside Press, Cambridge, Mass.

For sale by all Booksellers, and to be obtained of the Publishers by sending a Post-office order, check, or money to the necessary amount.

N. B.—The Publishers will send free to any address their large Catalogue of Publications, from which a farther selection can be made.

I.

THE IMPROVISATORE. By Hans Christian Andersen. In one volume, crown 8vo. Price in cloth, $1.75.

"No book brings back the externals of Italy more distinctly and vividly to the eye of the mind than this novel of the Danish poet's. Everything which an observant traveller may have noted as characteristic of Italy, and not elsewhere found, will be discovered anew in these animated pages."—*Ballard's Six Months in Italy.*

II

A HISTORY OF NEW ENGLAND. By John G. Palfrey, LL. D. In two volumes, crown 8vo. Cloth, $5.00.

"We believe that Dr. Palfrey has penetrated deeply into the spirit of American History, and has thus given a certain harmonious unity to the annals of New England fathers, the want of which has made the narrative of their fortunes, as usually related by the early writers, so arid, confused, and repulsive."—*New York Tribune.*

III.

CHARLES DICKENS' WORKS. Most Complete Edition, containing matter not in any other collected edition, English or American. In 14 volumes. Globe Edition. $21.00.

Each volume over 1200 pages sold separately at $1.50.

IV.

JAMES FENIMORE COOPER'S COMPLETE WORKS. Household Edition, 32 volumes, $40.00. Each volume sold separately. Price $1.25.

THE LEATHER-STOCKING TALES, by the same author, in five volumes. Price $6.25.

COOPER'S STORIES OF THE SEA; STORIES OF THE WOOD; STORIES OF THE PRAIRIE. Each in one volume. Price $1.50.

"The enduring monuments of Fenimore Cooper are his Works. While the love of country continues to prevail, his memory will exist in the hearts of the people. So truly patriotic and American throughout, they should find a place in every American's library."—*Daniel Webster.*

V.

LIFE, LETTERS, AND POSTHUMOUS WORKS OF FREDERIKA BREMER. *Price*, $2.00.

" . . . . We feel sure that the rare qualities of heart and mind united, the beauty of description and purity of thought and feeling which won for Miss Bremer's domestic pictures so many loving readers after the world during her lifetime, will draw the old ones back and attract many new ones to these memorials."—*Chrn. Ex. Chronicle.*

VI.

THE PILGRIM'S WALLET; or, Scraps of Travel gathered in England, France, and Germany. By Gilbert Haven. In one volume. $2.00.

"His pictures are drawn with a firm and vigorous hand. His description of London is wonderfully vivid and clear, and the only one we remember ever to have read which gives the slightest notion of the external features of the modern Babylon."—*Portland Press.*

VII.

THE OPEN POLAR SEA. By Dr. I. I. Hayes. In one volume, $2.50. Fine edition, $3.75.

"The volume is everything to be desired in respect of mechanical execution. The illustrations, some after sketches or descriptions by Dr. Hayes, have an additional charm thrown around them by the pencils of Darley, White, and Fenn, and are, without exception, spirited and artistic. The map enable the reader to trace the course of the expedition with ease, and as regards typography, it need only be said that the volume was printed at the Riverside Press."—*New York Times.*

VIII.

MRS. CAUDLE'S CURTAIN LECTURES. By Douglas Jerrold. With illustrations. $1.25.

IX.

PICCIOLA. By X. B. Saintine. In one volume, beautifully illustrated. $1.25.

"This is one of the few modern tales which have attained a classical reputation. Like 'Paul and Virginia,' and Elizabeth, or the Exiles of Siberia, 'Piccola' is regarded as a book to keep, not merely to read and throw aside; its style and sentiment combine to give a permanent literary value; it is a household, a human book, appealing to the most refined and elevated feelings."—*Jos. Trans.*

X.

HISTORY OF ENGLAND. By Lord Macaulay. Student's Edition, in four volumes, 8vo. $8.00.

. From the latest English Edition, with additional notes. (——)

HOW TO PROCURE ANY OF THE ABOVE BOOKS **Without Expense of Money.**

The Publishers of these works publish also "The Riverside Magazine for Young People," an illustrated Monthly, $2.50 a year, having for special contribution Hans Christian Andersen, the most charming writer for the young. They will *allow one dollar's worth in their Books* to every one sending the name of a new subscriber with $2.50 cash. Thus, by a little labor, any one can provide himself with a choice collection of books.

No. 9 Penhallow Street, Portsmouth, N. H.

A PACIFIC RAILWAY

GOLD LOAN $6,300,000.

We beg leave to announce that we have accepted the agency of the

KANSAS PACIFIC RAILWAY COMPANY,

For the sale of its

NEW SEVEN PER CENT.

Thirty Year Gold Loan,
Free from Tax.

This Loan amounts to $6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds,

secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon the Road, the Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,

And in successful operation for 437 miles

west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as

A SINKING FUND FOR THE REDEMPTION OF THE BONDS.

The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the

Value of the Company's property, covered by this mortgage at $23,000,000 net, while the Loan is merely $6,500,000.

The Bonds have

THIRTY YEARS TO RUN,

from May 1, 1869, and will pay

SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be

PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:

On $1,000 Bond in N. Y. $35 (gold) each half year.
" London....£7 8s. 10. "
" Frankfort..87 fr. 30 krtzs., "

The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a

FIRST CLASS INVESTMENT,

in every respect perfectly sure, and in some essential even

Better than Government Securities.

The Bonds will be sold for the present at

96, *and accrued Interest, both in Currency,*

the Agents reserving the right to advance the rate.

The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

Pamphlets, with maps giving full information, sent on application.

M. T. BETTON. C. DWIGHT HANSCOM.

Morning Chronicle.

THE CAROLINA SISTERS.—In a very interesting article in the Medical and Surgical Journal, J. B. S. Jackson of Boston shows the absurdity of calling the two girls, united by the lower part of their backs, who have been exhibited in various parts of this country and in Europe almost from the time of their birth, the "Two-Headed Girl," there being in reality *two* girls; and as many of our readers have seen them, we have no doubt the following extracts from his article will be read with much interest.

The female attendant, who stated that she had been with them during the last five years, and at different times in former years, was not the show-woman, but appeared to be a perfectly trust-worthy person, and from her I have obtained, on close inquiry, the following facts. She was herself the slave of the gentleman in North Carolina who bought the girls when they were a few weeks old, and about two years afterwards the rest of the family. She, of course, knew them from that time, and subsequently their mother, who was a large, fleshy woman, had had fifteen or sixteen children, and said that her labor, when these united children were born (July 11th, 1851) was as easy as any that she had had—the birth occurring before the arrival of the doctor.

Their names were Christina and Millie, and their estimated weight at birth being about 17 lbs., that of C. was estimated at about 12 lbs. M. was so much the smaller of the two that their mother used to say that if it were not for the legs and arms she should say that instead of a second child there was only a "knot" on C.'s back. The union not being strictly back to back, they naturally favored the position to which they inclined; and as this tendency has increased, their mode of progression has come to have more of a side-way direction. * * * *

That hunger and thirst should be experienced simultaneously when the digestive organs are almost entirely separate, and when the vascular connection must be so trifling, is certainly very remarkable. For some years they lay upon one side, and their heads in consequence became somewhat deformed; but they have since lain upon either side, though of course inclined more towards the back when upon the divergent side; and one may be talking and laughing with those about her whilst the other is sound asleep. Their general health is quite good, and the most severe sickness that they ever had was the fever and ague, when the chills were simultaneous and also the heat. One alone may have a slight headache, as from indigestion; but, if severe, it is felt by both. The effect of a cathartic upon one when given to the other the attendant knows nothing of, as since she has been with them one half of any such medicine has been given to each when required.

Their weight within the last month was 170 lbs. M. was very much the smallest in early life as above stated, and C. could raise her from the ground and walk off with her, but she has not done this for the last year or more, on account of the strain; M. having gained upon her sister, so that now the difference between them is not great. M. however, wears a boot that is one size smaller than C.'s. * * * *

They are quite, though not deeply black, rather short, and have the appearance of robust health. The inclination toward one side is considerable; and that side being called the front, it may be stated that they incline to rest upon the back legs, and I saw them walk upon these whilst they held up the front ones. Like crabs, their walk is rather sideways than forward and back. The feet and legs of C. are of about equal size, and each foot comes quite to the end of her boot; but M.'s front leg is considerably smaller than the other. The fore-legs seem to be shorter than the two others, so that the heels of the first do not touch the floor when they stand squarely upon the last; but this seems to be connected with a strong lateral curvature of the spine, that exists in each of the girls, and that probably results from the constrained and twisted position that they naturally assume; the front hips being considerably higher than the two others. They not merely walk rapidly about the room, but they waltz together, and rather gracefully; and they seem to have very little difficulty in the sitting position. I saw them touch their lips, but they cannot do it as easily, they say, as in former years. * *

Their lips are of the thickest African cast, but their expression and conversation are cheerful, their manners agreeable, their frontal development good, and they show as much intelligence as we should expect to find in most girls of their age; their characters having probably much improved since they were seen by Prof. Simpson. At one of my visits I found them at work, and M. was sewing with her left hand: her habit, formerly, having been to use this hand much more than she does at present. Their voices are harmonious, and they sing with fine effect. In consequence of the lateral inclination of their spines the chests are very considerably deformed; the backs of each toward the front, or converging side, being perhaps flattened, and the ribs and scapulæ of the two other backs very prominent. The front of each of their chests is short in the vertical diameter, rounded and prominent.

The heart of M. has been positively stated to be in the right side of the chest; but I could not feel persuaded of this, though there is evidently some displacement. This last may, perhaps, be owing to the distortion of the chest, though nothing of the kind is observed in C. Vesicular respiration was heard upon each side of the sternum; and the second sound of the heart was about as loud upon the right side of the chest as upon the left, but it was loudest over the sternum. The impulse could not be felt. * * * * * * *

In a later number of the Medical Journal, Dr. Jackson quotes from an article by Prof. S. H. Dickson of Philadelphia, who gives a detailed account of a professional examination of these girls by himself,—which furnishes conclusive evidence that the being exhibited as a two-headed girl is a strange union of two individuals.

SHORT RULES IN RURAL ECONOMY.—Paint all tools exposed to the weather, and if with a light-colored paint, they will not heat, warp, or crack in the sun.

Dip well-seasoned shingles in a lime wash, and dry them before laying, and they will last much longer, and not become covered with moss.

Dip the ends of nails into grease, and they will drive easily into hard wood, where they would otherwise double and break.

In screwing nuts to any part of machinery in cold weather, be careful not to heat them first with the hands, or they will contract after being screwed on tight, and become immovable afterwards.

In plowing or teaming on the road in hot weather, always rest the horses on an eminence, where one minute will be worth two in a warm valley.

In setting young orchards, always register varieties immediately in a book, where they may be referred to in a few years, when the trees commence bearing, and the labels are lost, and names forgotten.

In laying a garden for fruits and vegetables, place everything in drills or rows, so that they may be cultivated by a horse, and thus save the expense of hard labor.

When board fences become old, and the boards begin to come off, nail upright facing strips upon them against each post, and the boards will be held to their proper places, and the fence last several years longer.

TO BE, CERTAINLY!

WHY NOT?

The FACT that T. F. BURTT has about the finest assortment of fine Gold WATCHES, Gold JEWELRY in sets, Fine Gold Rings, Brooches, Pearl and Garnet Rings, Masonic and Odd Fellows Pins, Gold Chains, Clocks, Spectacles, Silver and Plated Ware, is too well known to be disputed.

THE LADIES who have been so well suited from his elegant stock of valuables, know it!

THE GENTLEMEN, whose opinions are nearly as reliable as those of the ladies, are convinced of its truth!

THE PATRONS GENERALLY testify that it is best to purchase THE BEST, and that the BEST PLACE is at

T. F. BURTT'S, 40 Congress St.

IRON MANDRAKE SYRUP.

FREEMAN'S FREEMAN'S FREEMAN'S

IRON MANDRAKE SYRUP
IRON MANDRAKE SYRUP
IRON MANDRAKE SYRUP

Is an excellent combination of IRON with MANDRAKE and vegetable tonic.

The Mandrake acts on the Liver and prevents the bracing effects which Iron has so many other preparations; while the vegetable tonic strengthens the stomach, and promotes Digestion of Food and facilitates the absorption of Iron into the blood.

MANDRAKE
MANDRAKE
MANDRAKE

Is the great vegetable substitute for Calomel to act on the Liver.

In Freeman's Mandrake Syrup it is combined with Iron and Vegetable Tonics, and forms the most perfect Spring Medicine.

It purifies the blood and imparts IRON to it.

It acts on the Liver and removes foul humors from the body. It is a most excellent remedy for debility, especially for mothers who are worn down by nursing infants, and for all persons whose blood is pure, and who need iron and a strengthening medicine.

SPEER'S SAMBUCI WINE.

CATAWBA, PORT, GRAPE and P. J. Sherry.

The above Wines are made by Mr. Speer, whose reputation as a wine grower stands pre-eminent. They are well established, and long known by the Medical Profession as the most reliable and valuable wines to be had.

Every family at this season should use

SPEER'S SAMBUCI WINE,

celebrated in Spain and Portugal for its beneficial qualities, highly esteemed by eminent physicians, used in European and American Hospitals and by the first families in Europe and America.

Excellent for weak and debilitated persons, the aged and infirm, improving the appetite and benefitting the ladies and children.

AS A DIURETIC

it imparts a healthy action to the Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic affections. Also,

SPEER'S PORT GRAPE WINE

is pure juice of the Oporto Grape, recommended by Physicians as possessing medical properties superior to California or Imported Wines.

SPEER'S STANDARD WINE BITTERS

The Best and Most Reliable Tonic and Bitters in the market, which is always the

CHEAPEST.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the United States Patent Office, Washington, under the Act of 1837,
No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,
After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Research made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished for ten cents for each one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months I was subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."
Boston, Jan. 1, 1869.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

FALL RIVER LINE

FOR New York, Philadelphia, Baltimore, Washington, and all principal points West, South and South-west.
VIA TAUNTON FALL RIVER AND NEWPORT.
Cabin, $5.00; Deck, $4.00.
Baggage checked through and transferred in New York free of charge.
New York trains leave the Old Colony and Newport Railway Depot, corner of South and Kneeland Streets, daily, (Sundays excepted,) as follows: at 5.30 P. M., arriving in Newport 40 minutes in advance of the regular Steamboat Train, which leaves Boston at 5.30 P. M., connecting at Newport with the new and magnificent steamers PROVIDENCE, Capt. B. M. Simmons, and BRISTOL, Capt. Benj. Brayton. These steamers are the fastest and most reliable boats on the Sound, built expressly for speed, safety and comfort. This route connects with all the Southern Boats and Railroad Lines from New York going West and South, and convenient to the California Steamers.

"To Shippers of Freight," this Line, with its new and extensive depot accommodations in Boston, and large pier in New York, (exclusively for the business of the Line,) is supplied with facilities for freight and passenger business which cannot be surpassed. Freight always taken at low rates, and forwarded with despatch.

New York Express Freight Train leaves Boston at 1.30 P. M.; goods arrive in New York next morning about 9 A. M. Freight leaving New York reaches Boston on the following day, at 9.45 A. M.

For tickets, berths and staterooms, apply at the Company's office at No. 3 Old State House, corner of Washington and State Streets, and at old Colony and Newport Railroad Depot, corner of South and Kneeland Streets, Boston.

☞ Sunday Night Line. ☜

Cars leave every Sunday evening, at 6.30 P. M., connecting as above.

The Office, Depot and Pier 9 Mason, Boston, will be open every Sunday afternoon from 2 to 6 o'clock, and at the Depot from 9 to 10 A. M., and from 5 to 6.30 P. M. for sale of tickets and staterooms.

Steamers leave New York daily, (Sundays included,) from Pier 28 North River, foot of Murray Street, at 5 P. M.

The Chronicle.

TWAIN ON BEECHER.—Rev. Henry Ward Beecher's private habits are the subject of Mark Twain's latest contribution to the Buffa'o Express. The whole article is extremely funny, but that portion which relates to Mr. Beecher's farming experience is in the humorist's most extravagant vein, and quite equal to his best efforts. It is as follows:—

"Mr. Beecher's farm consists of 36 acres, and is carried on on strict scientific principles. He never puts in any part of a crop without consulting his book. He ploughs and reaps and digs and sows according to the best authorities—and the authorities cost more than the other farming implements do. As soon as the library is complete, the farm will begin to be a profitable investment. But book farming has its drawbacks. Upon one occasion, when it seemed morally certain that the hay ought to be cut, the hay book could not be found—and before it was found it was too late and the hay was all spoiled.

Mr. Beecher raises some of the finest crops of wheat in the country, but the unfavorable difference between the cost of producing it and its market value after it is produced has interfered considerably with its success as a commercial enterprise. His special weakness is hogs, however. He considers hogs the best game a farm produces. He buys the original pig for a dollar and a half, and feeds him forty dollars' worth of corn, and then sells him for about nine dollars. This is the only crop he ever makes any money on. He loses on the corn, but he makes seven dollars and a half on the hog. He does not mind this, because he never expects to make anything on corn, anyway. And any way it turns out, he has the excitement of raising the hog anyhow, wether he gets the worth of him or not. His strawberries would be a comfortable success if the robins would eat turnips, but they won't, and hence the difficulty.

One of Mr. Beecher's most harassing difficulties in his farming operations comes of the close resemblance of different sorts of seeds and plants to each other. Two years ago, his far-sighted ness warned him that there was going to be a great scarcity of water melons, and therefore he put in a crop of twenty-seven acres of that fruit. But when they came up they turned out to be pumpkins, and a dead loss was the consequence. Sometimes a portion of his crop goes into the ground the most promising sweet potatoes, and comes up the infernalists carrots — though I never have heard him express it just in that way. When he bought his farm, he found one egg in every hen's nest on the place.

He said that here was just the reason why so many farmers failed—they scattered their forces too much—concentration was the idea. So he gathered those eggs together and put them all under one experienced old hen. That hen roosted over that contract night and day for eleven weeks, under the anxious personal supervision of Mr. Beecher himself, but she could not "phase" those eggs. Why? Because they were those infamous porcelain things which are used by ingenious and fraudulent farmers as "nest eggs." But perhaps Mr. Beecher's most disastrous experience was the time he tried to raise an immense crop of dried apples. He planted fifteen hundred dollar's worth, but never a one of them sprouted. He has never been able to understand, to this day, what was the matter with those apples.

Twain concludes his sketch with a glowing eulogy, in which humor gives place to genuine admiration, "He has set his mark upon this his "epoch," says Mr. Clemens, and years hence, when the people turn over the bales and bundles of this generation's ideas, they will find H. W. B. stencilled on a good many of them."

TEACHING CALVES TO DRINK.—A correspondent of the Country Gentleman writes:—"My practice is to take the calf from the cow at the end of twenty-four hours, and fasten it with about six feet of rope in a box stall; I then milk the cow, and standing off just far enough for the calf to reach me, I wet my finger with milk, put it in its mouth, and gently lower my hand until it is immersed in the milk in the pail; let it continue to have the finger until I have given it enough. This I call lesson No. 1.

The second lesson is given in this wise:—Dip the finger in the milk and place it in its mouth, and when you have brought its mouth in contract with the feed, gradually withdraw your finger, and the thing is done. It may be necessary to repeat this at the third time. The secret is that you must stand just far enough off, so that the calf can just reach the pail of feed, as the rope will then be taut, and hence he cannot reach you or butt over and spill his milk or feed. I have practised this for a number of years, and have had no trouble to teach calves to drink."

PERRY DAVIS' PAIN KILLER,
as an internal remedy has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, dysentery, Asthma, it cures in one night, by taking internally, and bathing with it freely. It is the best liniment in America. Its action is like magic, when externally applied to bad sores, burns, scalds and sprains. For the sick headache and tooth ache, don't fail to try it. In short, it is a Pain Killer. 4ws7

DODD'S NERVINE AGAIN.
ANOTHER CERTIFICATE.
LEDYARD, CONN., April 3, 1869.
Accept thanks for calling my attention to DODD'S NERVINE AND INVIGORATOR. It has done me more good than any other medicine I ever took. I have gained twelve pounds in flesh, and am correspondingly better every way. It is an invaluable remedy.
8wan23 MRS. JOHN T. LEACH.

WHAT ARE
DR. J. WALKER'S CALIFORNIA Vinegar Bitters.
THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits, and refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetisers" "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, *free from all Alcoholic Stimulants.* They are the GREAT BLOOD-PURIFIER and LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, $100 will be given for an incurable case, providing the bones are not destroyed by mineral poisons or other means, the vital organs wasted beyond the point of repair.
FOR INFLAMMATORY AND CHRONIC RHEUMATISM, AND GOUT, DYSPEPSIA, or INDIGESTION, BILIOUS, REMITTENT, and INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS have been most successful. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.
These Bitters are not a gilded pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.
They are Alterative, Tonic, Diuretic, Sedative, Diaphoretic, and Gentle Purgative.
"The Life of all Flesh is the Blood thereof."—Purify the blood and the health of the whole system will follow.

AVERILL CHEMICAL PAINT!
THE RIGHT THING AT LAST!
BENJAMIN NORTON,
Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of
THE BEST PAINT!
ever offered in this city.
It is Durable, Beautiful, Water Proof, Elastic and Economical.
This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.
It is prepared in pure White and one hundred Different Shades, and is unsurpassed in all respects.
It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.
Many testimonials from those who have used it in other places of its superiority over other Paints might be given; but I will only invite those of this city and surrounding towns who intend using Paints, to call at the
GROCERY AND PROVISION STORE,
Nos. 16 & 18 Cabot Street,
which is the ONLY PLACE in this City where it has been used, and examine the Paint where it has been applied in ten or twelve different shades, and where they can choose any color they desire for use, outside or in, and buy from one pound upwards.
In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.
These Paints are manufactured in New York, and Newburgh, Ohio. BENJ. NORTON,
Agent for Chemical Paint Company.
Also for sale, at the same place, the Best Quality of
MEATS AND GROCERIES!
AS LOW AS CAN BE BOUGHT IN THE CITY.

my22 HARTFORD, CONN.

"Ingenio Stat Sine Morte Decus."
ROCKY MOUNTAIN BITTERS
IS a very superior Regulating Tonic, imparting vigor and strength to the constitution—a thoro'
PURIFIER OF THE BLOOD,
a regulator of nervous force, and a powerful sustainer of health against the encroachments of disease.
The invalid and convalescing seeking restoration, and yearning for the healing virtues of some magic balm, will find in these Bitters a hidden mysterious power, which QUIETLY RESTORES, yet refuses to reveal to the senses anything but taste and color.
It is a pleasant Bitter, free from all nauseous properties odor, entirely vegetable, being mainly grown at the base of the mountains from which they derive their name, and is particularly adapted to all forms of
DYSPEPSIA OR INDIGESTION,
manifesting themselves by the following symptoms: headache, nervousness, loss of memory, low spirits, giddiness, dimness of sight, dullness of hearing, and ringing noises in the ears, eructations, of belching of wind, tightness of breathing, weight and oppression of the chest, uneasy feeling about the heart, palpitation, &c.
Also for Liver Diseases, Disorders of the Kidneys, Restlessness and loss of Muscular Power these Bitters will be found almost a specific; as a preventative of
FEVER AND AGUE,
or a restorer of the natural powers of the system, when broken down by continued ague attacks; it has no equal.
Being stimulating, (but not intoxicating), they refresh and invigorate both mind and body, heighten the sensibility, clear and sharpen the faculties, and bestow alacrity and cheerfulness of spirit.
CAUTION.—There have been, and still are several parties manufacturing and selling so-called "Langley's Bitters," many of which are worthless. As a guide against such, I would say that in 1866, I secured my copy-right, in the United States Court, a trade mark and name, "Rocky Mountain Bitters," and all Bitters of my manufacture are put up in *dark, long neck, quart bottles* with red label printed with gold; also, direction label, bearing my seal and directions printed in red, with a red cap and my seal printed in gold, over the cork. Beware of all others, and ask for **"Rocky Mountain Bitters."**

MONDAY, OCT. 4, 1869.

The News.

George W. Curtis declines the Republican nomination for New York Secretary of State.

The National Bank of Norwalk, Conn., has been robbed of $30,000.

The New England Labor Reform League is in convention at Worcester.

The public debt was reduced $7,467,429.39 in September; decrease in the debt since March 1, $56,968,187.90. Amount of Coin in the Treasury, $108,804,658.81.

Another strike is reported among the coal miners at Pottsville, Pa.

A boiler exploded Friday afternoon on the fair grounds at Indianapolis while a great crowd were present; there were 19 persons instantly killed and the number of wounded is thought to be at least one hundred.

A Republican meeting was broken up at Philadelphia by Democratic roughs, Friday evening.

The New York gold dealers are getting over their scare. The failure of Lockwood & Co., is very heavy. Their creditors will hold a meeting for the purpose of discussing the proposition of a subscription *pro rata* in the sum of about a million dollars to enable the firm to resume. Much sympathy is expressed for the failure of this firm, in consequence of the honorable action of the house.

California is having more shakes.

Four Privateers Afloat.—The Cuban expedition, 400 strong, under Gen. Crysto, that left New York on Monday morning at 5 o'clock, on board the steamer Alabama, safely ran the forts and the two revenue cutters, and arrived on the Florida coast Saturday morning. She was joined off the coast by the Cuban privateers Gillian and Teaser, on board of which were 1600 men under Gen. Goiccia, 10,000 Remington and Winchester rifles, 500 sabres and 20 pieces of artillery, ranging from six to twenty pounders. Another body of men under command of Gens. Steedman and Magruder are now at a Gulf port, embarking on a third vessel for the common rendezvous off the Cuban coast. The Gillian and Teaser, with 2000 men, about 70 officers and a considerable quantity of arms and ammunition, sailed for Cuba Friday night. They will be joined at sea by the privateers Hornet and Cuba, carrying 15 guns each, some of which are 100 pounders. The four vessels will escort the expedition to its final destination. The Hornet will cruise about the Island, and the others will go to sea in search of Spanish merchantmen and troop ships. Volunteering is very brisk along the whole Gulf coast, and already 5000 men are awaiting transportation.

Seely Court Martial.— On Saturday, Henry McPherson, a marine on the Pawnee, testified to having heard Mr. Seely give the order to the Master at Arms to take two men below on the 20th of June, and "to put it to them as tight as he could." For two days he heard cries and groans proceeding from the fore peak, and heard one say, "My poor heart, what have I done?" It was not usual to confine men in the fore peak, although he had known of some extreme cases being sent there.

☞ Mark Twain announces in the editorial columns of the Buffalo Express, that the political editor of that paper is absent, and that as he, Mark Twain, is unacquainted with the history, services, morals, politics and virtues of the candidates nominated at the Syracuse convention, with the single exception of Mr. George William Curtis, he shall discreetly hold his peace. He, however, is unwilling to drop the subject entirely, and takes occasion to express his belief "that these nominations are all right and sound, and that they are the only ones that can bring peace to our distracted country, (the only political phrase I am perfectly familiar with and competent to hurl at the public with fearless confidence—the other editor is full of them) but being merely satisfied isn't safe enough. I always like to know before I shout. But I go for Mr. Curtis with all my strength!" The Buffalo humorist will be obliged to await another opportunity of "going" for Mr. Curtis, however, as the latter declines the nomination.

—It is a fashionable sport among the young girls of Fond du Lac, Wisconsin, to collect on the sidewalk and compel their young gentlemen friends to go out into the muddy street, but a local paper calls the practice "boiled cussedness with the scum on."

—Chicago protests that there is not a respectable resident of the city who would have the natonal capital located there.

Correspondence of Chronicle and Gazette.

Portland, Sept. 30.

This city is ambitious, and it may be, for it has the elements of a large commercial city. The fire burnt the old fogyism out of it. The only fear now is that possibly it may go ahead too fast, and suffer therefrom. The Portland & Rochester Railroad will be extended next spring from Alfred to Rochester. There are two surveys made and the road has advertised for proposals for construction. In a few days the route will be decided upon and preparations will be commenced this fall. The Nashua & Rochester and the Concord & Rochester roads are pushing ahead their preliminaries and by another season will go to work on the road itself. The Portland & Ogdensburg *is* being constructed (the first division from Westbrook to Sebago is finished, the second from Sebago to Fryeburg will be finished next spring. The prospect for the P. & O. looks well. The Grand Trunk is being put in prime order and the Portland section from Island Pond to this city is now well repaired. The Portland and Kennebec Co. are constantly improving the road and increasing their business. The managers are wealthy and experienced business men and understand the science of railroading. The Portland Saco & Portsmouth road of course does a fine business being the only road by which Portland communicates with Boston *via* South Berwick Junction. The rolling stock and road are in excellent condition and the only thing which is not satisfactory is the poor depot here. But efforts are now well advanced towards the building of a grand Union Depot next year. The plans have been drawn for some time but not formally excepted. It will be a large and imposing edifice and very convenient and attractive.

The Maine Central with commendable enterprise long for better communication with Portland than that afforded by the Grand Trunk. Western freight crowded the local and the M. C. R. R. suffers thereby. They have long contemplated an independent line from Danville Junction to Portland, 28 miles. It would cost, depot and other buildings included, $1,000,000, but a more economical arrangement is now thought of; that is by some method to connect near Yarmouth with the Portland & Kennebec—the ganges of the two are different however, the M. C. being broad and the P. & K., narrow.

The Portland & Rutland Road managers seeing all these enterprises in progress and in view are making a bold strike for success. Their luck has not been excessive, owing to so many other enterprises taxing the purses and mines of Portland's capitalists. The P. & Rutland failed to obtain a city loan last Spring, but they may ere long have better luck. The grand Railroad Convention to be held at Oswego, Oct. 6th, is regarded as a move in favor of this road. The call for the Convention has been extensively signed by prominent railroad men and others in Maine, New Hampshire, Vermont, New York and the West.

The Portland Dry Dock inaugurated on the 21st is a gigantic enterprise and is already being constantly in use. The work is so much quicker and better done in such a dock that it will soon be found the best investment in Portland's experience.

Water was scarce before the recent rain but the wells now are comparatively full. The Portland Water Co. have poor luck in not before this bringing water into the city. The water reached the City Hall last week. The masses will not be favored with water, as landlords are proverbially close and mean and won't give up the cisterns in rented houses.

Maggie Mitchell, the charming Fanchon, is coming Oct. 20th. The City Hall was engaged first for her, but as Deering Hall is now fitted up so nicely it is a better place, as the stage and scenery are there and for dramatics all these accompaniments are desired. She will probably give us three nights delightful entertainment and will have, of course, crowded houses.

Kate Reignolds, with a talented Company, under management of Mr. E. M. Leslie is coming Oct. 5th and 6th, and will appear at Deering Hall. She is a great favorite here and will receive full houses and a hearty reception.

Sancho.

—A Kentucky boy is tongueless, but manages to eat. Boys who cannot eat are scarce.

—It is believed that Sam Hilderbrand the outlaw, has escaped from Missouri, as nothing has been heard of him for some time.

—Dumas has invented a savory soap of onions and cream, which he prescribes as a cure for headache.

—The wind and rain, on Sunday last, destroyed nearly 200,000 bricks, all moulded, in two brick yards, at Hartford.

New Hampshire Items.

Mr. Geo. S. Ellis and wife, of Keene, celebrated their silver wedding, on Tuesday, Sept. 28.

Laconia has a 16 lb. turnip.

A. L. Bean of Belmont, raised twin lambs this year that at four months old, weighed, one 76 and the other 86 lbs. When dressed they weighed 10 lbs. per quarter.

Cyrus Varney of Gilmanton had one of the bones of his leg split by a horse-kick.

Centre Harbor has an 18 lb. cabbage.

Col. H. O. Kent of the Lancaster Republican has friends who present him plums, six inches in circumference.

The following persons have been appointed overseers of the Thayer School Architecture and Civil Engineering at Dartmouth College: Rev. Asa D. Smith, D. D., LL. D., Hanover; Professor Dennis H. Mahan, LL. D., West Point, N. Y.; Professor Oliver P. Hubbard, LL. D., New Haven, Conn.; General George L. Andrews, Boston, Mass.; General John C. Palfrey, C. E., Lowell, Mass.

The residence of Alfred Wheeler of Manchester was burned on Thursday. It is thought that an eccentric old lady living in the family set it. Insured for $1200.

Mr. John C. Pillsbury of Concord has been appointed deputy warden of the State prison in place of Augustus W. Brown, resigned.

Ex President Peirce is very ill of dropsy at Concord.

Hon. A. H. Bellows was sworn in as Chief Justice of the Supreme Court, on Friday, at Laconia.

Cattle Market at Brighton.

FOR THE WEEK ENDING THURSDAY, SEPT. 30.

[Reported for the Boston Journal.]

At market for the current week—Cattle 2887; Sheep and Lambs 9955; Swine 5000; number of Western Cattle 1513; Eastern Cattle 794; Northern Cattle and Working Oxen 350. Cattle left over 300.

Prices Beef Cattle—Extra $13 00 @ $13 25; first quality $12 25 @ $12 75; second quality $11 25 @ $11 00; third quality $10 00 @ $11 00; poorest grade of coarse Oxen, Bulls, &c., $8 00 @ $9 50 ℔ cwt, (the total weight of hides, tallow and dressed beef.)

Brighton Hides 9½ @ 10c ℔ lb; Country Hides 9 @ 9½c ℔ lb.

Brighton Tallow 8 @ 8½c per lb; Country Tallow 7 @ 7½c ℔ lb.

Wool Sheep Skins $1 50 @ 2 25 each; Sheared Sheep Skins 50c each; Lamb Skins 75 @ 87½c each Sheep Skins 75 @ 87½c each; Calf Skins 20 @ 23c ℔ lb.

The supply from the West was not so large as that of last week, but the quality was better, and prices have fallen off from ¼ @ ½c ℔ lb upon all grades. There were but few Cattle sold for more than 12c ℔ lb. Some of the best lots were taken at a commission. From Maine there were full as many Cattle as came from that section last week. The trade for Working Oxen and Store Cattle has been dull, and drovers say that they cannot obtain home prices for their stock.

Store Cattle—Yearlings $18 @ $28; two year olds $30 @ $45; three year olds $45 @ $64. Many of the small Cattle that are in a fair condition are sold for Beef.

Milch Cows—Extra $65 @ $115; ordinary $50 @ $60; Store Cows $35 @ $55 ℔ head. Most of the Cows in market are of an ordinary grade, there being but a few of the fancy breeds of Cows brought into market to sell.

Working Oxen—The supply is large. Most of the Working Oxen come from Maine. We quote sales at $100, $120, $140, $175, $200; 1 pair $275; 1 pair $340.

Sheep and Lambs—Nearly all the Sheep and Lambs in market for the week came from the North. The trade for good lots was quick. There was a good many poor Sheep among them. We quote—Extra $3 50 @ $4 50 ℔ head; ordinary lots $2, $2 50, $3 @ $3 25 ℔ head. Lambs from $3 50 @ $4 25 ℔ head, or from 3 ¼ @ 5½c ℔ lb.

Swine—Store Pigs, wholesale 10 @ 11c ℔ lb; retail 11 @ 12½ ℔ c. Columbia County spring Pigs, wholesale 11½ ℔ lb; retail 12 @ 15c ℔ lb. Fat Hogs—4000 at market; prices 10½ @ 11c ℔ lb.

BUSINESS NOTICES.

With Dyspeptics everything is wrong. Food does not digest; sleep does not refresh; wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it or it will become seated and confirmed, and life will be a burden and existence a curse. Plantation Bitters will do away with all this. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the lustre in your eye will again be as bright as in your healthiest, happiest and most joyous days.

Magnolia Water.—Superior to the best imported German Cologne, and sold at half the price.

Every family in town should keep a bottle of Renne's Pain-Killing Magic Oil in the house. Directions for use will be found on each bottle.

Facts For the Ladies.—I have used my Wheeler & Wilson Sewing Machine for more than ten years steady, at dress-making, from ten to fourteen hours a day. For the last nineteen months I have used the same needle, and am still using it. My machine is in as good working order to-day as when I first got it.

New York. Martha Cavan.

There is no disease flesh is heir to more troublesome to manage than Rheumatism. It comes when you least expect it, and generally remains till it gets ready to go away. The most conspicuous remedy for this complaint is "Johnson's Anodyne Liniment."

Two or three doses of "Sheridan's Cavalry Condition Powders" will cure a horse of any common cough or cold, and the very worst cases may be cured in a few weeks. We know this from experience.

Tonics.—Those who resort to tonics will find Speer's "Standard Wine Bitters" the best adapted to benefit the different ailments of the system, whether diseased or debilitated from over-exertion or by any other cause. Try them. Sold by Druggists.

☞ At the Mystic Park, Boston, last Thursday, the everlasting old harrow-backed buckskin horse McClellan beat a field of ten good 2:30 horses, in six heats, of which two were trotted in 2:29. So he can never get into any more 2:30 races. He is a good runner, and we never saw him win a race fairly yet; but if his great military namesake had the old horse's pluck and stamina, he would have been in Grant's place now.

The double-team race was won by Jessie Wales and Honest Allen, 2:29 3-4 the best time.

At Mystic Park on Friday, the great race, between Lady Thorne, American Girl, Goldsmith Maid and Geo. Palmer, was won by Lady Thorn. Time, 2,20 1-4, 2.20 1-4, 2.20; Maid 2d, Palmer 3d; Girl, 4th.

SPECIAL NOTICES.

Holloway's Pills.—Colds and Sore Throat.—The foundation of a cold or affection of the throat that lasts the winter through is often laid in autumn. If you are threatened with disease of any of the respiratory organs, rub the external surface night and morning with Holloway's Ointment and keep the bowels regular with Holloway's Pills. A cold, cough or sore throat promptly treated in this way is speedily cured, and all danger of consumption or bronchitis avoided. Sold by all Druggists.

ASIATIC CHOLERA IN CHINA.

Tunochow, China, Aug. 23, 1865.

Messrs. Perry Davis & Son:

Dear Sirs—During a long residence in China, I have found your invaluable Pain Killer, both in my own family and among the Chinese, and have found it a most excellent medicine. In the summer of '62 and '63, while residing in Shanghai, I found it an almost certain cure for Cholera, if used in time. Indeed using it in a great many instances, I do not remember failing in a single case. For three years I have been residing in this place, more than fifty miles from a physician, and have been obliged often to fall upon my own resources in cases of sickness. The Chinese come to us in great numbers for medicine and advice. Though without medical knowledge ourselves, the few simple remedies we can command are so much in advance even of their physicians, that we have almost daily applications. We allow them to come because it brings us in contact with them, and opens a door to usefulness. In diarrhœa, colic, vomiting, cholera, coughs, &c., your Pain Killer has been my chief medicine.

Yours, very truly, T. P. CRAWFORD.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Bruises, Sprains, Dysentery, &c., have astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years, and has continued to increase in its yearly demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its painoractive properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. cl

FRIGHTFUL DEVELOPMENTS!

At last the people have got the fact "through their hair," that hair dyes impregnated with acetate of lead and other metallic salts are

MURDEROUS PREPARATIONS.

When they see the metallic sediment at the bottom of the bottles, they know that the disgusting stuff is thoroughly *thickened with Poison*. They ask therefore, for a

Harmless Vegetable Dye,

and find it, pure and efficacious, in

Cristadoro's Excelsior Hair Dye

offered under the sanction of Professor Chilton's guarantee that it contains "nothing deleterious." CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. 1md&wcd

In Remote Settlements of Untold Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the bowels and blood. Their untold value is to those living in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box.

Sold by all Druggists.

Now is the Time

To repair the inroads made upon the physical strength by the heated term which has closed with September. The vitality that has been oozing through the pores in the form of perspiration, for the last three months, requires to be replaced, as a preparative to the cold season which makes such disastrous havoc with relaxed and unstrung systems. The reserve of vigor with which the strongest man commence the Summer campaign is drained out of him at its close, and unless by some means he acquires a new stock of vital energy wherewith to encounter the sharp air of a colder season, he may droop and wither like the falling leaves whose life-juices are exhausted. If it is thus with the strong, how much more perilous is the condition of the weak and ailing. Their reason must suggest to them, more forcibly than these printed words, the necessity for *invigoration*, and the world having decided, after an experience of almost a quarter of a century, that HOSTETTER'S STOMACH BITTERS embrace such restorative properties as are not possessed by any other tonic and alterative preparation in existence.

The importance of restoring to that great Renovator and Regulator of the Human Machine, at this critical season, is as obvious as the light of day. Let all who desire to escape an attack of chills and fever, bilious remittent fever, dysentery, diarrhœa, dyspepsia, rheumatism, hypochondria, or any other of the diseases of which the Fall season is the prolific parent, have recourse promptly to this celebrated preventive and restorative. ot

Dr. Hopkins' Iron Tonic,

A BLOOD PURIFIER AND REGULATOR, Cures Dyspepsia, Loss of Appetite, Liver Complaint, Sick Headache, Depression of Spirits, Neuralgia, Nervous Affections, Diseases of the Skin, Consumptive Tendencies, Chronic Diarrhœa, and Diseases peculiar to Females.

MANUFACTURED BY

HOPKINS & CO.,

Proprietors of the Celebrated Catarrh Troches and the Electric Hair Restorer,

189 Main Street, Charlestown, Mass.

For sale by all Druggists. ja18

DAVID RODRICK, Hair Dresser, Congress St., Agent in Portsmouth for the sale of Hopkin's Electric Hair Restorative.

SPECIAL NOTICES.

WORDS OF CHEER,

ON THE ERRORS OF YOUTH and the FOLLIES OF AGE, in relation to MARRIAGE and SOCIAL EVILS, with a helping hand for the erring and unfortunate. Sent in so ed letter envelopes, free of charge. Address, HOWARD ASSOCIATION, Box P., Philadelphia, Pa

ALLEN'S LUNG BALSAM,

The Remedy for curing CONSUMPTION, COUGHS, BRONCHITIS, ASTHAMA, and CROUP. As an Expectorant, IT HAS NO EQUAL.

It is composed of the active principles of roots and plants, which are chemically extracted, so as to retain all their medical qualities.

Ministers and Public Speakers

Who are so often afflicted with throat diseases, will find a sure remedy in this Balsam. Lozenges and wafers sometimes give relief, but this Balsam, taken a few times, will insure a permanent cure.

Will all those afflicted with Coughs or Consumption, give this Balsam a fair trial, they will be pleased with the result, and confess that the sure remedy is found at last.

IT IS SOLD BY ALL DRUGGISTS.

CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS for Diseases of the Liver, or to act as a gentle Purgative.

All of these three medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills assist in regulating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These medicines are conscientiously offered to the public as the only safe, certain and reliable remedies for Pulmonary Consumption, and for all those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long probation before the public. Its sale has been through a period of more than thirty-five years, in all of which time its reputation has constantly increased, and the most obstinate skepticism can no longer doubt that it is a remedy which may be used with confidence in all cases which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, he will generally be cured, if his lungs are not too much wasted to make a cure possible. Even in cases supposed to be incurable, when friends and physicians have despaired, the use of this medicine has saved the life of the patient, and restored him to perfect health.

Dr. Schenck himself was cured in precisely such circumstances, and many others have been equally fortunate by judiciously making a timely use of Dr. Schenck's remedies.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he does emphatically asserts, that often when patients have the last lingering symptoms, such as a violent cough, creeping chills, night sweats, and general debility, even to such a degree that they are confined to their beds, and when they are given up by their physicians, they may still be cured. No medical treatment can create new lungs, but when the lungs are not badly diseased, and to some extent destroyed, a cure may be effected by Dr. Schenck's medicines.

Also in Scrofulous diseases these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores, and now all healed up. This shows its purifying properties, which must be done to heal cavities in the lungs.

In the treatment of Consumption, it is of the utmost importance to give vigor and a healthy tone in the system. Hence it is necessary to strengthen the appetite of the patient and improve the digestion. Proper nourishment is required, together with such means as will make the food easily digestible. The articles most suitable for the diet of consumptive patients are designated in Dr. Schenck's Almanac, which are distributed gratuitously. In general, the most nutritious articles are to be preferred; but the digestive organs must be strengthened in order to make either food or medicine serviceable. This requirement is met by the Sea Weed Tonic, and for this purpose it was designed.

When the digestive powers are put in good order, the food has its proper effect, the system of the patient is invigorated, the lungs begin to exercise their functions in a normal and healthy manner. Then the healing powers of the Pulmonic Syrup will complete the cure.

Pulmonary Consumption is almost always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills are used to remove obstructions from the liver and restore its healthy action. They have all the efficacy which is ascribed to calomel or "blue mass," and are warranted not to contain a particle of any mineral poison. These pills cure the the most obstinate costiveness, sick headache, piles, billious affections, and all other diseases which arise from a torpid or obstructed condition of the liver. One box of these pills will prove the efficacy of the medicine.

In Consumption, the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines. They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. They have been found useful in advanced stages of Consumption, where the lungs were almost entirely destroyed, and all symptoms, according to the judgement of physicians, indicated speedy death. Lives of patients so situated, and in a dying condition have been preserved for months by the use of Schenck's three great remedies.

DR. SCHENCK'S Almanac, containing a full treatise on the various forms of disease, his mode of treatment and general directions how to use these medicines can be had gratis or sent by mail by addressing his Principal Office, No. 15 North Sixth Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea Weed Tonic, each, $1.50 per bottle, or $15.00 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggist and dealers.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic Extract, relative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two powerful extracts, perfectly harmless in themselves, but embodying all the purgative properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous compounds of which the dangerous extract is the main ingredient. More than

One thousand experiments

were made by the inventor of this purgative remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the fairer sex are subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. Erasmus Winslow's **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

Wholesale agent, John F. Henry, No. 8 College Place, New York City.

Batchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. Sold by all Druggists and Perfumers, and properly applied at the Wig Factory 6 Bond Street, New York.

CANCERS AND HUMORS!

Dr. J. W. Channing,

THE GREAT CANCER & HUMOR DOCTOR, of New Bedford,

Has arrived at Portsmouth, and taken Rooms at the FRANKLIN HOUSE, where he will remain until September 28.

Dr. C. gives particular attention to the cure of CANCERS, Swelled Neck, and Piles in all forms, Catarrh, Mouth in the Throat, Asthma, Liver Complaints, which he cures without pain and without the use of the knife.

Do not say that you cannot get any relief until you have tried his Medicines, which will remove all Humors such as Cancers, White Swelling Affections, Erysipelas Salt Rheum, Inflammatory, Chronic, Mercurial, and Syphilitic Rheumatism, Fever Sores, old and stubborn Ulcers and Sores of all kinds cured, whatever may be the cause that produced them.

Dr. C. will give examinations free on all diseases. Invalids of both sexes are respectfully invited to call and consult the Doctor. s16

LOCAL AFFAIRS.

HOME INDUSTRY.—Any person who successfully establishes a new branch of manufactures in Portsmouth, or increases and extends one already established, is more of a benefactor to the city than any number of men who are content to merely live on their means, instead of so employing their money as to benefit the community at large, while at the same time increasing their own wealth. We don't mean that any one should circulate money in the way the New York gold-thieves have been doing, but that one who invests his capital in a business which gives employment to mechanics or laborers, promotes the welfare of the city more than he who invests ten times the amount in bank stock or non-producing bonds.

The firm of G. B. & S. W. Came, who commenced business here as carriage-builders less than eight months ago, have already established a high reputation for superior work; and at the late N. H. State Fair at Manchester, their carriages took first premium for general excellence, and were greatly admired for their lightness, elegance, convenience and apparent durability. This is no small triumph for the firm, when it is considered that they had to compete with old established manufacturers; and all who wish our town to thrive will feel gratified at their success. We do.

Many persons at first feared that the Came brothers would have hard work to build up a business as extensive as they had prepared to carry on; but energy and good workmanship have thoroughly established their enterprise and name. It is well worth while for any one wanting a carriage to visit their manufactory and inspect the work done there, the proprietors inviting the closest examination. They do not profess to make wagons and buggies to "sell at cost," just for the fun of the thing; but they claim to furnish carriages at the lowest prices compatible with a reasonable profit on the outlay required to have the best materials made up after the best models by the best workmen. No inferior wood is used by them; it is all straight in the grain, and is kept a long while in store before being worked up, to make sure of its being thoroughly seasoned; and cheap iron is not used, either. Parts of carriages which are generally made of malleable iron, in other establishments, are by this firm wrought, thus securing greater strength without increase of weight. All the improvements in the trade are at once adopted; they are now turning out sleighs with "Bailey's Patent Truss Floors," which for lightness and neatness of appearance exceed anything we have seen:—and altogether, their good work has fairly entitled them to the large share of patronage which they have received, and which makes them now wish they had more room than their present quarters afford.

Besides their manufacture of new carriages, they do a large amount of repairing,—we are informed, amounting to more than $4000 since they started. Among other things we noticed a pair of cart wheels with new felloes, waiting to get tired,—all which is done in the building.

Had we plenty of such enterprising and capable men in the city, it would flourish like a green bay tree—better than the bay or any other tree has flourished in this vicinity this year. And we are confident, from our inspection of the materials and workmanship in their manufactory, that, the verdict of the committee at Manchester will be sustained by all who use vehicles of any kind, built by G. B. & S. W. Came.

☞ The N. H. State Fair, which closed on Friday, had most glorious weather, and was a great success in all respects. There has always been some growling at the management of this institution, (as of all such things) but we think the present officers hard to excel.

Mr. C. H. Hayes of this city sent seven Ayrshire Cattle to the State Fair, and every one of them got a premium ribbon on their horns.

☞ The Auction Sale at the Navy Yard to-day, will interest many.

The sale by auction on Wednesday next, of Capt. Preble's beautiful Farm at Newcastle, will doubtless afford somebody opportunity to buy a picturesque spot for much less than its value. The advertisement states some of the attractions; and for a family wishing to live a little out of the beaten track of the world, the place certainly offers great inducements.

☞ Twenty-three County paupers were last week conveyed from Portsmouth Almshouse, by Superintendent Scott, to the new County House at Brentwood. This leaves here but three insane, who are to go to the Asylum at Concord; and two very aged women, who will remain here.

A HEAVY GALE ANTICIPATED.—The *savans* are predicting a wonderful atmospheric convulsion, to-morrow, and give good reasons for their reckoning. Capt. Crocker, a Cape Cod weatherwise, stakes his reputation on the prediction that the storm will be a worse one than that of the 8th of September, as the moon at 7 o'clock, A. M. of Tuesday will be at the part of her orbit which is nearest the earth, her attraction therefore being at its maximum force. Mr. S. M. Saxby, R. N., tells the London Standard "that at noon on the 5th October the moon will be on the earth's equator,—a circumstance which never occurs without marked atmospheric disturbance, and at 2 P. M. of the same day lines drawn from the earth's centre would cut the sun and moon in the same arc of right ascension (the moon's attraction and the sun's attraction will therefore be acting in the same direction;) in other words, the new moon will be on the earth's equator when in perigee, and nothing more threatening can occur without a miracle.

A dispatch from Havana states that the barometer there indicates stormy weather. Masters of vessels in the harbor were directed to make their anchorage secure.

If we are to have a worse gale than the fearful one of last month, it's about time the 'church steeples were chained down, chimneys taken in, awnings, blinds and signs tucked away, and people housed. The safest place for human beings seems to be—under ground.

Communication.

Messrs. Editors:—I notice in your paper of Friday last, a very peculiar name of a Base Ball Club, belonging in Belfast, Me. The name was wrong; it being Passassagassawakeag, instead of Vassassagassawakeag. The name of the Club is that of a river upon which Belfast is situated. The club is considered quite as formidable as its name in Eastern Maine, having beaten in match games, four of the best clubs on the Penobscot bay and river,—the championship of which it has held for more than two years. Yours, C***.

☞ Among the fine Cattle at the State Fair, the yoke of Durham Steers of Chas. E. Smith of South Newmarket were much admired. They are closely matched, red and white, weigh 4539, and are beauties certainly.

☞ Biddeford has been a very sickly locality during the past two months. The prevailing disease is typhoid fever accompanied by hemorrhage of the bowels.

☞ Looks rather "queer"—the Seely Court Martial case.

☞ In full blast, blast it,—the Creek Cess-pool.

—By the recent freshets twenty-one million feet of lumber in Wisconsin streams were carried down the river, and probably one half will be a total loss to the owners.

—Leverrier the astronomer thinks that the new Napoleonic reforms will carry France to republicanism, anarchy, and general smash.

—The premium on gold, Thursday, was lower than before since May, 1866.

—The greatest composer—Chloroform.

—The best air to live in—Millionaire.

—Take it Coolie—The Chinese question.

—Pressing business—that of an editor.

—An object of attraction—A magnet.

—A hand-to-hand affair—Marriage.

—The woman question—"Is he rich?"

A PACIFIC RAILWAY

GOLD LOAN $6,500,000.

We beg leave to announce that we have accepted the agency of the

KANSAS PACIFIC RAILWAY COMPANY,

For the sale of its

NEW SEVEN PER CENT.

Thirty Year Gold Loan, Free from Tax.

This Loan amounts to $6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds,

secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 297 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon the Road, the Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,

And in successful operation for 437 miles

west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as A SINKING FUND FOR THE REDEMPTION OF THE BONDS.

The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the

Value of the Company's property, covered by this mortgage at $23,000,000 net, while the Loan is merely $6,500,000.

The Bonds have

THIRTY YEARS TO RUN,

from May 1, 1869, and will pay

SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be

PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:

On $1,000 Bond in N. Y. $35 (gold) each half year.
" " London....£7 8s. 10. "
" Frankfort..87 flr. 30 krtzs., "

The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a

FIRST CLASS INVESTMENT,

in every respect perfectly sure, and in some essential even

Better than Government Securities.

The Bonds will be sold for the present at

96, *and accrued Interest, both in Currency,*

the Agents reserving the right to advance the rate.

The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

Pamphlets, with maps giving full information, sent on application.

NAVY DEPARTMENT,

BUREAU OF CONSTRUCTION AND REPAIR, SEPT. 29th, 1869.

THE NAVY DEPARTMENT will offer for Sale at the U. S. NAVY YARD, Portsmouth, N. H. on

TUESDAY, Oct. 19th, at 12 o'clock, M.,

the U. S. Gunboat "PENOBSCOT," of 507 tons, old measurement.

The whole amount of the purchase money must be deposited at the time of adjudication, and the Vessel must be removed from the Navy Yard within two weeks from the day of Sale.

The Government reserves a right to withdraw the vessel for Sale for any purchaser who will pay the appraised value with an increase of ten (10) per centum thereto.

The vessel and her inventory can be examined at any time, and all applications with regard to the vessel must be made to the Commandant of the Yard. o2

BEAUTIFUL SEASIDE RESIDENCE AT AUCTION.

FOR SALE—Situated in NEWCASTLE, N. H., two and a half miles by land and one and a half by water from Portsmouth. About 40 acres of LAND, excellent for Tillage and Pasturage, WOOD Land, and Orchards well stocked with FRUIT TREES.

A Large NEW HOUSE just built, and good Outbuildings. The location is one of the most Picturesque on the coast, and the place is capable of indefinite improvement, as a farm, or elegant Summer Residence for a gentleman of wealth.

There are several Wild and Beautiful SITES for Building, and the location is unsurpassed for a Seaside Hotel or Boarding House. The best opportunities for obtaining Seaweed, Salt Muck, &c. Also unsurpassed facilities for Boating in still water or open ocean, Fishing, Salt Bathing, &c.

The natural attractions of the place are very great, and the ocean and inland Views cannot be excelled. The situation, while quiet and retired, is yet easily reached by land or water, and will well repay lovers of the picturesque for a visit.

☞ The above FARM, with the LIVE STOCK, (Yoke of Oxen, 2 Cows, &c.) CROPS, CARRIAGES, &c., will be sold at PUBLIC AUCTION

WEDNESDAY Oct. 6, at 12 o'clock, M.,

on the premises, if not previously disposed of at private sale.

For particulars apply to R. A. PREBLE, Newcastle, or to FRANK W. MILLER, of the Portsmouth Chronicle. sep7

Morning Chronicle.

New Hampshire Items.

A Christian chapel was dedicated at Mackerel Corner, near Wolfeborough, on the 17th. Rev. Daniel D. Pike of Newburyport, preached the sermon.

Brookfield has a twelve pound turnip.

A Goffstown sheep ate a pocket-book containing $132 which belonged to Thaddeus C. Richards. The sheep died immediately of throat disease and $55 was recovered. The remaining $77 was in a state of mix-up-ed-ness.

Oscar F. Whitton of Wolfeboro' caught an eagle on the 27th which had a spread of eight feet.

The dwelling house of Warren Damon, two miles from Amherst village, was destroyed by fire no the 24th. Loss $1000; insured for $425.

E. N. Chamberlain, who was nominated as a candidate for Governor by the workingmen's convention at Worcester, Mass., on the 26th, is a native of Woleborough.

The insurance on the property of Harrison Smart of Newmarket, burned on the 28th, is $3700; loss $5750.

A Claremont lady, 60 years of age, weight 200 lbs., stepped out of a window to a shed roof, down which she slid, fell of and landed in the mud. The jury found a verdict of not guilty as it didn't hurt her much.

EDUCATED FARMERS.—Farming is becoming, year by year, more of an intellectual, scientific, artistic pursuit. It is a matter of thought as well as of hard work. Study and observation take the place of old maxims, and the sense of rural beauty has, or may have, its gratification. The old notion was that the dullest boy was the one to stay at home and carry on the farm, and that to "read, write and cipher" was all the education that would be of any use to him. It is beginning to be seen that the old methods were unwise. "Carrying on" a farm was, and in many cases still is, to carry it off, exhausting its fertility and value, till it becomes good for nothing but to hold the world together. The greater part of a farmer's capital consists of his lands. In any other business, to be continually eating out and diminishing one's capital would be seen at once to be extreme folly, yet this folly is being committed by too many farmers.

An agricultural exchange says: "It is worse than useless to endeavor to hide the fact, that in not only the East, but what is called the West, the deplorable course of wearing out the land goes on uninterruptedly, and those who thus injure posterity remove further West, to despoil again fresh virgin soil." Among the many subjects requiring thought and study in managing a farm, none is perhaps more important than —keeping up the land; another is the judicious outlay of capital. No farmer should put money at interest until he is satisfied that it could not be more profitably employed in his own business. Other subjects of importance are—the adaptation of products, not only on the soil, but to markets,—economy in labor by use of machines, and by a judicious plan of work, — and all the minor details of management requiring care, forethought and knowledge of a great variety of subjects.

Agricultural colleges are starting up in many of the States, designed to furnish opportunities for agricultural education, both theoretical and practical. It is to be hoped they may supply a class of educated farmers—a class who can manage farm business for themselves or others with skill and success. At present there is such a lack of the class that the new colleges find it difficult to obtain suitable persons for teachers and overseers. The same difficulty occurs in finding men qualified to manage the farms connected with almshouses, reformatories and asylums, and to oversee private estates.

In fact there is need of Professors of Agriculture, and young men would do well to direct their thoughts to this opening field, especially as what are called the "learned professions" are crowded already with persons of moderate ability, who hardly find scope and verge for such talents as they have.

—"Some persons may not be aware," says Hieover in his work, Bipeds and Quadrupeds, "that the trifling neglect of a pair of wheels being comparatively dry or greased twenty miles do take far more work out of a horse than forty would in the latter case; yet wheels absolutely screaming from dryness are often seen and heard attached to carts and wagons; and thus would the brute in human form let them scream till he had finished his journey's end or his day's work, though his horses were drawing, from such cause, at least one ton in four of resistance more than they would if the defect were attended to."

—A writer for the Turf, Field and Farm, in suggesting that horses which herd together are oftener injured in their rough sport than in combat, remarks that the bite of a horse, even in play, is no trifle; by some peculiarity in the muscles of the jaws, they do not seem gifted with the faculty to let go, like the dog. The jaws become locked, and the piece must be cut out, or the teeth slip off and crack together before he is again able to control their action.

—Here is a joke by the New York World: "Barnum's autobiography.—P. T. 'tis, but 'tisn't true."

—Twenty-one churches have been built or are building in Chicago this year.

REARING CHICKENS.—Keep young chickens in coops without bottoms, and move them on fresh ground every morning, in a different place from where any poultry were raised or resorted to last year; give the little ones liberty all day, and the hens too, after the dew is dried up, unless it is near enough to the old fowls for the hens to take them to them, in which case do not give the hens with chickens their liberty till a week or two after they are hatched, and then having become accustomed to the part where the coops are placed, they will be contented to remain chiefly away from the regular haunts of the old birds.—This applies where considerable numbers are kept and raised. Where farm homesteads are spacious, and only about thirty or forty hens are roaming about, the young broods will flourish without any kind of confinement, if those who feed will walk around and take food to the young ones, instead of calling them all, old and young, to one place, where the young receive more pecking and punishment than they can sustain. Let any one witness this lazy practice, and notice how the grain or corn is thrown all in a heap, and see how the feathers will fly about as the old ones abuse the young.—*Country Gentleman.*

—The American Agriculturist says what is true, that grass may be sown alone at this season. Prepare the ground well giving thorough harrowing, top-dressing and clearing of stones. A bushel of oats harrowed in before the grass seed is sown will afford the young plants the protection of a fine mulch during the winter.

—Here is a case of method in madness. A Paris letter says a fast actress visited the Rharonton mad house a few days ago. She asked one of the patients, "What brought you here?" He replied, "An infernal woman like you!" She exclaimed, "Why really, that man is not so mad as some people pretend he is."

—A correspondent of the Practical Farmer says that his experience shows that two quarts of cooked potatoes would do as much towards fattening as four fed raw, and that the value of corn meal is very nearly doubled by thorough cooking. He considers raw potatoes almost valueless for fattening.

—Instead of saying that a man is "tight" in Chicago the reporters say that he is a "victim of bacchanalian immoderation."

TO BE, CERTAINLY!

WHY NOT?

The FACT that T. F. BURTT has about the finest assortment of fine Gold WATCHES, Gold JEWELRY in sets, Fine Gold Rings, Brooches, Pearl and Garnet Rings, Masonic and Odd Fellows Pins, Gold Chains, Clocks, Spectacles, Silver and Plated Ware, is too well known to be disputed.

IRON MANDRAKE SYRUP.

FREEMAN'S FREEMAN'S FREEMAN'S

IRON MANDRAKE SYRUP
IRON MANDRAKE SYRUP
IRON MANDRAKE SYRUP

Is an excellent combination of IRON with MANDRAKE and vegetable tonic.

The Mandrake acts on the Liver and prevents the bracing effects which Iron has on many other preparations; while the vegetable tonic strengthens the stomach, and promotes Digestion of food and facilitates the absorption of Iron into the blood.

MANDRAKE
MANDRAKE
MANDRAKE

Is the great vegetable substitute for Calomel to act on the Liver.

In Freeman's Mandrake Syrup it is combined with Iron and Vegetable Tonics, and forms the most perfect Spring Medicine.

It purifies the blood and imparts IRON to it.

It acts on the Liver and removes foul humors from the body. It is a most excellent remedy for debility, especially for mothers who are worn down by nursing infants, and for all persons whose blood is pure, and who need Iron and a strengthening medicine.

SPEER'S SAMBUCI WINE.

CATAWBA, PORT, GRAPE and P. J. Sherry.

The above Wines are made by Mr. Speer, whose reputation as a wine grower stands pre-eminent. They are well established, and long known by the Medical Profession as the most reliable and valuable wines to be had.

Every family at this season should use

SPEER'S SAMBUCI WINE,

celebrated in Spain and Portugal for its beneficial qualities, highly esteemed by eminent physicians, used in European and American Hospitals and by the first families in Europe and America.

Excellent for weak and debilitated persons, the aged and infirm, improving the appetite and benefitting the ladies and children.

AS A DIURETIC

It imparts a healthy action to the Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic affections. Also,

SPEER'S PORT GRAPE WINE

is pure juice of the Oporto Grape, recommended by Physicians as possessing medical properties superior to California or Imported Wines.

SPEER'S STANDARD WINE BITTERS

The Best and Most Reliable Tonic and Bitters in the market, which is always the CHEAPEST.

☞ None genuine unless the signature o "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

For sale by Druggists and Town Agents, who also sell Speer's Standard Wine Bitters.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the United States Patent Office, Washington, under the Act of 1837,

No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents or inventions, and opinions thereon, and advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the practice of his profession, made on *twice rejected* applications, SIXTEEN APPEALS, SEVEN of ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON,

Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man more *competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,

Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is now *pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Boston, Jan. 1, 1869.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Dedham Street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE in all cases or no charges made.

DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar, or they will not be answered.

J. R. KENDRICK, Supt.

FALL RIVER LINE

FOR New York, Philadelphia, Baltimore, Washington, and all principal points West, South and South-west.

VIA TAUNTON FALL RIVER AND NEWPORT.

Cabin, $5.00; Deck, $4.00.

Baggage checked through and transferred in New York free of charge.

New York trains leave the Old Colony and Newport Railway Depot, corner of South and Kneeland Streets, daily, (Sundays excepted,) as follows: at 4.30 P. M., arriving in Newport 40 minutes in advance of the regular Steamboat Train, which leaves Boston at 5.30 P. M., connecting at **Newport** with the new and magnificent steamers PROVIDENCE, Capt. B. M. Simmons, and BRISTOL, Capt. Benj. Brayton. These steamers are the finest and most reliable boats on the Sound, built expressly for speed, safety and comfort. This Line connects with all the Southern Boats and Railroad Lines from New York going West and South, and connects, for the California Steamers.

"To Shippers of Freight," this Line, with its new and extensive depot accommodations in Boston, and large pier in New York, (exclusively for the business of the Line,) is supplied with facilities for freight at a passenger business which cannot be surpassed. Freight always taken at low rates, and forwarded with despatch.

New York Express Freight Train leaves Boston at 1.30 P. M.; goods arrive in New York next morning about 5 A. M. Freight leaving New York reaches Boston on the following day, at 9.45 A. M.

For tickets, berths and stateroom, apply at the Company's office at No. 3 Old State House, corner of Washington and State Streets, and at old Colony and Newport Railroad Depot, corner of South and Kneeland Streets, Boston.

☞ **Sunday Night Line.** ☜

Cars leave every Sunday evening, at **6.30 P. M.,** connecting as above.

The Office, 3 Old State House, Boston, will be open every Sunday afternoon from 2 to 6 o'clock, and at the Depot from 6 to 10 A. M., and from 5 to 6.30 P. M., for sale of tickets and staterooms.

Steamers leave New York daily, (Sundays included,) from **Pier 28 North River,** foot of Murray Street, at 5 **P. M.**

GEO. CHRYSTER, Passenger & Freight Agt.

The Chronicle.

SOLDIERS' HOMES.—It was the unanimous sentiment of the country, at the close of the war, that the Government should make some provision for the care of those who were disabled in the service; and measures to that end were soon adopted by Congress. A fund was created for that purpose by setting apart money in the Treasury from unclaimed pay of deserters, fines, penalties, etc. It was determined to establish three institutions, which should afford a home to all soldiers of the late war who were incapacitated from earning a support. One of these was located at Augusta, another at Dayton, Ohio, and the third has just been completed for occupancy and dedicated at Milwaukee, Wisconsin.

In March, 1867, the Managers selected grounds in the town of Wauwatosa, three miles west of the city of Milwaukee. They comprise four hundred and twenty-five acres, and cost in the aggregate, $75,000. In May following, temporary buildings were provided, and the Asylum opened. The Board soon entered upon the work of erecting a new and more commodious edifice. The building is now completed, and was last week dedicated to the use of the maimed soldiers of the war of the rebellion.

Gen. Butler, President of the Board of Managers, delivered an interesting and patriotic address; and among the other able speakers, ex-Gov. Smyth of New Hampshire, one of the Directors, being called for, came forward and spoke as follows:

Soldiers and Citizens of Wisconsin:—It was not until within an hour that I was aware that anything like this was to take place here to-day, and, therefore, you cannot expect me to be prepared to speak. And again, I am not a public speaker. * *

I congratulate you on the completion of this noble edifice that the Government and the people have accomplished for you, soldiers. The General Government, as it was stated by General Butler, has provided this, as it was proper it should. Where in this broad land is there a more beautiful spot than this. I confess, if there is in this country or any other, I have never seen it. The Government has selected the most beautiful spot, and erected the most beautiful building, and this is the Soldier's Home. The Government has done all it can to make this a home for you, and now you must take it and make it your home. You know the most beautiful building may be built, and the most beautiful furniture be provided for it, and yet it may not be home. So here, without the good conduct of the soldier, and without their cooperation, this Home can never be the home which the Government designed.

Now, while I have said more than I intended to, I feel very much interested in one class of persons of whom I have not heard much said to-day, and that is the women. I say women, because there is more understood by the word "women" than "ladies," and it is to those noble women who have been engaged heart and hand in behalf of the soldier, and in providing for the Soldier's Home, that you are indebted, together with the cooperation of the citizens, for the erection of this building on this spot; and those women should be honored and respected always by you, soldiers, for they worked without compensation, and have done that that no other band of women in the country, to my knowledge, have done — they raised a larger sum of money than any other association throughout the land.

It is well, then, that the Asylum is located here. It is one of the most beautiful spots and most beautiful and expensive buildings of its kind in the country, and there is propriety in its being so; and you, citizens of Milwaukee and Wisconsin, may well be proud of it.

The building presents a fine appearance from the exterior; and in its neatness, beauty of finish and completeness of appointment, is a model. It is in the form of a cross, and when the wings are completed it will have a frontage of 240 feet. The entrance is in the center, and opens into a large corridor, upon the east and west side of which are the spacious reception rooms and offices. The accommodations are sufficient to contain comfortably 500 inmates. The dedication was informal, the more imposing ceremonies being omitted on account of the death of Gen. Rawlins, who was a member of the Board of Managers.

Secured by Act of Congress. Now ready. Send for Illustrated Circular giving full particulars. E. B. TREAT & CO., Publishers 654 Broadway, N. Y. s23 4w

PERRY DAVIS' PAIN KILLER, as an internal remedy has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, dysentery, Asthma, it cures in one night, by taking internally, and bathing with it freely. It is the best liniment in America. Its action is like magic, when externally applied to bad sores, burns, scalds and sprains. For the sick headache and tooth ache, don't fail to try it. In short, it is a Pain Killer. 4ws7

DODD'S NERVINE AGAIN.
ANOTHER CERTIFICATE.
LEDYARD, CONN., April 3, 1869.
Accept thanks for calling my attention to DODD'S NERVINE AND INVIGORATOR. It has done me more good than any other medicine I ever took. I have gained twelve pounds of flesh, and am correspondingly better every way. It is an invaluable remedy.
Swan23 MRS. JOHN T. LEACH.

WHAT ARE
DR. J. WALKER'S CALIFORNIA Vinegar Bitters.
THEY ARE NOT A VILE FANCY DRINK, Made of Rum, Whiskey, Proof Spirits, and refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetisers" "Restorers," &c., that deceive the tippler on drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, *free from all Alcoholic Stimulants.* They are the GREAT BLOOD-PURIFIER and LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell. $100 will be given for an incurable case, providing the bones are not destroyed by mineral poisons or other means, the vital organs wasted beyond the point of repair.
FOR INFLAMMATORY AND CHRONIC RHEUMATISM, AND GOUT, DYSPEPSIA, or INDIGESTION, BILIOUS, REMITTENT, and INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS ARE MOST EFFICACIOUS. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.
These Bitters are not a gilded pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.
They are Alterative, Tonic, Diuretic, Sedative, Diaphoretic, and Gentle Purgative.
"The Life of all Flesh is the Blood thereof."—Purify the blood and the health of the whole system will follow.
R. H. McDONALD, J. WALKER, & CO., Proprietors,
San Francisco and Sacramento, California, and 32 and 34 Commerce St. (Commerce, a short street running from Bleeker to Barrow), N. Y.

UNFAILING EYE PRESERVERS!
OUR CELEBRATED
Perfected Spectacles and Eye Glasses
Are gaining steadily and certainly a reputation unsurpassed. The readily ascertained superiority they possess over the ordinary Spectacles makes them very popular.
IT IS A FACT
That they render impaired sight clear and distinct; strengthen and preserve the eyes; are very easy and pleasant to wear, and **last many years without change** being necessary, so that in the end they are the **cheapest as well as the best.**
Notice that **Mr. J. F. SHORES, Jr., at the Congress Block Bookstore,** is our Sole Agent in Portsmouth, and that
WE EMPLOY NO PEDLERS.

"Ingenio Stat Sine Morte Decus."
ROCKY MOUNTAIN BITTERS
IS a very superior Regulating Tonic, imparting vigor and strength to the constitution—a thoro'
PURIFIER OF THE BLOOD,
a regulator of nervous force, and a powerful sustainer of health against the encroachments of disease.
The invalid and convalescing seeking restoration, and yearning for the healing virtues of some magic balm, will find in these Bitters a hidden mysterious power, which QUIETLY RESTORES, yet refuses to reveal to the senses anything but taste and color.
It is a pleasant Bitter, free from all nauseous properties odor, entirely vegetable, being mainly grown at the base of the mountains from which they derive their name, and is particularly adapted to all forms of
DYSPEPSIA OR INDIGESTION,
manifesting themselves by the following symptoms: headache, nervousness, loss of memory, low spirits, giddiness, dimness of sight, dullness of hearing, and ringing noises in the ears, eructations, of belching of wind, tightness of breathing, weight and oppression of the chest, uneasy feeling about the heart, palpitation, &c.
Also for Liver Diseases, Disorders of the Kidneys, Restlessness and loss of Muscular Power these Bitters will be found almost a specific; as a preventative of
FEVER AND AGUE,
or a restorer of the natural powers of the system, when broken down by continued ague attacks; it has no equal.
Being stimulating, (but not intoxicating), they refresh and invigorate both mind and body, heighten the sensibility, clear and sharpen the faculties, and bestow alacrity and cheerfulness of spirit.
CAUTION.—There have been, and still are several parties manufacturing and selling so-called "Langley's Bitters," many of which are worthless. As a guide against such, I would say that in 1866, I secured my copy-right, in the United States Court, a trade mark and name, "Rocky Mountain Bitters," and all Bitters of my manufacture are put up *in dark, long neck, quart bottles* with red label printed with gold; also, direction label, bearing my seal and directions printed in red, with a red cap and my seal printed in gold, over the cork. Beware of imitations, and ask for **"Rocky Mountain Bitters."**

The Daily Chronicle.

Portsmouth, N. H.

TUESDAY, OCT. 5, 1869.

The News.

Charlotte Cushman is very ill at Edinburg.

Prof. Hall writes that at Behriag's Straits the eclipse of the 7th August was visible at times and that the naked eye view of the total eclipse from Bald Head was the grandest sight he ever saw.

Lowells 31, Trimountains 19.

The French troops are not to leave Rome.

The Captain-General of Cuba has been instructed to treat rebel prisoners with humanity and to push forward the suppression of the insurrection.

Four hundred recruits for the Cuban service arrived at Fernandina, Florida, from Macon, Georgia, on Saturday. An American revenue cutter and three Spanish gunboats are off the Florida coast, on the lookout for Cuban re-enforcements.

Gen. Duncan's force has killed an Indian near the Republican River.

A Pawtucket, R. I., steam fire engine exploded while going to a fire, Saturday night. Several persons were injured.

A severe shock of an earthquake was felt in Utah on Friday evening, lasting two minutes.

It is asserted that the steamer Alabama which left New York on Sunday, 26th ultimo, took out several hundred men and large quantities of ammunition for the Cuban insurgents.

One thousand Spanish troops have arrived at Havana.

The Paraguayans assert that the Brazilians lost 8000 men in the late battles. The allies are preparing to withdraw their troops from Paraguay.

A Washington special states that the government has not decided to take any action in the case of the Cuban privateer Hornet, nor is it probable she will be interfered with unless she commits some depredation on American commerce. The administration takes the view that under the circumstances the Hornet cannot be considered strictly a pirate, and the United States are not bound to attempt her capture.

Spain is troubled by insurrectionary movements.

Baltimoreans fear a flood because of heavy rains.

Gold, 129.

A Havana letter says a war with the United States is vastly popular in that city, the belief prevailing among the populace that the Spanish iron-clads could sink the whole American navy and destroy the cities along the Atlantic coast, while the rest of the fleet would sweep American commerce from the seas.

Gov. Claflin of Mass., has ordered an election in the Seventh Congressional District, to fill Boutwell's vacancy, on the day of the State election.

A dispatch to the Traveller, Monday evening, states that the gold gamblers of New York are preparing for another great push. They will endeavor to raise it to 200.

JOHN CHINAMAN is in a fair way to superside Bridget in the performance of housework. A gentleman who resided for several years in Havana writes to the New Orleans Picayune a glowing account of his experience with a Chinese cook. This servant not only prepared all his dishes in the most admirable manner, learning most readily everything new, and improving on almost everything he learned, but his peculiar carefulness, delicacy and cleanliness made everything specially appetizing. He kept the house in order, attended to his master's clothes, and did general housework. When dinner was announced he was found at the head of the table, ready to wait upon the company, and no two waiters could have performed the duties more satisfactorily. His cleanliness may be judged from the fact that he always dressed in white down to his slippers, and no stain was ever noticed upon his clothing. Good for John. Let him come.

☞ An accident occurred in a coal mine at Gardner, Ill., on Friday evening. Four persons were descending a shaft when the wire hoisting rope broke and the men fell with the cage 100 feet to the bottom of the shaft. None were killed outright, though all had bones broken. One lad about 15 years of age has since died and two others are supposed to be beyond recovery.

☞ The Boston Advertiser calls for a prohibitive tariff upon the importation into the United States of foreign criminals. It says the crime-market is already overstocked with the article of domestic production.

LOCAL AFFAIRS.

☞ Lieut. Frank D. Webster, U. S. M., formerly of this city, has been relieved at Pensacola, and placed in command of the Marine force on board the Receiving Ship Ohio at Charlestown Navy Yard, Mass.

MORE ENTERPRISE.—Messrs. J. M. Tibbetts and Plumer D. Norton of this city have entered into partnership for the manufacture of ladies' hats, on Ladd Street. Both are live, go-ahead young men, and we wish them the greatest success in building up an extensive and remunerative business.

AFTER THEM.—We hear that the late movement on the part of the temperance men of Kittery against the rumsellers has been partially successful. The keepers of the saloon have been indicted, with the exception of the *worst* ones, who in fact make nearly all the mischief. No respectable witnesses could be found who could be brought to testify against them, but the temperance people don't give it up yet and are determined to rout them all out of town or make them stop selling intoxicating liquors. Their mode of procedure will probably be under the nuisance act.

SESSIONS COURT MARTIAL.—On Saturday, the Judge Advocate stated that he had no more witnesses, although several more had been summoned, among them Oliver, the master-at-arms, Coffin, the apothecary, Ensign Stewart, Chas. Jones, the ship's writer, and Corporal Jewett. R. W. Turner, one of the parties alleged to have been cruelly punished, is in jail at Portsmouth, on a charge of larceny, and there was no way of getting him before the Court.

The Court ordered the Judge Advocate to proceed to Portsmouth and take the deposition of Turner, and accordingly, on Monday, Turner testified before U. S. Commissioner W. H. Y. Hackett, his deposition containing no new facts besides those published several weeks ago.

Communication.

Messrs. Editors:—Will the purchase of the land between the Railroads and Hale's Point by the Eastern Railroad Company, serve as an effectual "injunction" on the building of the talked-of thoroughfare across the millpond from the foot of Dover Street? If that extension is ever to be made, the sooner it is done the better,—and the cheaper for the city. The railroad folks do not desire to have it built; and although it is not probable that their objections to it had any weight in inducing them to purchase the land, yet it is quite possible that building or repair shops may be erected on the proposed line of street, and prove a great obstacle to its construction at any future time. It could probably be made now; for the Mayor owns property that would be improved by anything that would raise the value of real estate north of the pond, so that gentleman would most likely take the Freeman's Point Road as a precedent to go by, and not the Summer Street extension. GOOSE POINT.

REAL ESTATE.—*Conveyances in Rockingham Co., week ending October 2.*

PORTSMOUTH.—Benj. F. Webster to Caroline H. Badger, Land and buildings, bounded South by Lincoln Avenue, for $1500.

Sarah Sherburne and als. to Saml. A. Spinney, for $410. Land on Myrtle St.

Wm. A. Plaisted to Sydney G. Plaisted, Land on Market St., for $1500.

EXETER.—Edmund Elliot and als., to Wm. L. Gooch, Land for $17.

NORTHWOOD.—Betsy Tasker to Luther Tasker, Land and buildings, for $1200.

FREMONT.—Jos. C. Wadleigh to Alfred Thom, Land for $400.

DANVILLE.—James M. French to Jona. French, Land and buildings, for $1500.

EAST KINGSTON.—Alfred H. Butler to Julia A. Colcord, Land for $100.

Wm. S. Bachelor and als., to Daniel Kennard, Land for $150.

DERRY.—Frank J. Coligan to Martha G. McLaughlin, Land and buildings, for $800.

New Publications.

Demorest's Monthly.—The last number of this popular Magazine is always said to be the best. Certainly its enterprising publisher will sustain its brilliant reputation, and spare no efforts or expense to render it the best parlor Magazine in America. How he can afford the expensive premiums he gives, in addition to the positive cost of such a periodical, for $3 per year, is one of the mysteries of publishing. Published at 838 Broadway, N. Y.

SMART GIRL.—As a freight train was stopping at Milford, Conn., recently, a little girl ran under a car and seated herself on a brake bar. She was not observed. When the train started she was jolted off, and eight cars ran over her, after which she picked herself up unhurt and ran home.

☞ Instances where men confess to crimes which they never committed are not infrequent. The latest case comes from Michigan. A wealthy farmer lost two fat hogs which he allowed to run at large in the woods. A place was found in the vicinity where two hogs were killed and dressed, and it was naturally believed that they were the missing animals. A poor and rather shiftless fellow named Pennel was arrested on suspicion, and although there was no proof against him beyond the general shiftlessness of his character, he was induced to plead guilty by the representation that he would be convicted any way, and if he acknowledged the crime he would get off with two or three months' imprisonment, whereas, if he pleaded not guilty he would have to serve the State five years. But the result was quite different. He was sentenced to five years' hard labor in the State Prison. His family were deprived of even his poor support; the mortgage on his house was foreclosed, and he lost all that he had paid on it, and his wife finally became sick and a pauper. After Pennel had served half his sentence, the truth in regard to the missing hogs came to light, it being simply that another man who had two hogs running in the same woods, had by mistake for his own killed those which Pennel had been accused of stealing.

New Hampshire Items.

The personal controversy between Hon. G. G. Fogg, of the Independent Democrat, and Hon. W. E. Chandler, of the Republican Statesman, has resulted in the deposit of $10,000, the latter offering to prove that the former offered J. G. Sinclair to lend his (Fogg's) influence for the election of Judge Chase, if nominated for the Presidency by the Democratic party, the $10,000 won to be distributed among the religious societies in Concord; the question to be left to three referees.

Mrs. Ruth, wife of John W. Nutter of Milton, committed suicide on the noon of the 23d ult., while the family was at dinner. She leaves a husband and five children.

Walden Sanborn and wife of Warner celebrated their golden wedding on the 17th ult.

Mrs. Adam Hawkes of Salem has dispatched thirty-six snakes within a few rods of her house since April.

Pittsfield has raised a forty-six pound pumpkin.

POINTED.—The Rappel, a French paper, rubs the Emperor Napoleon, who is diseased beyond full recovery. It says, there is not a man morally or physically sound on any throne in Europe. Invalids, maniacs, idiots, and incapables—that is the sum total of the European monarchical *personnel*. What a future for the peoples if they leave any longer their destinies in such wicked or incompetent hands! Fortunately democracy is in a position to offer Europe a means of doing without dynasties.

☞ Mr. C. R. Byram has become sole proprietor as well as editor of the Boston National Chronicle, and will make it a full and complete record of "all decent sports." It is a wide awake, live paper.

☞ Lewiston, Me., has the typhoid fever. Sixteen new cases were reported in one day.

BUSINESS NOTICES.

WITH DYSPEPTICS everything is wrong. Food does not digest; sleep does not refresh; wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it or it will become seated and confirmed, and life will be a burden and existence a curse. PLANTATION BITTERS will do away with all this. New life, strength and energy will take possession of you. The damask will bloom upon your cheek, and the lustre in your eye will again be as bright as in your healthiest, happiest and most joyous days.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

Every family in town should keep a bottle of Renne's Pain-Killing Magic Oil in the house. Directions for use will be found on each bottle.

FACTS FOR THE LADIES.—I have used my Wheeler & Wilson Sewing Machine for more than ten years steady, at dress-making, from ten to fourteen hours a day. For the last nineteen months I have used the same needle, and am still using it. My machine is in as good working order to-day as when it first got it.
NEW YORK. MARTHA CAVAN.

There is no disease flesh is heir to more troublesome to manage than Rheumatism. It comes when you least expect it, and generally remains till it gets ready to go away. The most conspicuous remedy for this complaint is "Johnson's Anodyne Liniment."

Two or three doses of "Sheridan's Cavalry Condition Powders" will cure a horse of any common cough or cold, and the very worst cases may be cured in a few weeks. We know this from experience.

TONICS.—Those who resort to tonics will find Speer's "Standard Wine Bitters" the best adapted to benefit the different ailments of the system, whether diseased or debilitated from over exertion or by any other cause. Try them. Sold by Druggists.

BASE BALL.—The return game between the Independents of Newburyport and the Granite States of this city, will be played at the former place on Wednesday.

SPECIAL NOTICES.

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries not before to be found in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to marriage should read this book. It discloses secrets that every one should be acquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, before you place yourself under any one of the notorious QUACKS—native and foreign—who advertise in this or any other paper, get a copy of Dr. Young's Book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

Holloway's Pills.—COLDS AND SORE THROAT.—The foundation of a cold or affection of the throat that lasts the winter through is often laid in autumn. If you are threatened with disease of any of the respiratory organs, rub the external surface night and morning with HOLLOWAY'S OINTMENT and keep the bowels open with HOLLOWAY'S PILLS. A cold, cough or sore throat promptly treated in this way is speedily cured, and all danger of consumption or bronchitis avoided. Sold by all Druggists.

ASIATIC CHOLERA IN CHINA.

TUNGCHOW, China, Aug. 22, 1866.

MESSRS. PERRY DAVIS & SON:

Dear Sirs—During a long residence in China, I have used your invaluable Pain Killer, both on my own family and among the Chinese, and have found it a most excellent medicine. In the summer of '62 and '63, while residing in Canton, I found it an almost certain cure for Cholera, if used in time. Indeed using it in a great many instances, I do not remember failing in a single case. For three years I have been residing in this place, more than fifty miles from a physician, and have used it quite often to fall upon my own resources in cases of sickness. The Chinese come to us in great numbers for medicine and advice. Though without medical knowledge ourselves, the simple remedies we can command are so much in advance even of their physicians, that we have almost daily applications. We allow them to operate as much as in contact with the skin, and opens a door to usefulness. In diarrhœa, colic, vomiting, cholera, coughs, &c., your Pain Killer has been our chief medicine.

Yours, very truly, T. P. CRAWFORD.

Comfort and Ease or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is now catching fast into an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand are the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its paincurative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. ol

FRIGHTFUL DEVELOPMENTS!

At last the people have got the fact "through their hair," that hair dyes impregnated with acetate of lead and other metallic salts are

MURDEROUS PREPARATIONS.

When they see the metallic sediment at the bottom of the bottles, they know that the disgusting stuff is literally *thickened with Poison.* They ask, therefore, for a

Harmless Vegetable Dye,

and find it, pure and efficacious, in

Cristadoro's Excelsior Hair Dye

offered under the sanction of Professor Chilton's, guarantee that it contains "nothing deleterious." CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. 1md&wo4

In Remote Settlements of United Values.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the bowels and blood. Their untold value is to those living in secluded places where a doctor can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box.

Sold by all Druggists.

Now is the Time

To repair the inroads made upon the physical strength by the heated term which has closed with September. The vitality that has been oozing through the pores in the form of perspiration, for the last three months, requires to be replaced, as a preparative to the cold season which comes, and disastrous have been results to the untoned systems. The reserve of vigor with which the stoutest man commences the Summer campaign is drained off by the time the Autumn winds by some means he acquires a new stock of vital energy wherewith to encounter the shock of a colder season, he may droop and wither like the falling leaves whose life-juices are exhausted. If it is thus with the strong, how much more perilous is the condition of the weak and ailing. The reason must suggest to them, more forcibly than these printed words, the necessity for *invigoration*, and the world having decided, after an experience of almost a quarter of a century, that HOSTETTER'S STOMACH BITTERS embrace such restorative properties as are not possessed by any other tonic and alterative preparation in existence.

The importance of restoring to that great RENOVATOR AND REGULATOR OF THE HUMAN MACHINE, at this critical season, is as obvious as the light of day. Let all who desire to escape an attack of chills and fever, bilious remittent fever, dysentery, diarrhœa, dyspepsia, rheumatism, hypochondria, or any other of the diseases of which the Fall season is the prolific parent, have recourse promptly to this celebrated preventive and restorative. ot

Dr. Hopkins' Iron Tonic,

A BLOOD PURIFIER AND REGULATOR. Cures Dyspepsia, Loss of Appetite, Liver Complaint, Sick Headache, Depression of Spirits, Neuralgia, Nervous Affections, Disease of the Skin, Consumptive Tendencies, Chronic Diarrhœa, and Diseases peculiar to Females.

MANUFACTURED BY

ALLEN'S LUNG BALSAM,

The Remedy for curing CONSUMPTION, COUGHS, BRONCHITIS, ASTHAMA, and CROUP. As an Expectorant, IT HAS NO EQUAL.

It is composed of the active principles of roots and plants, which are chemically extracted, so as to retain all their medical qualities.

Ministers and Public Speakers

Who are so often afflicted with throat diseases, will find a cure remedy in this Balsam. Lozenges and wafers sometimes give relief, but this Balsam, taken a few times, will insure a permanent cure.

Will all those afflicted with Coughs or Consumption give this Balsam a fair trial, they will be pleased with the result, and confess that the cure remedy is found at last.

IT IS SOLD BY ALL DRUGGISTS.

CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS for Diseases of the Liver, or to act as a gentle Purgative.

All of these three medicines are often required in curing Consumption; though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills assist in guiding the Stomach and Liver, to keep the bowels open, while the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These medicines are conscientiously offered to the public as the only safe, certain and reliable remedies for Pulmonary Consumption, and for all those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long probation before the public. Its value has been tried through a period of more than thirty-five years, in all of which time its reputation has constantly increased, and the most obstinate skepticism can no longer doubt that it is a remedy which may be used with confidence in all cases which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, he will certainly be cured, if his lungs are not too much wasted to make a cure possible. Even in cases supposed to be incurable, when friends and physicians have despaired, the use of the medicine has restored life to the patient, and restored him to perfect health.

Dr. Schenck himself was cured in precisely such circumstances, and many others are now living joyfully in consequence of his judiciously making a timely use of Dr. Schenck's remedies.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he emphatically asserts, that often when patients have the most alarming symptoms, such as a violent cough, creeping chills, night sweats, and general debility, even to such a degree that they are obliged to lie in bed, and when they have given up by their friends, who think they still be cured. No medical treatment can create new lungs, but when the lungs are very badly diseased, and to some extent destroyed, a cure may be effected by Dr. Schenck's medicines.

Also in Scrofulous diseases these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores, and now all healed up. This shows its purifying properties, which must be done to heal cavities in the lungs.

In the treatment of Consumption, it is of the utmost importance to give vigor and a healthy tone to the system. Hence it is necessary to strengthen the appetite of the patient and improve the digestion. Proper nourishment is required, together with such means as will make the food easily digestible. The articles most suitable for the diet of consumptive patients are digestible food or medicine. This requirement is met by the Sea Weed Tonic, and for this purpose it was designed.

When the digestive powers are put in good order, the food has its proper effect, the system of the patient is invigorated, and the lungs begin to exercise their functions in a normal and healthy manner. Then the healing powers of the Pulmonic Syrup will complete the cure.

Ordinary Consumption is almost always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills are intended to remove obstructions from the liver and restore its healthy action. They have all the efficacy which is ascribed to calomel or "blue mass," and are warranted not to contain a particle of any mineral poison. These pills cure the the most obstinate costiveness, sick headache, piles, bilious attacks, and all other diseases which arise from a torpid or obstructed condition of the liver. One box of these pills will prove the efficacy of the medicine.

In Consumption, the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines. They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. They have been found useful in advanced stages of Consumption, where the lungs were almost entirely destroyed, and all symptoms, according to the judgement of physicians, indicated speedy death. Lives of patients who were fast ripening in dying conditions have been preserved for months by the use of Schenck's three great remedies.

DR. SCHENCK'S Almanac, containing a full treatise on the various forms of disease, his mode of treatment and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North Sixth Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggist and dealers.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and Alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedying properties of mercury, and destroyed in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of which the active components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy, and the irregularities to which the female sex are subject, the Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge**, will ever again take a purgative powder, or draught or pill.

Wholesale agent, John F. HENRY, No. 8 College Place, New York City.

Batchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. Sold by all Druggists and Perfumers, and properly applied at the Wig Factory 6 Bond Street, New York.

IRON MANDRAKE SYRUP.

FREEMAN'S

FREEMAN'S

FREEMAN'S

IRON MANDRAKE SYRUP

IRON MANDRAKE SYRUP

IRON MANDRAKE SYRUP

Is an excellent combination of IRON with MANDRAKE and vegetable tonic.

The Mandrake acts on the Liver and prevents the bracing effects which Iron has on many other preparations; while the vegetable tonic strengthens the stomach, and promotes Digestion of Food and facilitates the absorption of Iron into the blood.

MANDRAKE

MANDRAKE

MANDRAKE

Is the great vegetable substitute for Calomel to act on the Liver.

In Freeman's Mandrake Syrup it is combined with Iron and Vegetable Tonics, and forms the most perfect Spring Medicine.

It purifies the blood and imparts IRON to it.

It acts on the Liver and removes foul humors from the body. It is a most excellent remedy for debility, especially for mothers who are worn down by nursing infants, and for all persons whose blood is poor, and who need iron and a strengthening medicine.

☞ COLEMAN'S, 166 Market Street,

Is the Place to Buy a Cook or Parlor Stove.

LOCAL AFFAIRS.

☞ The Dedication of the M. E. Church will take place on *Thursday* evening of this week.

A RARE OPPORTUNITY to purchase a double-house on Dover Street, cheap, is offered in our advertising columns.

☞ The three-masted Schooner Charles E. Morrison was launched from the Ship-yard of Mr. Wm. F. Fernald, on Monday.

☞ Ferry-boat Emerald has resumed her trips to and from the Navy Yard. The little steamer has been throughly repaired and is painted green.

☞ William H. Hackett, Esq., will sell by Auction on Wednesday, the beautiful Farm of Capt. R. A. Preble of Newcastle—on the premises. See advertisement.

☞ King Rum must have had a general review of his forces in this city on Monday, or else some grog-distributor put more chemicals than common in his benzine,—we saw *eleven* drunken men on the streets within an hour. One of them was a warlike marine, whose face gave evidence of pugnacity on somebody's part.

☞ Mr. Wm. F. Fernald, at his ship-yard, has just launched the three-masted Schooner Charles E. Morrison, of about 500 tons, for West India freighting business. The cabin work was done by Mr. Samuel Clark; and the painting in good style, by Mr. Josiah Grover, who has done all Mr. Fernald's vessels of late. Mr. Fernald has a 1000-ton Ship now on the stocks; which with the Barque building by Tobey & Littlefield, comprise about all the craft now going up on the Piscataqua, we believe.

REFRESHING CONSOLATION. — The Creek Cess-pool may be filled up or may continue to emit its fragrant odors, but nothing can prevent all portions of the North Mill Pond from being in as bad or worse condition before many years, unless the Brewery drains run elsewhere—so many people think.

The Pond is fast filling up and is a receptacle of the emptyings from the common sewers. When that happy time arrives, all the citizens of Portsmouth will get a full benefit, regardless of rank, sex or color. No sympathy will be wasted in their behalf, but we do (rather) pity the innocent inhabitants of Kittery, Newcastle, Rye, Greenland and Newington.

☞ The Newburyport Veterans, Col. Ben: Perley Poor Commander, are to visit the Amoskeag Veterans, Gen. Natt Head Commander, at Manchester, today. They will come to Portsmouth in the regular 10 o'clock train this morning, and will at once proceed to Manchester in a special train on the C. & P. Road. They will be accompanied by the Germania Band, which will favor those in that vicinity with some of their choice music, on passing between the two depots.

The Veterans, both Battalions, will enjoy a grand Levee at Manchester this evening, and visit Nashua, Wednesday; and the Newburyport visitors will return home Wednesday evening.

THE AFORE-MENTIONED ATMOSPHERIC DISTURBANCE commenced in a respectably breezy manner at an early hour on Sunday, and on Monday had increased to a heavy "blow" from the south, accompanied by a small flood. After a two-day's drenching the wind veered round to the North-west, Monday afternoon, and the day closed up with a clear sun-set. After closing up with a gorgeous sunset the wind again blew from a southerly direction.

The tides were very high during the day, submerging many of the wharves. Should the southerly wind continue, the sea will be driven in to-day in a young inundation. Whether this is to be the last of the storm, or we are to be favored with the North-easter which the New Yorkers had on Sunday, remains to be proved. The rain has come at a good time and in great quantity, and the wells and springs have already increased their supply.

DEATHS.

In this city, Oct. 2d, MISS ELIZA MERRIAM, aged 77.

☞ Funeral this (Tuesday) afternoon at 3 o'clock, from Universalist Church.

LAWS OF NEW HAMPSHIRE.

Passed June Session, 1869.

AN ACT in relation to the rate of board at the State Reform School.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. Section 23 of chapter 20th of the General Statutes is so far amended that the word "one" is stricken from the sixth line of said section, and the word "two" is substituted in place thereof, so changing said section, that the maximum rate of board at said Reform School shall be "two" dollars per week, instead of one dollar per week, as prescribed in said section.

SEC. 2. All acts and parts of acts inconsistent with the provisions of this act, are hereby repealed, and this act shall take effect and be in force from and after its passage.

Approved July 8, 1869.

AN ACT relating to Trustee Process.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. Any married woman living apart from her husband may be sued upon her contracts, and her wages and personal earnings, goods, chattels, rights and credits may be attached by trustee process or otherwise in the same manner as if she were sole and unmarried.

SEC. 2. All Acts inconsistent herewith are repealed. Approved July 7, 1869.

AN ACT to repeal part of Section 10 of chapter 251 of the General Statutes relating to catching fish in the streams around the White Mountains.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. Section 10 of chapter 251 of the General Statutes, prohibiting the public from fishing in certain waters around the White Mountains, is hereby repealed, except so far as relates to Glen's pond in Green's Grant and to Profile Lake in Franconia Notch, and its tributaries, including the small pond on the opposite side of the road.

SEC. 2. This Act shall take effect and be in force from and after its passage.

Approved July 7, 1869.

AN ACT to promote the interests of the New Hampshire College of Agriculture and the Mechanic Arts.

Be it enacted by the Senate and House of Representatives in General Court convened, as follows:

SECTION 1. The sum of fifteen thousand dollars is hereby appropriated, to be paid out of any money in the treasury, for the purpose of erecting and furnishing, in co operation with the Trustees of Dartmouth College, at Hanover, in the county of Grafton, a suitable building for the accommodation of the New Hampshire College of Agriculture and the Mechanics Arts, the same to contain a chemical laboratory and lecture-room, an agricultural and mechanical museum, recitation rooms, library room and other appropriate and serviceable apartments for the use of said College of Agriculture and its students; and the Governor is authorized to draw his warrants upon the Treasurer for such portions of said sum as may from time to time be needed in the progress of the work of erecting, completing and furnishing said building, whenever he shall receive satisfactory evidence that the Trustees of Dartmouth College have appropriated and set apart the sum of twenty-five thousand dollars to be expended therewith, on the part of said Dartmouth College.

SEC. 2. Said building shall be erected by the Trustees of said Dartmouth College on a site and according to a plan to be selected and fixed upon by a building committee consisting of the President of both Boards of Trustees and two other gentlemen, one of whom shall be appointed by the Trustees of the New Hampshire College of Agriculture and the Mechanic Arts, and the other by the Trustees of Dartmouth College. Said committee shall have the oversight and direction of the entire work of constructing, erecting, completing and furnishing said building, which, when finished, shall be designated and known by the name of Culver Hall, in honor of the late General David Culver.

SEC. 3. One floor of said building shall contain a well appointed laboratory, which shall be for the joint use of said New Hampshire College of Agriculture and the Mechanic Arts and of Dartmouth College, and the necessary expense of maintaining said laboratory in a suitable working condition shall be paid by each of said Colleges in proportion to the actual use of said laboratory by said Colleges

SEC. 4. If the Trustees of Dartmouth College shall deem it advisable to place in said building any collections they now have or may hereafter obtain, with the design of rendering the agricultural and mechanical museum more complete for purposes of instruction in all departments of said college, they shall have the right so to do; and if it is found desirable to place collections belonging to both colleges in the same rooms or cases, each specimen shall be distinctly marked with the name of the college to which it belongs, and no essential change shall be made in the arrangement or classification of collections belonging to either college, without the consent of the Faculty of that college. Any professor in the New Hampshire College of Agriculture and the Mechanic Arts, or in the Academic Department of Dartmouth College, shall, under proper regulations, have free access to all such collections for purposes of instruction and illustration. Each College may occupy for its collections not exceeding one-half the whole space devoted to that purpose. And the members of the senior class in said New Hampshire College of Agriculture and the Mechanic Arts shall be admitted to the lectures on Anatomy and Physiology and Chemistry in Dartmouth College, on the same terms as the senior class in the Academical Department of Dartmouth College is admitted.

SEC. 5. The Academic Department of Dartmouth College shall have free use of the lecture, recitation and other rooms for all required instruction in any department of mineralogy, geology or natural history, not to interfere with the established course of instruction in the College of Agriculture and the Mechanic Arts. The expenses of warming, lighting and keeping in repair the whole of said building, shall be borne by the two colleges in proportion to the use each may make of the same. The care and keeping of said building shall be committed to the President and Faculty of the New Hampshire College of Agriculture and the Mechanic Arts.

SEC. 6. The appropriation hereinbefore provided for is made upon the distinct understanding and agreement of the Trustees of Dartmouth College, that if at any time hereafter the connection between said Dartmouth College and the New Hampshire College of Agriculture and the Mechanic Arts shall be dissolved, said Trustees of Dartmouth College, upon the state relinquishing all claim to said building and the Legislature requesting them so to do, shall refund to the state said sum of fifteen thousand dollars.

SEC. 7. This act shall take effect upon its passage.—Approved July 9, 1869.

ELISHA TRIPP,
No. 9 Penhallow Street, Portsmouth, N. H.

A PACIFIC RAILWAY

GOLD LOAN $6,500,000.

We beg leave to announce that we have accepted the agency of the

KANSAS PACIFIC RAILWAY COMPANY,

For the sale of its

NEW SEVEN PER CENT.
Thirty Year Gold Loan,
Free from Tax.

This Loan amounts to $6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds,

secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon the Road, the Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,

And in successful operation for 437 miles

west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the track, from the 38th to the 40th parallel, west of Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as

A SINKING FUND FOR THE REDEMPTION OF THE BONDS.

The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the

Value of the Company's property, covered by this mortgage at $23,000,000 net, while the Loan is merely $6,500,000.

The Bonds have

THIRTY YEARS TO RUN,

from May 1, 1869, and will pay

SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be

PAYABLE IN FRANKFORT, LONDON OR N. YORK

at option of the holder, with notice, at the following rates:

On $1,000 Bond in N. Y. $35 (gold) each half year.
" London....$7 85. 10. "
" Frankfort..57 fr. 30 kreuz., "

The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a

FIRST CLASS INVESTMENT,

in every respect perfectly sure, and in some essential even

Better than Government Securities.

The Bonds will be sold for the present at

96, *and accrued Interest, both in Currency,*

the Agents reserving the right to advance the rate.

The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

Pamphlets, with maps giving full information, sent on application.

Portsmouth, N. H.

WEDNESDAY, OCT. 6, 1869.

The News.

James Liverly of Woonsocket, R. I., was buried in a well on Sunday, and taken out dead 26 hours after.

All the reports of the progress of the republican movement in Spain are confirmed. The town of Reus, nine miles from Tarragona, has declared for liberty.

An engagement has taken place in Spain between the government troops and a force of 1100 Republicans. The latter were defeated, losing 40 killed, 60 wounded and 23 prisoners. The government troops lost 20 killed and 38 wounded.

The privateer Cuba was seized at Smithville, N. C., on Monday, by a U. S. Deputy Marshal.

A Tennessee despatch states that Andrew Johnson will be elected U. S. Senator, and that Senator Brownlow is not expected to live.

The Storm on Monday, though not so severe as the gale of September 8, did great damage in New England and the Middle States. In the interior of this State the roads were flooded. At Concord at one time the water was a foot deep on Main Street, and a special to the Boston Journal reports serious injury to many of the railroads, from wash-outs. The New York trains for Boston were delayed several hours. In the interior of New York State the destruction by the storm was immense. Bridges, culverts, &c., were carried away in all directions, and several lives lost.

In Albany much damage was done. The loss of the city in tearing up of pavements, bursting sewers, &c., is at least $50,000. Several bad breaks occurred in the Erie Canal.

A large dam at Pemberwick, two miles north of Port Chester, broke away, tearing down the machine shop. Ten persons were badly injured and one killed. Loss $100,000.

The storm was the severest ever known at Schenectady. Several dams were torn away, and the principal streets were under water.

A Philadelphia dispatch says the Schuylkill River, is full of floating wrecks of houses, canal boats, cars, &c. Two people were drowned. The covered bridge at Manayunk was carried away. All the houses on Market street are flooded and many of the inhabitants have to be rescued in boats. The damage is immense. The Lehigh River is fifteen feet high. The railroads are all submerged and the damage in Lehigh valley is very great.

At Washington, Georgetown and Bladensburg many bridges were swept away.

The freshet is unprecedented at Troy.

Reports from all sections indicate that the loss of life has been considerable and that property has been destroyed valued at many millions of dollars.

A mill at the Glen House, White Mountains, was carried away, and with it the proprietor, J. M. Thompson and a Mr. Preble. Their bodies were not recovered.

☞ Last Saturday Wm. G. Kingsbury, of South China, Me., was tried under the search and seizure clause of the Maine liquor law and convicted. Saturday evening the Second Baptist Church in China was fired and burned. Members of this Church were the parties instrumental in procuring the complaint against Kingsbury, and suspicions at once rested upon him. Kingsbury and others were arrested for trial, pleaded not guilty, and in default of bail were committed to jail.

The Coal Trade.—The Pottsville Miners' Journal says the operators and miners have agreed that $3 per ton be the basis for wages for the month, that being a trifle more than the average price paid for coal by the Philadelphia brokers. This basis, it is said, involves a considerable reduction of wages.

☞ The Boston Board of Aldermen have directed the committee on laying out and widening streets to extend Washington street to Haymarket Square, and also for the extension of Portland Street from Hanover Street to the extension of Washington Street.

☞ The City of Boston is to purchase all the franchise, property, rights and privileges owned or held by the East Boston Ferry Company, for a sum not exceeding two hundred and seventy-five thousand dollars.

☞ The small pox rages at Springfield, Mass.

☞ This is the last week of the Mechanics' Fair at Boston.

"Let learning, honor, laws, religion die—
But give us still our Old Nobility."

A Sacrilegious Doctor.—Last February, on board the U. S. S. Nipsic, a man was on the sick-list. This man was sick, but not so very sick as to be considered by the Surgeon, Charles L. Green, unfit for light duty. The Captain, Thomas O. Selfridge, ordered the surgeon to strike the man's name from the sick-list, in which case he would have had to perform *full* duty, for which the doctor considered him unfit; and he refused to obey the order, on the grounds that he could not conscientiously do so, and that the command itself was illegal.

For this refusal he was placed under arrest, court-martialed for disobedience of orders, and convicted, but at the same time acquitted on what seems to have been a trumped-up charge,—that of drunkenness and unbecoming conduct. The sentence of the court-martial was that he be suspended, on furlough pay, for two years, and publicly reprimanded by the Secretary of the Navy. I have a copy of the general order containing the finding of the court, the reprimand and the remission of suspension from rank, and somewhat minutely setting forth the surgeon's sin and the duties of subordinate officers in the service. There is something mysterious, not to say contradictory, about the document. Here are extracts from three of its clauses:—

Obedience to the orders of superior authority is the first and plainest duty of all officers, from which no one, of any class, is, or *can be*, exempted.

Disobedience may be *sometimes* excused by the manifest illegality, enormity, or folly, which would result directly from the execution of an order.

None are authorized, at any time, to *interpose their judgement* between the exigencies of the service and the responsibility of the commanding officer.

Here appears to be a knot in the "yarn." No one can be exempted from implicit obedience, but disobedience may be excused when the order is illegal or foolish, though no one is allowed to exercise his own judgment as to the legality of any command whatever; that is, the man who gives the order is the only one to decide whether it is legal and wise, or not.

In the present case, the doctor said the man was not fit to leave the sick-list—but he used his own judgment and not the captain's. He was able to tell whether the man was sick better than the captain, or he had no business in the navy—or any where else—as surgeon; and he was certainly right in this case, for the man was soon sent back to the sick-bay, much worse than he had been before. Common sense would suggest that the man to decide the question would have been the surgeon, but "the good of the service" don't care a fig for common sense. If the commander of a ship ordered a surgeon to strike a dying man's name from the sick-list, that he might be set to work; if he ordered the steam shut off and the safety valve lashed, so as to blow up the boiler; if he ordered a man to jump overboard, or a fire-brand to be put in the magazine, the orders would be foolish and illegal; and the men to whom they were directed might disobey them,—not on their own judgment, but with the captain's consent!

Surgeon Green's real offence is twofold. First, he is a staff officer; and second, he dared to interpose his plebeian "judgment" and medical knowledge between a sick man and the authority of the would-be-omnipotent Line. In fact, his trial is but part of the crusade of the Line against the responsible authority and recognized position of the Staff. What a pity such a splendid opportunity to snub doctors and chaplains, and particularly engineers, as was afforded by the public reading of this general order in the service, was not better improved, and the low creatures, once for all, taught their places.

I am at a loss to decide whether or no the Secretary of the Navy is not making fun of the whole affair in this general order, which reads much like a sly joke all through; but if it is really intended as a "reprimand," it quite equals the one a lady school-teacher gave me, years ago, when I pushed a boy backward off a high fence on which he was sitting, and nearly broke his neck, for hitting my sweetheart (she was six years older than I, and married a black-smith about two weeks afterward) in the head with an apple-core. I was called before the school, and addressed with "You didn't mean to hurt him, did you?" "No ma'am,"—without a blush. "I knew such a good little boy as you wouldn't do anything so wrong; you can take your seat."

Pareha.

☞ The Boston Ancient and Honorable Artillery visited Portland on Monday and Tuesday—and had a good time at their Levee Monday evening, and Clambake Tuesday.

New Hampshire Items.

Mrs. John H. Hoyt, of Hillsborough, getting a pail of water, missed her footing and fell into the well, sixteen feet deep. She finally got out without any help, and without any serious injury.

The Monadnock and Wilton Railroad war is not yet ended. A suit has been brought by the latter road against the town of Peterborough, for the five per cent. gratuity, and the selectmen having referred the decision of the matter to the Judges of the Supreme Court, after hearing both parties, the friends of the Monadnock road have petitioned for another town meeting.

Capt. S. C. Davis, of Newmarket, planted a grain of mustard in his garden on the 20th of last May, which has grown like Jack's bean stalk, the main stalk and its branches having attained a length of 115 feet.

James Eustace, of Keene, was assaulted by three drunken ruffians last Wednesday evening, and stabbed in several places. His wounds are very severe.

A little daughter of E. R. Whittier, of Enfield, broke her arm a few days since, while at play in the school-yard, by falling on the plank walk.

LAWS OF NEW HAMPSHIRE.

Passed June Session, 1869.

AN ACT for the Protection of Fish.

Be it enacted by the Senate and House of Representatives in General Court convened:

Section 1. That all weirs, stake or set nets for taking or trapping fish, erected or maintained on the Squamscott river in this state, shall be one mile or upwards from each other, the distance to be measured from the head of tide-water by the main channel of said river. Any person guilty of violating the provisions of this act shall be subject to a fine of twenty dollars.

Sec. 2. All acts or parts of acts conflicting with the provisions of this act are hereby repealed.—Approved July 9, 1869.

AN ACT in relation to actions upon Policies of Insurance.

Be it enacted by the Senate and House of Representatives in General Court convened:

Section 1. In actions on policies of insurance where the same have been transferred or assigned with the assent of the company either absolutely or as collateral security, the party in interest may bring his action either in the name of the assignor or assignee as he may elect, and no action so brought shall be abated, nor shall judgement thereon be rendered for the defendants by reason of its being so brought; provided, however, that there shall be but one action brought on such policy of insurance, and but one recovery thereon.

Sec. 2. The provisions of the preceding section shall apply to suits now pending in the same manner as if they had not been brought until after the passage of this act. All acts and parts of acts inconsistent with this act are hereby repealed.

Sec. 3. This act shall take effect and be in force from and after its passage.

Approved July 9, 1869.

AN ACT as to Insurance Commissioners.

Be it enacted by the Senate and House of Representatives in General Court convened:

Section 1. One Insurance Commissioner shall be appointed by the Governor and Council, who shall hold office for three years, and until another is appointed and qualified in his stead; but he may be removed at pleasure by the Governor and Council, and his duties shall be the same as those of Insurance Commissioners under existing laws.

Sec. 2. Section 1 of Chapter 156 of the General Statutes is hereby repealed.

Sec. 3. This act shall take effect on and after its passage.—Approved July 9, 1869.

AN ACT in amendment of chapter 264 of the General statutes, relating to homicide and offences against the person.

Be it enacted by the Senate and House of Representatives in General Court convened:

Section 1. If any person shall assault or beat another, or in any way break the peace, upon conviction thereof before any justice, he shall be fined not exceeding twenty dollars, or imprisoned not exceeding thirty days, and may be ordered to recognize, with sufficient sureties, to keep the peace and be of good behavior not more than one year.

Sec. 2. Section twenty of chapter two hundred and sixty-four, of the General Statutes, is hereby repealed, but no pending prosecution shall be affected.

Sec. 3. This act shall take effect on its passage.—Approved June 24, 1869.

SPECIAL NOTICES.

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and functions of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, before you place yourself under any one of the notorious QUACKS—native or foreign—read Young's Book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

Holloway's Pills.—Colds and Sore Throat.—The foundation of a cold or affection of the throat that lasts the winter through is often laid in autumn. If you are threatened with disease of any of the respiratory organs, rub this external surface night and morning with HOLLOWAY'S OINTMENT and keep the bowels regular with HOLLOWAY'S PILLS. A cold, cough or sore throat quickly treated in this way is speedily cured, and all danger of consumption or bronchitis avoided. Sold by all Druggists.

ASIATIC CHOLERA IN CHINA.

Tuncchow, China, Aug. 23, 1866.

Messrs. Perry Davis & Son:

Dear Sirs—During a long residence in China, I have used your invaluable Pain Killer, both in my own family and among the Chinese, and have found it a most excellent medicine. In the summer of '62 and '63, while residing in Shanghai, I found it an almost certain cure for Cholera, if used in time. Indeed using it in a great many instances, I do not remember failing in a single case. For three years I have been residing in this place, more than fifty miles from a physician, and have been obliged often to fall upon my own resources in case of sickness. The Chinese consider us as great numbers for medicine and advice. Though without medical knowledge ourselves, the few simple medicines we can command are so much in advance even of their physicians, that we have almost daily applications. We allow them to come because it brings us in contact with them, and opens a door to usefulness. In diarrhœa, colic, vomiting, cholera, coughs, &c., your Pain Killer has been my chief medicine.

Yours, very truly, T. P. CRAWFORD.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is now selling at each-penny; but an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its paincurative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. ol

FRIGHTFUL DEVELOPMENTS!

At last the people have got the fact "through their hair," that hair dyes impregnated with acetate of lead and other metallic salts are

MURDEROUS PREPARATIONS.

When they see the metallic sediment at the bottom of the bottles, they know that the disgusting stuff is literally *thickened with Poison*. They ask therefore, for a

Harmless Vegetable Dye,

and find it, pure and efficacious, in

Cristadoro's Excelsior Hair Dye

offered under the sanction of Professor Chilton's guarantee that it contains "nothing deleterious." CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. 1md&wo4

In Remote Settlements of United Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as regulators of the bowels and blood. Their untold value is to those living in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box.

Sold by all Druggists.

Now is the Time

To repair the inroads made upon the physical strength by the heated term which has closed with September. The vitality that has been oozing through the pores in the form of prospiration, for the last three months, requires to be replaced, as a preparative to the cold season which makes such disastrous havoc with relaxed and cutowed systems. The exhaustive drain of vigor with which the stoutest man commences the Summer campaign is drained out of him at its close, and unless by some means he acquires a new stock of vital energy he succumbs to disease, or, if he escapes of a colder season, he may droop and wither like the falling leaves whose life-juices are exhausted. If it is thus with the strong, how much more perilous is the condition of the weak and ailing. Their reason must suggest to them, more forcibly than these printed words, the necessity for *invigoration*, and the world having decided, after an experience of almost a quarter of a century, that HOSTETTER'S STOMACH BITTERS embrace such restorative properties as are not possessed by any other tonic and alterative preparation in existence.

The importance of restoring to that great Renovator and Regulator of the Human Machine, at this critical season, is so obvious as the light of day. Let all who desire to escape an attack of chills and fever, bilious remittent fever, dysentery, diarrhœa, dyspepsia, rheumatism, hypochondria, or any other of the diseases of which the fall season is the prolific parent, have recourse promptly to this celebrated preventive and restorative. ol

Dr. Hopkins' Iron Tonic,

A BLOOD PURIFIER AND REGULATOR, Cures Dyspepsia, Loss of Appetite, Liver Complaint, Sick Headache, Depression of Spirits, Neuralgia, Nervous Affections, Disease of the Skin, Consumptive Tendencies, Chronic Diarrhœa, and Diseases peculiar to Females.

ALLEN'S LUNG BALSAM,

The Remedy for curing CONSUMPTION, COUGHS, BRONCHITIS, ASTHAMA, and CROUP. As an Expectorant, IT HAS NO EQUAL.

It is composed of the active principles of roots and plants, which are chemically extracted, so as to retain all their medical qualities.

Ministers and Public Speakers

Who are so often afflicted with throat diseases, will find a sure remedy in this Balsam. Lozenges and wafers sometimes give relief, but this Balsam, taken a few times, will insure a permanent cure.

Will all those afflicted with Coughs or Consumption, give this Balsam a fair trial, they will be pleased with the result, and confess that the sure remedy is found at last.

IT IS SOLD BY ALL DRUGGISTS.

CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS for Diseases of the Liver, or to act as a gentle Purgative.

All of these three medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills assist in regulating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These medicines are conscientiously offered to the public as the only safe, certain and reliable remedies for Pulmonary Consumption, and for all those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long probation before the public. Its value has been through a period of more than thirty-five years, in all of which time its reputation has constantly increased, and the most obstinate cases of Consumption no longer doubt that it is a remedy which may be used with confidence in all cases which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, a cure certainly be cured, if his lungs are not too much wasted to make a cure possible. Even in cases pronounced to be incurable, when friends and physicians have despaired, the use of the medicine has saved the life of the patient, and restored him to perfect health.

Dr. Schenck himself was cured in precisely such circumstances, and many others have been equally fortunate by judiciously making a timely use of Dr. Schenck's remedies.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he emphatically asserts that other means when patients have the most alarming symptoms, such as a violent cough, creeping chills, night sweats, and general debility, even to such a degree that they are obliged to lie in bed, and when they are given up by their physicians, they may still be cured. No medical treatment can restore new lungs, but when the lungs are very badly diseased, and to some extent destroyed, a cure may be effected by the use of these medicines.

Also in Scrofulous diseases these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores, and now all healed up. This shows its purifying properties, which must be done to heal cavities in the lungs.

In the treatment of Consumption, it is of the utmost importance to give vigor and a healthy tone in the system. Hence it is necessary to strengthen the appetite of the patient and improve the digestion. Proper nourishment is required, together with such means as will make the food easily digestible. The articles most suitable for the diet of consumptive patients are designated in Dr. Schenck's Almanacs, which are distributed gratuitously. In general, the most nutritious articles are to be preferred; but the digestive organs must be strengthened in order to make either food or medicine serviceable. This requirement is met by the Seaweed Tonic, and for this purpose it was designed.

When the digestive powers are put in good order, the food has its proper effect, the system of the patient is invigorated, and the lungs begin to exercise their functions in a normal and healthy manner. Then the healing powers of the Pulmonic Syrup will complete the cure.

Pulmonary Consumption is almost always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills are intended to remove obstructions from the liver and restore its healthy action. They have all the efficacy of the mercribed to calomel or "blue mass," and are warranted not to contain a particle of any mineral poison. These pills cure the most obstinate costiveness, sick headache, piles, billious affections, and all other diseases which arise from a torpid or obstructed condition of the liver. One box of these pills will prove the efficacy of the medicine.

In Consumption, the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines. They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. They have been found invaluable adjuncts to the use of this medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North Sixth Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggist and dealers.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative of the efficacy of the most potent preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that has appeared for years. It is composed of the botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined to this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than **One thousand experiments**

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. Erasmus Winslow's **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

Wholesale agent, John F. Henry, No. 8 College Place, New York City.

Batchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. Sold by all Druggists and Perfumers, and properly applied at the Wig Factory 5 Bond Street, New York.

IRON MANDRAKE SYRUP.

FREEMAN'S
FREEMAN'S
FREEMAN'S

IRON MANDRAKE SYRUP
IRON MANDRAKE SYRUP
IRON MANDRAKE SYRUP

Is an excellent combination of IRON with MANDRAKE and vegetable tonic.

The Mandrake acts on the Liver and prevents the bracing effects which Iron has as many other preparations; while the vegetable tonic strengthens the stomach, and promotes Digestion of Food and facilitates the absorption of Iron into the blood.

MANDRAKE
MANDRAKE
MANDRAKE

Is the great vegetable substitute for Calomel to act on the Liver.

In Freeman's Mandrake Syrup it is combined with Iron and Vegetable Tonics, and forms the most perfect Spring Medicine.

It purifies the blood and imparts IRON to it.

It acts on the Liver and removes foul humors from the body. It is a most excellent remedy for debility, especially for mothers who are worn down by nursing infants, and for all persons whose blood is pure, and who need iron and a strengthening medicine.

LOCAL AFFAIRS.

☞ William H. Hackett, Esq., will sell by Auction at noon to-day, the beautiful Farm of Capt. R. A. Preble of Newcastle—on the premises. See advertisement.

☞ E. A. Batchelder, at his store in Congress Block, has a circulating library of select books, which he is constantly increasing by the addition of the newest and most popular works of the day.

BASE BALL.—The second nine of the Granite States are to play a match with the Eurekas, at the Plains, this afternoon. The Granite State first nine go to Newburyport to play a return game with the Independents, to-day.

KEARSARGE MILLS. — The annual meeting of the Kearsarge Cotton Mills Corporation was held in this city on Tuesday, when Messrs. James L. Little, William P. Jones, Edward Kidder, James H. Beal, James W. Emery, Josiah G. Abbott and John F. Anderson, were unanimously elected Directors.

☞ In the newly-fitted Methodist Church in this city, the organ is taken down from the gallery, and is placed on the platform in rear of the pulpit. The plan is to have congregational singing, and no choir; the organist to be leader and conductor of the music. Mr. E. A. Tilton, who is now putting the organ in repair, has been tendered the position of organist and conductor, and we understand will accept.

☞ The Newburyport Veterans, with the Germania Band, arrived in this city Tuesday morning, on their way to Manchester; but instead of changing cars and marching to the Concord Road as they expected, the three Eastern Road cars which they occupied were switched off on to the Concord rail, and a special engine took the party up, without change of cars. They will visit Nashua to-day, and return to Newburyport this evening.

☞ Horse chestnuts, not exactly "winged messengers of peace," are plenty about the streets, flying around loose from the hands of horrid boys who delight to imitate Goliah, but dispense with the "sling." Small urchins scud home from school as fast as their legs will carry them,—prominent marks for the older boys to pelt with the abominable missiles. But won't the flee-rs have their revenge on other and smaller boys, at the first opportunity?

THE STORM AT THE SHOALS.—About 10 o'clock Monday night, at high tide, six hours after the conclusion of the storm, a series of tidal waves swept over Gosport, Isle of Shoals, submerging a large part of the town and doing extensive damage, especially to boating.

It swept inward, and the keeper of Whale's Back Light-house feared that it would be carried away. The plastering tumbled down about his ears, and he took refuge outside his castle, lest he should be buried in its ruins.

One theory is that it was caused by some as yet unheard-of earthquake. The waves are reported as immensely high and powerful, dashing everything before them, and it seems providential that no lives were lost.

PORTSMOUTH. — "Steve" was last heard from at Portsmouth, N. H., where he was greatly impressed with the "ancientness" of the houses, and graveyards. He is satisfied that the people of that comfortable old city will never take a premium for enterprise unless they change their way of doing things, or let "Young America" take the reins.

Steve is very sensitive about toll bridges, and considers those between Kittery and Portsmouth and between Newcastle and Portsmouth as unmitigated nuisances, having a great tendency to encourage profanity on the part of travellers and retarding the growth and prosperity of the city.

Although having a mortal horror of the ale manufactories, for which that city is becoming somewhat celebrated, he nevertheless overcame his scruples sufficiently to make inquiries relative to the amount of business transacted, and ascertained that one half of the ale manufactured there finds a market in the State of Maine.

He further informs us that large quantities of acorns are gathered in the upper part of New Hampshire and sold to the manufacturers of "warranted pure burnt and ground coffee" in the city of Boston.

He estimates the receipts of the summer hotels in New Hampshire at half a million dollars but says that more than half of them have not paid their expenses.

The fishermen of Portsmouth report a good catch this fall. More herring are on the shore than for many years, indicating that late cod will be plenty and fat. He says that fruit is rather scarce. Potatoes are plenty and no sign of rot. The market for hay is dull. Grain of all kinds is first rate and corn will be light.

Steve sees and hears most everything that is going on, and we hope soon to hear from him "some more."—*Portland Press.*

For the Chronicle & Gazette.

ASTRONOMICAL.—The view of the Siderial Heavens, the present month, will be full of interest to the admirers of the starry throngs. Not only the usual numbers of fixed stars that belong to and are always visible in October, but Venus, Mars, Jupiter and Saturn are likewise to be seen between the hours of 7 and 8,—*an unusual event.* This (Wednesday) evening, Venus and Mars will be very near together, 1-4 before 7, they both setting at 7 minutes past 7,—verifying the words of Job, "the morning stars sang together."

Precisely at the same time, Jupiter will be seen rising in the E. N. E., and presenting a beautiful appearance, fully equal to Venus in splendor,—and will, during the whole month and year. Saturn is brilliant in the S. W., setting at 30 minutes past 8. Venus, Mars and the Moon, are now in the constellation Libra. In the year of the Lord 1186, Sept. 14th, all the Planets and the Moon were in this constellation, Libra. When shall all these meet again? Who shall, or who can calculate? TYRO.

THE NATIONAL DEBT.—Since the public debt reached its maximum in August, 1865, we have paid off and extinguished 300 millions, or one-ninth of the whole amount.

Hon. David A. Wells, special revenue commissioner, writes that an annual investment of $100,000,000 at six per cent. in a sinking fund will extinguish the entire principal of our national debt in less than fifteen years; or if the contribution to the sinking fund be limited to $50,000,000 per annum at six per cent. (and a smaller contribution than this is not in accordance with popular sentiment) the law will only be extended to twenty-three years; and between these we have the exact time when the present public debt of the United States will be extinguished.

RUM OR MILK?—Massachusetts milkmen bought milk in New Hampshire by beer measure, and sold it in Masschusetts by wine measure, thus making more than their legitimate profits, no doubt. So to gratify the comparatively small number who were engaged in the business, our Legislature passed a law making it an *offense punishable with a fine of* $10, to sell milk in any but wine measure, or use any vessels of any other standard in the sale. If 'twere rum instead of milk—what a howl!

FALL ELECTIONS. — The following elections will come off this Fall.

October 12, Pennsylvania Ohio, and Iowa, all State officers and Legislatures.

October 20, California, Judges of Supreme Court.

November 2 — New York, Secretary of State, Legislature, etc; New Jersey, Legislature; Massachusetts, Minnesota and Wisconsin State officers and Legislature.

☞ The Boston Advertiser states that James W. Emery Esq., of Boston, a former resident of Portsmouth, has purchased the Cutts mansion at Christian Shore, lately owned by Chas. Amory, Esq., and will occupy it as a summer residence.

NAVAL. — Captain John Guest has been ordered to the command of the Naval Rendezvous at Philadelphia.

A PACIFIC RAILWAY
GOLD LOAN $6,500,000.
We beg leave to announce that we have accepted the agency of the
KANSAS PACIFIC RAILWAY COMPANY,
For the sale of its
NEW SEVEN PER CENT.
Thirty Year Gold Loan, Free from Tax.
This Loan amounts to $6,500,000.
First Mortgage Land-Grant and Sinking Fund Bonds,
secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon the Road, the Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,
And in successful operation for 437 miles
west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the
GOVERNMENT LAND GRANT OF THREE MILLION ACRES,
extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as A SINKING FUND FOR THE REDEMPTION OF THE BONDS.
The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of
Three Millions of Acres in the State of Kansas,
and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the
Value of the Company's property, covered by this mortgage at $23,000,000 net, while the Loan is merely $6,500,000.
The Bonds have
THIRTY YEARS TO RUN,
from May 1, 1869, and will pay
SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.
The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be
PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:
On $1,000 Bond in N. Y. $35 (gold) each half year.
" London....£7 8s. 10. "
" Frankfort..87 fr. 30 krtzs., "
The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a
FIRST CLASS INVESTMENT,
in every respect perfectly sure, and in some essential even
Better than Government Securities.
The Bonds will be sold for the present at
96, *and accrued Interest, both in Currency,*
the Agents reserving the right to advance the rate.
The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.
Gold and Government Securities taken in payment at their market value, without commission.
Pamphlets, with maps giving full information, sent on application.

Morning Chronicle.

A PROFANE CHAPTER.

Last Words of Great Men—Failure of the System.

Marshal Niel's last words were: "*L'armee Francaise*" (The French army).—*Exchange.*

What a sad thing it is to see a man close a grand career with a plagiarism in his mouth. Napoleon's last words were "*Tete d'armee.*" (Head of the army.) Neither of these remarks amount to anything as "last words," and reflect little credit upon the utterers. A distinguished man should be as particular about his last words as he is about his last breath. He should write them out on a slip of paper and take the judging of his friends on them.

He should never leave such a thing to the last hour of his life, and trust to an intellectual spurt at the last moment to enable him to say something smart with his latest gasp, and launch into eternity with grandeur. No—a man is too much fagged and exhausted both in body and mind, at such a time, to be reliable; and may be, the very thing he wants to say he cannot think of to save him; and besides, there are his weeping friends bothering around; and worse than all, as likely as not he may have to deliver his last gasp when he is not expecting to. A man can not always expect to think of a natty thing to say under such circumstances, and so it is pure egotistic ostentation to put it off. There is hardly a case on record where a man came to his last moment unprepared and said a good thing—hardly a case where a man trusted to that last moment and did not make a solemn botch of it, and go out of the world feeling absurd.

Now there was Daniel Webster. Nobody could tell *him* anything. *He* was not afraid. *He* could do something neat when the time came, and how did it turn out? Why, his will had to be fixed over; and then all his relations came; and first one thing and then another interfered, till at last he only had a chance to say "I still live," and up he went. Of course he didn't still live, because he died—and so he might as well have kept his last words to himself as to have gone and made such a failure of it as that. A week before that, fifteen minutes of calm reflection would have enabled that man to contrive some last words that would have been a credit to himself and a comfort to his family for generations to come.

And there was John Quincy Adams. Relying on his splendid abilities and his coolness in emergencies, he trusted to a happy hit at the last moment to carry him through, and what was the result? Death smote him in the House of Representatives, and he observed, casually, "This is the last of earth." The last of earth! Why the "last of earth," when there was so much more left? If he had said it was the last rose of summer, or the last run of shad, it would have had just as much point to it. What he meant to say, was, "Adam was the first, and Adams is the last of earth," but he put it off too long, and so had to go with that unmeaning observation on his lips.

And there we have Napoleon. "*Tete d'armee.*" That don't mean anything. Taken by itself, "Head of the Army" is no more important than "Head of the police." And yet that was a man who could have said a good thing if he had barred out the doctor and studied over it a while. And this Marshal Neil, with half a century at his disposal, couldn't dash off anything better in his last moments than a poor plagiarism of another man's last words, which were not worth plagiarizing in the first place. "The French Army." Perfectly irrelevant—perfectly flat—utterly pointless. But if he had closed one eye significantly and said, "The subscriber has made it *lively* for the French Army," and then thrown a little of the comic into his last gasp, it would have been a thing to remember with satisfaction the rest of his life. I do wish our great men would quit saying these flat things just at the moment they die, let us have their next to-their-last words for a while, and see if we cannot patch up something from them that will be a little more satisfactory. The public does not wish to be outraged in this way all the time.

But when we come to call to mind the last words of the trouble to make proper preparation for the occasion we immediately notice a happy difference in the result.

There was Chesterfield. Lord Chesterfield had labored all his life to build up the most shining reputation for affability and elegance of speech and manners the world has ever seen. And could you suppose he failed to appreciate the efficiency of characteristic "last words" in the matter of seizing the successfully driven nail of such a reputation and clinching it on the other side forever? Not he. He prepared himself. He kept his eye on the clock and his finger on his pulse. He waited his chance. And at last, when he new his time was come, he pretended to think a new visitor had entered, and so, with the rattle in his throat emphasized for dramatic effect, he said to the servant: "Shin around, John, get the gentleman a chair." And then he died, amid thunders of applause.

Next we have Benjamin Franklin; Franklin the author of Poor Richard's quaint sayings; Franklin the immortal axiom builder, who used to sit up nights reducing the rankest old threadbare platitudes to crisp and snappy maxims that had a nice, varnished, original look in their new regimentals; who said "Procrastination is the thief of time;" who said "Time and tide wait for no man;" and "Necessity is the mother of invention;" good old Franklin the Josh Billings of the eighteenth century—though sooth to say, the latter transcends him in proverbial originality as much as he falls short of him in correctness of orthography. What sort of tactics did Franklin pursue? He pondered over his last words for as much as two weeks, and then when the time came he said "None but the brave deserve the fair," and died happy. He could not have said a sweeter thing if he had lived till he was an idiot.

Byron made a poor business of it, and could not think of any thing to say, at the last moment, but "Augusta—sister—Lady Byron—tell Harriet Beecher Stowe"—etc., etc.; but Shakespeare was ready and said, "England expects every man to do his duty!" and went off with splendid eclat.

And there are other instances of sagacious preparation for a felicitous closing remark. For instance:

Joan of Arc said—"Tramp, tramp, the boys are marching."

Alexander the Great said—"Another of those Santa Cruz punches, if you please."

The Empress Josephine said—"Not for Jo——,"and could get no further.

Cleopatra said—"The Old Guard dies, but never surrenders!"

John Smith said—"Alas, I am the last of my race!"

Queen Elizabeth said—"Oh, I would give my kingdom for one moment more—I have forgotten my last words."

And Red Jacket, the noblest Indian brave that ever wielded tomahawk in defense of a friendless and persecuted race, expired with these touching words on his lips: "Wawkawampanoosacwinnebagowallawallasagamoresaskatchewan." There was not a dry eye in the wigwam.

Let not this lesson be lost upon our public men. Let them take a healthy moment for preparation, and contrive some last words that shall be neat and to the point. Let Louis Napoleon say:

"I am content to follow my uncle still—I do not desire to improve on his last words. Put him down for *tete d'armee.*"

And Garrett Davis: "Let me recite the unabridged dictionary."

And H. G.: "I desire now to say a few words on political economy."

And Mr. Bergh: "Only take a part of me at a time, if it will be fatiguing to the hearse horses."

And Andrew Johnson: "I have been an alderman, member of Congress, Governor, Senator, Pres——adieu, you know the rest."

And Seward: "Alas!—ka."

And Grant; "0."—*Mark Twain.*

AVERILL CHEMICAL PAINT!

THE RIGHT THING AT LAST!

BENJAMIN NORTON,

Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of

THE BEST PAINT!

over offered in this city.

It is Durable, Beautiful, Water Proof, Elastic and Economical.

This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.

It is prepared in pure White and one hundred Different Shades, and is unsurpassed in all respects.

It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.

Many testimonials from those who have used it in other places of its superiority over other Paints might be given; but I will only invite those of this city and surrounding towns who intend using Paints, to call at the

GROCERY AND PROVISION STORE,

Nos. 16 & 18 Cabot Street,

which is the ONLY PLACE in this city where it has been used, and examine the Paint where it has been applied in ten or twelve different shades, and where they can choose any color they desire for use, outside or in, and buy from one pound upwards.

In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.

These Paints are manufactured in New York, and Newburgh, Ohio. BENJ. NORTON,

Agent for Chemical Paint Company.

Also for sale, at the same place, the Best Quality of

MEATS AND GROCERIES!

AS LOW AS CAN BE BOUGHT IN THE CITY.

a23

SPEER'S SAMBUCI WINE.

CATAWBA, PORT, GRAPE and P. J. Sherry.

The above Wines are made by Mr. Speer, whose reputation as a wine grower stands pre-eminent. They are well established, and long known by the Medical Profession as the most reliable and valuable wines to be had.

Every family at this season should use

SPEER'S SAMBUCI WINE,

celebrated in Spain and Portugal for its beneficial qualities, highly esteemed by eminent physicians, used in European and American Hospitals and by the first families in Europe and America.

Excellent for weak and debilitated persons, the aged and infirm, improving the appetite and benefitting the ladies and children.

AS A DIURETIC

it imparts a healthy action to the Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic affections. Also,

SPEER'S PORT GRAPE WINE

is pure juice of the Oporto Grape, recommended by Physicians as possessing medical properties superior to California or Imported Wines.

SPEER'S STANDARD WINE BITTERS

The Best and Most Reliable Tonic and Bitters in the market, which is always the CHEAPEST.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

For sale by Druggists and Town Agents, who also sell Speer's Standard Wine Bitters.

jy17 A. SPEER, Proprietor, VINEYARDS, Passaic, New Jersey.

JOHN LA FOY, Paris, Agent for France.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS, *Late Agent of the United States Patent Office, Washington, under the Act of 1837,*

No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of any proposed inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency is the United States possesses superior facilities for obtaining patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his practice, made *twelve rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending.* Such uniform success must take rank with ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Boston, Jan. 1, 1869.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

GENUINE CURE in all cases or no charges made.

DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar, or they will not be answered.

The Chronicle.

Singing and Sighing.

When my heart was singing
All the world sang too;
Merry laughed the greenwood,
And the skies were blue;
In and out, round about through the tasseled corn,
Golden bees on the breeze flew to chase the morn,
And adown the hillside,
Through the rocky glen,
Every rippling streamlet
Flashed and laughed again—
When my heart was singing.

When my heart was sighing,
All the world was gray,
Cloud and moaning breezes
Hid the light away—
Gaunt and bare through the air rose the barren hill,
Loud and clear, rising near, piped the locust shrill,
And the gloom without us
Seemed to find a rest,
In the gathering shadows
Hidden in my breast—
When my heart was sighing.

Between song and sighing,
Not a day had flown—
Not a change had fallen,
Save in me alone;
Shade or light dark or bright, from my spirit still
Came the bloom, came the gloom, painting good or ill;
So through all the seasons
Every day departs,
Painted with the changes
Of our changing hearts—
Sighing thus, or singing.

WALL STREET OUTDONE.—Brigham Young has made another bolt and successful flank movement on his poor, deluded followers, by which he becomes the possessor of over a million of dollars justly belonging to the people he rules with an iron despotism, and should any voice be raised in condemnation of the act, silence would soon be secured by means of his destroying angels, in the presence of whose dark and cold-blooded deeds in the past the people stand in fear and perpetual dread, which seals their lips in dumb silence upon all matters where their ruler is a party. The following account of this last great swindle, and the manner in which it is received by the Mormon people, we take from the columns of the Utah Reporter of the 15th:

Upon the completion of the Union Pacific Railroad, it was found that the railroad was indebted to the Mormon people for work on contracts for labor by hand and with teams, for ties, rock, lumber, etc., in an amount in the aggregate exceeding a million dollars. The railroad was not able at once to pay in cash, but as soon as claims were adjusted, gave vouchers; these vouchers were in due time paid in cash. But this did not suit the Mormons. Under the cunning management Brigham proposes that if they will put their claims in his hands for settlement he will soon arrange it. This, of course, his fanatical worshippers did. When the Railroad company at once proposed to pay half cash and half in six months. This does not suit, but instead, Brigham sends Bishop Sharp East to settle with the company. Sharp goes to Boston and there settles the whole bill by taking it in iron and rolling stock for Utah Central Railroad! As this road is wholly the property of Brigham, the joke can be easily seen. The poor fools get nothing. Young gets all, and here it must end. The Salt Lake Telegraph, a Mormon sheet, mourns with the mournful as follows:

"We have thought and talked about railroad indebtedness till we have all got musty and blue mouldy. Our advice to the people is to banish from their tongues the hateful conversation. Talking about it any more will never bring a dollar. It is now all right, or all—something else; but whichever way it is, talk now will accomplish nothing. Neither U. P. nor C. P., nor any other P., can damn us and it should bother us no longer. It has been a lesson—a severe one but wholesome—and there let it rest.

We are all hurt by the want of the money but, as we are all alike hurt in the same boat, there is nobody likely to distinguish himself by distressing his neighbor. As we can do nothing to remedy the evil, let us cease talking about the abominable subject."

A DARKEY once returning from church was asked to give an account of the sermon. "Well, sahs, de sermon was upon de miracle ob de loaves and de fishes. De minister said how dere was seven thousand loaves and five thousand fishes divided between the twelve apostles."

"Well, what miracle was there about that?"

"Why, sah, de miracle was dat dey didn't bust! Dat's my perception ob de circumstance."

—A gentleman iz a gentleman the world over—loafers differ.

Prudery iz nothing more than coquetry—gone to seed.

The man who never makes enny mistakes, like the angle-worm, never gets far away from his hole.

A "gentleman about town" iz one who pays cash for everything except his debts.—*Billings.*

—No thoroughly occupied man was ever yet miserable.—*Bath Advocate.*

—Underhill, did you ever yet have a midnight conflict with bed-bugs?—*Hornellsville Tribune.*

PERRY DAVIS' PAIN KILLER, as an internal remedy has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, dysentery, Asthma, it cures in one night, by taking internally, and bathing with it freely. It is the best liniment in America. Its action is like magic, when externally applied to bad sores, burns, scalds and sprains. For the sick headache and tooth ache, don't fail to try it. In short, it is a Pain Killer. 4ws7

DODD'S NERVINE AGAIN.
ANOTHER CERTIFICATE.
LEDYARD, CONN., April 3, 1869.
Accept thanks for calling my attention to DODD'S NERVINE AND INVIGORATOR. It has done me more good than any other medicine I ever took. I have gained twelve pounds in flesh, and am correspondingly better every way. It is an invaluable remedy.
8wa23 MRS. JOHN T. LEACH.

WHAT ARE
DR. J. WALKER'S CALIFORNIA Vinegar Bitters.
THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits, and refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetisers" "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, *free from all Alcoholic Stimulants.* They are the GREAT BLOOD-PURIFIER and LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell. $100 will be given for an incurable case, providing the bones are not destroyed by the mineral poison or other means, the vital organs wasted beyond the point of repair.
FOR INFLAMMATORY AND CHRONIC RHEUMATISM, AND GOUT, DYSPEPSIA, or INDIGESTION, BILLIOUS, REMITTENT, and INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS have been most successful. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.
These Bitters are not a gilded pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.
They are Alterative, Tonic, Diuretic, Sedative, Diaphoretic, and Gentle Purgative.
"The Life of all Flesh is the Blood thereof."—Purify the blood and the health of the whole system will follow.
R. H. McDONALD, J. WALKER, & CO., Proprietors,
San Francisco and Sacramento, California, and 32 and 34 Commerce St. (Commerce, a short street running from Bleecker to Barrow), N. Y.
SOLD BY ALL DRUGGISTS AND DEALERS.

COMBINED WITH GLYCERINE, IS RECOMMENDED FOR THE USE OF **LADIES** AND IN THE **NURSERY.** ap8ly
SOLD BY ALL DRUGGISTS.

"Ingenio Stat Sine Morte Decus."

ROCKY MOUNTAIN BITTERS
IS a very superior Regulating Tonic, imparting vigor and strength to the constitution—a thorough
PURIFIER OF THE BLOOD,
a regulator of nervous force, and a powerful sustainer of health against the encroachments of disease.
The invalid and convalescing seeking restoration, and yearning for the healing virtues of some magic balm, will find in these Bitters a hidden mysterious power, which QUIETLY RESTORES, yet restores to reveal to the senses anything but taste and color.
It is a pleasant Bitter, free from all nauseous properties odor, entirely vegetable, being mainly grown at the base of the mountains from which they derive their name, and is particularly adapted to all forms of
DYSPEPSIA OR INDIGESTION,
manifesting themselves by the following symptoms: headache, nervousness, loss of memory, low spirits, giddiness, dimness of sight, fullness of hearing, and ringing noises in the ears, eructations, of belching of wind, tightness of breathing, weight and oppression of the chest, uneasy feeling about the heart, palpitation, &c.
Also for Liver Diseases, Disorders of the Kidneys, Restlessness and loss of Muscular Power, these Bitters will be found almost a specific; and as a preventative of
FEVER AND AGUE,
or a restorer of the natural powers of the system, when broken down by continued ague attacks; it has no equal.
Being stimulating, (but not intoxicating), they refresh and invigorate both mind and body, heighten the sensibility, clear and sharpen the faculties, and bestow alacrity and cheerfulness of spirit.
CAUTION.—There have been, and still are several parties manufacturing and selling so-called "Langley's Bitters," many of which are worthless. As a guide against such, I would say that in 1866, I secured my copy-right, in the United States Court, a trade mark and name, "Rocky Mountain Bitters," and all Bitters of my manufacture are put up in dark, *long neck, quart bottles* with red label printed with gold; also, direction label, bearing my seal and directions printed in red, with a red cap and my seal printed in gold, over the cork. Beware of all others, and ask for
"Rocky Mountain Bitters."

The Daily Chronicle.

Portsmouth, N. H.

THURSDAY, OCT. 7, 1869.

The News.

James Brown & Co., of New York have commenced an action against Fisk and Gould to recover two and half million dollars, being the amount of the difference, as is alleged, on seven millions of gold sold to brokers for their account.

The U. S. Supreme court is in session at Washington.

In the $10,000 libel suit against the Baltimore American, the jury returned a verdict for $250. The defendant appealed.

Another Cuban expedition of 400 men with abundant war material, is preparing to leave New York.

At a Cabinet meeting in Washington, Tuesday, it was determined to hold the privateer Hornet, captured at a North Carolina port. The consignees of the Hornet at Halifax are Messrs. Wilkinson & Wood. One of these was aid to Jefferson Davis, and subsequently commander of the Tallahassee. Everything in connection with the movement was managed by ex-confederates.

The Virginia legislature met on Tuesday.

Secretary Boutwell is to speak in Philadelphia.

The three cities Jersey, Hudson and Bergen, N. Y. have voted 3000 majority to consolidate under one municipal government.

The store of Bishop & Rein, under the Fifth Avenue Hotel, New York, has been robbed of diamonds valued at from $28,000 to $30,000.

A majority of the Connecticut towns have elected Republican municipal officers.

New Yorkers rejoice. The Croton dam is full to overflowing.

Despatches from Europe indicate that a storm has prevailed along that coast to such a degree that it caused a general interruption of telegraphic communication. If the strip swept over by the storm included the whole Atlantic Ocean, which is, however, hardly probable, the disasters to shipping will be very extensive.

The official count of the returns of the late Vermont election gives P. T. Washburn, Republican, for Governor, 29,353 majority in a total of 42,289 votes.

Ship Dreadnaught, Capt. Mayhew, which sailed from Liverpool on the 26th of April for San Francisco, was wrecked July 4 on Cape Penas, Island of Terra del Fuego. The Dreadnaught was 1227 tons register, and was built at Newburyport in 1853.

A terrible earthquake occurred in Peru on the 24th of August, which was seriously felt by the Pacific Steam Navigation steamer Pyta when on her passage North in the Pacific, a short distance south of Callao. The force of the earthquake was so severe as to prostrate the passengers on the deck, lifted a heavy safe in the purser's cabin and raised the steamer entirely out of the water. The peaks of the mountain on the shore were observed to crumble and tumble down with great confusion.

☞ Gold has been discovered in Montgomery County, Maryland, and in a very queer way. A little fellow who was driving some cows picked up a stone to throw at them, when lo! the pebble was found to be a gold nugget worth $150. It was carried home, and the boy's father employed an experienced Californian to prospect his entire farm. He found "numerous pieces of virgin gold the size of a grain of wheat," and, stimulated by this success, he will search the whole country.

☞ A Connecticut man complains that he did not know he was divorced until his wife married another man, which he doesn't consider a fair chance.

An Illinois man *did* have a fair chance and operated successfully. After a year of divorce he heard that his former wife was about to re-marry. So he shot her, her child and her lover. There's a difference in people, please observe.

☞ Rev. Alexander H. Vinton, Rector of St. Mark's Church, New York, and formerly of St. Paul's Church in Boston, has accepted the call of the Emanuel Church, Boston, and will fill the vacancy caused by the resignation of Bishop Huntingdon.

☞ The Boston Advertiser reports that when the Ancient and Honorables arrived at Portland, "some of them looked very wet, and some of them exceedingly dry."

—A man without $500 of his own, made $25,000 in Wall street last week by gold gambling.

Communication.

Messrs. Editors:—Your correspondent "Pakeha" seems to feel badly because a recent Court Martial has decided that a surgeon in the navy cannot disregard or refuse to obey orders from his superior officer with impunity. Will he be so kind as to inform us *who should* command a ship, if not the officer appointed to do so by the Department? Or would he give the surgeon and engineer equal authority with him, so that no one should be paramount to another? Pakeha seems to know all about how things should be, and not unwilling to instruct the naval authorities what they should do; will he let us know how he can be satisfied without interfering with "the good of the service?"

He also charges against all concerned in the affair between the Nipsic's commander and surgeon, that their proceedings were but "a part of the crusade of the Line against the recognized position and responsible authority of the Staff." The case is simple. Lieut. Com. Selfridge ordered Asst. Surgeon Green to remove a man's name from the sick-list,—an order which, as commander of the vessel, he had a perfect right to give if he saw fit,—and which was so decided by the court-martial. Mr. Green took no notice of the first order, and on its being repeated, openly refused obedience, for which he was tried and punished, the Secretary of the Navy fully approving the action of the court, and sustaining the authority of the Commander, in the General Order reprimanding the Surgeon. Where is the injustice or "crowding" on the part of the line officers, here? Will Pakeha inform us?

DISCIPLINE.

FISKE VS. CORBIN.—It having been declared by Mr. A. B. Corbin, brother-in-law to President Grant, that he (C.) had no dealings with James Fiske, Jr., in the late gold operations in New York, Fiske is out with a letter to the Sun in which he asserts that Corbin was a frequent caller at his place of business and was the first to broach the subject of raising the price of gold, which was afterwards decided upon by the "ring," including Fiske. The letter backs up his statements with affidavits from some of his employees, who state that Fiske and Corbin constantly visited each other.

It is said that Corbin is preparing a letter denying Fiske's statements *in toto*. Corbin's friends assert that Fiske and Gould desired to get Corbin into their ring, that Corbin might influence the President not to act against them. For this purpose they called repeatedly at Corbin's, ostensibly to offer railroad accommodations to Corbin's family.

Mr. Corbin's letter is as follows: "I never exchanged a word on financial matters, either verbally or in writing, with Mr. James Fiske, Jr., from the commencement of the gold speculation until it broke on Friday, nor within that period did I ever authorize any human being, either verbally or in writing to buy or sell gold for me or for any one else."

☞ Spiders appreciate the value of gold. A Portland clerk, after washing his hands, left a gold ring on the washstand. Next day he went for it, and found that a large spider had spun his wep through it, had actually lifted it a fraction of an inch above the stand, and was gradually working it up to the ceiling. The information contained in the above includes the heretofore unknown fact that spiders, besides being industrious, have the common sense to prepare for the future by laying up a little something for a rainy day, hoping, perhaps, to join the New York Gold Board;—and that Portland clerks wash their hands and are sometimes forgetful.

☞ The discovery of a new anæsthetic by some German doctor is announced. It is called Chloralhydrat, and from repeated experiment it is ascertained that it produces a more complete state of unconsciousness than chloroform in appearance but is not so heavy, and has a feebler smell. On the tongue it has a sharp but not an acid taste, and though it reminds one of chloroform, it gives the sensation neither of the warmth nor sweetness of the latter substance. Chloralhydrat is absorbed and not inspired, and in this respect it differs from all other anæsthetics. Great success is said to have attended its application as a sedative for the insane.

☞ A Chinamen in California thinks that when one man is hit by another, and the assailant is fined twenty dollars, the money ought to go to the hit man instead of to the Government. That is the way they do things in China.

☞ The amount of lumber surveyed at Bangor thus far this year is thirteen million feet less than in 1867 and twenty-five millions less than in 1868.

—Mrs. Stowe will reply.

New Hampshire Items.

The saw mill of Samuel Johnson, near the line between Northwood and Nottingham, was consumed by fire on Monday night, the 27th ult.

Wolfeborough is determined to have railroad connection with Boston, and proposes to build a road to connect with the Portsmouth, Great Falls and Conway Railroad at Union Village in Wakefield.

The dwelling of Chas. N. Healey, in Stratham, was entered by burglars on one night last week, and Mr. Healey's vest, containing a gold watch and a sum of money, was taken from beneath his pillow, without waking him, notwithstanding the thieves lighted quantities of matches in the room.

The Universalist Sunday Schools in this State will hold a convention in Concord on Wednesday and Thursday, the 13th and 14th inst.

The trial of the Farrar poisoning case commenced at Laconia on the 4th inst., Chief Justice Bellows presiding.

Snow fell in Littleton last week.

Mr. P. C. Shaw, of East Tilton, has got his "Excelsior" mill ready to receive the machinery. It is 160 feet by 50, and will employ about 30 hands.

Messer & Baldwin, of New London, have built a new saw mill on Whittier Brook.

Mr. Ira Burnham, of Exeter, has a dwarf pear tree that has blossomed within a week.

Half of Concord is enjoying colds and the other half is luxuriating in cold-sores.

Groton has a potato weighing 2 lbs. and 6 oz.

The dwelling house of James K. Hancock of Canterbury was destroyed by fire on the 2d.

A New Hampshire man, recently at work in a Holyoke, Mass., paper mill, has been indulging in the luxury of four wives, one in this State, one in Maine, one in Michigan and the other in Iowa.

Mr. H. D. Eastman has sold his paper mill at Conway for $3000.

Mr. Albert B. Berry has dissolved his connection with the Suncook Valley Times, and the paper is now published by D. T. Neal and H. L. Robinson.

Mr. C. W. Rollins of Rollinsford took the first premium of $50 at the last Strafford County Fair for the best farm in the county. James M. Bunker of Durham received the second premium of $25.

PROGRESS.—Prince Napoleon writes the following to an American friend:—

"The present position bears resemblance to that at the close of the last century. France seeks to found a liberal democracy at the moment when America emerges from her gigantic struggle for the destruction of slavery which dishonored the republic. The methods of France and America are different, but their end is the same. Constitutional liberty established in France will place the political sentiments of France and America in as complete accord as their interests already are."

☞ Mr. L. B. Schwabe of Boston, is presenting a fine Library to the U. S. Military Asylum for disabled soldiers, near Milwaukee, Wisconsin.

Grauerts' Manual of the German Language and *Ahn's German Handwriting*;—not being great on German, we submitted the above to a German scholar, who speaks very highly of both, as assistants in learning that tongue. E. Steiger, publisher, New York.

BUSINESS NOTICES.

WITH DYSPEPTICS everything is wrong. Food does not digest; sleep does not refresh; wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it or it will become seated and confirmed, and life will be a burden and existence a curse. PLANTATION BITTERS will do away with all this. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the lustre in your eye will again be bright as in your healthiest, happiest and most joyous days.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

Every family in town should keep a bottle of Renne's Pain-Killing Magic Oil in the house. Directions for use will be found on each bottle.

FACTS FOR THE LADIES.—I have used my Wheeler & Wilson Sewing Machine for more than ten years steady, at dress-making, from ten to fourteen hours a day. For the last nineteen months I have used the same needle, and am still using it. My machine is in as good working order to-day as when I first got it.

NEW YORK. MARTHA CAVAN.

There is no disease flesh is heir to more troublesome to manage than Rheumatism. It comes when you least expect it, and generally remains till it gets ready to go away. The most conspicuous remedy for this complaint is "Johnson's Anodyne Liniment."

Two or three doses of "Sheridan's Cavalry Condition Powders" will cure a horse of any common cough or cold, and the very worst cases may be cured in a few weeks. We know this from experience.

TONICS.—Those who resort to tonics will find Speer's "Standard Wine Bitters" the best adapted to benefit the different ailments of the system, whether diseased or debilitated from over exertion or by any other cause. Try them. Sold by Druggists.

SPECIAL NOTICES.

DEATH TO PIN-WORMS.

Eminent physicians say that more sickness among children results from Pin-Worms than from any other cause. A safe and effectual remedy for these troublesome and often dangerous pests is found in DR. GOULDS PIN-WORM SYRUP. Cure for adults and children warranted without injury to health. Price 75 cents. GEO. C. GOODWIN & CO., Boston, and all druggists. 6t 6mo

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, before you place yourself under any one of the notorious QUACKS—native and foreign—see what I can do in this or any other paper, get a copy of Dr. Young's Book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

Holloway's Pills.—COLDS AND SORE THROAT.—The foundation of a cold or affection of the throat that lasts the winter through is often laid in autumn. If you are threatened with disease of any of the respiratory organs, rub the external surface night and morning with HOLLOWAY'S OINTMENT and keep the bowels regular with HOLLOWAY'S PILLS. A cold, cough or sore throat promptly treated in this way is speedily cured, and all danger of consumption or bronchitis avoided. Sold by all Druggists.

ASIATIC CHOLERA IN CHINA.

TUNGCHOW, China, Aug. 23, 1866.

MESSRS. PERRY DAVIS & SON:

Dear Sirs—During a long residence in China, I have used your invaluable Pain Killer, both in my own family and among the Chinese, and have found it a most excellent medicine. In the summer of '62 and '63, while residing in Shanghai, I found it an almost certain cure for Cholera, if used in time. Indeed using it in a great many instances, I do not remember failing in a single case. For three years I have been residing in this place, more than fifty miles from a physician, and have been obliged often to fall upon my own resources in cases of sickness. The Chinese come to me great numbers for medicine and advice. Though without medical knowledge ourselves, the few simple remedies we can carry with us, and the advance even of their physicians, that we have almost daily applications. We allow them to come because it brings us in contact with them, and opens a door to usefulness. In diarrhœa, colic, vomiting, cholera, coughs, &c., your Pain Killer has been my chief medicine.

Yours, very truly, T. P. CRAWFORD.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is now offered to the public as an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its pain-relieving properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. ol

FRIGHTFUL DEVELOPMENTS!

At last the people have got the fact "through their hair," that hair dyes impregnated with acetate of lead and other metallic salts are

MURDEROUS PREPARATIONS.

When they see the metallic sediment at the bottom of the bottles, they know that the disgusting stuff is literally *thickened with Poison*. They ask, therefore, for a

Harmless Vegetable Dye,

and find it, pure and efficacious, in

Christadoro's Excelsior Hair Dye

offered under the sanction of Professor Chilton's guarantee that it contains "nothing deleterious." CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. 1md&wo1

In Remote Settlements of United Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the bowels and blood. Their untold value is to those living in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box.

Sold by all Druggists.

New is the Time

To repair the inroads made upon the physical strength by the heated term which has closed with September. The vitality that has been oozing through the pores in the form of prespiration, for the last three months, requires to be restored, as a preparative to the cold season which makes such disastrous havoc with relaxed and untoned systems. The reserve of vigor with which the strongest man commences the Summer campaign is drained out of him at its close, and unless by some means he acquires a new stock of vital energy wherewith to encounter the shock of a cider season, he may drop and wither like the falling leaves whose life-juices are exhausted. If it is thus with the strong, how much more perilous is the condition of the invalid, whose sinking reason must suggest to them, more forcibly than these printed words, the necessity for *invigoration*, and the world having decided, after an experience of almost a quarter of a century, that HOSTETTER'S STOMACH BITTERS embrace such restorative properties as are not possessed by any other tonic and alterative preparation in existence.

The importance of restoring to that great RENOVATOR AND REGULATOR OF THE HUMAN MACHINE, at this critical season, cannot be too strongly the light of day. Let all who desire to escape an attack of chills and fever, bilious remittent fever, dysentery, diarrhœa, dyspepsia, rheumatism, hypochondria, or any other of the diseases of which the Fall season is the prolific parent, have recourse promptly to this celebrated preventive and restorative. ol

Dr. Hopkins' Iron Tonic,

A BLOOD PURIFIER AND REGULATOR, Cures Dyspepsia, Loss of Appetite, Liver Complaint, Sick Headache, Depression of Spirits, Neuralgia, Nervous Affections, Diseases of the Skin, Consumptive Tendencies, Chronic Diarrhœa, and Diseases peculiar to Females.

ALLEN'S LUNG BALSAM,

The Remedy for curing CONSUMPTION, COUGHS, BRONCHITIS, ASTHAMA, and CROUP. As an Expectorant, IT HAS NO EQUAL.

It is composed of the active principles of roots and plants, which are chemically extracted, so as to retain all their medical qualities.

Ministers and Public Speakers

Who are so often afflicted with throat diseases, will find a sure remedy in this Balsam. Lozenges and wafers sometimes give relief, but this Balsam, taken a few times, will insure a permanent cure.

Will all those afflicted with Coughs or Consumption, give this Balsam a fair trial, they will be pleased with the result, and confess that the sure remedy is found at last.

IT IS SOLD BY ALL DRUGGISTS.

CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS for Diseases of the Liver, or to act as a gentle Purgative.

All of these three medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills assist in regulating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These medicines are conscientiously offered to the public as the only safe, certain and reliable remedies for Pulmonary Consumption, and for all those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long probation before the public. Its value has been through a period of more than thirty-five years, in all of which time its reputation has constantly increased, and the most obstinate skepticism can no longer doubt that it is a remedy which may be used with confidence in all cases which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, he will certainly be cured, if life lingers are not too much wasted to make a cure possible. Even in cases supposed to be incurable, when friends and physicians have despaired, the use of the medicine has saved the life of the patient, and restored him to perfect health.

Dr. Schenck himself was cured in precisely such circumstances, and many others have been equally fortunate by judiciously making a timely use of Dr. Schenck's remedies.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he emphatically asserts, that often when patients have the most alarming symptoms, such as a violent cough, creeping chills, night sweats, and general debility, even to such a degree that they are obliged to keep their beds, and when they are given up by their physicians, they may still be cured. No medical treatment can create new lungs, but when the lungs have not badly diseased, and to some extent destroyed, a cure may be effected by Dr. Schenck's medicines.

Also in Scrofulous diseases these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores, and now all healed up. This shows its purifying property, which must be done to heal cavities in the lungs.

In the treatment of Consumption, it is of the utmost importance to give vigor and a healthy tone in the system. Hence it is necessary to strengthen the appetite of the patient and improve the digestion. Proper nourishment is required, together with such means as will make the food easily digestible. The articles most suitable for the diet of consumptive patients are designed in Dr. Schenck's Almanac, which are distributed gratuitously. In general, the most nutritious articles are to be preferred; but the digestive organs must be strengthened in order to make either food or medicine serviceable. This requirement is met by the Sea Weed Tonic, and for this purpose it was designed.

When the digestive powers are put in good order, the food has its proper effect, the system of the patient is invigorated, and the lungs begin to exercise their functions in a normal and healthy manner. Then the healing powers of the Pulmonic Syrup will complete the cure.

Pulmonary Consumption is almost always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills are used to remove obstructions from the liver and restore its healthy action. They have all the efficacy which is ascribed to calomel or "blue pill" and are warranted not to contain a particle of any mineral poison. These pills cure the the most obstinate costiveness, sick headache, piles, bilious affections, and all other diseases which depend on torpid or obstructed condition of the liver. One box of these pills will prove the efficacy of the medicine.

In Consumption, the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines. They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. They have been found useful in advanced stages of Consumption, where the lungs were almost entirely destroyed, and all symptoms, according to the judgement of physicians, indicated speedy death. Live of patients who were actually in a dying condition have been preserved for months by the use of Schenck's three great remedies.

DR. SCHENCK'S Almanac, containing a full treatise on the various forms of disease, his mode of treatment and general directions how to use his medicines, can be had gratis of any agent, or by addressing his Principal Office, No. 15 North Sixth Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggist and dealers.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation in the pharmacopœia, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two potential curatives, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy, and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. ERASMUS WINSLOW'S **Liver and Stomach Lozenge**, will ever again take a purgative powder, or draught or pill.

Wholesale agent, John F. HENRY, No. 8 College Place, New York City.

Batchelor's Hair Dye.

LOCAL AFFAIRS.

P. S. & P. Railroad.—As the result of the late suit against the Eastern and B. & M. Railroads, for payment of the back dividends in coin, of $180,000 was finally agreed upon as a compromise, and is now in the control of the Directors of the P. S. & P. Road, awaiting the decision of the question of equity by the Supreme Court of Maine, as to who shall receive the back dividends, —whether the present holders of stock which has been sold within the controverted six years, or the holders at the time these occurring dividends should have been paid. Even the present and original stockholders must wait for this decision, as no part of these back dividends can be paid until this is done. We understand from the best authority, that the Maine Court will probably decide the question of equity during the present month, and the dividends be paid over to whom they decree, at an early day. The dividends will henceforth be paid in gold.

☞ The Portsmouth Lyceum Committee propose for this season, such names as Olive Logan, Wirt Sikes, Kate Field, J. McCarthy, Stephen Massett, Mr. & Mrs. Leggett, Mark Twain, and Geo. Vandehoff. This list includes Lectures, Concerts and Dramatic Readings; and will be presented if sufficient encouragement shall be given by the public in the purchase of tickets. J. W. P. Carter is Secretary for the Committee, and has the matter in charge. All who desire the Course to succeed, should guarantee their tickets forthwith.

Concord Grapes.—Mr. C. W. Carter, the enterprising and wide-awake Fruiterer of Strawberry Corner, informs us that he will receive this morning a ton of Concord Grapes, from Mr. Geo. Barker's vineyard at Stratham, in large clusters. He is selling them at a low price. Mr. Carter also has in plenty, Porter and other Apples, nice varieties of Pears, &c. Carter's is one of the best places to buy choice fruit, if we may judge by the beautiful and liberal sample before us.

Luscious Grapes. — Mr. Hiram C. Locke has left on our table some of the finest specimens of Concord grapes, from the vineyard of Mr. Barker of Stratham. Mr. Locke has purchased a *ton* of this delicious fruit, which he offers for sale in large and small quantities at No. 14 Market Street. From the specimens before us we do not hesitate to recommend purchasers to try a bunch, and predict that it will only be an incentive to a large investment in the tempting heaps which adorn his window.

☞ The Ocean House omnibus, drawn by four horses, and containing Messrs. J. W. F. Hobbs and Nathaniel Drake, of North Hampton, Dr. A. G. Wilbur, H. C. Prescott, Gen. McCartney, John F. Nightingale, J. Pfaff, Joshua Seward, and Mr. Weeks, of Weeks & Potter, Boston, passed through this city on Wednesday, *en route* for the Nubble at York Beach,—with the fixings for camping out for a week there, on their usual annual gunning trip.

☞ Two residents of Newcastle report that they were on the beach at 10 o,clock, Monday night, and that there was but one tidal wave, which was 18 feet high. As they saw it coming they fled; one being somewhat fleshy got away slower than the other, and fell among rocks to which he clung, the wave going over him. It ran 125 feet above high water mark, and in 3 minutes after there was no trace of it.

☞ The U. S. Circuit Court, Judges Clifford and Clark, will commence a term at Exeter on Friday. The new Dist. Atty., H. P. Rolfe, will appear for the first time. Several important cases—the P. O. robberies in this city, the Seely cruelties, &c., will be brought up.

☞ The State Convention of Young Men's Christian Associations commenced its session in Nashua on Tuesday. Hon. Wolcott Hamlin of Dover is President. John S. Rand, Esq., of this city is a member of the Association Committee.

☞ The first train from Concord since the flood arrived at 7 o'clock Wednesday evening, bringing the Newburyport Veterans, who marched about town to the grand music of the Germania Band, and took the 8 o'clock express train for home.

☞ A Wisconsin genius invented a new way to shuffle off this mortal coil. He tired of life, and repaired to where a sapling grew, which he bent down and hitched himself to by a rope around his neck. He then let the sapling spring back—and went up.

☞ We are informed that Mr. Geo. Parkinson will retain his position as organist at the Methodist Church, which he had talked of resigning.

The Freshet in New Hampshire.—The storm of Monday was the most severe one that has occurred since the August freshet of 1862. In all directions bridges, culverts, dams, and in some instances dwellings, were swept away. Loudon, Dunbarton, Hopkinton, Henniker, Weare, and many other towns will suffer great loss from the destruction of bridges. The water in the Concord Railroad shops reached a point two inches higher than at any time since they were built, in April, 1862.

A Concord dispatch of Tuesday says no trains have passed over the Montreal, Northern or Claremont roads, and, probably, will not to-morrow, in consequence of which, freight, express matter and passengers are accumulating in our city. Many towns have not yet been heard from, and the aggregate loss in the State will, doubtless, reach $500,000, and, perhaps, a much greater sum. The Merrimac River is within 9 inches of the highest water mark ever known in Manchester, and the highest freshet since 1862. All the trains from Manchester to Concord are suspended until notice from headquarters. The track has been seriously damaged at Bow, and the highways in the vicinity are impassable, so that passengers cannot be conveyed even if the train should be sent up. Telegraph posts and bridges have been washed away.

Railroad Freight Detained.—At the last session of the Massachusetts Legislature a law was passed prohibiting the running of railroad cars of any description in that State without a brake being attached to each and all of them. This law went into effect on the first instant, and the penalty for its infraction is $100. The Nashua Telegraph says at the Concord railroad station in that city the side tracks are full of freight cars which the lower roads refuse to run, as they have no brakes attached. Some of them are filled with merchandise likely to suffer some delay in reaching its destination.

☞ The Janesville, Wisconsin, Recorder speaks in high terms of Rev. Dr. Whiting, the new pastor of the Congregation church, who in the short time he been there has impressed all with his sincerity as a Christain, his worth as a gentlemen, and his ability as a pulpit orator. The Congregational Church of Janesville have nearly completed one of the finest houses of worship in the North-West. The Baptists and Methodists there are also building new and nice churches.

☞ It is reported that Deputy Sheriff Joy and Detective Kent, of this city, have been sued for $1,000 damages by Harrison Downing of Kingston, for breaking and entering his house several weeks since, when attempting to arrest him.

Naval.—The monitor Dictator, which was to have sailed from the Brooklyn Navy Yard on Saturday, was detained, owing to a discovery made almost at the last moment that one of her boilers was leaking. She was held for repairs.

☞ The bluest days of June were never more perfect than the brown October weather we are now enjoying; Indian Summer truly, — yea, as much better than that, as a civilized man is better than a savage.

The Base Ball Match at Newburyport on Wednesday resulted in the success of the Granite States of this city. Score, Granite States 40; Independents 19.

☞ The York County Fair opened at Saco and Biddeford on Tuesday, and will close on Friday.

☞ Two Baptist churches in Newburyport have united and Rev. F. W. Blakeman has been ordained over them.

☞ The receipts at the Peace Jubilee and Mr. Gilmore's benefit were upward of three hundred thousand dollars.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Chronicle office. Price 5 cts. per copy—$2. per year. Contains *all* the Local and other reading from the Daily Chronicle.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

Schr Erie, Lenns, from Bangor for Plymouth, encountered a severe squall off Boone Island, the 4th, which carried away mainsail. It was only with the greatest exertion that the vessel was brought to this port. She is badly strained, and requires a man at the pumps constantly. She proceeded on her voyage the 8th.

Ship Calcutta, Shillaber, was at Calcutta August 20th, for Boston, loading (had let out 500 tons measurement at $10)

Ship Sagamore, Richardson, was at Calcutta August 20th for Boston, loading

Ship Emily Farnum, Lord, was at Calcutta, August 20th, uncertain

A PACIFIC RAILWAY

GOLD LOAN $6,500,000.

We beg leave to announce that we have accepted the agency of the

KANSAS PACIFIC RAILWAY COMPANY,

For the sale of its

NEW SEVEN PER CENT.

Thirty Year Gold Loan, Free from Tax.

This Loan amounts to $6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds,

secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon the Road, the Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,

And in successful operation for 437 miles

west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to convey to by the Trustees in the 7 percent Bonds, themselves up to 120 in U. S. Bonds, as

A SINKING FUND FOR THE REDEMPTION OF THE BONDS.

The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the

Value of the Company's property, covered by this mortgage at $23,000,000 net, while the Loan is merely $6,500,000.

The Bonds have

THIRTY YEARS TO RUN,

from May 1, 1869, and will pay

SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be

PAYABLE IN FRANKFORT, LONDON OR N. YORK

at option of the holder, with notice, at the following rates:

On $1,000 Bond in N. Y. $35 (gold) each half year.
" " London....$7 sh. 10. "
" " Frankfort..87 flr. 30 krtzs., "

The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a

FIRST CLASS INVESTMENT,

in every respect perfectly sure, and in some essential even

Better than Government Securities.

The Bonds will be sold for the present at

96, *and accrued Interest, both in Currency,*

the Agents reserving the right to advance the rate,

The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

Pamphlets, with maps giving full information, sent on application.

IRON MANDRAKE SYRUP.

FREEMAN'S
FREEMAN'S
FREEMAN'S
IRON MANDRAKE SYRUP
IRON MANDRAKE SYRUP
IRON MANDRAKE SYRUP

Is an excellent combination of IRON with MANDRAKE and vegetable tonic.

The Mandrake acts on the Liver and prevents the bracing effects which Iron has su many other preparations; while the vegetable tonic strengthens the stomach, and promotes Digestion of Food and facilitates the absorption of iron into the blood.

MANDRAKE
MANDRAKE
MANDRAKE

is the great vegetable substitute for Calomel to act on the Liver.

In Freeman's Mandrake Syrup it is combined with Iron and Vegetable Tonics, and forms the most perfect Spring Medicine.

It purifies the blood and imparts IRON to it.

It acts on the Liver and removes foul humors from the body. It is a most excellent remedy for debility, especially for mothers who are worn down by nursing infants, and for all persons whose blood is pure, and who need iron and a strengthening medicine.

LAWS OF N. H.

PAMPHLET LAWS, session June 1869. GENERAL STATUTES of New Hampshire. TOWN OFFICER, Revised Edition.
o1 For Sale by JOSEPH H. FOSTER.

Morning Chronicle.

SINGULAR DEVELOPMENT—*A piece of Good Fortune for a New Hampshire Woman.*—An interesting case is narrated by the Cambridge (Ill.) Chronicle. In July last that paper published the notice of the public administrator upon the estate of Asa A. Lee, accompanied by an editorial paragraph, stating the facts of Capt. Lee's death in battle during the siege of Knoxville, his long residence and respectable position in the country, the mysterious reserve that he had always maintained with reference to his former life and connections, and the dilemma respecting the disposition of his real property, under the laws of Illinois, consequent upon the absence of any known heirs to the estate. This publication, it appears, led to the discovery that Capt. Lee had deserted a wife nine years ago, who is now living in New Hampshire, and her recovery of the property left by him. The way in which this was brought about is thus stated:

"Among the papers that we send to the East is one to the father of Mr. Patten of this village, who lives at Candia, N. H. He saw the paragraph, and, happening to know a man whose sister's husband, named Lee, had mysteriously disappeared many years previously, he called the gentleman's attention to it. The man corresponded exactly. Investigation followed; Mr. Dow, the administrator, was written to; and from what they thus learned the parties at the East were satisfied that the deceased Captain Lee, was the long lost husband. Mrs. Lee's brother, whose name is Nathaniel B. Hall, then came to this county, and put in a claim, on behalf of his sister, as heir to the estate.

He exhibited a daguerreotype of Captain Lee, which Judge Hinman readily recognized, though evidently taken when he was several years younger than he appeared here. Among the other proofs offered was evidence of the fact of the marriage of Asa A. Lee, and Miss Hall, in the State of Maine, their subsequent removal to the State of New York, and his desertion of his wife and disappearance from there, because of business embarrassments—since which not the slightest clue to his whereabouts had ever been gained by his family, who mourned him as dead, the general supposition having been that he had drowned himself. His disappearance there was in 1855, and he must have made his way direct to Illinois, as he appeared here about that time. He lived in Anawan and Alba townships, in this county, both of which he represented on the Board of Supervisors, receiving several re-elections. He acquired some property, and was esteemed, we are told, for intelligence and probity—always somewhat qualified, however, by the mystery hanging over his former life. When the One Hundred and Twelfth Regiment of Illinois Volunteers was organized, he went with it as First Lieutenant in Captain Dow's Company (A,) and on the promotion of Captain Dow to Major, Lieutenant Lee rose to the rank of Captain, and was killed, as related, during the siege of Knoxville.

The deserted wife, left without means, had made her way back to New England, where she has latterly maintained herself by working in the Manchester cotton mills. Now however, by our fortunate publication of the facts in relation to his life here, she finds herself suddenly restored to property that she ought, of right, to have shared through all these years, the County Court here having accepted the proofs of idenity as satisfactory. The estate after administration, consists of forty acres of land in Alba, and $300 to $400 of personal property. Besides there is due her from the government, in back pay and pensions, over $1500, and the pension due a captain's widow, during her widowhood.

JOSH BILLINGS ON THE HORNET.—The hornet is an infamible bugger, suddin in his impreshuns and hasty in his conclusions, or end.

His natral disposishen iz a warm cross between red pepper in the pod and tusil oil, and his moral bias iz "get out ov my way."

They hav a long, black boddy, divided in the middle by a waist spot, but their phisikal importance lays at the terminus of their sabburb, in the shape of a javelin.

This javelin is alwuz loded, and stands reddy to unlode at a minnit's warning and enters a man az still az thought and az spry az litening.

Hornets never argy a case; they settle awl their differences of opinyun by letting their javelin fly, and are az sure to hit az a mule iz.

Hornets build their nests wherever they take a noshun to, and seldom are disturbed, for what would it profit a man tew kill 99 hornets and hav the one hundredth one hit him with his javelin?

It iz very simple to make a hornet's nest if yu kan, but I will wager enny man 300 dollars he kan't build one that he could sell to a hornet for half price.

I suppose this uneasy world would grind around on its axle tree onst in 24 hours, even if thare want enny hornets, but hornets must be good for something, but I kant think now what it is.

I will state for the informashun ov those who haven't had a chance to lay in their vermin wisdum as freely az I hav, that one single hornet, who feels well, will brake up a large camp meeting.

—Six young ladies of Minnesota rode in a lumber wagon one hundred miles to hear Blind Tom play.

FARM ORNAMENTS.—We must protest emphatically against the practice of expending all the taste, time and labor in the adornment of a front yard. The out-look from the rear windows of a home should be as gratifying as from the front. We want the inside of the platter clean as well as the outside. And the same harmonious system should extend to every field on the farm. Vines should clamber over outhouses, old stumps, and all uncouth objects that cannot be removed, even though the vines be nothing but hop or woodbine.

Groups of evergreens or deciduous trees or shrubs should screen or seclude the indispensable appurtenances of a farm which are, in themselves, only necessities. Groups of trees in every field are not only profitable—albeit they do shade the grain somewhat—but break up monotony, and relieve the eye and the heart of the husbandman, as well as afford animals protection from the sun and storm.

—Messrs. Main & Winchester, the extensive harness manufacturers of San Francisco, being about to visit their homes in Portsmouth, have sent their horses, six in number, East, by rail. They arrived in good condition, after thirty days' transportation, in a car prepared for their occupancy. The same horses went over the Isthmus, and, doubtless, made the time from Portsmouth to the Pacific and return, the quickest of any on record.—*Boston Advertiser.*

—A Nashville negro supposed to be dead, as he had received a sun-stroke and fallen apparently lifeless, a few days ago, was placed in an open coffin and a jury summoned. They held an inquest and rendered a verdict. They really supposed that the negro was dead. So did everybody. Even the doctors thought so. And sure enough, when they came to look, he was dead. How true it is that death comes at last to all.—*Mark Twain.*

—A mad bull made a raid through several streets in Upper New York city, Monday evening, goring and trampling three persons seriously but not fatally. He was finally killed by pistol shots from the police. During the firing at him one officer had his finger shot off, and a sailor was fatally shot in the lungs by a stray bullet.

TO BE, CERTAINLY!

WHY NOT?

The FACT that T. F. BURTT has about the finest assortment of fine Gold WATCHES, Gold JEWELRY in sets, Fine Gold Rings, Brooches, Pearl and Garnet Rings, Masonic and Odd Fellows Pins, Gold Chains, Clocks, Spectacles, Silver and Plated Ware, is too well known to be disputed.

THE LADIES who have been so well suited from his elegant stock of valuables, know it!

THE GENTLEMEN, whose opinions are nearly as reliable as those of the ladies, are convinced of its truth!

THE PATRONS GENERALLY testify that it is best to purchase THE BEST, and that the BEST PLACE is at

T. F. BURTT'S, 40 Congress St.

AVERILL CHEMICAL PAINT!

THE RIGHT THING AT LAST!

BENJAMIN NORTON,

Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of

THE BEST PAINT!

ever offered in this city.

It is Durable, Beautiful, Water Proof, Elastic and Economical.

This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.

It is prepared in pure White and one hundred Different Shades, and is unsurpassed in all respects.

It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.

Many testimonials from those who have used it in other places of its superiority over other Paints might be given: but I will only invite those of this city and surrounding towns who intend using Paints, to call at the

GROCERY AND PROVISION STORE,

Nos. 16 & 18 Cabot Street,

which is the ONLY PLACE in the City where it has been used, and examine the Paint where it has been applied in ten or twelve different shades, and where they can choose any color they desire for use, outside or in, and buy from one pound upwards.

In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.

These Paints are manufactured in New York, and Newburgh, Ohio. BENJ. NORTON,

Agent for Chemical Paint Company.

Also for sale, at the same place, the Best Quality of

MEATS AND GROCERIES!

AS LOW AS CAN BE BOUGHT IN THE CITY.

FINKLE & LYON'S

IMPROVED SEWING MACHINE

IS A FIRST CLASS SHUTTLE MACHINE making a stitch alike on both sides of the work; is simple, durable, and adapted for the widest range of work; EQUALLY GOOD FOR BOTH LIGHT AND HEAVY WORK; has a self-setting needle, making it impossible to get it in a wrong position, and a cradle, preventing all wear of the shuttle; also each machine has both drop and wheel feed, a valuable quality, belonging exclusively to this machine. SPEER'S SAMBUCI WINE.

CATAWBA, PORT, GRAPE and P. J. Sherry.

The above Wines are made by Mr. Speer, whose reputation as a wine grower stands pre-eminent. They are well established, and long known by the Medical Profession as the most reliable and valuable wines to be made.

Every family at this season should use

SPEER'S SAMBUCI WINE,

celebrated in Spain and Portugal for its beneficial qualities, highly esteemed by eminent physicians, used in European and American Hospitals and by the first families in Europe and America.

Excellent for weak and debilitated persons, the aged and infirm, improving the appetite and benefitting the laboring and children.

AS A DIURETIC

it imparts a healthy action to the Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic affections. Also,

SPEER'S PORT GRAPE WINE

is pure juice of the Oporto Grape, recommended by Physicians as possessing medical properties superior to California or Imported Wines.

SPEER'S STANDARD WINE BITTERS

The Best and Most Reliable Tonic and Bitters in the market, which is always the

CHEAPEST.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

For sale by Druggists and Town Agents, who also sell Speer's Standard Wine Bitters.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the United States Patent Office, Washington, under the Act of 1837,

No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers and drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent issued by sending one dollar. Assignments recorded in Washington.

An Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON,

Commissioner of Patents."

"I have no hesitation in recommending to others that they cannot employ a man *more competent and trustworthy* and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability as his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Boston, Jan. 1, 1869.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charged but board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1835, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE in all cases or no charges made.

DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar, or they will not be answered.

Office hours from 9 A. M. to 9 P. M.

J. R. KENDRICK, Supt.

FALL RIVER LINE

FOR New York, Philadelphia, Baltimore, Washington, and all principal points West, South and South-west.

VIA TAUNTON FALL RIVER AND NEWPORT.

Cabin, $5.00; Deck, $4.00.

Baggage checked through and transferred in New York free of charge.

New York trains leave the Old Colony and Newport Railway Depot, corner of South and Kneeland Streets, daily (Sundays excepted), as follows: at 4:30 P. M., arriving in Newport 40 minutes in advance of the regular Steamboat Train, which leaves Boston at 5:00 P. M., connecting at Newport with the new and magnificent steamers PROVIDENCE, Capt. B. M. Simmons, and BRISTOL, Capt. Benj. Brayton. These steamers are the fastest and most reliable boats on the Sound, built expressly for speed, safety and comfort. This Line connects at Fall River with the Southern Boats and Railroad Lines from New York going West and South, and connects with the California Steamers.

"To Shippers of Freight," this Line, with its new and extensive depot accommodations in Boston, and large pier in New York, (exclusively for the business of the Line,) is supplied with facilities for freight and passenger business which cannot be surpassed. Freight always taken at low rates, and forwarded with despatch.

New York Express Freight Train leaves Boston at 1:30 P. M.; goods arrive in New York next morning about 6 A. M. Freight leaving New York reaches Boston on the following day, at 9:45 A. M.

For tickets, berths and staterooms, apply at the Company's office at No. 3 Old State House, corner of Washington and State Streets, and at old Colony and Newport Railroad Depot, corner of South and Kneeland Streets, Boston.

☞ Sunday Night Line. ☜

Cars leave every Sunday evening, at 6.30 P. M., connecting as above.

The Office, Old State House, Boston, will be open every Sunday afternoon from 2 to 6 o'clock, and at the Depot from 9 to 10 A. M., and from 5 to 6.30 P. M., for sale of tickets and staterooms.

Steamers leave New York daily, (Sundays included,) from Pier 28 North River, foot of Murray Street, at 5 P. M.

GEO. SHIVERICK, Passenger & Freight Agt.

The Chronicle.

☞ One of the companions of Dr. C. Hall, on his Arctic Expedition, has made an affidavit before the British Consul in New York, in reference to the mutiny of Dr. Hall's crew, which took place in Repulse Bay in July, 1868. The affidavit says that the expeditionary force had been on short rations several weeks, and Mr. Bayne, the only man besides Dr. Hall who carried firearms, was sent into the interior to shoot game. On the 31st of July he shot a deer and sent one Patrick Coleman with it into camp. Coleman staid away from camp longer than the captain thought necessary, but Coleman excused himself by saying that he was weak for want of proper nourishment.

The New York Sun says, "Captain Hall then went to Mr. Bayne and took away his rifle, and after placing it beyond his reach, returned to his attack upon Coleman with a loaded revolver. Hall asked Coleman whether he intended to be dutiful or otherwise in future, and upon the latter assuring him that he could not be more so under the circumstances, and that he thought Hall was imposing too much upon the men under him, the captain took aim and deliberately shot him. Coleman lingered in agony fifteen days and then died." The British consul has promised to call the attention of the United States government to these facts, and to have Dr. Hall arrested.

KINDNESS TO MILCH COWS.—Mr. Willard says, in the Utica Herald: "We have often wondered why men of a naturally saving disposition, who would be shocked to see a pint of milk spilled in the milk-house, should allow quarts and gallons to be lost in the bad management of the herd in the stable, kicking cows with heavy boots, striking with stools and keeping the animals in a constant strain of nervous excitement and fear. We have no doubt that the quality as well as the quantity of milk is influenced by undue excitement and nervous agitation." It must be in the experience of every one familiar with practical dairying, that cows will lessen their milk when frightened; that they will do this for days in succession if the fright be continued. It has been noticed that unusual noise or disturbance will have effect. Be kind to Brindle, and she will reward your kindness; for docility is a quality of her nature, and needs but to have full play.

FASHION GOSSIP.—Bonnets are half an inch bigger.

Lord Stanley scarfs and low-cut double-breasted vests will be considered the genteel thing for our city swells this winter.

New-fashioned dress-coats are made with deep velvet collars and invariably with large gilt buttons of the genuine 1776 style.

Kid gloves for the street, opera and concert are to be worn in very brilliant colors, yellow, orange, lavender, and lilac being the popular shades.

—President Grant's father writes and talks indiscreetly, his wife's brother is a doubtful political scheme, and his sister's husband has been concerned in a gold corner. But the reticence and sagacity, the loyalty and soundness, the purity and honesty, of the President himself, shine all the brighter by the contrast.—*Boston Advertiser.*

☞ William Rider, alias George Ripley, has been arrested at Newport on suspicion that he is the rascal who, through the summer, has robbed staterooms on the steamers by drawing clothes by a hook up through the ventilators.

—'I'm afraid you don't like babies when they cry' said a matron to a gentleman, as they tried to soothe the darling in her arms. 'Oh, yes, said he 'I like them best when they cry, because 'Ive always observed that they are invariably carried out of the room.'

—Every married employe of the Des Moines Register has been presented with a baby within the last two weeks by the persons authorized to do such things.

—Rev. E. N. Hidden, recently of Great Falls, has accepted a call from the South Congregational Church in Kennebunkport; salary, $1,000.

—It is said that a dog taken in its infancy and held three-quarters of an hour under water, will never be troubled with hydrophobia.

—Agassiz says that had he not coaxed his father to give him three years more study, he would have been to-day "nothing but a banker."

A PAYING INVESTMENT.—The Queen of Prussia gives five hundred dollars to every woman in the kingdom who has given birth to twelve children.

—Kansas lately had a twenty-four inch rain fall.

PERRY DAVIS' PAIN KILLER, is an internal remedy, has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, dysentery, Asthma, it cures in one night, by taking internally, and bathing with it freely. It is the best liniment in America. Its action is like magic, when externally applied to bad sores, burns, scalds and sprains. For the sick headache and tooth ache, don't fail to try it. In short, it is a Pain Killer. 4ww7

DODD'S NERVINE AGAIN.
ANOTHER CERTIFICATE.
LEDYARD, CONN., April 3, 1869.
Accept thanks for calling my attention to DODD'S NERVINE AND INVIGORATOR. It has done me more good than any other medicine I ever took. I have gained twelve pounds in flesh, and am correspondingly better every way. It is an invaluable remedy.
Mrs. JOHN T. LEACH.

WHAT ARE
DR. J. WALKER'S CALIFORNIA Vinegar Bitters.
THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits, and refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetisers" "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, *free from all Alcoholic Stimulants.* They are the GREAT BLOOD-PURIFIER and LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell. $100 will be given for an incurable case, providing the bones are not destroyed by mineral poisons or other means, the vital organs wasted beyond the power of repair.
FOR INFLAMMATORY AND CHRONIC RHEUMATISM, AND GOUT, DYSPEPSIA, or INDIGESTION, BILIOUS, REMITTENT, and INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS have been most successful. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.
These Bitters are not a gilded pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable medicinal ingredients known.
They are Alterative, Tonic, Diuretic, Sedative, Diaphoretic, and Gentle Purgative.
"The Life of all Flesh is the Blood thereof."—Purify the blood and the health of the whole system will follow.
R. H. McDONALD, J. WALKER, & CO., Proprietors,
San Francisco and Sacramento, California, and 32 and 34 Commerce St. (Commerce, a short street running from Bleeker to Barrow), N. Y.
SOLD BY ALL DRUGGISTS AND DEALERS.
12wau23

COLGATE & CO'S.
AROMATIC VEGETABLE SOAP,
COMBINED WITH GLYCERINE, IS RECOMMENDED FOR THE USE OF **LADIES** AND IN THE **NURSERY.** ap8ly
SOLD BY ALL DRUGGISTS.

"Ingenio Stat Sine Morte Decus."
ROCKY MOUNTAIN BITTERS
IS a very superior Regulating Tonic, imparting vigor and strength to the constitution—a thoro
PURIFIER OF THE BLOOD,
a regulator of nervous force, and a powerful sustainer of health against the encroachments of disease.
To invalid and convalescing seeking restoration, and yearning for the healing virtues of some magic balm, will find in these Bitters a hidden mysterious power, which QUICKLY RESTORES, yet resolves to reveal to the senses anything but taste and color.
It is a pleasant Bitter, free from all nauseous properties odor, entirely vegetable, being mainly grown at the base of the mountains from which they derive their name, and is particularly adapted to all forms of
DYSPEPSIA OR INDIGESTION,
manifesting themselves by the following symptoms: headache, nervousness, loss of memory, low spirits, giddiness, dimness of sight, dullness of hearing, and ringing noises in the ears, eructations, of belching of wind, tightness of breathing, weight and oppression of the chest, uneasy feeling about the heart, palpitation, &c.
Also for Liver Diseases, Disorders of the Kidneys, Restlessness and loss of Muscular Power, these Bitters will be found almost a specific; and as a preventative of
FEVER AND AGUE,
or a restorer of the natural powers of the system, when broken down by continued ague attacks; it has no equal.
Being stimulating, (but not intoxicating), they refresh and invigorate both mind and body, heighten the sensibility, clear and sharpen the faculties, and bestow alacrity and cheerfulness of spirit.
CAUTION.—There have been, and still are several parties manufacturing and selling so-called "Langley's Bitters," many of which are worthless. As a guide against such, I would say that in 1866, I secured my copy-right, in the United States Court, a trade mark and name, "Rocky Mountain Bitters," and all Bitters of my manufacture are put up in *dark, long neck, quart bottles* with red label printed with gold; also, direction label, bearing my seal and directions printed in red, with a red cap and my seal printed in gold, over the cork. Beware of all others, and ask for
"Rocky Mountain Bitters."

The Daily Chronicle.

Portsmouth, N. H.

FRIDAY, OCT. 8, 1869.

The News.

The Spanish insurgents evacuated Reus to avoid a premature collision with the troops. Some of the republican deputies have left Madrid to raise the northern and central provinces, and to arrange for a simultaneous rising in Sandander, Ternel, Alava, Lerida and Huescar. The republicans propose to raise the provinces and then attempt a *coup de main* against Madrid. Fresh bands have appeared in the province of Saragossa. A republic has been proclaimed in Lajuiragers, and a rising is feared at Valladolid.

The Prussian Parliment opened, Wednesday.

Ship Onward reports a heavy shock of an earthquake off Cape Mendocino on October 2d.

In digging a tunnel under the Mississippi at Minneapolis, the workmen pierced a sunken cavern on Monday morning. On Tuesday morning a whirlpool was discovered, marking the mouth of the cavern; the rush of the water is causing a caving in of the ground and notwithstanding the efforts of thousands of men the danger of the river's cutting a new channel is imminent.

A missionary from Zanzibar brings intelligence from Dr. Livingstone, dated February, 1869. The Doctor was then on Lake Tanganyika. He was in good health but on short provisions. The Brown-Sadler race is off. Brown had a tumor and paid forfeit.

Goldwin Smith favors the independence of Canada, but opposes its annexation to the United States.

The flood in eastern Maine did great damage. Eastport is reported as nearly demolished. The water in the Penobscot has risen to its highest spring pitch. Booms are broken and millions of feet of logs have gone by the city.

☞ The house, barn and out-buildings of Mr. Daniel A. Davis, in Saco, were consumed by fire Thursday morning. Mr. D. had agreed to let a horse for a journey, and went to the barn before daylight to feed the animal, carrying a kerosene lantern. While on the mow the lamp exploded, kindling the hay, the flames spreading over the barn, and thence communicated to the other building. Insured for $1000; loss $5000.

P. & C. Railroad.—The annual meeting of the Portsmouth and Concord Railroad was held at Manchester on Thursday. The old board of officers was re-elected, Stephen Kendrick, President. The other Directors are B. F. Martin, S. P. Dow, J. B. Walker, and S. N. Bell. A committee, consisting of A. R. Hatch, N. G. Upham, and Nathan Parker was chosen to investigate the affairs of the Corporation.

☞ In accordance with an act of the Maine Legislature, requiring the County Commissioners of each County to establish a meridian line for regulating the practice of surveying in the State, the Commissioners of York County, have established a meridian line in the town of Alfred, near the village, and have erected suitable monuments for such purpose.

County House. — There are now about forty paupers at the new Rockingham County Farm; and visitors are so numerous and curious that the Commissioners and Superintendent have decided that the premises shall be open to the public only on Wednesday afternoons.

☞ A Dover lumber dealer named Drew undertook to smuggle $3000 worth of lumber from the Provinces but was caught by the Collector of this port. The lumber will be confiscated and Mr. Drew is liable to be imprisoned 2 years and fined $5000.

☞ Commodore John Pope has been relieved from the duties of Light House Inspector for the Portland district, a position which he has filled for four years. He is to be succeeded by Commodore Joseph B. Hull.

☞ The Grand Jury of York County, Maine, have indicted the following persons as common sellers of liquors: Sarah A. Leavitt, Edward S. Appleton, James O. Trefethen, Wm. O. Chapman, John Dean.

☞ Samuel Eaton and Ivory Hilton of Wells, aged respectively about 30 and 23 years, were drowned in Wells Bay, on the 2d inst. They were out fishing together in a small wherry.

☞ Rev. Mr. Goss of Kittery has recently commenced holding five o'clock Sunday evening service in the long unoccupied Congregational Church at Eliot Foreroad.

Who Shall Rule?—A writer takes exceptions to my strictures on naval discipline and the Green court martial, and asks for information, which I will cheerfully endeavor to give. He is mistaken in thinking I feel badly about the decision of the court martial; on the contrary, I am delighted with the whole affair, —for the more gross and palpable the crowding of the staff officers, the sooner will public opinion force from the powers that be a proper recognition of their position and rights.

"Discipline" asks who I would have command a ship, and whether I would give the engineer or surgeon *equal* authority with the captain? The man I would have command a ship should be "the man appointed so to do by the Department;" and no other officer should have equal (or conflicting) authority with him. But I would not have him be chaplain, surgeon, paymaster and engineer, as well as captain; very few men can be found able to fill all five positions with credit, even among the line officers.

"Discipline" asks "where is the injustice or crowding" in the Selfridge-Green proceedings? Here; a man was tried for refusing to obey an illegal order, and convicted of and punished for doing his duty,—that's crowding. Mr. Green had the same right to refuse to strike a man's name from his list that a paymaster would have to refuse to "cook" his accounts, or an engineer to oil his engine, at the captain's order; the command was a gross interference with his professional duties and rights. "Discipline" may think this assertion borders on the presumptuous,—in the face of the court martial's decision that he had no right to refuse obedience; but I have other good authority, besides common sense, to support me—no less than the Secretary of the Navy, in the reprimanding general order.

Mr. Robeson (or some one for him) says, "to report the conduct of the crew is the duty of the medical officer, but the *excusing*, on his report, is, in truth, an executive act, to be done or omitted by the authority and on the responsibility of the commander. The accused retained his right to remonstrate; to continue his treatment *and record* of the case; " " but it remained with the responsible commander alone, to determine what duty, what exposure of life, if need be, the interests of the service required" from each of the officers and crew of his ship.

That's it, exactly. It was the surgeon's duty to make the report—*not the captain's*; but if the captain could order the surgeon to strike a name from the report he would of course have the power to order any name *put on*, whether the man was sick or not. What a reliable record a naval surgeon would keep who should always ask the captain what he should write. Again, the report did not excuse the man from duty; the excusing was the captain's act, and if he wished to continue him at work there was nothing at all in the mere fact of his name being on the sick-list to prevent him from so doing. And again, the surgeon "retained his right to continue his 'record' of the case," — and what more is the sick-list?

The general order says that the surgeon "was directed, not to declare any false opinion, nor to inflict on any individual any act of false practice in his profession, but *merely* to take the name off of a list made by him,"—that is, to falsify a record for the correctness of which he alone was responsible, and to virtually declare that a man was fit for duty when he knew such was not the case,—that was all. He very properly refused to submit to any such outrageous interference with his special duties,—and has the sympathy and good wishes of every admirer of manliness and fair play, the court martial to the contrary, notwithstanding.

If half a ship's crew were to die from want of skill in the doctor, the doctor would have to bear the blame, not the captain; if an engine should be found ruined by the incapacity of an engineer, the captain would not be court martialed; if a ship's account was muddled and incorrect, the paymaster would be expected to explain, not the captain; and the chaplain would be considered more in fault than the commander, if the devil should get more than his fair share of the sailors. The men who are responsible in their respective departments should have full authority over them; and infringements on this principle, instead of increasing the efficiency of the service, will only tend to drive all really able and valuable professional men from the navy. Pakeha.

The Fisk-Corbin Affair. — All the leading New York journals take sides with Mr. Corbin, rejecting Mr. Fisk's statement and affidavits as untrustworthy and scandalous.

☞ Geo. W. Colbath has been appointed Postmaster of Dover, *vice* John H. Varney, resigned.

Correspondence of Chronicle and Gazette.

Portland, Me., Oct. 4.

Eds. Chronicle; The Portland & Rochester Railroad on Saturday closed the bids for building the Alfred & Rochester extension. There were ten proposals, some from Penn. & New York. The Springvale route will undoubtedly be chosen, being the easiest to build and nearer the manufactories at that place.

The Haydn Association has resumed rehearsals after the summer rest and will soon bring out "St. Paul" and, later in the season, "Stabat Mater." Under the lead of Kotzschmar, the skillful organist, pianist and conductor, the society will undoubtedly flourish finely.

Maine has had a Hydrographic survey made of the State, under the Superintendence of Walter Wells, Esq., of this city. Hon. J. B. Walker of Concord and Prof. E. W. Dimond of Dartmouth College, Hydrographic Survey Commissioners of New Hampshire, recently held a consultation with Mr. Wells in regard to an investigation of the water power of the Granite State. Undeveloped resources of a great extent and value will undoubtedly be brought to light under the survey.

Gov. Chamberlain has appointed 3 Commissioners to examine the State lands and select localities favorable for settlement by Norwegian and Swedish emigrants. Aroostook County is likely in consequence to be populated with thrifty Swedes and Norwegians and the State be thus largely benefitted.

Portland is talking of a line of packets to New Orleans, exchanging potatoes, hay, ice, fish, canned good, &c., for cotton, sugar, molasses, Texas mess beef, St. Louis flour, &c. The future of the Casco city promises to be one of unexampled growth and prosperity. Sancho.

Cattle Market at Brighton.

FOR THE WEEK ENDING THURSDAY, OCT. 7.

[Reported for the Boston Journal.]

At market for the current week—Cattle 421; Sheep and Lambs 3650; Swine 4400; number of Western Cattle 65; Eastern Cattle 324; Northern Cattle and Working Oxen 32. Cattle left over —.

Prices Beef Cattle—Extra $13 00 @ $13 50; first quality $12 25 @ $12 75; second quality $11 50 @ $12 00; third quality $10 50 @ $11 25; poorest grade of coarse Oxen, Bulls, &c., $8 50 @ $10 00 ℔ cwt; (the total weight of hides, tallow and dressed beef.)

Brighton Hides 9¼ @ 10c ℔ lb; Country Hides 9 @ 9½c ℔ lb.

Brighton Tallow 8 @ 8½c per lb; Country Tallow 7 @ 7½c ℔ lb.

Wool Sheep Skins $1 50 @ 2 25 each; Sheared Sheep Skins 37c each; Lamb Skins 75 @ 87½c each Sheep Skins 75 @ 87½c each; Calf Skins 20 @ 22c ℔ lb.

On account of the severe storm and freshets in the early part of the week there has not been any Cattle brought in from the West. The bridges on the Boston and Albany road in a number of places were washed away, and Mr. Firth, the Superintendent, thinks it will be impossible to bring stock from the West until the past of this week or the first of next. The supply from the North was small, and there were but few Beeves among those from Maine. Good Cattle, if there were any in market, would command higher prices than those of last week. The short supply in has had a tendency to make the markets at Boston better, and butchers are obtaining better prices for their Beef than they have for a few days past.

Store Cattle—Yearlings $18 @ $28; two year olds $30 @ $45; three year olds $45 @ $64. Many of the small Cattle that are in a fair condition are sold for Beef.

Milch Cows—Extra $85 @ $115; ordinary $50 @ $60; Store Cows $35 @ $55 ℔ head. Most of the Cows in market are of an ordinary grade, there being but a few of the fancy breeds of Cows brought into market to sell.

Working Oxen—The was a good supply in market; we quote sales at $280, $300, $150, $280, $120 $235, $230, $225, $215, $170, $190 and $188 ℔ pair.

Sheep and Lambs—Nearly all the Sheep and Lambs in market for this week were contracted for at last week's prices. There was a few from Maine. One lot of 110 sold at $325, and 105 Lambs at $3 25 ℔ head.

Swine—There was no Store Pigs at Market. Fat Hogs—4400 at market; prices 10¼ @ 11c ℔ lb.

BUSINESS NOTICES.

With Dyspeptics everything is wrong. Food does not digest; sleep does not refresh; wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it or it will become seated and confirmed, and life will be a burden and existence a curse. Plantation Bitters will do away with all this. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the lustre in your eye will again be as bright as in your healthiest, happiest and most joyous days.

Magnolia Water.—Superior to the best imported German Cologne, and sold at half the price.

Every family in town should keep a bottle of Renne's Pain-Killing Magic Oil in the house. Directions for use will be found on each bottle.

Facts For the Ladies.—I have used my Wheeler & Wilson Sewing Machine for more than ten years steady, at dress-making, from ten to fourteen hours a day. For the last nineteen months I have used the same needle, and am still using it. My machine is in as good working order to-day as when I first got it.

New York. Martha Cavan.

There is no disease flesh is heir to more troublesome to manage than Rheumatism. It comes when you least expect it, and generally remains till it gets ready to go away. The most conspicuous remedy for this complaint is "Johnson's Anodyne Liniment."

Two or three doses of "Sheridan's Cavalry Condition Powders" will cure a horse of any common cough or cold, and the very worst cases may be cured in a few weeks. We know this from experience.

Tonics.—Those who resort to tonics will find Speer's "Standard Wine Bitters" the best adapted to benefit the different ailments of the system, whether diseased or debilitated from over exertion or by any other cause. Try them. Sold by Druggists.

SPECIAL NOTICES.

DEATH TO PIN-WORMS.

Eminent physicians say that more sickness among children results from Pin-Worms than from any other cause. A safe and effectual remedy for these troublesome and often dangerous pests is found in DR. GOULD'S PIN-WORM SYRUP. Cure for adults and children warranted without injury to health. Price 75 cents. GEO. C. GOODWIN & CO., Boston, and all druggists. ef 6mo

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries made before given in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, have always the least impediment to marry bid, should read this book. It discloses secrets that every one should be acquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, before you place yourself under any one of the notorious QUACKS—native and foreign—who advertise in this or any other paper, get a copy of Dr. Young's Book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

Holloway's Pills.—Colds and Sore Throat.—The foundation of a cold or affection of the throat that lasts the winter through is often laid in autumn. If you are threatened with diseases of any of the respiratory organs, rub the external surface night and morning with Holloway's Ointment and keep the bowels regular with Holloway's Pills. A cold, cough or sore throat promptly treated in this way is speedily cured, and all danger of consumption or bronchitis avoided. Sold by all Druggists.

ASIATIC CHOLERA IN CHINA.

Tunghow, China, Aug. 23, 1866.

Messrs. Perry Davis & Son:

Dear Sirs—During a long residence in China, I have used your invaluable Pain Killer, both in my own family and among the Chinese, and have found it a most excellent medicine. In the summer of '62 and '63, while residing in Shanghai, I found it an almost certain cure for Cholera, if used in time. Indeed using it in a great many instances, I do not remember failing in a single case. For three years I have been residing in this place, more than fifty miles from a physician, and have been obliged often to fall upon my own resources in cases of sickness. The Chinese come to us in great numbers for medicine and advice. Though without medical knowledge ourselves, the few simple remedies we can command are so much in advance over their barbarous practice, that we have almost daily applications. We allow them to come because it brings us in contact with them, and opens a door to usefulness. In diarrhœa, colic, vomiting, cholera, coughs, &c., your Pain Killer has been my chief medicine.

Yours, very truly, T. P. CRAWFORD.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is no new cach-penny; but an article that has stood the test of twenty-five years. The enormous sale and rapidly increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its painocrative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. ol

FRIGHTFUL DEVELOPMENTS!

At last the people have got the fact "through their hair," that hair dyes impregnated with acetate of lead and other metallic salts are

MURDEROUS PREPARATIONS.

When they see the metallic sediment at the bottom of the bottles, they know that the disgusting stuff is literally *thickened with Poison*. They ask, therefore, for a

Harmless Vegetable Dye,

and find it, pure and efficacious, in

Cristnadoro's Excelsior Hair Dye

offered under the sanction of Professor Chilton's guarantee that it contains "nothing deleterious." CRISTADORO'S HAIR PRESERVATIVE, or Dressing, acts like a charm on the Hair after Dyeing. Try it. 1md&wo4

In Remote Settlements of United Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are in the bottles, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and efficacy in cleansing of the bowels and blood. Their untold value is to those living in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box.

Sold by all Druggists.

Now is the Time

To repair the inroads made upon the physical strength by the heated term which has closed with September. The vitality that has been oozing through the pores in the form of prespiration, for the last three months, requires to be replaced, as a preparative to the cold season which makes such disastrous havoc with relaxed and unstrung systems. A reserve of vigor is needed which the stoutest man commences the Summer campaign is drained out of him at its close, and unless by some means he can make good a supply of vital energy wherewith to encounter the shock of a colder season, he may droop and wither like the falling leaves whose life-juices are exhausted. It is thus with the strong, how much more perilous is the condition of the weak and ailing. Their reason must suggest to them, more forcibly than these printed words, the necessity for *invigoration*, and the world having decided, after an experience of almost a quarter of a century, that HOSTETTER'S STOMACH BITTERS embrace such restorative properties as are not possessed by any other tonic and alterative preparation in existence.

The importance of restoring to that great Renovator and Regulator of the Human Machine, at this critical season, is as obvious as the light of day. Let all who desire to escape an attack of chills and fever, bilious remittent fever, dysentery, diarrhœa, dyspepsia, rheumatism, hypochondria, or any other of the diseases of which the fall season is the prolific parent, have recourse promptly to this celebrated preventive and restorative. ol

Dr. Hopkins' Iron Tonic,

A BLOOD PURIFIER AND REGULATOR, Cures Dyspepsia, Loss of Appetite, Liver Complaint, Sick Headache, Depression of Spirits, Neuralgia, Nervous Affections, Disease of the Skin, Constipative Tendencies, Chronic Diarrhœa, and Diseases peculiar to Females.

ALLEN'S LUNG BALSAM,

The Remedy for curing CONSUMPTION, COUGHS, BRONCHITIS, ASTHAMA, and CROUP. As an Expectorant, IT HAS NO EQUAL.

It is composed of the active principles of roots and plants, which are chemically extracted, so as to retain all their medical qualities.

Ministers and Public Speakers

Who are so often afflicted with throat diseases, will find a sure remedy in this Balsam. Lozenges and wafers sometimes give relief, but this Balsam, taken a few times, will insure a permanent cure.

Will all those afflicted with Coughs or Consumption, give this Balsam a fair trial, they will be pleased with the result, and confess that the sure remedy is found at last.

IT IS SOLD BY ALL DRUGGISTS.

CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS for Diseases of the Liver, or to act as a gentle Purgative.

All of these three medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills assist in regulating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These medicines are conscientiously offered to the public as the only safe, certain and reliable remedies for Pulmonary Consumption, and for all those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has stood long enough before the public. Its value has been through a period of more than thirty-five years, in all of which time its reputation has constantly increased, and the most obstinate skepticism can no longer doubt that it is a remedy which may be used with confidence in all cases which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, he will certainly be cured, if his lungs are not too much gone to make a cure possible. Even in cases supposed to be incurable, when friends and physicians have despaired, the use of the medicine have saved the life of the patient, and restored him to perfect health.

Dr. Schenck himself was cured in precisely such circumstances, and many others have been equally fortunate by judiciously making a timely use of Dr. Schenck's remedies.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he emphatically asserts, that often when patients have the most alarming symptoms, such as a violent cough, raging night sweats, and general debility, even to such a degree that they are obliged to lie in bed, and when they are given up by their physicians, they may still be cured. No medical treatment can create new lungs, but when the lungs are very badly diseased, and to some extent healed, a cure may be effected by Dr. Schenck's medicines.

Also in Scrofulous diseases these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores, and now all healed up. This shows its purifying properties, which must be done to heal cavities in the lungs.

In the treatment of Consumption, it is of the utmost importance to give vigor and a healthy tone to the system. Hence it is necessary to strengthen the appetite of the patient and improve the digestion. Proper nourishment is required, together with such means as will make the food easily digestible. The articles most suitable for the diet of consumptive patients are designated in Dr. Schenck's Almanacs, which are distributed gratuitously. In general, the most nutritious articles are to be preferred; but the digestive organs must be strengthened in order to make other food or medicine serviceable. This requirement is met by the Sea Weed Tonic, and for this purpose it was designed.

When all the digestive powers are put in good order, the food has its proper effect, the system of the patient is invigorated, and the lungs begin to exercise their functions in a normal and healthy manner. Then the healing powers of the Pulmonic Syrup will complete the cure.

Many Consumptive patients are not always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills are intended to remove obstructions from the liver and restore it to healthy action. They have all the efficacy which is ascribed to calomel or "blue mass," and are warranted not to contain a particle of any mineral poison. These pills cure the most obstinate costiveness, sick headache, piles, billious affections, and all other diseases which arise from a torpid or obstructed condition of the liver. One box of these pills will prove the efficacy of the medicine.

In Consumption, the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines. They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. They have been found useful in advanced stages of Consumption, where the lungs were almost entirely destroyed, and all symptoms, according to the judgement of physicians, indicated speedy death. Lives of patients who were actually in a dying condition have been preserved for months by the use of Schenck's three great remedies.

DR. SCHENCK'S Almanac, containing a full system which nature needs no longer. A few days of treatment and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North Sixth Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggist and dealers.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been effected. A vegetable substitute for active more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and combined in a pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative compounds has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy**, and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopoia.

It is guaranteed that no one who has once tried Dr. Erasmus Winslow's **Liver and Stomach Lozenge**, will ever again take a purgative powder, or draught or pill.

Wholesale agent, John F. Henry, No. 8 College Place, New York City.

Batchelor's Hair Dye.

LOCAL AFFAIRS.

☞ Mr. James W. Verney of this city has been appointed keeper of Whale's Back Light *vice* Amee, removed.

Communication.

Messrs. Editors; Of what use is the pest house at Pest Island? [We give it up.—*Eds. Chron.*]

☞ Rev. T. H. Miller is to preach at the Universalist Church next Sunday morning. Sunday School in the afternoon at half past 2.

☞ All who wish to encourage a Lyceum this winter, should subscribe for tickets, with Mr. J. W. P. Carter, the Secretary, or at the stores of Messrs. Preston or Thacher, forthwith.

☞ Wednesday night there was a very heavy white frost in this vicinity; but the black frost, which does the damage, has not yet appeared. One year ago, Oct. 3d, one of the weather-wise tells us, four inches of snow and one of ice appeared in his garden.

☞ The Eastern Railroad Co. have decided to build an engine house, a large repair shop, a black-smith shop, and two sheds for coal and wood on their premises west of the depot in this city. On the land just purchased near the creek, (Hale's Point) they are to lay three tracks.

☞ If the Chronicle should be suspected by any, to lack aught of its accustomed brilliancy or attraction of late —the reader may attribute it to the fact that Uncle Toby of ours has been obliged by ill health for two or three weeks, to lay aside his pen and scissors. A host of admirers will wish him speedy restoration to his usual vigor.

GOOD FOR SOMETHING AFTER ALL.—On Thursday morning "the boys," headed by Gus. Ferguson and Herbert Ayers, tired of seeing a big limb hanging over their heads from an elm tree on the corner of Hanover and Fleet streets, mustered in force, borrowed a ladder and rope from some of the neighbors,—a lad of Mr. S. W. Webber's mounted the first and made the second fast, all passers by were pressed into the service for a good pull, and down in the dust went the limb, — also all those who pulled on it. Boys *are* good for something, sometimes, after all.

HE DIDNT LEAVE TOWN. — On Monday, a gentleman wearing a beaver hat was at the Eastern Depot, preparing to leave in the train for Boston. It rained that day, some people will remember, and as it rained it bew. The gentleman's tile was gracefully lifted from its resting place, sailed out of the depot and over a fence into a neighboring yard. Search was made for it but for a time no trace of it, could be seen. The minutes sped and the train started, leaving our hero behind. Then a happy thought led the searchers to look into a pig-sty where the last remains of the elegant beaver were seen in strips in the jaws of the inhabitant of that sty, who had hailed it as a providential covering sent him for protection from the rain, at first, but, not knowing how to don it, had become exasperated and was burying it, after carefully destroying its comeliness. How natural it is for beavers to go to mud.

BASE BALL.—Wednesday was a red letter day for the Granite State Club of this city. Their first nine won the return match at Newburyport and the second nine won a game at home, with the Eurekas, by a score of 30 to 16.

The Newburyport game was an interesting one, and the Granite States succeeded in adding to their reputation of being one of the "crack" clubs of the State. They did some heavy batting and some hearty eating at Newburyport, the Independents furnishing them with provender enough for a "crowd." We hear that Gaines at centre-field immortalized himself by the number of fly balls caught, after each success displaying an openness of countenance that showed plainly his delight. The score below is published for the inspection of "our boys."

Communication.

"WHO SHOULD COMMAND a ship, if not the officer appointed to do so by the Department?," asks "Discipline." "Nobody," answers Common Sense.

Who should take charge of the sick and lame of the crew, if not the officer appointed to do so by the Department? One would think the subject too simple to discuss in a respectable paper, if "Discipline" had not opened it by vainly trying to make the worse appear the better cause. Why are all great undertakings divided and sub-divided into departments, but that each officer should devote his time and brain to his special charge? Mark Twain describes Solomon as "a man who made wisdom his speciality,"—but the less gifted of us have to take one branch, and deem ourselves fortunate if we approach perfection in that.

It seems to us Landsmen, that there is no surer way of subverting discipline than allowing one man to trench upon the business of another; and I think the Lieut. Commander himself would see it if his name should be removed from the sick-list by the Commandant, in spite of the opinion of the Surgeon that he was too ill for duty.

If I have a servant fall ill at my house, and he consults a physician who declares him to be unfit for work,—should I not justly incur the severe censure of the community, if I insist upon his working? It seems to us that "Discipline" has shown Lieut. Comdr. Selfridge to be utterly unfit for his command in what he terms his "simple" account of the matter — though I heartily thank "Discipline" for airing the subject, which is already attracting the attention of the public,—and cordially agree with the Traveller which says "It is part of a plan to drive all decent, self-respecting, high-spirited Medical men out of the Navy—and the result is certain." B.

TILL ROBBERY.—On Thursday about noon, two strange men entered the grocery store of C. E. Laighton & Son, and after saying they were going to open a boarding house here, and should want to buy sugar, &c., asked the senior proprietor, who was alone in the store, for the privilege of filling out a check at the desk, which being granted, they next wanted a stamp. Mr. L. opened the desk to furnish this, thus exposing his pocket-book to them; and then very imprudently went down into his cellar for goods for a customer, leaving the two strangers alone in the store.

It was not until some time after they had left, that he discovered that the pocket-book, containing probably from $80 to $100, and papers of value, was gone; and search by the Police in all directions was forthwith commenced, but up to Thursday evening was unsuccessful. The men no doubt came in on the morning train from Boston; and the City Marshal and an Assistant watched them suspiciously for some time previous to this theft. One was short, dressed in dark clothes, and a black silk hat; the other was tall, wore light clothes, and a felt hat.

P. S.—It appears the thieves went to Berwick Junction on the half-past 2 o'clock train, and took the half-past 5 B. & M. train for Boston. The Police missed them by walking from So. Berwick to Salmon Falls; but Mr. Jeff. C. Rowe learning the facts, kept on the train with them, and will have them arrested if he can get an officer anywhere along the road in time. We think he has them ere this.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Chronicle office. Price 5 cts. per copy—$2. per year. Contains *all* the Local and other reading from the Daily Chronicle.

A PACIFIC RAILWAY

GOLD LOAN $6,500,000.

We beg leave to announce that we have accepted the agency of the

KANSAS PACIFIC RAILWAY COMPANY,

For the sale of its

NEW SEVEN PER CENT.

Thirty Year Gold Loan,

Free from Tax.

This Loan amounts to $6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds,

secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon the Road, the Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,

And in successful operation for 437 miles

west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the road, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 100 in U. S. Bonds, as A SINKING FUND FOR THE REDEMPTION OF THE BONDS.

The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the

Value of the Company's property, covered by this mortgage at $23,000,000 net, while the Loan is merely $6,500,000.

The Bonds have

THIRTY YEARS TO RUN,

from May 1, 1869, and will pay

SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be

PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:

On $1,000 Bond in N. Y. $35 (gold) each half year.
" London....£7 s6. 10.
" Frankfort..27 flr. 30 krtzs., "

The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a

FIRST CLASS INVESTMENT,

in every respect perfectly sure, and in some essential even

Better than Government Securities.

The Bonds will be sold for the present at

96, *and accrued Interest, both in Currency,*

the Agents reserving the right to advance the rate.

The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

Pamphlets, with maps giving full information, sent on application.

FREEMAN'S

IRON MANDRAKE SYRUP
IRON MANDRAKE SYRUP
IRON MANDRAKE SYRUP

Is an excellent combination of IRON with MANDRAKE and vegetable tonic.

The Mandrake acts on the Liver and prevents the bracing effects which Iron has on many other preparations; while the vegetable tonic strengthens the stomach, and promotes Digestion of Food and facilitates the absorption of Iron into the blood.

MANDRAKE
MANDRAKE
MANDRAKE

Is the great vegetable substitute for Calomel to act on the Liver.

In Freeman's Mandrake Syrup it is combined with Iron and Vegetable Tonics, and forms the most perfect Spring Medicine.

It purifies the blood and imparts IRON to it.

It acts on the Liver and removes foul humors from the body. It is a most excellent remedy for debility, especially for mothers who are worn down by nursing infants, and for all persons whose blood is pure, and who need iron and a strengthening medicine.

LAW'S OF N. H.

PAMPHLET LAWS for session June 1869. GENERAL STATUTES of New Hampshire. TOWN OFFICER, Revised Edition. o1 For Sale by JOSEPH H. FOSTER.

Morning Chronicle.

Josh Billings and the Lecture Community.

Letters which pass from great men to great men are often wise to owlishness, and so successfully discursive as to treat beautifully upon everything but the point at "issoo."

SALT POINT, Feb. 10, 1867.

J. BILLINGS, ESQ.

I am instructed by our association to inquire of you, and solicit a reply, if you could read a discourse before our lyceum this winter, and if so, at what time, on what subject, and upon what terms.

Most respectfully yours,
EZRA SMITH, Cor. Sec'y.

POKIPSY, Feb. 12, 1867.

SMITH, MI DEAR:

This day, at 10 o'clock A. M., I cum in contact with your letter, and was real glad tew hear from yu. How do you like being Cor. Sek. ov a Ly-Associ? It is a light, pretty bizness, and don't require much capital.

Let me ask you if you are any relashun to Jake Smith, the hatter. If you are, forgit it, for Jake is a common cuss.

The Smiths are a good family, and prevail more permiskus, than enny kind ov folks I kno ov, but it would be unnatural in the highest if there want sum, where they was so thick, that was wuss than the rest.

Did yu ever read history, Ezra? If you didn't you will be serprised tew hear that John Smith married Pokerhontas, the dauter ov Powhattan, the injun boss.

The way this happened was so: Smith was about getting skewed, when Pokerhontas went in, and fell flat on his nose. Old Powhattan giv it up, and Pokerhontas had Smith, and Smith settled down and went into the injin bizziness, in a small way, on his own hook.

This is the grist ov the story.

'Tis one ov the most affekting transactions on file.

Yu ought tew read history, Ezra; it will learn yu informashun, and give yu a knolledge ov edukashun.

I forgot tew state that John Smith lived somewhare in pensylvany, at the time his transakshun with Pokerhontas took place, and if he ain't dead probably lives there now. There is one fust rate thing about history; it is alwus true, it ain't history, so if you larn it onst, yu never have tew unharness.

But most poetri, and piktorials, and novels, lie wuss than an east wind; the fuller a man gits ov them over night, the more room thar iz in him the next day, for sum more.

John Smith, who had the transakshun with Pokerhontas, had an immense invoice ov boys; thare is thirteen ov them, that name in our town this morning, besides several who have either died or gone to Denver city.

Did it ever strike yu, Ezra, that death was one ov the most remarkable things that could happen to a man?

A man may be ritch, and kno history just like slapjacks for breakfast, and be handsum, able to lift a ton without thinking, but death beats awl these just as easy as bitin crackers.

Death seems to be as far as man can git; when a man acquires that thoroughly his mispun seems to be satisfied.

One man can be ritcher, and lift more than another, but he kant be any more deader.

I am glad there is one thing in this world, that is enuff for man.

Speaking uv man, Ezra, dew yu konsider him a suckess yet, or has he got tew try again?

History has a good deal tew say about man, that don't allude tew his suckcess.

Adew, Ezra.

Yures, full ov oats,
JOSH BILLINGS.

P. S.—I'll do it for seven dollars and thirteen cents. J. B.

P. S.; P. S. Time, Jany the onst. J. B.

P. S.; P. S.; P. S. Subject, The Fleetiness ov Things. J. B.

THE FRESHET.—The height of water was seven inches above the highest mark ever before made, which was in the spring freshet of 1862. At East Concord the water undermind the sheds of J. T. Clough's plaster mill and let the plaster down. Part of the flume of the mill went. Charles A. Carber's carriage shop was damaged $200, by the undermining of its foundation.

The run at Loudon was great, not a bridge being left in the town. The logs swept through Wm. K. Holt's sawmill, utterly smashing it to pieces.

At Claremont, one side of the old Goddard paper mill is partially gone. In Boscawen the dam at Blake's mill was carried away, and three bridges are gone. One bridge in North Boscawen is also gone. A very bad washout, of five hundred yards, took place on the Wilton Road, near Wilton. Damage to the amount of $6000 is reported at the mill of Z. C. Perkins in New Hampton.

The up freight train on the evening of the 5th was stopped by the large wash-out in its front and by the time it was ready to go back a new one had taken place behind. Great quantities of corn and lumber are now floating down stream, and the bobbing faces of yellow pumpkins dot every few feet of water that is visible. The loss of crops is large, but in bridges, lumber and railroad property, it is immense. The Concord Railroad loses a large lot of wood and lumber, though a heavy boom was built around it.—*Concord Patriot.*

—Dr. J. C. Ayer, of Lowell, is spoken of as a candidate for Congress from the Seventh District. The New York Sun calls this "putting on Ayers." Not at all; the Doctor is one of the principal pillers of the Commonwealth.

—How to meet a man of doubtful credit—take no note of him.

New Hampshire Items.

The descendents of James Dickey of Amherst have an annual family gathering.

Wilton was damaged to the extent of $100,000 by the late storm.

Two acres of new made land of Manchester was washed away in the storm of Monday.

Mr. John G. Leach of Goffstown was carried away with a bridge by the freshet and drowned, Monday night. Another man seen with him is also supposed to be drowned.

Jas. L. Mason of Concord has an orange crab-apple tree, on his farm at Francestown, from which he raised 17 pecks of apples this year.

Two Claremont boys, aged about 8 years, took a horse and buggy from the shed of the Congregational church a few days ago and drove round for a few hours. It cost their parents $30.

UNION PACIFIC BUSINESS.—The New York Tribune says:

"The Pacific railroads commenced carrying emigrants to California for $70 from New York, or $42 from Omaha on the 1st of September; and the experiment has proved a gratifying success. The number of emigrants has averaged 100 per day; they are carried in good cars on the express freight train, and make the trip in less than ten days. We predict that next season will witness a large increase of business on this train.

By the way: we have seen the receipts of the Union Pacific (east end) for September up to the 24th, and they foot up $599,630 indicating $750,000 for the month. As the running expenses are but $300,000 per month, we submit that those who are so eager to force the company into bankruptcy have a difficult job on hand, especially since is is selling its lands at the rate of $200,000 per month."

A TELLING ARGUMENT.—Fisk, Jr., owed John Morrissey $82,000, which he didn't find it convenient to pay. John sent word that if it was not forthcoming in six days, Fisk would be punched. Fisk paid up.

TO BE, CERTAINLY!

WHY NOT?

THE FACT that T. F. BURTT has about the finest assortment of fine Gold WATCHES, Gold JEWELRY in sets, Fine Gold Rings, Brooches, Pearl and Garnet Rings, Masonic and Odd Fellows Pins, Gold Chains, Clocks, Spectacles, Silver and Plated Ware, is too well known to be disputed.

THE LADIES who have been so well suited from his elegant stock of valuables, know it!

THE GENTLEMEN, whose opinions are nearly as reliable as those of the ladies, are convinced of its truth!

AVERILL CHEMICAL PAINT!

THE RIGHT THING AT LAST!

BENJAMIN NORTON,

Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of

THE BEST PAINT!

ever offered in this city.

It is Durable, Beautiful, Water Proof, Elastic and Economical.

This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.

It is prepared in pure White and one hundred Different Shades, and is unsurpassed in all respects.

It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.

The best testimonials from those who have used it in other places of its superiority over other Paints might be given; but I will only invite those of this city and surrounding towns who intend using Paints, to call at the

GROCERY AND PROVISION STORE,

Nos. 16 & 18 Cabot Street,

which is the ONLY PLACE in the City where it has been used, and examine the Paint where it has been applied to ten or twelve differentshades, and where they can choose any color they desire for use, outside or in, and buy from one pound upwards.

In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.

These Paints are manufactured in New York, and Newburgh, Ohio. BENJ. NORTON,
Agent for Chemical Paint Company.

Also for sale, at the same place, the Best Quality of

MEATS AND GROCERIES!

AS LOW AS CAN BE BOUGHT IN THE CITY.

SPEER'S SAMBUCI WINE.

CATAWBA, PORT, GRAPE and P. J. Sherry.

The above Wines are made by Mr. Speer, whose reputation as a wine grower stands pre-eminent. They are well established, and long known by the Medical Profession as the most reliable and valuable wines to be had.

Every family at this season should use

SPEER'S SAMBUCI WINE,

celebrated in Spain and Portugal for its beneficial qualities, highly esteemed by eminent physicians, used in European and American Hospitals and by the first families in Europe and America.

Excellent for weak and debilitated persons, the aged and infirm, improving the appetite and benefitting the ladies and children.

SPEER'S ELIXIR OF A DIURETIC

It imparts a healthy action to the Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic affections. Also,

SPEER'S PORT GRAPE WINE

is pure juice of the Oporto Grape, recommended by Physicians as possessing medical properties superior to California or Imported Wines.

SPEER'S STANDARD WINE BITTERS

The Best and Most Reliable Tonic and Bitters in the market, which is always the

GREATEST.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

For sale by Druggists and Town Agents, who also sell Speer's Standard Wine Bitters.

A. SPEER, Proprietor,
VINEYARDS, Passaic, New Jersey.
JOHN LA FOY, Paris, Agent for France.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the United States Patent Office, Washington, under the Act of 1837,

NO. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Late Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Boston, Jan. 1, 1869.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE in all cases or no charges made.

DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar, or they will not be answered.

FALL RIVER LINE

FOR New York, Philadelphia, Baltimore, Washington, and all principal points West, South and South-west.

VIA TAUNTON FALL RIVER AND NEWPORT.

Cabin, $5.00; Deck, $4.00.

Baggage checked through and transferred in New York free of charge.

New York trains leave the Old Colony and Newport Railway Depot, corner of South and Kneeland Streets, daily, (Sundays excepted,) as follows: at 4.30 P. M., arriving in Newport 40 minutes in advance of the regular Steamboat Train, which leaves Boston at 5.30 P. M., connecting at Newport with the new and magnificent steamers PROVIDENCE, Capt. B. M. Simmons, and BRISTOL, Capt. Benj. Brayton. These steamers are the fastest and most reliable boats on the Sound, built expressly for speed, safety and comfort. This Line connects with all the Southern Boats and Railroad Lines from New York going West and South, and connects direct, to the California Steamers.

☞ "To Shippers of Freight," this Line, with its new and extensive depot accommodations in Boston, and large pier in New York, (exclusively for the business of the Line,) is supplied with facilities for freight and passenger business which cannot be surpassed. Freight always taken at low rates, and forwarded with despatch.

New York Express Freight Train leaves Boston at 1.30 P. M.; goods arrive in New York next morning about 6 A. M. Freight leaving New York reaches Boston on the following day, at 9.45 A. M.

For tickets, berths and state rooms, apply at the Company's office at No. 3 Old State House, corner of Washington and State Streets, and at old Colony and Newport Railroad Depot, corner of South and Kneeland Streets, Boston.

☞ Sunday Night Line. ☜ Cars leave every Sunday evening, at 6.30 P. M., connecting as above.

The Office, 3 Old State House, Boston, will be open every Sunday afternoon from 2 to 6 o'clock, and at the Depot from 4 to 10 A. M., and from 5 to 6.30 P. M., for sale of tickets and staterooms.

Steamers leave New York daily, (Sundays included,) from **Pier 28 North River,** foot of Murray Street, at 5 P. M.

Communication.

TRIUMPHS OF SCIENCE.—The spirit of the age in which we live, is exemplified in the progress made by one of the leading importing houses in New York, Alex. Hays & Co., 23 Maiden Lane, importers of Watches, Jewelry, fancy (English and French) goods, ingenious mechanical novelties, musical boxes and birds from Vienna, &c., have introduced a Gold Indicator in their store, connected by telegraph with the Gold Room in Broad St., by which they are informed of every sale of gold the moment it takes place.

Their business being conducted on a gold basis, the advantage derived from this invention will be readily understood. This is one of the many ways the telegraph is made to subserve the interests of the enterprising merchants of New York.

By the way, whoever goes to our nation's metropolis, let him not fail to visit 23 Maiden Lane, if he would see the amazing products of human invention. Costly bronzes, marvellously ingenious clocks, fans of faultless beauty, and ten thousand wonderful and beautiful creations of skill, fill the long counters and shelves. Musical boxes from the size of a snuff box to a parlor organ are almost ever playing the favorite strains of the master musicians, in notes of fairy delicacy and sweetness; and in great safes, artificial birds lie nestled, that will ever answer to the touch, and will warble music that would deceive the forest songster themselves. A VISITOR.

CARE OF DAIRY COWS.—Dairy cows are only profitable in some people's estimation during the summer and autumn, and many farmers actually have not enough milk in the winter to supply their own table with fresh butter, while others, to obtain some, give the two or three having the most milk about them the filthy dish-water and refuse from the kitchen, to keep them from giving some; the consequence of which is nauseous butter, which, like the stuff they feed the cows with, is only fit for pigs to eat. Dairy cows will prove the capacity of any man for the business of farming; for there is no stock which, so to say, resents parsimony so quickly, and if any one cannot make a lot of cows pay well, neither could he make a flock of sheep cut wool enough and make sufficient mutton to answer the purpose of keeping.

Penurious men must change dispositions in these days of progress, for the price of dairy produce is highly remunerative, and so also is the price of meat, so that there is a double inducement to feed well. The right sort of cows must be raised, for lack of judgment will spoil other good qualities, and the best kind of food should be grown, and this is where winter dairymen fail; for mangolds and carrots are the cheapest food to feed with hay and meal, and without roots no dairy will do well.—*Country Gentleman.*

—Professor Faber's speaking machine is to be exhibited at Hamburg during the continuance of the International Horticultural Exhibition. It is said to articulate various words, and even to answer questions by simple sentences with wonderful distinctness. This is by no means the first invention of the kind that has been exhibited. Wolfgang von Kemplen, the inventor of a chess automaton, who was born at Presburg in 1734, and died in Vienna 1804, constructed a machine of the kind and wrote on the subject. The machine about to be exhibited at Hamburg is, however, more nearly perfect than any previous invention of the kind.

—A traveller in Texas writes that Austin is a very beautiful place and though lacking the ordinary means for illuminating the streets has hit upon a very original method. He says;—"So soon as the sun goes down you see a red-haired girl come out and place herself on each corner of the street. We turn loose the lightning bugs, and the two make it as light as day. I have been brought up twice before the authorities for hugging the lamp posts, and fined heavily."

—A western paper having said of the effort of a well known lady lecturer that it was "the poorest we ever heard," was taken to task by the lady and called upon to retract. The editor apologized, said that its first remark was not true, and amends its remark as follows:—"It was one of the poorest we ever heard."

—An Indiana town was lately frightened by burglars. Twenty-five men armed to the teeth at last cornered the depredators, as they supposed, and guarded a house closely for several hours, no one daring to enter. Finally they mustered up courage, searched the house and found two cats.

—Motto for a rejected suitor—He wooed, and she wouldn't. He cooed, but she couldn't.

PERRY DAVIS' PAIN KILLER,
as an internal remedy has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, dysentery, Asthma, it cures in one night, by taking internally, and bathing with it freely. It is the best liniment in America. Its action is like magic, when externally applied to bad sores, burns, scalds and sprains. For the sick headache and tooth ache, don't fail to try it. In short, it is a Pain Killer. 4ws7

DODD'S NERVINE AGAIN.
ANOTHER CERTIFICATE.
LEDYARD, CONN., April 3, 1869.
Accept thanks for calling my attention to DODD'S NERVINE AND INVIGORATOR. I has done me more good than any other medicine I ever took. I have gained twelve pounds in flesh, and am correspondingly better every way. It is an invaluable remedy.
8wau23 MRS. JOHN T. LEACH.

WHAT ARE
DR. J. WALKER'S CALIFORNIA Vinegar Bitters.
THEY ARE NOT A VILE FANCY DRINK, Made of Rot Gut, Whiskey, Proof Spirits, and refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetisers" "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, *free from all Alcoholic Stimulants.* They are the GREAT BLOOD-PURIFIER AND LIVER-VIGORATOR PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell. $100 will be given for an incurable case, provided the bones are not destroyed by mineral poisons or other means, the vital organs wasted beyond the point of repair.
FOR INFLAMMATORY AND CHRONIC RHEUMATISM, AND GOUT, DYSPEPSIA, or INDIGESTION, BILLIOUS, REMITTENT, and INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS have been most successful. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.
These Bitters are not a gilded pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.
They an Alterative, Tonic, Diuretic, Sedative, Diaphoretic, and Gentle Purgative.
"The Life of all Flesh is the Blood thereof."—Purify the blood and the health of the whole system will follow.
R. H. McDONALD, J. WALKER, & CO., Proprietors,
San Francisco and Sacramento, California, and 32 and 34 Commerce St. (Commerce, a short street running from Bleeker to Barrow), N. Y.
SOLD BY ALL DRUGGISTS AND DEALERS.
1ywau23

COLGATE & CO'S.
AROMATIC VEGETABLE SOAP,
COMBINED WITH GLYCERINE, IS RECOMMENDED FOR THE USE OF **LADIES** AND IN THE **NURSERY.** ap8ly
SOLD BY ALL DRUGGISTS.

"Ingenio Stat Sine Morte Decus."
ROCKY MOUNTAIN BITTERS
IS a very superior Regulating Tonic, imparting vigor and strength to the constitution—a thoro'
PURIFIER OF THE BLOOD,
a regulator of nervous force, and a powerful sustainer of health against the encroachments of disease.
The invalid and convalescing seeking restoration, and yearning for the healing virtues of some magic balm, will find in these Bitters a hidden mysterious power, which QUIETLY RESTORES, yet refuses to reveal to the senses anything but taste and color.
It is a pleasant Bitter, free from all nauseous properties odor, entirely vegetable, being mainly grown at the base of the mountains from which they derive their name, and is particularly adapted to all forms of
DYSPEPSIA OR INDIGESTION,
manifesting themselves by the following symptoms: headache, nervousness, loss of memory, low spirits, giddiness, dimness of sight, dullness of hearing, and ringing noises in the ears, eructations, of belching of wind, tightness of breathing, weight and oppression of the chest, uneasy feeling about the heart, palpitation, &c.
Also for Liver Diseases, Disorders of the Kidneys, Restlessness and loss of Muscular Power, these Bitters will be found almost a specific; and as a preventative of
FEVER AND AGUE
or a restorer of the natural powers of the system, when broken down by continued ague attacks; it has no equal.
Being stimulating, (but not intoxicating), they refresh and invigorate both mind and body, heighten the sensibility, clear and sharpen the faculties, and bestow alacrity and cheerfulness of spirit.
CAUTION.—There have been, and still are several parties manufacturing and selling so-called "Langley's Bitters," many of which are worthless. As a guide against such, I would say that in 1866, I secured my copy-right, in the United States Court, a trade mark and name, "Rocky Mountain Bitters," and all Bitters of my manufacture are put up in *dark, long neck, quart bottles* with red label printed with gold; also, direction label, bearing my seal and directions printed in red, with a red cap and my seal printed in gold, over the cork. Beware of all others, and ask for **"Rocky Mountain Bitters."**

The Daily Chronicle.

Portsmouth, N. H.

SATURDAY, OCT. 9, 1869.

The News.

The New York Gold Exchange Bank is solvent.

The temperance party of Minnesota have made nominations for State officers.

The opposition members of the French Corps Legislatif are said to have determined to sign a protest to the effect that the Emperor has violated the constitution, and that violation has absolved them from their oaths of fidelity to him.

The Danish Parliament (Rigsdag) opened on Thursday.

The Republican members of the Virginia legislature have protested against the legality of that body.

The ownership of the Andersonville, Ga., property is in dispute.

Further returns from the Connecticut municipal elections, give republicans 69, democrats 54; a gain of seven towns for the republicans and four for the democrats.

A Trans-continental Railroad Convention is in session at Oswego, N. Y. It favors a railroad from Portland, Me., to Puget's Sound on the Pacific.

St. Louis has a Woman's Suffrage Convention.

The earnings of the Central Pacific Railroad for September were $597,500 mostly in coin.

Buffalo has an International Industrial Exhibition.

Additional though not later news has been received of Dr. Livingstone. He was seen fourteen months ago by an Arab at Lake Tanganyika. The Arab says he was going towards the west, and was probaly endeavoring to reach Congo. There were no doubts of his safety at Zanzibar.

New Hampshire Items.

Ex-President Franklin Pierce died at Concord, Friday morning, aged 66 years. He was born in Hillsborough, Nov. 23, 1803. His disease was chronic inflammation of the stomach, attended with dropsical effusion of the abdomen.

Mr. Bickford, of Epsom, and J. H. Snow and wife, of Suncook, while riding in a carriage across a causeway, where the water overflowed the road, met with an accident. The horse fell into a deep gully that had been washed out, and was drowned, while the whole party had enough to do to save themselves, the lady having a very narrow escape.

Smart & Burnham, of Newmarket, have enlarged their saw mill and added to their machinery.

Mr. Hunton, an old gentleman 85 years old, fell dead while at the dinner table of his son, in Suncook, on Wednesday.

James S. Crowthier, only 10 years old, of Claremont, has been convicted of attempting to burn the Home Mill, by setting fire to some cotton in the picker room, and has been sent to the Reform School for three years.

Prof. Sanborn says that New Hampshire yields 40 and 8-10 bushels of corn per acre, which leads all other States.

—The New York Independent says two-thirds of the students in the General Episcopal Theological Seminary in New York city have just gone over to the Roman Catholics. The institution is under decided High Church control.

—A petroleum company which has been "boring for ile," in Louisiana, for nearly three years, has struck a bed of sulphur 204 feet thick—a good place for a camp-meeting.

—Messrs. T. B. Gardener & Co. have obtained the exclusive privilege of advertising on the New York post office fence for two years for $15,000.

—Every New York paper published the result of the boat race first. The same sheet has the largest circulation. —*Springfield Republican.*

—A lady in Rhode Island subscribed for a Newport paper, the other day, to be sent to a neighbor who worried her by borrowing her own.

—A correspondent thinks that one of the most surprising feats of the last administration was getting Mudd out of the Dry Tortugas.

—The Democratic candidate for Secretary of state in Mississippi is a negro. "To this complexion have we come at last."

—Mountain City, Nevada, is to have a new Journal to be called the Weekly Six-Shooter.

—Water runs over Niagara Falls at the rate of 1,500,000,000,000 feet every minute.

—Nast, the artist, is gradually becoming near-sighted owing to excessive labor.

—An Iowa orchard contains sixty thousand bearing apple trees.

—They are demolishing the Bull Run breast-works in Virginia.

—A General Hayes obscures democratic prospects in Ohio.

—Curtis gets $7,500 a year to sit in Harper's "Easy Chair."

FRANKLIN PIERCE.—The telegraph announces the demise of Ex-President Pierce, chief of the New Hampshire Bourbons and the real leader of the Democracy of this State, since '52. He was a man of considerable talent, but his influence was the result of his remarkable suavity of manner, which won him hosts of personal friends and admirers.

He was a weak President—a willing tool of the Southern wing of his party, with whom he joined heart and hand in the iniquitous Kansas-Nebraska measure, which roused the free people of the North to a sense of their danger should the Democracy retain control of the government.

The Republican party sprang into existence, and the Know Nothings put out their platform in opposition to the Democrats. The two became merged under the banner of the former, and in 1855 New Hampshire spoke in thunder tones in condemnation of her distinguished son and the party which chose him President.

Since 1855 every election in this State has resulted in a Republican victory, and the Democracy though led with desperation, and in some cases polling nearly half the vote of the State, have been crushingly defeated.

This result is partially due to the suicidal policy of their leaders, who never forget and never learn. They have been an incubus upon the party, and their ship has always been "down by the head," to use a familiar and expressive quotation.

The death of Pierce may release them, in a measure, from their thraldom, but there are other leaders, though not so influential, who will still cling to their pet ideas and foist them on the party when possible. And in so doing they but confirm the Republican ascendency in this State. The young men may, in time, get control of the Democratic organization, and inject a little common sense into their platforms and candidates. Then they will spiritedly contest every election, without carrying too much dead weight, and political contests will be fierce and protracted in our annual elections. Franklin Pierce's decease offers the opportunity for a right-about face among the Democracy, which they will discern if wise, but wisdom without conceit is what they have to learn.

Franklin Pierce will not be remembered as a brilliant man. It will be said that he occupied the Presidential chair, but never that he sustained his country in its bitterest trial. His letter of encouragement to Jefferson Davis in secession times, his famous Fourth-of-July speech at Concord at the time when the nation's life hung in the balance and Gettysburg was an unwon victory, his well-known sympathy with the traitors who fought to destroy the Union, will be remembered by the present and future generations, with bitter contempt for the man who could have done so much, yet did so little, for his country, —the once trusted and popular but now unhonored son of New Hampshire, whose only bequest, worst of all, to his native State, was that he was its only citizen who ever occupied the Presidential chair. G.

KITTERY, ME., Oct. 8.

Messrs. Editors:—My last letter was very much like a "growl," but this time I am not so indignant, having just heard something which has pleased me, and will gratify all true friends of sobriety and decency. I have been informed that our free traders in rum were admonished to quit their accursed traffic—to the tune of about $170 each; and though I cannot vouch for its entire correctness, I believe it is quite true,—and certainly hope it is. Report also says that one of them who did not get indicted for selling, has come to grief for not complying with the Internal Revenue laws, as a Manufacturer or Brewer. Good.

About the worst den in the village escaped in the general assault, for none of the respectable moderate drinkers who were summoned as witnesses ever entered the vile rookery; and those who regularly patronize it would be of little worth on either side in a court of law. But the temperance "tidal wave" will wash it out, yet; and few even of the drinkers—none of any respectability—will regret it.

Our Temperance Alliance Committee and Selectmen are deserving of all praise for their energetic and persistent action in closing the saloons, in face not only of the genuine rum power but of much dissatisfaction and complaint from more valued citizens. Many of the latter, who have somewhat recovered from their chagrin at having their little private sins made the means of their being introduced to the court as witnesses, now applaud the course taken by our temperance authorities, and say "go ahead" as heartily as any. Yours, GAY.

EX-MINISTER HALE.—The Madrid, Spanish, "Reforma" newspaper published the other day a very complimentary article on Hon. John P. Hale, who is now staying at Biarritz. If any one wants a more complete refutation of Smalley's charges of Mr. Hale's want of sympathy with the Republicans of Spain, we think it would be very difficult to satisfy him. It is a complete vindication of Mr. Hale, and a well deserved tribute to his faithful and efficient services, which will be nowhere more thoroughly appreciated than here in his own home, by his life-long friends and neighbors. Just as we always expected from so true and staunch a friend of human rights and progress.

New Publications.

The Singing People, a new publication by Philip Phillips, 805 Broadway, N. Y.; 50 cts, per yr. It is a Christian, musical monthly and is full of interest.

Standard Phonographic Visitor, by Andrew J. Graham, 563 Broadway, N. Y. A guide to beginners and an interesting aid to proficients in short-hand writing.

Hitchcock's Monthly Magazine; Benj. W. Hitchcock, 24 Beekman St., N. Y.; 25 cts. each copy. Handsomely printed and filled with music and excellent reading.

KINDNESS REWARDED.—Some forty years ago Mr. S. W. Davis, a bookseller in Cincinnati, extended pecuniary aid to a Mr. B. T. Hanley, almost an entire stranger to him, which saved him from bankruptcy. Mr. Hanley shortly after left Cincinnati for Missouri, and he now turns up at St. Louis with a fortune of $2,000,000, which he has devised by will to Mr. Davis in consideration of the aid furnished him in his time of need.

☞ Rev. John Boyden, for many years pastor of the the Universalist Church at Woonsocket, R. I., died there Sept. 28, aged 60:—highly esteemed by all who knew him, as a beloved and talented brother, of spiritual and devotional life, christian walk, and amiable manners.

☞ The Internal Revenue Commissioner has decided that sweet potatoes are grains when used for purpose of distillation. Sweet potatoe whiskey caused the necessity for a decision.

CONVENIENT. — The coroner's jury have rendered a verdict blaming the engineer in charge of the boiler exploded at the Indiana Fair Grounds. He was killed at the time.

☞ Lucy Stone argues that woman should not be made a soldier when she votes, because she "perils her life when a soldier is born." That is a risk that Lucy never ran.

☞ San Francisco papers report the loading of a bark for Hong Kong "with a cargo of old scrap iron, boxes of dead Celestials, and other produce."

☞ Our correspondents will confer a favor by making their letters short,—not to exceed a half-column, if possible.

☞ The Havanese are softening, now that an American man-of-war has appeared there.

—Brick Pomeroy flatly says: "A Democrat is a repudiator, and it may as well be known first as last."

—Colorado has gone Republican. Her politics and her mines have the genuine silver ring.

BUSINESS NOTICES.

WITH DYSPEPTICS everything is wrong. Food does not digest; sleep does not refresh: wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it or it will become seated and confirmed, and life will be a burden and existence a curse. PLANTATION BITTERS will do away with all this. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the lustre in your eye will again be as bright as in your healthiest, happiest and most joyous days.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

Every family in town should keep a bottle of Keene's Pain-Killing Magic Oil in the house. Directions for use will be found on each bottle.

FACTS FOR THE LADIES.—I have used my Wheeler & Wilson Sewing Machine for more than ten years steady, at dress-making, from ten to fourteen hours a day. For the last nineteen months I have used the same needle, and am still using it. My machine is in as good working order to-day as when I first got it.

NEW YORK. MARTHA CAVAN.

There is no disease flesh is heir to more troublesome to manage than Rheumatism. It comes when you least expect it, and generally remains till it gets ready to go away. The most conspicuous remedy for this complaint is "Johnson's Anodyne Liniment."

Two or three doses of "Sheridan's Cavalry Condition Powders" will cure a horse of any common cough or cold, and the very worst cases may be cured in a few weeks. We know this from experience.

TONICS.—Those who resort to tonics will find Speer's "Standard Wine Bitters" the best adapted to benefit the different ailments of the system, whether diseased or debilitated from over exertion or by any other cause. Try them. Sold by Druggists.

SPECIAL NOTICES.

DEATH TO PIN-WORMS.

Eminent physicians say that more sickness among children results from Pin-Worms than from any other cause. A safe and effectual remedy for these troublesome and often dangerous pests is found in DR. GARLIDE'S PIN-WORM SYRUP. Cure for adults and children warranted without injury to health. Price 75 cents. GEO. C. GOODWIN & CO., Boston, and all druggists. of 6mo

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, before you place yourself under any one of the notorious QUACKS—native and foreign—who advertise in this or any other paper, get a copy of Dr. Young's Book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

Holloway's Pills.—COLDS AND SORE THROAT.—The foundation of a cold or affection of the throat that lasts the winter through is often laid in autumn. If you are threatened with disease of any of the respiratory organs, rub the external surface night and morning with HOLLOWAY'S OINTMENT and keep the bowels regulated with HOLLOWAY'S PILLS. A cold, cough or sore throat promptly treated in this way is speedily cured, and all danger of consumption or bronchitis avoided. Sold by all Druggists.

ASIATIC CHOLERA IN CHINA.

TUNGCHOW, China, Aug. 23, 1866.

MESSRS. PERRY DAVIS & SON:

Dear Sirs—During a long residence in China, I have used your invaluable Pain Killer, both in my own family and among the Chinese, and have found it a most excellent medicine. In the summer of '62 and '63, while residing in Shanghai, I found it an almost certain cure for Cholera, if used in time. Indeed using it in a great many instances, I do not remember failing in a single case. For three years I have been residing in this place, more than fifty miles from a physician, and have been obliged often to full upon my own resources in cases of sickness. The Chinese come to us in great numbers for medicine and advice. Though without medical knowledge ourselves, the few simple remedies we can command are so much in advance even of their physicians, that we have almost daily applications. We allow them to come because it brings us in contact with them, and opens a door to usefulness. In cholera, colic, vomiting, cholera, coughs, &c., your Pain Killer has been my chief medicine.

Yours, very truly, T. P. CRAWFORD.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its paincurative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to say again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. ol

FRIGHTFUL DEVELOPMENTS!

At last the people have got the fact "through their hair," that hair dyes impregnated with acetate of lead and other metallic salts are

MURDEROUS PREPARATIONS.

When they see the metallic sediment at the bottom of the bottles, they know that the disgusting stuff is literally *thickened with Poison*. They ask, therefore, for a

Harmless Vegetable Dye,

and find it, pure and efficacious, in

Cristadoro's Excelsior Hair Dye

offered under the sanction of Professor Chilton's guarantee that it contains "nothing deleterious." CRISTADORO'S HAIR PRESERVATIVE, a Dressing, acts like a charm on the Hair after Dyeing. Try it. 1md&wo4

In Remote Settlements of Untod Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, cleansing the first of bowels and blood. Their untold value is to those living in settlements where doctors can only be had at enormous expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box.

Sold by all Druggists.

New is the Time

To repair the inroads made upon the physical strength by the heated term which has closed with September. The vitality that has been oozing through the pores in the form of prespiration, for the last three months, requires to be replaced, as a preparative to the cold season which makes such disastrous havoc with relaxed bowels untoned systems. The reserve of vigor with which the stoutest man commences the Summer campaign is drained out of him at its close, and unless by some means he acquires a new stock of vital energy wherewith to encounter the shock of a colder season, he may droop and wither like the fading leaves whose life-sap has exhausted. Is it is thus with the strong, how much more perilous is the condition of the weak and ailing. Their reason must suggest to them, more forcibly than these printed words, the necessity for *invigoration*, and the world having decided, after an experience of almost a quarter of a century, that HOSTETTER'S STOMACH BITTERS embrace such restorative properties as are not possessed by any other tonic and alterative preparation in existence.

The importance of restoring to that great RENOVATOR AND REGULATOR OF THE HUMAN MACHINE, at this critical season, is as obvious as the light of day. Let all who desire to escape the attack of chills and fever, bilious remittent fever, dysentery, diarrhœa, dyspepsia, rheumatism, hypochondria, or any other of the diseases of which the Fall season is the prolific parent, have recourse promptly to this celebrated preventive and restorative. ol

Dr. Hopkins' Iron Tonic,

A BLOOD PURIFIER AND REGULATOR, Cures Dyspepsia, Loss of Appetite, Liver Complaint, Sick Headache, Depression of Spirits, Neuralgia, Nervous Affections, Disease of the Skin, Consumptive Tendencies, Chronic Diarrhœa, and Diseases peculiar to Females.

ALLEN'S LUNG BALSAM,

The Remedy for curing CONSUMPTION, COUGHS, BRONCHITIS, ASTHAMA, and CROUP. As an Expectorant, IT HAS NO EQUAL.

It is composed of the active principles of roots and plants, which are chemically extracted, so as to retain all their medical qualities.

Ministers and Public Speakers

Who are so often afflicted with throat diseases, will find a sure remedy in this Balsam. Lozenges and wafers sometimes give relief, but this Balsam, taken a few times, will insure a permanent cure.

Will all those afflicted with Coughs or Consumption, give this Balsam a fair trial, they will be pleased with the result, and confess that the sure remedy is found at last.

IT IS SOLD BY ALL DRUGGISTS.

CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS for Diseases of the Liver, or to act as a gentle Purgative.

All of these three medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills assist in regulating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These medicines are conscientiously offered to the public as the only safe, certain and reliable remedies for pulmonary Consumption, and for all those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long population before the public. Its value has been through a period of more than thirty-five years, in all of which time its reputation has constantly increased, and the most decided skepticism can no longer doubt that it is a remedy which may be used with confidence in all cases which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, he will certainly be cured, if his lungs are not too much wasted to make a cure possible. Even in cases supposed to be incurable, when friends and physicians have despaired, the use of the medicine has saved the life of the patient, and restored him to perfect health.

Dr. Schenck himself was cured in precisely such circumstances, and many others have been equally fortunate by judiciously making a timely use of Dr. Schenck's remedies.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he emphatically asserts, that often when patients have the most alarming symptoms, such as a violent cough, creeping chills, night sweats, and general debility, even to such a degree that they are obliged to lie in bed, and when they are given up by their physicians, they may still be cured. No medical treatment can create new lungs, but when the lungs are very badly diseased, and to some extent destroyed, a cure may be effected by Dr. Schenck's medicines.

Also in Scrofulous diseases these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores, and now all healed up. This shows its purifying properties, which must be done to heal cavities in the lungs.

In the treatment of Consumption, it is of the utmost importance to give vigor and a healthy tone to the system. Hence it is necessary to strengthen the appetite of the patient and improve the digestion. Proper nourishment is required, together with such means as will make the food easily digestible. The articles most suitable for the diet of consumptive patients are designated in Dr. Schenck's Almanac, which are distributed gratuitously. In general, the most nutritious articles are to be preferred; but the digestive organs must be strengthened in order to make either food or medicine serviceable. This requirement is met by the Sea Weed Tonic, and for this purpose it was designed.

When the digestive powers are put in good order, the food has its proper effect, the system of the patient is invigorated, and the lungs begin to exercise their functions in a normal and healthy manner. Then the healing powers of the Pulmonic Syrup will complete the cure.

Pulmonary Consumption is almost always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills are intended to remove obstructions from the liver and restore its healthy action. They have all the efficacy which is ascribed to calomel or "blue mass," and are warranted not to contain a particle of any mineral poison. These pills cure the most obstinate costiveness, sick headache, piles, billious affections, and all other diseases which arise from a torpid or obstructed condition of the liver. One box of these pills will prove the efficacy of the medicine.

In Consumption, the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines. They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. They have been found useful in advanced stages of Consumption, where the lungs were almost entirely destroyed, and all symptoms, according to the judgement of physicians, indicated speedy death. Lives of patients who were actually in a dying condition have been preserved for months by the use of Schenck's three great remedies.

DR. SCHENCK'S Almanac, containing a full treatise on the various forms of disease, his mode of treatment and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North Sixth Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggist and dealers.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable substitute or alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but possessing all the medicinal properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous and dangerous compounds of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this valuable remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its active components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy, and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge**, will ever again take a purgative powder, or draught or pill.

Wholesale agent, John F. HENRY, No. 8 College Place, New York City.

Batchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. Sold by all Druggists and Perfumers, and properly applied at the Wig Factory 6 Bond Street, New York.

STATE OF NEW HAMPSHIRE,

ROCKINGHAM, SS.

By the Hon. Judge of Probate for said County.

To the heirs at law and creditors to the estate of WASHINGTON WILLIAMS, late of Portsmouth in said county, deceased, testate, and all persons interested in said estate, Greeting.

You are hereby notified that LYMAN B. JEWELL, CHARLOTTE A. WILLIAMS and DANIEL MARCY, Trustees of shipping under the will of said deceased, will present their account as Trustee of said estate at a Court of Probate to be holden at Portsmouth in said county, on the First Tuesday of November next, at 10 o'clock. A. M., for examination and allowance.

You are therefore hereby cited to appear at said Court to be heard thereon, and to make such objections as you may then have. And notice is hereby required to be given by causing this citation to be published three weeks successively in the Morning Chronicle a newspaper printed at Portsmouth, the last publication whereof to be at least one week prior to said Court.

LOCAL AFFAIRS.

☞ Harpers on the harp abound.

The U. S. steamer Speedwell (tug) sailed for New York on Friday, to bring the U. S. ship New Hampshire around to this Station.

☞ The City Physician states that there are now but two cases of small pox in the city—one on Daniel Street, corner of Linden, and the other in South Mill St.

Communication.

☞ The person who had four inches of Snow and one of Ice in his garden, on Oct. 3d of last year, lived in a higher latitude than Portsmouth, for it sprinkled rain in the morning and was fair in the afternoon of Oct. 3, 1868. On the 17th, Snow covered the ground 2 or 3 inches deep and all vegetation was killed. L.

FINES AND COSTS.—The City Marshal reports the whole amount of Fines and Costs collected by the Police Department (including several sums paid in to the keeper of the House of Correction,) for the quarter ending Sept. 30, to be $486.67; from which $52.97 were paid out as witness fees and for warrants, leaving $433.70, which has been paid in to the City Treasury.

☞ Mr. Charles E. Laighton has been in business in this city, longer than any other man, we believe—about 55 years, we think.

Messrs. Stephen H. Simes, David Kimball, Benjamin Cheever and E. M. Brown, are the veterans of Market St., and have all been there from forty to forty-five years, or more, we think.

Hill & Carr are the oldest firm in the city, and by no means infirm yet. They send measure work to customers in almost every State in the Union; which shows that their boots wear well, like themselves.

THE CITY MARSHAL'S REPORT to the Mayor and Aldermen, of the business of his Department, we give below.

Gentlemen:—In accordance with my duty, I respectfully make the following report of persons confined and lodged in the Station-house, for the quarter ending September 30, 1869.

Aggravated assaults 1, assaults 26, attempt to kill 1, breaking and entering 5, brawl and tumult 7, deserters 22, common drunkards 5, drunkards 288, disorderly conduct 6, disorderly houses 3, fast driving 1, fornication 5, horse stealing 1, insane 1, larceny 21, larceny from person 1, lodgings 91, malicious mischief 1, persons assisted to their homes 10, profane language 1, vagrancy 1, violating Sunday ordinance 1; total 449. F. B. JOHNSON, *City Marshal.*

SUPERINTENDENT'S REPORT, to the Mayor and Committee of the House of Correction:

Gentlemen: I would respectfully report that the Records show that the number of Committals to the House of Correction from Oct. 1, 1868, to September 30, 1869, was 53,—37 male and 16 females,—for the following causes.

Drunkenness 38, common drunkards 9, night walking 2, using profane language 1, brawl and tumult 2, giving false alarm of fire 1. 12 paid fine and costs, 8 deserted, 22 served time; 11 remaining at the House. Number of days labor performed by male prisoners, from Oct. 1, 1868, to September 30, 1869, 589. Number of weeks labor performed by female prisoners, from Oct. 1, 1868, to September 30, 1869, 71. Amount of fines and costs collected, and paid City Marshal, $145.68.

H. L. SCOTT, *Master House Correc'n.*

IN THE BOARD OF ALDERMEN, Thursday evening,—the Mayor and Ald. Pendexter absent, Ald. Nowell in the Chair—the Quarantine Ordinance was reported back from the Com. of Bills on 2d Reading, without amendment, and passed.

The City Physician appeared before the Board, in relation to small pox cases; stating that Mr. Shillaber declined to attend more cases. Also, that the Dr.'s orders relative to sanitary precautions has been disobeyed. The Mayor, and Ald. Nowell and Cotton were appointed a Committee to co-operate with the Board of Health, in taking measures to prevent the spread of small-pox,—with power to act, in the appointment of watch, providing for vaccination of poor people, &c. Dr. Dearborn stated that there are now but two cases of small-pox in the city.

Petition of Mrs. Pickering, of Greenland, for relaying of sidewalk at residence of Dr. Ryder on Congress St., was granted.

Likewise petition of Miss Pickering, for relaying of sidewalk on Austin St.

The petition of B. Norton, for concrete walk on Cabot St., not reported on by Com. on Sts., for lack of time to examine into the matter. Ald. Miller alone of all the Board, seemed to favor concrete.

THE TILL ROBBERS succeeded in getting away successfully with the money taken from the store of Messrs. Chas. E. Laighton & Son. Mr. Jeff. C. Rowe, of the P. S. & P. R. R., on hearing of the affair left his train at South Berwick Junction and found the suspected parties in the B. & M. train. Arrived at Dover, he called two policemen standing in the depot, and proceeded with them to the smoking car where he placed his hands on the shoulders of the men he was tracking, and said "There are the men I want you to arrest." The men appeared calm and unconcerned, but were doubtless greatly relieved on hearing one of the efficient(?) policemen say, "We can't arrest them—we have no authority."

Mr. Chas. M. Laighton had taken the train to Newmarket Junction over the P. & C. Road, in company with the Sheriff of Strafford County, and the latter, who was going to Exeter, got on the B. & M. train to search through the six cars for the thieves. After the arrival of the train Mr. Rowe got off met Mr. Laighton, and informed him that the men he wanted were on that train. They telegraphed to Exeter and Haverhill for officers to arrest the parties, but it is probable that they succeeded in reaching Massachusetts in safety. Mr. Rowe saw them exchange hats on the train.

Mr. Laighton states that he did not leave the men in his store when he went down cellar to wait on a customer but that he heard them come in while there, and found the key in the desk from which the pocket book had been taken, in two minutes after the robbery.

The Dover officers seem to have been afflicted with the red tape mania, else they would have secured the men pointed out to them. Had the Portsmouth City Marshal or either of his faithful Assistants been called on to arrest strangers under the same circumstances, here, there would have been no hesitation; and their well-known prompt action in doubtful as well as undisputed cases, doubtless accounts for the fact that thieves generally steer clear of Portsmouth, though these fellows seem to be exceptional cases.

NAVAL.—1st Assistant Engineer N. P. Towne is ordered to duty at this Station.

1st Assistant Engineer I. S. Finney has been detached from this Yard and ordered to New York on special duty. Mr. Finney has many friends who regret that he is to leave and wish him success in his new line of duty.

A LITTLE MORE GRAPE.—Our old friend John S. Harvey, Esq., who never forgets nor neglects the Chronicle—sends us a handsome sample of his vine which we hope will long thus continue to cheer him and his fortunate friends. The reign of this Isabella is much more agreeable than that of she of Spain. F.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Chronicle office. Price 5 cts. per copy—$2. per year. Contains *all* the Local and other reading from the Daily Chronicle.

☞ James Barrett fell from the brow of the Wyoming at the Navy Yard on Friday. Two ribs were broken and Mr. Barrett was considerably shaken up.

WORTH GAZING AT,—T. F. Burtt's tempting display of diamonds and rich jewelry, in his show-window at No. 40 Congress St.

—A Long Branch hotel has spent over $6,000, for advertising this season, and consequently was crowded.

A PACIFIC RAILWAY

GOLD LOAN $6,500,000.

We beg leave to announce that we have accepted the agency of the

KANSAS PACIFIC RAILWAY COMPANY,

For the sale of its

NEW SEVEN PER CENT.
Thirty Year Gold Loan, Free from Tax.

This Loan amounts to $6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds,

secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon the Road, the Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,

And in successful operation for 437 miles

west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first morigage of the

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as

A SINKING FUND FOR THE REDEMPTION OF THE BONDS.

The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the

Value of the Company's property, covered by this mortgage at $25,000,000 net, while the Loan is merely $6,500,000.

The Bonds have

THIRTY YEARS TO RUN,

from May 1, 1869, and will pay

SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be

PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:

On $1,000 Bond in N. Y. $35 (gold) each half year.
" " London....£7 8s. 1d. " "
" " Frankfort..87 fl. 30 kritz., "

The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a

FIRST CLASS INVESTMENT,

in every respect perfectly sure, and in some essential even

Better than Government Securities.

The Bonds will be sold for the present at

96, and accrued Interest, both in Currency,

the Agents reserving the right to advance the rate.

The attention of investors is in vited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

Pamphlets, with maps giving full information, sent on application.

ALLEN'S LATIN GRAMMAR. — *To Mr. Edwin Ginn, 117 Washington St., Boston.—Sir:*—I am provoked with you and your grammar. Your name should have been a hint to look before I put my foot in. I didn't want a Latin grammar. I bought a good one in 1831,—Adams'. I lent it in 1832, and it has not come back yet. The only one I have had since is in my head, and is very much like the one my four-year-old uses in his English. It is true I have been plagued some when my young friends have brought the new-fangled grammars, and I have looked in vain for the rule beginning "Verbs compounded with these nine prepositions,"— or "Time when,"— or "Est taken for habeo," — but I have lived through it all.

And now I have spent more time in examining these 154 pages than I did Bickmore's 553, octavo, and not half so pleasantly. Twice I have resolved to quietly return the book and never say a word about it; once because it was too small, and then because it had too much in it. I wish I had not changed my mind both times. But after all this work I find that there are Latin lessons to go with it, to show what part of this book to learn first. So you have set me to work with half a pair of shears,—would have me study the under side of a carpet. Then there is to follow that magnificent Madvig's Grammar. So I will tell my readers flatly that I know nothing about your books. Only my friend Carleton likes it, and he is the best teacher of Latin I know. You are probably unaware that he recently took his place at the head of the Connecticut State Normal School. The right man in the right place, only the change ruins the best girls' school I know of around Boston. I. F. HOLTON.

BILLINGS ON THE BLACK MAN.—The black man emigrated tew this great and pius kuntry about 200 years formerly, in the lower story ov a vessel; he was kindly furnished with a free ride, and some rice and water for vittles.

Immediately upon his arrival he commenced bizzness for other folks on our eastern coast, and had plenty tew do.

He was very ekonomical in his habits, of clothes, wearing but few, and these seldom made out ov cassimere.

He okasionally changed his lokation, moving into an adjoining State, but in these jurnies he was alius kindly furnished with a gide, so that there wuz no danger of his gettin lost.

In these trips he seldom took his family with him; they were either to remain at hum, or to make excursions in search of work to other States, under the guidance of experienced gides.

Once in a while the black man would stray away far tew the cold and bitter North, and get cruelly lost.

His gides would mourn for him then, and sarch for him, but his family soon got reconciled tew the loss.

Everybody sed, where he lived, that he wuz the happiest kritter that had ever bin discovered yet, with nothing tew do but work, and a kind gide to watch over him awl the time, and mourn for him when he got lost.

But the black man is a very phoolish critter.

☞ Some wag records the following decisions under the internal revenue law:—

The latest decisions of the Commissioner of Internal Revenue cover the following points:—Parties using paper collars must use them from their original package; that is, from the box in which they have been purchased; and a three-cent revenue stamp must be attached to each one when put on. When the collar becomes soiled, and is turned with the clean side out, it must receive another three-cent stamp, and must also be conspicuously stamped with the word 'turned.' Boxes when emptied cannot be used a second time, but must be destroyed in the room where emptied, and the assessor furnished with a certificate of the fact. It thrown out of the window or carried out in a coal-scuttle or wash tub, such boxes will be subject to export duty.

Bootblacks are required to use their blacking just as they find it when the box is opened, adding nothing to it whatever. The act of spitting in the box and smearing the contents with the brush constitutes the boot black a mixer, or rectifier, or manufacturer of blacking, and he must pay the ordinary manufacturer's license. Each boot blacked, for which the sum of five cents is paid by the wearer, must receive, at the expense of the bootblack, a four and three-quarter cent stamp."

JIMMY M——— was one of the bright boys, and although but seven or eight years old, had evinced a love for wealth, and looked forward to the time when he should be a rich man.

One morning, at breakfast, his aunt informed him that during the night a pair of twins had been added to the family, which already consisted of three beside Jimmy.

The boy dropped his knife and fork and exclaimed—

Gracious! Aunt Mary, if father and mother keep on at this rate, there won't be fifty dollars apiece to divide amongst us!

THE U. S. UNIVERSALIST CONVENTION. The Universalists held an enthusiastic annual convention at Buffalo. Next year is the centenary of Universalism,—as a separate religious body in the United States;—the convention is to be held in Gloucester, Mass., where the first congregation was organized. The Universalists in Ohio have 112 societies, 47 ministers. These are organized into 14 associations. In the United States they have 792 societies, 588 ministers and 83 associations. The Unitarians have 383 ministers.

☞ One of the most exciting trots on record was that for 2:30 horses at Riverside Park, Boston, a few days since. Nine heats were trotted before the winner could be determined—Jessie Wales finally coming off victor. The Turf Field and Farm says this is the only instance of a nine-heat race in the annals of the turf, and it is worthy of note as a consequence. Jessie Wales, we believe, is an Ajax colt, and consequently sister to Mr. Mann's stallion Greenland, his dam being Mr. Mann's well known blooded mare Dolly, a good and game animal, now nearly thirty years old.

FATHER HYACINTHE. — From France, by cable, we have the announcement made by Father Hyacinthe that he leaves his monastic order and withdraws from his allegiance to Pope and Council. The New York Independent remarks, that "Father Hyacinthe has become the most famous preacher of his day and the popular orator of the Madeleine and Notre Dame, and his "defection" may bring with it the most important consequences to Romanism in France." This is not the first time that he has been called to consider the step, and last year he was summoned to Rome to answer for some of his liberal utterances. The telegraph now tells us that he will be excommunicated.

—Dexter is so named from his habit of putting the right foot foremost.

TO BE, CERTAINLY!

WHY NOT?

The FACT that T. F. BURTT has about the finest assortment of fine Gold WATCHES, Gold JEWELRY in sets, Fine Gold Rings, Brooches, Pearl and Garnet Rings, Masonic and Odd Fellows Pins, Gold Chains, Clocks, Spectacles, Silver and Plated Ware, is too well known to be disputed.

THE LADIES who have been so well suited from his elegant stock of valuables, know it!

THE GENTLEMEN, whose opinions are nearly as reliable as those of the ladies, are convinced of its truth!

THE PATRONS GENERALLY testify that it is best to purchase THE BEST, and that the BEST PLACE is at

T. F. BURTT'S, 40 Congress St.

AVERILL CHEMICAL PAINT!

THE RIGHT THING AT LAST!

BENJAMIN NORTON,

Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of

THE BEST PAINT!

ever offered in this city.

It is Durable, Beautiful, Water Proof, Elastic and Economical.

This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.

It is prepared in pure White and Nearly Hundred Different Shades, and is unsurpassed in all respects.

It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.

Many testimonials from those who have used it in other places of its superiority over other Paints to get be given; but I will only invite those of this city and surrounding towns who intend using Paints, to call at the

GROCERY AND PROVISION STORE,

Nos. 16 & 18 Cabot Street,

which is the ONLY PLACE in the City where it is being used, and examine the Paint where it has been applied in ten or twelve different shades, and where they can choose any color they desire for use, outside or in, and buy from one pound upwards.

In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.

These Paints are manufactured in New York, and Newburgh, Ohio. BENJ. NORTON,

Agent for Chemical Paint Company.

Also for sale, at the same place, the Best Quality of

MEATS AND GROCERIES!

AS LOW AS CAN BE BOUGHT IN THE CITY.

SPEER'S SAMBUCI WINE.

CATAWBA, PORT, GRAPE and J. Sherry.

The above Wines are made by Mr. Speer, whose reputation as a wine grower stands pre-eminent. They are well established, and long known by the Medical Profession as the most reliable and valuable wines to be had.

Every family at this season should use

SPEER'S SAMBUCI WINE,

celebrated in Spain and Portugal for its beneficial qualities, highly esteemed by eminent physicians, used in the European Hospitals and by the first families in Europe and America.

Excellent for weak and debilitated persons, the aged and infirm, improving the appetite and benefitting the ladies and children.

AS A DIURETIC

it imparts a healthy action to the Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic affections.

SPEER'S PORT GRAPE WINE

is pure juice of the Oporto Grape, recommended by Physicians as possessing medical properties superior to California or Imported Wines.

SPEER'S STANDARD WINE BITTERS

The Best and Most Reliable Tonic and Bitters in the market, which is always the CHEAPEST.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

For sale by Druggists and Town Agents, who also sell Speer's Standard Wine Bitters.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the United States Patent Office, Washington, under the Act of 1837,

No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of Claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, prosecuted *rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,

Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great skill and success on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Boston, Jan. 1, 1869.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charge for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE in all cases or no charges made.

DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar, or they will not be answered.

FALL RIVER LINE

FOR New York, Philadelphia, Baltimore, Washington and all principal points West, South and South-west.

VIA TAUNTON RAILROAD AND NEWPORT.

Cabin, $5.00; Deck, $4.00.

Baggage checked through and transferred in New York free of charge.

New York trains leave the Old Colony and Newport Railway Depot, corner of South and Kneeland Streets, daily, (Sundays excepted,) as follows: at 4:30 P. M., arriving in Newport 40 minutes in advance of the regular Steamboat Train, which leaves Boston at 5:00 P. M., connecting at Newport with the new and magnificent steamers PROVIDENCE, Capt. B. M. Simmons, and BRISTOL, Capt. Benj. Brayton. These steamers are the fastest and most reliable boats on the Sound, built expressly for speed, safety and comfort. This Line connects with all the Southern Boats and Railroad Lines from New York going West and South, and convenient to the California Steamers.

"To Shippers of Freight," this Line, with its new and extensive depot accommodations in Boston, and large pier in New York, (exclusively for the business of the line,) is supplied with facilities for freight and passenger business which cannot be surpassed. Freight always taken at low rates, and forwarded with dispatch.

New York Express Freight Train leaves Boston at 1.30 P. M.; goods arrive in New York next morning about 10 A. M. Freight leaving New York reaches Boston on the following day, at 9.45 A. M.

For tickets, berths and staterooms, apply at the Company's office at No. 3 Old State House, corner of Washington and State Streets, and at old Colony and Newport Railroad Depot, corner of South and Kneeland Streets, Boston.

☞ Sunday Night Line. ☜

Cars leave every Sunday evening, at 6.30 P. M., connecting as above.

The Office, 3 Old State House, Boston, will be open every Sunday afternoon from 2 to 4 o'clock, and at the Depot from 9 to 10 A. M., and from 5 to 6.30 P. M., for sale of tickets and staterooms.

Steamers leave New York daily, (Sundays included,) from Pier 28 North River, foot of Murray Street, at 5 P. M.

GEO. SEWICK, Passenger & Freight Agt.

☞ All Advertisements will be set in one uniform style, and No Cuts or Large Type inserted.

The Chronicle.

A WESTERN TEMPERANCE LECTURER.—Billy Ross, temperance lecturer at Rushville, Illinois, was preaching to the young on his favorite theme. He said; "Now boys, when I ask you a question you mustn't be afraid to speak right out and answer me. When you look around and see all these fine houses, farms and cattle, do you ever think who owns them all now? Your fathers own them, do they not?"

"Yes, sir!" shouted a hundred voices.

"Well, where will your fathers be in twenty years from now?"

"Dead!" shouted the boys.

"That's right. And who will own a this property?"

"Us boys," shouted the urchins.

"Right. Now, tell me—did you ever in going along the streets, notice the drunkards lounging around the saloon doors, waiting for somebody to treat them?"

"Yes, sir, lots of them!"

"Well, where will they be in twenty years from now?"

"Dead!" exclaimed the boys.

"And who will be the drunkards then?"

"Us boys!"

Billy was thunderstruck for a moment; but recovering himself, tried to tell the boys how to escape such a fate.

MATRIMONIAL.—Janesville has an abundance of young men, and more beautiful young ladies to the acre than any other city in the State—we might say the whole north west. But in spite of this there are scarcely any marriages, for some reason or other. There will be only one or two a week in the papers from all parts of Rock County. It is very dull business for both printers and ministers? Why are there not more matches? We are at loss to account for it, unless it is the hard times and expensive living—or is it because from matrimony,—

That well discovered country,
From whose revenue, some return,
Travelers with bad reports,
Make us rather bear the ills we have,
Than fly to others that we know not of.

—*Rock Co. Recorder, Wis.*

TYPOGRAPHIC.—Our neighbor of the Gazette is annoyed by some typographical errors which will unavoidably creep into a daily or even a weekly paper. Our friend the genial and good natured local, need not be troubled at the error alluded to in Monday's issue. For we came very nearly beating it two to one. We were laying the "flattering unction to our soul" that we would have a neatly written marriage notice in our first number; we had rounded up the last sentence with the expression, *a word without falseness from a bride without quile:* imagine our consternation when we found our beautiful sentence presented, a word without falseness from *a bride without quills.—Rock Co. (Wisc.) Recorder.*

—A guest at a hotel, the other evening was discovered by the proprietor rather tenderly embracing the chambermaid. The landlord rebuked him somewhat angrily, and wanted to know the reason of such conduct. "Simply obeying the rules of the house," said the guest, pointing to a card tacked to the room door, "Don't it read, 'Any neglect of servants should be reported at the office?' I don't want to be reported at the office for neglect of servants, do I?"

—The paragoric wedding—the latest thing out—was instituted in Oswego, Thursday. It was the first anniversary of the marriage of a worthy young Oswegoan, who, meantime, has been blessed with an heir, and his friends improved the opportunity to send in liberal supplies of that indispensable medicine. The paragoric wedding now stands first on the list.

THE BENEFIT OF ADVERTISING.—A merchant in one of our northern cities, lately put an advertisement in a paper, headed: "Boy wanted." The next morning he found a bandbox on his door-step, with this inscription on the top— "How will this one answer?" On opening it he found a nice, fat, chubby-looking specimen of the article he wanted, warmly done up in flannel!

—In its early days the Alta California newspaper once contained a paragraph which ran thus; "VVe have no vv in our type as there is none in the Spanish alphabet. VVe have sent to the Sandwich Islands for this letter; until it arrives vve must use tvvo vs."

—A man whose wife hung herself in his presence, on being asked why he did not prevent the tragedy, replied: "I cut her down three times last week, and I can't be always cutting her down."

—Josh Billings says: "Whenever I find a real handsome woman engaged in wimmin's rights bizzness, then I am going to take my hat under my arm and jine the procession."

—A correspondent of the Western Rural cautions farmers not to feed string beans cooked or uncooked, to hogs. He says they will surely kill them.

—A General Hayes obscures democratic prospects in Ohio.

☞ **PERRY DAVIS' PAIN KILLER,** as an internal remedy has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, dysentery, Asthma, it cures in one night, by taking internally, and bathing with it freely. It is the best liniment in America. Its action is like magic, when externally applied to bad sores, burns, scalds and sprains. For the sick headache and tooth ache, don't fail to try it. In short, it is a Pain Killer. 4w37

DODD'S NERVINE AGAIN.
ANOTHER CERTIFICATE.
LEDYARD, CONN., April 3, 1869.
Accept thanks for calling my attention to DODD'S NERVINE AND INVIGORATOR. It has done no more good than any other medicine I ever took. I have gained twelve pounds in flesh, and am correspondingly better every way. It is an invaluable remedy.
5wau23 MRS. JOHN T. LEACH.

WHAT ARE
DR. J. WALKER'S CALIFORNIA Vinegar Bitters.
THEY ARE NOT A VILE FANCY DRINK, Made of Rum, Whiskey, Proof Spirits, and refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetisers" "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, *free from all Alcoholic Stimulants.* They are the GREAT BLOOD-PURIFIER and LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell. $100 will be given for an incurable case, providing the bones are not destroyed by mineral poisons or other means, the vital organs wasted beyond the point of repair.
FOR INFLAMMATORY AND CHRONIC RHEUMATISM, AND GOUT, DYSPEPSIA, or INDIGESTION, BILLIOUS, REMITTENT, and INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS have been most successful. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.
These Bitters are not a gilded pill, to delight the eye or please the fancy, but a medicinal preparation, composed of the best vegetable ingredients known.
They are Alterative, Tonic, Diuretic, Sedative, Diaphoretic, and Gentle Purgative.
"The Life of all Flesh is the Blood thereof."—Purify the blood and the health of the whole system will follow.
R. H. McDONALD, J. WALKER, & CO., Proprietors,
San Francisco and Sacramento, California, and 32 and 34 Commerce St. (Commerce, a short street running from Bleeker to Barrow), N. Y.
SOLD BY ALL DRUGGISTS AND DEALERS.
12wau23

COLGATE & CO'S.
AROMATIC VEGETABLE SOAP,
COMBINED WITH GLYCERINE, IS RECOMMENDED FOR THE USE OF **LADIES** AND IN THE **NURSERY.** ap8ly
SOLD BY ALL DRUGGISTS.

"Ingenio Stat Sine Morte Decus."
ROCKY MOUNTAIN BITTERS
IS a very superior Regulating Tonic, imparting vigor and strength to the constitution—a thorough
PURIFIER OF THE BLOOD,
a regulator of nervous force and a powerful sustainer of health against the encroachments of disease.
The invalid and convalescing seeking restoration, and yearning for the healing virtues of some magic balm, will find in these Bitters a hidden mysterious power, which QUIETLY RESTORES, yet refuses to reveal to the senses anything but taste and color.
It is a pleasant Bitter, free from all nauseous properties odor, or astrict vegetable, being mainly grown at the base of the mountains from which they derive their name, and is particularly adapted to all forms of
DYSPEPSIA OR INDIGESTION,
manifesting themselves by the following symptoms: headache, nervousness, loss of memory, low spirits, giddiness, dimness of sight, dullness of hearing, and ringing noises in the ears, eructations, of belching of wind, tightness of breathing, weight and oppression of the chest, uneasy feeling about the heart, palpitation, &c.
Also for Liver Diseases, Disorders of the Kidneys, Restlessness and loss of Muscular Power, these Bitters will be found almost a specific; and as a preventative of
FEVER AND AGUE
or a restorer of the natural powers of the system, when broken down by continued ague attacks; it has no equal.
Being stimulating, (but not intoxicating), they refresh and invigorate both mind and body, heighten the sensibility, clear and sharpen the faculties, and bestow alacrity and cheerfulness of spirit.
CAUTION.—There have been, and still are several parties manufacturing and selling so-called "Langley's Bitters," many of which are worthless. As a guide against such, I would say that in 1866, I secured my copy right, in the United States Court, a trade mark and name. "Rocky Mountain Bitters," and all Bitters of my manufacture are put up in *dark, long neck, quart bottles* with red label printed with gold; also, direction label, bearing my seal and directions printed in red, with a red cap and my seal printed in gold, over the cork. Beware of all others, and ask for **"Rocky Mountain Bitters."**

The Daily Chronicle.

Portsmouth, N. H.

MONDAY, OCT. 11, 1869.

The News.

The trial of Reddy the blacksmith, in New York, has resulted in his aquittal.

Another desperado has been hanged by a mob in Southern Indiana.

Both houses of the Virginia legislature have ratified the fourteenth and fifteenth constitutional amendments.

Several encounters have taken place between the Spanish and the insurgents in Cuba, in which the former have been victorious.

The English Parliament has been prorogued.

In a trot at Narragansett Park on Friday, Lady Thorn made the best time ever recorded on a New England racecourse. The lady won three heats and the race, losing the third. Time, 2:19 3-4, 2:18 1-4, 2:19 1-4, 2:21. Geo. Palmer was second, American Girl third, Lucy fourth.

New Hampshire Items.

Mr. and Mrs. Henry Paul were thrown from a carriage at Dover, last week, and Mrs. Paul was very severely injured about the head.

A horse and wagon were recently stolen from V. Mathes of Durham by a man hailing from Haverhill and bound for Northwood.

Dover has house-breakers.

A new Congregational church is being built in Farmington.

Postmaster Scruton of Farmington lost 1000 cabbages by the flood. The shoe shop of Edward F. Jones was damaged to the extent of $700. Wm. Hayes lost several thousand feet of lumber.

The Gov. Dinsmoor estate in Keene has been purchased by Hon. S. W. Hale for $85,000.

Simpson S. Black of Canaan lent a stranger $50 at Portland. He is $50 out.

On Monday we were informed that there were *eleven* persons prostrate with typhoid fever in Nottingham.—*News Letter.*

A Mr. Bruce of Exeter has dug up a silver Spanish milled dollar, dated 1721.

A little girl in Gorham, four years old, who had been locked up in a school room by her teacher, jumped out of a second story window, and was considerably injured about the head and shoulders.

Eleazer Hoyt of Manchester was found dead in a field at Londonderry, where he had been at work, on Friday. His death is attributed to heart disease.

J. H. Allen *alias* Adams, a noted hotel thief and pickpocket, has been arrested at Concord.

Sarah Shed of Washington, Sullivan County, lately deceased, has left a legacy of $25,000, the interest of which is to be used in establishing a public library in that town.

A piece of land in Bradford was deeded to N. Cogswell by Abel Connor, in 1826, and is reported in the Concord papers as just put on record.

W. H. Sargent, of Boscawen, lately took 80 lbs. of very nice honey from the hollow of a decayed tree in that town.

On the evening of the 6th, a gentleman left his valise on the platform of the Nashua station, while he walked away a few steps. Another man immediately picked it up and coolly walked off with it, but was seen by a bystander, who started in pursuit. A score of others joined in the chase, but the thief, throwing away his booty, managed to get clear and has not been seen since. The valise, which was restored to its owner, contained articles to the value of $3000.

The New Postmaster at Dover, is a mechanic, one of the leading men in the order of the Knights of St. Crispin. His appointment must be regarded as a compliment to the order he represents, and to the working class with which he is so intimately associated.

TENNESSEE LEGISLATURE.—A special from Nashville says the House tabled a bill repealing all acts of the two preceding Legislatures, but passed to a first reading several bills for repealing certain laws distasteful to rebels. The contest for United States Senator is settling down to a trial of purses, creating the feeling that Johnson is the likeliest to win. The Ex-President says he meets nothing but guerrilla warfare. Etheridge declares that if the thing is decided in caucus he is certain of election. Both candidates were very busy among the members during the forenoon session.

The Memphis Avalanche charges boldly that New York bankers are in Nashville, backing Johnson for Senator heavily with money. It promises names and facts very soon.

IS VACCINATION BENEFICIAL?—The New York Commercial Advertiser says that the question as to the propriety of vaccination, is attracting no little attention in Europe. Dr. Gregory, director of the small-pox Hospital, London, Professor Depaul, Professor of vaccine in Paris, Dr. Heim, a prominent vaccinator of Wurtemburg, Professor Veranichfield, Berlin, and other equally eminent men, unite in condemning the practice. They assert that it not only affords no protection from the small-pox, but it inoculates the human system with syphilitic affections and other disgusting diseases, and tends to the shortening of the average of human life. Drs. C. T. Pearce and Seaton, of London, affirm that people who are not vaccinated, far more easily recover from any acute disease than those who are vaccinated, owing to the injury done to the constitution by the introduction of the vaccine matter.

The statement based on statistical tables is also made, that in England, before inoculation was introduced, from three to eight per cent of those attacked by small-pox died; that under inoculation the mortality increased from seven to ten per cent., and that vaccination run the rate up to from eleven to thirteen per cent. In Upper Bavaria, Dr. Bayard states that whereas in former times the average of deaths from small-pox was from five to seven per cent., it is now generally from fifteen to twenty. Dr. Copeland affirms that scrofulous and tubercular diseases have largely increased since the introduction of "cow-pox," and Villemir, Herard and other eminent French physicians, affirm that consumption has been considerably increased since vaccination was introduced.

There have been several cases in England, recently, of persons who have submitted to be fined rather than have their children vaccinated. But it seems to be certain that the small pox does not commit such horrid ravages as it did a century ago, and it is rarely that we meet with persons whose faces bear the disfigured marks of the disease, which used to be so destructive to beauty. The average length of human life, too, has considerable increased in a century, and the fact of an increased average mortality among the cases actually occurring, would not set off the general saving of life. As an epidemic, the small pox can hardly be said to exist, and vaccination is not likely to be given up immediately, though probably more care than is now exercised, ought to be used in the selection of the vaccine matter.

NATIONAL THANKSGIVING.—The year which is drawing to a close has been free from pestilence; health has prevailed throughout the land; abundant crops award the labors of the husbandman; commerce and manufactures have successfully prosecuted their peaceful paths; the mines and forests have yielded liberally; the nation has increased in wealth and strength; peace has prevailed, and its blessings have advanced every interest of the people in every part of the Union; harmony and fraternal intercourse are obliterating the marks of the past conflict and estrangement; burdens have been lightened and means increased; civil and religious liberty are secured to every inhabitant of the land, whose soil is trod by none but freemen.

It becomes a people thus favored to make acknowledgement to the Supreme Author, from whom such blessings flow, of their gratitude and their dependence, to return praise and thanksgiving for the same, and devoutly to implore a continuance.

Therefore, I, Ulysses S. Grant, President of the United States, do recommend that Thursday, the 18th day of November next, be observed as a day of thanksgiving and of praise and of prayer to Almighty God, the Creator and Ruler of the Universe.

And second, I do further recommend to all the people of the United States to assemble on that day in their accustomed places of public worship, and to unite in the homage and praise due to the bountiful Father of all mercy, and in fervent prayers for the continuance of the merciful blessings he has vouchsafed to us as a people.

By the President: (Signed) U. S. GRANT.

HAMILTON FISH, Secretary of State.
WASHINGTON, Oct. 8, 1869.

THE FRESHET.—Four bridges and three dams are ruined in Amherst, and Jotham Hartshorn loses 150,000 feet of lumber. In Milford, the Pine Valley Carpet Company loses its dam and canal, a damage of $15,000.

The damage in New Boston is $10,000. Everything that is used to cross water or that has any connection with the element, is ruined in Brookline. At Keene, the roads suffer to the exten of $4000. Ripley's blanket mill at Troy was undermined, the lower story ruined and its contents put in bad condition, Jonathan Robinson of Keene loses thirty-six sheep, and Ball & Alden two hundred thousand brick ready for the kiln.

☞ Philadelphia critics call Lydia Thompson a "bare-legged fraud."

THE STORM.—A despatch from Calais, Me., says that the gale in that city on Monday was terrific, and that the damage exceeds by thousands of dollars the gale of Wednesday, September 8th. Thousands of long lumber, laths and all kinds of short lumber, knees, etc., floated off. The tide was higher than ever known before.

The Universalist church at Milltown blew flat. The Methodist church in St. Stephen's blew partly down. The spire of the Episcopal church also fell. Quite a number of houses and barns are down, and the streets are in some places impassable on account of trees blowing into them.

Sackville, New Brunswick, was visited by a tremendous gale and the highest tide ever known. The marshes were completely covered. Thousands of tons of hay were destroyed and thousands of cattle and sheep drowned. The dikes on the marshes are all gone and the bridges all through the country swept away. The Eastern Extension Railroad track was torn up eight or ten miles, and the telegraph line connecting with the cable and with Halifax obliterated. As far as can be ascertained the tidal wave has caused great destruction on the Bay of Fundy and in and around St. John. The tide rose to a great height, carrying away and destroying an immense amount of property. Wharves were ruined, ships and horses, barns and cattle were swept away. The bridges of the European and North American Railway were destroyed.

The amount of damage is incalculable. In one small parish alone, the loss is estimated at over a million of dollars. The accounts coming in every hour show the destruction to have been widespread. It is remarked that this is the storm predicted by Lieut. Saxby of the Royal Navy last December. The English papers called attention to it last month, giving the necessary warning.

☞ A fool is wiser in his own conceit than seven men who can render a reason. This was a proverb long before Rev. Dr. Boynton was born;—but it suits his case exactly.

Rev. Dr. Boynton commenced preaching in the hall of the Y. M. C. A. in Washington, Sabbath, before last. From the text, about pouring new wine into old bottles, he gave his views of the church to which he formerly ministered, and of its two councils. The ex-parte council he characterized as an ecclesiastical impertinence. That of which Dr. Thompson was moderator and Dr. Quint scribe, and of which every member was selected by himself, gave, in his opinion, a despotic decision upon matters on which its advice was neither asked nor desired. He was still opposed to negroes coming to white men's churches; but any charge against his abolitionism, came with a bad grace from persons who were never known as abolitionists, till abolitionists had become popular, and who had grown rich in advocating the rights of the negroes.

☞ The funeral of Ex-President Pierce will take place at Concord, today. The President has issued an order that the Executive Mansion and the several departments be draped in mourning, and all business suspended, on the day of the funeral, and that the Navy and War departments cause suitable honors to be paid to his memory.

BUSINESS NOTICES.

FACTS FOR THE LADIES.—I have used my Wheeler & Wilson Sewing Machine for more than ten years steady, at dress-making, from ten to fourteen hours a day. For the last nineteen months I have used the same needle, and am still using it. My machine is in as good working order to-day as when I first got it.
NEW YORK. MARTHA CAVAN.

Every family in town should keep a bottle of Renne's Pain-Killing Magic Oil in the house. Directions for use will be found on each bottle.

WITH DYSPEPTICS everything is wrong. Food does not digest; sleep does not refresh; wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it or it will become seated and confirmed, and life will be a burden and existence a curse. PLANTATION BITTERS will do away with all this. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the lustre in your eye will again be as bright as in your healthiest, happiest and most joyous days.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

There is no disease flesh is heir to more troublesome to manage than Rheumatism. It comes when you least expect it, and generally remains till it gets ready to go away. The most conspicuous remedy for this complaint is "Johnson's Anodyne Liniment."

Two or three doses of "Sheridan's Cavalry Condition Powders" will cure a horse of any common cough or cold, and the very worst cases may be cured in a few weeks. We know this from experience.

TONICS.—Those who resort to tonics will find Speer's "Standard Wine Bitters" the best adapted to benefit the different ailments of the system, whether diseased or debilitated from over exertion or by any other cause. Try them. Sold by Druggists.

SPECIAL NOTICES.

DEATH TO PIN-WORMS.

Eminent physicians say that more sickness among children results from Pin-Worms than from any other cause. A safe and effectual remedy for these troublesome and often dangerous pests is found in DR. GOULD'S PIN-WORM SYRUP. Price for adults and children, warranted without injury to health. Price 75 cents. GEO. C. GOODWIN & CO., Boston, and all druggists. of 6mo

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, before you place yourself under any one of the notorious QUACKS—native and foreign—who advertise in this or any other paper, get a copy of Dr. Young's Book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

Holloway's Pills.—COLDS AND SORE THROAT.—The foundation of a cold or affection of the throat that lasts the winter through, is often laid in autumn. If you are threatened with disease of any of the respiratory organs, rub the external surface night and morning with HOLLOWAY'S OINTMENT and keep the bowels regulated with HOLLOWAY'S PILLS. A cold, cough or sore throat promptly treated in this way is speedily cured, and all danger of consumption or bronchitis avoided. Sold by all Druggists.

ASIATIC CHOLERA IN CHINA.

TUNGCHOW, China, Aug. 23, 1866.

MESSRS. PERRY DAVIS & SON:

Dear Sirs—During a long residence in China, I have used your invaluable Pain Killer, both in my own family and among the Chinese, and have found it a most excellent medicine. In the summer of '62 and '63, while residing in Shanghai, I found it an almost certain cure for Cholera, if used in time. Indeed using it in a great many instances, I do not remember failing in a single case. For three years I have been residing in this place, more than fifty miles from a physician, and have been obliged often to fall upon my own resources in cases of sickness. The Chinese come to us in great numbers for medicine and advice. Though without medical knowledge ourselves, the few simple remedies we can command are so much in advance even of their physicians, that we have almost daily applications. We allow them to come because it brings us in contact with them, and opens a door to usefulness. In diarrhœa, colic, vomiting, cholera, coughs, &c., your Pain Killer has been my chief medicine.

Yours, very truly, T. P. CRAWFORD.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its paincurative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. ol

FRIGHTFUL DEVELOPMENTS!

At last the people have got the fact "through their hair," that hair dyes impregnated with acetate of lead and other metallic salts are

DANGEROUS PREPARATIONS.

When they see the metallic sediment at [the bottom of the bottles, they know that the disgusting stuff is literally *thickened with Poison.* They ask, therefore, for a

Harmless Vegetable Dye,

and find it, pure and efficacious, in

Cristadoro's Excelsior Hair Dye

offered under the sanction of Professor Chilton's guarantee that it contains "nothing deleterious." CRISTADORO'S HAIR PRESERVATIVE, a Dressing, acts like a charm on the Hair after Dyeing. Try it. 1md&wo4

In Remote Settlements of United Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocuous and valuable properties of the stomach and blood. Their untold value is to those living in settlements where doctors can only be had at great expense. Now any person can for a trifle, by to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box.

Sold by all Druggists.

Now is the Time

To repair the inroads made upon the physical strength by the heated term which has closed with September. The vitality that has been oozing through the pores in the form of prespiration, for the last three months, requires to be replaced, as a preparative to the cold season which makes such disastrous havoc with relaxed and untoned systems. The reserve of vigor with which the stoutest man commences the Summer campaign is drained out of him at its close, and he must seek some means he acquires a new stock of vital energy wherewith to encounter the shock of a colder season, he may droop and wither like the falling leaves whose fate he witnesses and deplores. It is thus with the strong, how much more perilous is the condition of the weak and ailing. Their pulses must suggest to them, more forcibly than these printed words, the necessity for *invigoration*, and the world having decided, after an experience of almost a quarter of a century, that HOSTETTER'S STOMACH BITTERS embrace such restorative properties as are not possessed by any other tonic and alterative preparation in existence.

The importance of restoring to that great RENOVATOR AND REGULATOR OF THE HUMAN MACHINE, at this critical season, is as obvious as the light of day. Not only does it secure an immediate check of chills and fever, bilious remittent fever, dysentery, diarrhœa, dyspepsia, rheumatism, hypochondria, or any other of the disease of which the Fall season is the prolific parent, have recourse promptly to this celebrated preventive and restorative. ol

Dr. Hopkins' Iron Tonic,

A BLOOD PURIFIER AND REGULATOR, Cures Dyspepsia, Loss of Appetite, Liver Complaint, Sick Headache, Depression of Spirits, Neuralgia, Nervous Affections, Disease of the Skin, Consumptive Tendencies, Chronic Diarrhœa, and Diseases peculiar to Females.

WORDS OF CHEER,
ON THE ERRORS OF YOUTH and the FOLLIES OF AGE, in relation to MARRIAGE and SOCIAL EVILS, with a helping hand for the erring and unfortunate. Sent in sealed letter envelopes, free of charge. Address, HOWARD ASSOCIATION, Box P., Philadelphia, Pa

ALLEN'S LUNG BALSAM,

The Remedy for curing CONSUMPTION, COUGHS, BRONCHITIS, ASTHAMA, and CROUP. As an Expectorant, IT HAS NO EQUAL.

It is composed of the active principles of roots and plants, which are chemically extracted, so as to retain all their medical qualities.

Ministers and Public Speakers

Who are so often afflicted with throat diseases, will find a sure remedy in this Balsam. Lozenges and wafers sometimes give relief, but this Balsam, taken a few times, will insure a permanent cure.

Will all those afflicted with Coughs or Consumption, give this Balsam a fair trial, they will be pleased with the result, and confess that the sure remedy is found at last.

IT IS SOLD BY ALL DRUGGISTS.

CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS for Diseases of the Liver, or to act as a gentle Purgative.

All of these three medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills assist in regulating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These medicines are conscientiously offered to the public as the only safe, certain and reliable remedies for Pulmonary Consumption, and for all those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long probation before the public. Its value has been through a period of more than thirty-five years, in all of which time its reputation has constantly increased, and the most obstinate skepticism can no longer doubt that it is a remedy which may be used with confidence in all cases which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, he will certainly be cured, if his lungs are not too much wasted to make a cure possible. Even in cases supposed to be incurable, when friends and physicians have despaired, the use of the medicine has saved the life of the patient, and restored him to perfect health.

Dr. Schenck himself was cured in precisely such circumstances, and many others have been equally fortunate by judiciously making a timely use of Dr. Schenck's remedies.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he emphatically asserts, that often when patients have the most alarming symptoms, such as a violent cough, creeping chills, night sweats, and general debility, even to such a degree that they are obliged to lie in bed, and when they are given up by their physicians, they may still be cured. No medical treatment can create new lungs, but when the lungs are very badly diseased, and to some extent, cavitied, a cure may be effected by Dr. Schenck's medicines.

Also in Scrofulous diseases these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores, and now all healed up. This shows its purifying properties, which must be done to heal cavities in the lungs.

In the treatment of Consumption, it is of the utmost importance to give vigor and a healthy tone to the system. Hence it is necessary to strengthen the appetite of the patient, and improve the digestion. Proper nourishment is required, together with such means as will make the food easily digestible. The articles most suitable for the diet of consumptive patients are designated in Dr. Schenck's Almanacs, which are distributed gratuitously. In general, the most nutritious articles are to be preferred; but the digestive organs must be strengthened in order to make either food or medicine serviceable. This requirement is met by the Sea Weed Tonic, and for this purpose it was designed.

When the digestive powers are put in good order, the food has its proper effect, the system of the patient is invigorated, and the lungs begin to exercise their functions in a normal and healthy manner. Then the healing powers of the Pulmonic Syrup will complete the cure.

Pulmonary Consumption is almost always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills are intended to remove obstructions from the liver and restore its healthy action. They have all the efficacy which is ascribed to calomel or "blue mass," and are warranted not to contain a particle of any mineral poison. These pills cure the most obstinate costiveness, sick headache, piles, bilious affections, and all other diseases which arise from a torpid or obstructed condition of the liver. One box of these pills will prove the efficacy of the medicine.

In Consumption, the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines. They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. They have been found useful in advanced stages of Consumption, where the lungs were almost entirely destroyed, and all symptoms, according to the judgement of physicians, indicated speedy death. Lives of patients who were actually in a dying condition have been prescribed for months by the use of Schenck's three great remedies.

DR. SCHENCK'S Almanac, containing a full treatise on the various forms of disease, his mode of treatment and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North Sixth Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills, 25 cents per box. For sale by all druggist and dealers.

THE LATEST DISCOVERY
In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been solved. A vegetable preparation has been active more efficient than any mineral preparation of the same class, and as agreeable to the taste as lemonade; is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, and free from the injurious properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy**, and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopoeia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge**, will ever again take a purgative powder, or draught or pill.

Wholesale agent, John F. HENRY, No. 8 College Place, New York City.

Batchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. 5 HORSES FOR SALE. Apply to WM. PLAISTED.

New Advertisements To-Day.

Bank Stock at Auction—William H. Hackett.
New Books—J. H. Foster.
Insurance—John S. Harvey.

☞ Mr. John Hanscom of Kittery while building a coal pen in his cellar, on Saturday, caught the ax overhead and cut his hand open, causing quite a severe wound.

☞ The elegant store just refitted for occupation by Mr. S. B. Plummer, on Congress Street, is attracting much attention. Mr. Chas. H. Mendum the owner of the property, has done a very creditable act in having the old building (which formerly marred the good looks of that section of the street) repaired and remodeled. It was once the most hideous looking brick building in the vicinity of Market Square, with the exception of the City Hall, but is now ornamental as well as useful.

PERSONAL. — MESSRS. Main & Winchester, with their families, arrived in this city on Friday, from San Francisco. They report the trip overland to be a delightful one, and that the accommodations on the Pacific Railroad are superior to those afforded on most roads, while the road-bed over which they passed was in as good if not better condition than those of our railroads in New England. They made frequent stoppages on the route, and improved the fine weather in visiting the most picturesque localities on their homeward course,—and are enthusiastic in their descriptions of the beautiful country thro' which they passed.

☞ Lollypop Sniffles, who has the reputation of conducting the most indecent paper in New England, thinks other people cannot get a living honestly unless they adopt his method of repudiating debts. Sniffles is a blackguard "to the manner born," and indulges his natural propensities to abuse, hoping thereby to lessen other people's respect for his opponents to a corresponding position with his own. Lollypop is a low fellow, and should he live as long as Methuselah he will never learn to be a gentlemen. Some fine night he will repeat the wheelbarrow feat so successfully carried out at Dover, and Portsmouth will be the gainer. Good bye, Lollypop, keep your hands off the tomatoes if you would escape justice, and by all means don't forget to follow in the footsteps of your departed saint, pay *one* debt —that you owe to nature.

G.

TASTE IN BUSINESS.—An enthusiastic Louisville printer, writing about the establishment of Messrs. Kelley & Hamilton, claims that it is the "prettiest office in the West." Under the date of May 26, he says:

"Their establishment is now beautiful, and presents a floral outside, as all in front of their massive windows grow fragrant and beautiful flowers, and some trees. The sight is rather odd before a printing office, and especially so on the most prominent street of our city. Ladies and gentlemen stop and admire the taste and thought of so beautiful a front; and the inside is characteristic of the outside in point of style and arrangement."

Flowers and fortunes have not usually been the companions of printers; but if our Louisville friends are inaugurating a printers' millennium, who will not wish them success?—*N. Y. Advertiser's Gazette.*

We never could see why business men, who spend more time at their stores or workshops than at home, should not have decent places to stay in—for instance, such neat little gardens in their store-yards, as Mr. J. H. Head can show in rear of his place of business—greatly in contrast to many similar premises. We regret that neighbor Head's delicate health at present prevents his enjoying any of his beautiful creations.

THE TILL ROBBERY.—Some blame having been attached to several of our Police for not securing the thieves who made free with Mr. Laighton's till, we are requested to state that immediately the theft was known, Officers Stearns and Taylor, (accompanied by Mr. L.,) were despatched by City Marshal Johnson on the Eastern Railroad, on the lookout. At Kittery the supposed thieves were seen by the officers and pointed out to Mr. L., who, however, in answer to a question from officer Stearns, said they were not the men. The officers watched them as far as S. Berwick, then left the train and walked on to Berwick, the thieves proceeding on to N. Berwick and there taking the train for Boston. The conductor telegraphed this back to S. Berwick to the officers, but they had left before the telegram arrived.

We fail to see where any blame can attach to the police, or any one; it was simply unfortunate that the thorough police blockade established within an hour from the time of the robbery, was rendered ineffectual by the inability of Mr. Laighton to identify the thieves. The latter were more fortunate in their raid than such gentry usually are, when they visit this city; most of them remain longer than they wish to.

☞ At the U. S. District Court at Exeter on Friday, three indictments were found against William M. Hanscom, the young clerk who robbed the Post Office a few months since.

NAVAL.—Chief Engineer B. B. H. Wharton is ordered to the U. S. S. Benicia now fitting out at this Station.

1st Ass't Engineer Samuel L. P. Ayres is detached from duty at the Navy Yard and is ordered to the Benicia, which will probably be ready for sea in four weeks.

Correspondence of Chronicle and Gazette.
KITTERY, ME., Oct. 9.

Messrs. Editors:—One of our indicted men has got honorably clear of the charge of being a grog-dealer. I am glad of it, and so are many more here—*all* the temperance men, so far as I know. Much sympathy has been expressed for him, and regret that he should have been troubled, by people the most ardent in putting down drunkard-making here; and I am inclined to think that he is indebted to the efforts of the saloon clique for being included among the "rumsellers."

The numerous friends of Mr. James O. Trefethen, the esteemed Apothecary of Kittery, will be pleased to learn that he has been fully exonerated from the charge of being a "common seller" under the law "for the suppression of Drinking Houses and Tippling Shops" in Maine; County Attorney J. H. Ayer having filed a *nolle prosiqne* in his case before the Supreme Court in session at Alfred. Mr. Trefethen is the Town Agent in Kittery for selling alcoholic liquors, for medicinal, mechanical and manufacturing purposes; and the general belief is that he has sold for those purposes *only*.

GAY.

From the Portsmouth Journal.

RE-DEDICATION.—The repairs of the Methodist Church in this city being completed, the edifice was re-dedicated to the service of God, in accordance with the ritual of that denomination, on Thuesday evening last. The order of exercises was as follows:

Introductory Services read from the ritual, by the pastor, Rev. H. L. Kelsey;

Opening Hymn read by Rev. John Adams of Greenland;

Prayer, by Rev. George M. Adams of this city;

Reading of the Scriptures, by Rev. Geo. Bryant, of Greenland;

Hymn, read by Rev. L. M. Harmon, of this city;

Sermon, by Rev. J. M. Chapman of Grace Church, Boston;

House presented to the Presiding Elder for Dedication, by the Chairman of the Trustees, J. H. Broughton, and the Dedication service conducted by Pres. Elder James Pike;

Closing Hymn, read by Rev. Mr. Alden of this city;

Benediction by Rev. J. M. Chapman.

AN OFFICIAL DENIAL has been made of the published report that the Navy Department has ordered the immediate building of several fast steam sloops-of-war. The Government intends to dispose of those now on hand which have been in long and active service, before commencing work on the new vessels. Owing to a want of purchasers able and willing to pay the appraised value of the several classes that are for sale, the Navy Department has not been able to dispose of them as fast as desirable.

THE STEAMER EMERALD came off the ways Monday, and commenced to run her regular trips, but shortly after became temporarily disabled by a leakage in her boiler. She has received a thorough repairing. Ample additions have been made for seating room, her engine overhauled, and a generous supply of green paint, with panels of a lighter shade, serve to improve her appearance wonderfully.

DURING the violence of the storm on Monday, the wharf at Wood Island, built by the Government for the landing of naval vessels, was carried away. The Hospital which was raised there early in the season, also received some slight damage from the high winds. Repairs will be commenced immediately.

☞ There are now only two ex-Presidents living Fillmore and Johnson, and neither of them were chosen to the presidency.

DEATHS.

In this city, Oct. 9, MRS. ABIGAIL J. NOWELL, widow of the late Henry S. Nowell, aged 70 years. Maine and Massachusetts papers please copy.

☞ Funeral from the residence of Mr. Thomas S. Nowell at 2 o'clock this (Monday) afternoon.

A PACIFIC RAILWAY.

GOLD LOAN $6,500,000.

We beg leave to announce that we have accepted the agency of the

KANSAS PACIFIC RAILWAY COMPANY,

For the sale of its

NEW SEVEN PER CENT.
Thirty Year Gold Loan,
Free from Tax.

This Loan amounts to $6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds,

secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon the Road, the Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,

And in successful operation for 437 miles

west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as

A SINKING FUND FOR THE REDEMPTION OF THE BONDS.

The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the

Value of the Company's property, covered by this mortgage at $23,000,000 net, while the Loan is merely $6,500,000.

The Bonds have

THIRTY YEARS TO RUN,

from May 1, 1869, and will pay

SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be

PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:

On $1,000 Bond in N. Y. $35 (gold) each half year.
" London....£7 s5. 10. "
" Frankfort..57 fr. 30 krtzs., "

The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a

FIRST CLASS INVESTMENT,

in every respect perfectly sure, and in some essential even

Better than Government Securities.

The Bonds will be sold for the present at

96, *and accrued Interest, both in Currency,*

the Agents reserving the right to advance the rate.

The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

Pamphlets, with maps giving full information, sent on application.

Morning Chronicle.

Correspondence of Chronicle and Gazette.

BOSTON, Oct. 9.

Having inflicted a considerable suffering upon myself during the past summer to make an inspection of the watering places in this immediate vicinity, I now propose to weak my revenge therefor by inflicting a letter upon your readers. Unfortunately I cannot compel them to read it. Hull, Hingham and Nahant monopolize a large proportion of the summer excursionists who make flying trips from this city. With the exception of the delightful trip by steamer down the harbor there is little to repay them. The hotels at those points are of a high order in nothing excepting their charges. Since the burning of the large hotel at Nahant, the Point has been all taken up for summer residences, and the only place left for public diversion are a mile or more further back from the open sea. Chelsea Beach, aside from its difficulty of access, has little to render it worthy the name of a watering place. The one redeeming spot in our sea-side hotels is the dingy, rambling hotel known as "Taft's," at Point Shirley. A pretty drive from East Boston, through Winthrop, brings the epicure to a spot where if anywhere, a bird supper can be obtained in its perfection. The Sunday game dinners at the Briggs House in Chicago, and the cuisine of "Boudrois" at Lake Pontchartrain have delighted my palate, but I must give the mantle of superiority to Taft for the matchless style in which he serves up his plover and woodcock, reed birds and quail, duck, peep, and the seemingly endless variety of game his larder affords.

Landward, the drives in Dorchester, Brookline, the Highlands, Longwood, Cambridge and for a much greater distance, are charming after you are once clear of the city; but there's the rest—only one avenue of exit (the Mill Dam) is open to vehicles without a long stretch of the wretched cobble-stone pavement which rocks horse, carriage and rider.

Thus have I demonstrated to my own satisfaction that the people of Portsmouth are highly favored in the number and propinquity of their summer resorts, in the natural beauty thereof, and in the excellent hotel accommodations to be found at all of them.

Messrs. T. B. & J. H. Rand, formerly of your city, have taken possession of the new, elegant and spacious St. Cloud Hotel, corner of Broadway and 42d street, New York. The Parks House, in this city, is for the present under charge of Mr. George W. Rand, who is also associated with his brothers in the management of the St. Cloud. The latter is kept on the European plan, and the proprietors will ever be happy to welcome visitors from your city.

Firemen's excursions and parades seem almost epidemic just now. Hardly a day passes without the arrival or departure of one or more companies, their bright uniforms and lively music enlivening the streets as they pass to seek that recreation which they so gallantly earn by their zeal in time of trouble. The torchlight reception of the Wm. Woolley Hose Co., on its return from Philadelphia on Thursday evening, was a very brilliant affair, participated in by the entire departments of Boston, Dorchester and Brighton. M.

THE AVERAGE WEIGHT AND HEIGHT OF MAN.—Quetelet, who has devoted more attention to this subject than any other writer, gives the average weight of an adult male, 136.993 pounds, and the average height, 5.333 feet.

Dr. Gould, who examined a large number of students in the junior and senior classes at Harvard University and Yale College, together with some members of the professional schools, reports their average height 5.666 feet, and average weight 139.700 pounds. A. Maclaven, who has the charge of the gymnasium connected with the Oxford University, England, reports of the first one hundred names on his book, as they arrived at the University, their average height, 5.825 feet, and average weight, 132.970 pounds.

From the vital statistics of all the members of Amherst College from 1861 to 1869—making over 600 different students—their average weight was found to be 139.485 pounds, and average height, 5.651 feet.—*Journal of Chemistry.*

A COACHMAN'S TESTIMONY.—On entering the stable of an Irish friend lately, I was delighted to find most pleasing evidence of genuine affection between horses and groom. One horse actually stretched out his head and commenced licking the face of the coachman. "Oh, your honor," said the man, "he's kissing me!"

"You do not, I expect, need a very heavy whip when driving your horses?"

"Whip, your honor? If I touched that horse with a whip, he'd fret like a child. No, sir; horses properly and kindly trained very seldom need any whip!"

—The grain crop in California this year has been very great.

—Never wait for a thing to turn up—Go and turn it up yourself. It takes less time, and is sure to be done.

—Mountain City, Nevada, is to have a new Journal to be called the Weekly Six-Shooter.

—An Iowa orchard contains sixty thousand bearing apple trees.

—They are demolishing the Bull Run breast-works in Virginia.

—A lady in Rhode Island subscribed for a Newport paper, the other day, to be sent to a neighbor who worried her by borrowing her own.

—According to the Elmira Advertiser, "Don't be in a hurry—keep your seat," when addressed to visitor in an editor's office, means, "clear out as fast as you can."

The Okra plant which is much cultivated at the South, is grown to some extent in Manchester. The pods are used in flavoring soups in its native locality, and the stalk is worked into coarse paper.—*Mirror.*

TO BE, CERTAINLY!

WHY NOT!

The FACT that T. F. BURTT has about the finest assortment of fine Gold WATCHES, Gold JEWELRY to sets, Fine Gold Rings, Brooches, Pearl and Garnet Rings, Masonic and Odd Fellows Pins, Gold Chains, Clocks, Spectacles, Silver and Plated Ware, is too well known to be disputed.

THE LADIES who have been so well suited from his elegant stock of valuables, know it!

THE GENTLEMEN, whose opinions are nearly as reliable as those of the ladies, are convinced of its truth!

THE PATRONS GENERALLY testify that it is best to purchase THE BEST, and that the BEST PLACE is at

T. F. BURTT'S, 40 Congress St.

JEWELRY, MEDALS, EMBLEMS,

of any desired pattern, made to order, and perfect satisfaction given.

Watches, Clocks, and Musical Instruments, Repaired.

FINE REPAIRING, of all kinds, executed with promptness and dispatch, and warranted to give satisfaction.

AVERILL CHEMICAL PAINT!

THE RIGHT THING AT LAST!

BENJAMIN NORTON,

Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of

THE BEST PAINT!

ever offered in this city.

It is Durable, Beautiful, Water Proof, Elastic and Economical.

This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.

It is prepared in pure White and one hundred Different Shades, and is unsurpassed in all respects.

It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.

Many testimonials from those who have used it in other places of its superiority over other Paints might be given; but I will only invite those of this city and surrounding towns who intend using Paints, to call at the

GROCERY AND PROVISION STORE,

Nos. 16 & 18 Cabot Street,

which is the ONLY PLACE in the City where it has been used, and examine the Paint where it has been applied in ten or twelve different shades, and where they can obtain any color they desire for use, outside or in, and buy from one pound upwards.

In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.

These Paints are manufactured in New York, and Newburgh, Ohio. BENJ. NORTON,

Agent for Chemical Paint Company.

Also for sale, at the same place, the Best Quality of

MEATS AND GROCERIES!

AS LOW AS CAN BE BOUGHT IN THE CITY.

SPEER'S SAMBUCI WINE.

CATAWBA, PORT, GRAPE and P. J. Sherry.

The above Wines are made by Mr. Speer, whose reputation as a wine grower stands pre-eminent. They are well established, and long known by the Medical Profession as the most reliable and valuable wines to be had.

Every family at this season should use

SPEER'S SAMBUCI WINE,

celebrated in Spain and Portugal for its beneficial qualities, highly esteemed by eminent physicians, used in European and American Hospitals and by the first families in Europe and America.

Excellent for weak and debilitated persons, the aged and infirm, improving the appetite and benefitting the ladies and children.

AS A DIURETIC

it imparts a healthy action to the Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic affections. Also,

SPEER'S PORT GRAPE WINE

is pure juice of the Oporto Grape, recommended by Physicians as possessing medical properties superior to California or Imported Wines.

SPEER'S STANDARD WINE BITTERS

The Best and Most Reliable Tonic and Bitters in the market, which is always the

CHEAPEST.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

For sale by Druggists and Town Agents, who also sell Speer's Standard Wine Bitters.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the United States Patent Office, Washington, under the Act of 1837.

No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Research made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability, under the Act of 1837.

During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON,

Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at reasonable charges. JOHN TAGHART."

Boston, Jan. 1, 1869.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Pemberton Street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your case.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE in all cases or no charges made.

DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar, or they will not be answered.

FALL RIVER LINE

FOR New York, Philadelphia, Baltimore, Washington, and all principal points West, South and South-west.

VIA TAUNTON FALL RIVER AND NEWPORT.

Cabin, $5.00; Deck, $4.00.

Baggage checked through and transferred in New York free of charge.

New York trains leave the Old Colony and Newport Railway Depot, corner of South and Kneeland Streets, daily, (Sundays excepted,) as follows: at 4.30 P. M., arriving in Newport 40 minutes in advance of the regular Steamboat Train, which leaves Boston at 5.30 P. M., connecting at Newport with the new and magnificent steamers PROVIDENCE, Capt. B. M. Simmons, and BRISTOL, Capt. Benj. Brayton. These steamers are the fastest and most reliable boats on the Sound, built expressly for speed, safety and comfort. This Line connects with all the Southern Boats and Railroad Lines from New York going West and South, and convenient to the California Steamers.

"To Shippers of Freight," this Line, with its new and extensive depot accommodations in Boston, and large pier in New York, (exclusively for the business of the Line,) is supplied with facilities for freight and passenger business which cannot be surpassed. Freight always taken at low rates and forwarded with despatch.

New York Express Freight Train leaves Boston at 1.30 P. M.; goods arrive in New York next morning before 6 A. M. Freight leaving New York reaches Boston on the following day, at 9.45 A. M.

For tickets, berths and staterooms, apply at the Company's office at No. 3 Old State House, corner of Washington and State Streets, and at Old Colony and Newport Railroad Depot, corner of South and Kneeland Streets, Boston.

☞ Sunday Night Line. ☜

Cars leave every Sunday evening, at 6.30 P. M., connecting as above.

The Office, 3 Old State House, Boston, will be open every Sunday afternoon from 3 to 6 o'clock, and at the Depot from 9 to 10 A. M., and from 5 to 6.30 P. M., for sale of tickets and staterooms.

Steamers leave New York daily, (Sundays included,) from Pier 28 North River, foot of Murray Street, at 5 P. M.

The Chronicle.

THE SHIFTLESS.—Is it necessary that every honest and industrious man should carry a shirk on his back? We frequently hear that the times are unprosperous—that thousands of the industrious poor are suffering from lack of employment and hence from lack of bread. In supposed proof of this we are pointed to the fact that an advertisement in a city paper called for a man to fill the position of potter, coachman, clerk, book-keeper or letter-carrier, will be answered by several hundred applicants, all "out of employment." Those who do not look behind this statement, which is true in itself, will naturally get gloomy views of our industrial condition, and conclude that there is something radically wrong in the conduct of government or the constitution of society, when able-bodied men and their families can go hungry in this land of plenty, for lack of honest work to do. Let us see:

The Young Men's Christian Association of Chicago, among its manifold beneficent activities, maintains a sort of Labor Exchange, the object being to bring the workers and the work together without expense to employer or employed. We are informed by the gentlemen having charge of this department that they receive an average of two or three hundred applications for work daily from men, and that of this great number almost *none* will consent to go into the country where the work is, leaving the city where the work is not. The Association has a standing call for laborers by the thousand in building new railroads in the West, and this call they cannot fill although hundreds of able-bodied, unemployed men are hanging about the intelligence office and watching the "want" columns of the daily papers. In the meantime these unmanly shirks naturally become destitute and their next step is to appeal to the charities of honest people as "unemployed workingmen." Their pitiful tale goes into the newspapers and straightway we are told the times are out of joint, "the rich are growing richer and the poor poorer."

What is true of Chicago is undoubtedly true of New York and the other large cities of the land. There are some genuine cases of hardship, but nine-tenths of those who complain of lack of work are soft-handed loafers who are resolved not to leave the city and not to do anything that smacks of downright toil. There are not ten able-bodied men west of Pittsburg who could not get regular work at fair wages were they willing to shoulder a pick or an axe and march to the line of a new railroad or do common farm work in the country. It is the prevalent itch for living in cities, and the prevalent disposition to shirk honest labor, that fills our streets and drinking saloons with muscular idlers, our intelligence offices with applicants for positions as clerks and car-drivers, and depletes the purses of the industrious and the charitable to support the destitute families of the "unemployed." If it were not for their suffering wives and children it would be easy to suggest the proper treatment for men who would rather beg than sweat, but innocent womanhood and childhood usually come in to complicate the problem.

It is something to know that there is no lack of work and wages for all able-bodied men who are willing to do the work for the wages, but what shall be done with the shirks?—*Chicago Advance.*

A CORN-HUSKING PIN.—Every experienced farmer knows, in husking corn from the stack and often otherwise, that the husks cling close to the ear, and that without aid the thumb and finger soon become tender, and often get so that it is extremely painful to use them at all. To remove this objection and facilitate the husking by hand, shields or corn huskers have been invented, which seem to have peculiar merits; but a home-made article, which I have used and seen others use many years, costing but a few moments' time to make, affords great relief to the thumb and fingers, and has the merit of not being patented. Any one can make one, and after using it a short time will not be without it, unless he has something as a substitute, in hand-husking.

Procure a piece of hickory or other hard, tough wood, six inches long, and make a round pin 5-8 an inch in diameter, square at one end, and brought to a point at the other from about half its length; bore two holes as wide apart as the second finger is thick, one on each side of the centre of the pin, and through these draw a piece of soft leather, sheepskin, making a loop of suitable size for the finger to slip through freely. Take this pin in the right hand, the finger through the loop, with the point of the pin to the thumb side, clasp an ear of corn with the left hand, and with the pin pick open the husks, clasping them with the thumb in the hand, and strip them off; very rapid work can be done in this way, and the thumb and fingers be well protected. This may not be new to many, but any one who has never tried it, I think, will be thankful for the suggestion.—*Cov. Country Gentleman.*

PERRY DAVIS' PAIN KILLER, as an internal remedy has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, dysentery, Asthma, it cures in one night, by taking internally, and bathing with it freely. It is the best liniment in America. Its action is like magic, when externally applied to bad sores, burns, scalds and sprains. For the sick headache and tooth ache, don't fail to try it. In short, it is a Pain Killer. 4ws7

DODD'S NERVINE AGAIN.
ANOTHER CERTIFICATE.
LEBANON, CONN., April 3, 1869.
Accept thanks for calling my attention to DODD'S NERVINE AND INVIGORATOR. It has done me more good than any other medicine I ever took. I have gained twelve pounds of flesh, and am correspondingly better every way. It is an invaluable remedy.
4wau23 MRS. JOHN T. LEACH.

WHAT ARE
DR. J. WALKER'S CALIFORNIA Vinegar Bitters.
THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits, and refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetisers" "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, *free from Alcoholic Stimulants.* They are the GREAT BLOOD-PURIFIER and LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell. $100 will be given for an incurable case, providing the bones are not destroyed by mineral poisons or other means, the vital organs wasted beyond the point of repair.
FOR INFLAMMATORY AND CHRONIC RHEUMATISM, AND GOUT, DYSPEPSIA, OR INDIGESTION, BILLIOUS, REMITTENT, and INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS have been most successful. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.
These Bitters are not a gilded pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.
They are Alterative, Tonic, Diuretic, Sedative, Diaphoretic, and Gentle Purgative.
"The Life of all Flesh is the Blood thereof."—Purify the blood and the health of the whole system will follow.
R. H. McDONALD, J. WALKER, & CO., Proprietors,
San Francisco and Sacramento, California, and 32 and 34 Commerce St. (Commerce, a short street running from Bleeker to Barrow), N. Y.

SOLD BY ALL DRUGGISTS.

"Ingenio Stat Sine Morte Decus."
ROCKY MOUNTAIN BITTERS
IS a very superior Regulating Tonic, imparting vigor and strength to the constitution—a thorough
PURIFIER OF THE BLOOD,
a regulator of nervous force, and a powerful sustainer of health against the encroachments of disease.
The invalid and convalescing seeking restoration, and yearning for the healing virtues of some magic balm, will find in these Bitters a hidden mysterious power, which QUIETLY RESTORES, yet resolves to reveal to the senses anything but taste and color.
It is a pleasant Bitter, free from all nauseous properties odor, entirely vegetable, being mainly grown at the base of the mountains from which they derive their name, and is particularly adapted to all forms of
DYSPEPSIA OR INDIGESTION,
manifesting themselves by the following symptoms: headache, nervousness, loss of memory, low spirits, giddiness, dimness of sight, dullness of hearing, and ringing noises in the ears, eructations, of belching of wind, tightness of breathing, weight and oppression of the chest, uneasy feeling about the heart, palpitation, &c.
Also for Liver Diseases, Disorders of the Kidneys, Restlessness and loss of Muscular Power, these Bitters will be found almost a specific; and as a preventative of
FEVER AND AGUE
or a restorer of the natural powers of the system, when broken down by continued ague attacks; it has no equal.
Being stimulating, (but not intoxicating), they refresh and invigorate both mind and body, heighten the sensibility, clear and sharpen the faculties, and bestow alacrity and cheerfulness of spirit.
CAUTION.—There have been, and still are several parties manufacturing and selling so-called "Langley's Bitters," many of which are worthless. As a guide against such, I would say that in 1866, I secured my copy-right, in the United States Court, a trade mark and name, "Rocky Mountain Bitters," and all Bitters of my manufacture are put up in *dark, long neck, quart bottles* with red label printed with gold; also, direction label, bearing my seal and directions printed in red, with a red cap and my seal printed in gold, over the cork. Beware of all others, and ask for **"Rocky Mountain Bitters."**

The Daily Chronicle.

Portsmouth, N. H.

TUESDAY, OCT. 12, 1869.

The News.

A general Indian war is imminent.

Montana has a $49,000 gold brick.

Horace Greeley has accepted the nomination of Comptroller on the Republican State ticket of New York.

Harvards 32, Lowells 13.

PERSONAL.—Rear-Admiral Ellms of the Haytien Navy arrived at his residence in this city on Saturday.

A letter has been received giving the particulars of the earthquake at St. Thomas on the 17th of September. The earthquake occured at about 3 o'clock P. M., and shook the city of St. Thomas to its foundation. The shocks were so severe as to materially injure many of the buildings, shattering their walls, causing a general panic among the inhabitants, and the entire suspension of business.

Admiral Farragut has been dangerously ill at Chicago, and is recovering.

ELECTIONS take place to-day in Pennsylvania, Ohio and Iowa. The Republican State ticket in Pennsylvania was elected last year by 9,677 majority; and the present legislature consists of 80 Republicans and 53 Democrats.

The Republican majority in Ohio last year, was 17,383, and the present legislature has 66 Republican members, and 76 Democrats. The ratification of the 15th Constitutional Amendment is to come before the legislature to be chosen to-day, and the Democrats are making great efforts to retain ascendency in that body.

In Iowa last year there was no general election for State officers, but President Grant's majority was 50,359. 128 Republicans and 21 Democrats compose the legislature.

Dexter has trotted a half mile in 1:04.

Reported for Chronicle and Gazette.

REAL ESTATE.—*Conveyances in Rockingham Co., week ending Oct. 9.*

WINDHAM.—Joseph B. Proctor to Nahum Barrett, Farm for $2000.

RAYMOND.—Benj. Poor to Chas. G. Brown, land for $250.

LONDONDERRY.—Moses N. Holmes to Saml. Woodbury, land and buildings for $1500.

KINGSTON.—Wm. C. Patten to Ora P. Patten, land for $1000.

☞ A letter from Bangor to the Boston Advertiser says:

"The city of Bangor is on the Penobscot river, about seventy miles from the open sea, and has a usual tide of about sixteen to twenty feet. On the evening spoken of the tide had flowed to an unusual, if not unprecedented, height. An ebb of about seven feet and two hours, time had succeeded, when on a sudden the tidal wave swept up the river, from seven to nine feet in height, with the greatest violence, tearing vessels from their moorings, and in one case breaking a seven-inch cable. The rush of water was like that from a full lake when the dam which holds it is suddenly broken through, causing such a commotion and noise as to arouse the sailors who had retired for the night and to call them to the deck. Some strange freaks were the result, as in one case where a boom of logs was so much disturbed as to release all its contents, leaving the boom to re-adjust its own position and take in the floating logs set loose from booms above, so that the owner next morning found his own logs all gone and his boom filled with a new drive. In a short time the waters again receded so as to make ready for the regular flow of the next tide."

COLLISION AT SEA.—The steamer Nereus, Capt. Bearse, which arrived here this morning from New York, was in contact with the U. S. steam tug Speedwell, from Portsmouth, N. H., for New York, at 2.30 P. M., on Sunday off Fisher's Island, and had stem and wood ends started. The collision occurred in consequence of the thick weather.—*Boston Journal.*

☞ The corn crop of Illinois this year is immense; the wheat crop will not turn out as was expected, owing to violent rains during the summer months.

EDITORIAL JOTTINGS.—*Indian Hill Farm*, at West Newbury, Mass., is well known as one of the most beautiful and interesting spots in New England. And the great attraction is its quaintness,—the resemblance to an *Old* English domain. We had the pleasure of spending a day there last week; and besides the home-like hospitality of the inmates, which is noted far and wide,—the dissimilarity with everything modern or American, was a new and enjoyable experience to us.

Proceeding westward with Conductor West to Newburyport, a young gentleman relative of Maj. Poore's, who is visiting at Indian Hill, met us at the depot, conveyed our party five miles per old post road to the Farm, and very handsomely aided in showing us the honors and courtesies of the day.

Indian Hill Farm comprises about 400 acres, of which 200 are attached to the house. It is now the property of Maj. Ben. Perley Poore—who is a famous citizen of this broad land, being known by everybody as the host at Indian Hill, as "Perley" of the Boston Journal, as writer of various works, as the man who wheeled the barrel of apples to Boston, or as noted in social, political, military and Masonic circles. The estate has been owned and occupied by the Poore family from the settlement of this section of the country—the land having been sold to the original English occupant of the name by the Indians, and never otherwise deeded. The premises have thus been the family heritage for more than two centuries.

The buildings are beautiful for rarity, and delightfully quaint. We shall attempt no description. The long, low, rambling collection of little structures, with numberless latticed windows of diamond shaped stained glass; turret on turret; spires and minarets; gables in profusion and almost confusion; corners, angles and arches, with pillars, posts, roofs and all hung with creeping vines,—was a sight we never shall forget. We almost expected to cross a moat on draw-bridge ere we might enter the charmed precinct.

Inside, all is in keeping. There are more than forty different apartments in this labarynthine structure; and each of the chief rooms has its special feature. The main house, more than two hundred years ago, was originally built after the style of the old Poore mansion in England, and of course is low studded. Afterward, this was used as a stable, a new and modern residence being built in front across the carriage way. But on the father of Major Poore visiting England, with him, when a boy, the old gentleman at once discovered the close resemblance of his then barn to the original homestead; and caused a London architect to draft plans of this, and on his return to Newbury, restored and moved into the old house, built new stables, and tore down the new house!

And it is the old house which we visited, and where we revelled in relics and memories of the cloistered past. Additions and improvements have been made,—comforts and conveniences added, but no alterations allowed. The most interesting rooms to us,—after the dining-room, perhaps,—were the Major's study, the entrance hall with its galleries on either side, and the Continental suite of rooms.

For three generations have these Poores, resident amid this odor of antiquity, been collecting and enjoying relics of history, native and foreign,—autographs, natural, mineral and military curiosities, and the like; and the Major's collection of distinguished autographs is in some respects unequalled. Among others, we were interested in reading a letter from Daniel Webster to the Sec. of the Navy, recommending (and no doubt securing) the appointment of John Winslow, now Commandant at our Navy Yard, to the Naval Academy.

The proceedings at Portsmouth on the death of Washington, as were eloquently described by a local journalist of the day, read from this Washington volume by Maj. Poore. The English were fond, in those days, of styling Washington a Dictator, just as some fools apply the same term to Grant now. There were three different pictures of Washington issued in England, in which he was thus named; and Major Poore has a copy of each, which cannot be found all together elsewhere this side the water.

Maj. Poore's family consists of his wife and two daughters, and two sisters,—who appreciate and enjoy the lovely spot with him. The superintendent of the estate, with the farm hands and servants, live in a wing of the mansion separate and distinct from the residence of the family. We saw at work harmoniously in the field, a gang of five men, of whom two were negroes, one English, one Irish, and one a Yankee.

We found six horses in the Major's stalls; and the neat stock is all of the white Durham breed, which have been bred on the farm for more than thirty years, and are fine animals. Indian Hill Farm received, several years since, (in the days of the present owner's father, we believe,) a silver pitcher from the Mass. Agr. Soc'y, if we remember aright, as the best conducted Farm in the State—which we chanced to see, in looking about, but did not copy the inscription.

Ten years ago, we think, this or some similar Society, offered $1000 for the most successful experiments in forest trees—and Maj. P. has certainly done wonders in this line, having planted a forest of many varieties of evergreen and deciduous trees, which are doing well. We hope he may win the glory of this award; and at any rate, he enjoys the occupation of forester to the utmost.

But we cannot even mention all that we saw to interest us. The Continental Rooms, which we alluded to before, are contained in an addition or offshoot of the main structure,—the two stories of which, and the staircase adjacent, are finished and furnished entirely with relics of olden time—for instance: a stair-rail and balustrades from the old Prince House, Newburyport; paneling or wainscoting from the Provence House, other parts from the Hancock House, &c., &c., to the end of a very long and very interesting list to behold and examine.

"Perley" is a printer, and in the attic is his printing office—the only press, one which came from the James and Ben; Franklin office in Court Street, Boston, where the splendid new building of the Advertiser now stands. This office is in good order, and the immortal Ben. himself would have rejoiced at such nice fixtures as are found here.

The garret is also full of antique curiosities—not to mention the mummy's hand, and part of his case or coffin, selected in Egypt by our host himself, by signs or symbols on which, the Major finds our deceased brother of 3000 years ago or so, to have been a Free Mason. Here are precious old newspapers, chairs from the home of Washington, doors or windows of this and that great house, and what not?

But we have used up all our time in roaming about the house and beautifully diversified grounds; and taking off our hat beneath the great elm planted by Rufus King and Grandfather Poore, in the days when the Revolutionary soldiers necessitated a vacation at Harvard, by occupying the College for barracks—we must bid Indian Hill farm and its pleasant inmates and agreeable associations, adieu—quite certain that we never shall look upon its *like* again, tho' we do hope to view the same many times. F.

BOSTON BOOK TRADE CHANGES.—No one who has been familiar with the pleasant atmosphere of the old store with the round numbers, for many years past, can doubt that Mr. Alexander Williams will carry with him into the "Old Corner," 135 Washington Street, Boston, the administrative ability and peculiar tact required to make a popular and successful Bookstore, and to fully sustain the reputation the place has gained in past days. Messrs. A. Williams & Co. will do at their new place a general Book business, leaving the periodicals behind at the old stand, and will also retain the agency for the publications of Harper & Brothers, and the important specialities of Agricultural and Mechanical books.

☞ Nobody can complain of the weather vouchsafed us since the storm of Monday. Saturday was one of the most pleasant days of the season, warm enough to remind us of August, and sufficiently enjoyable to cause hopes that the harvest moon may be accompanied till its wane by just such fine weather.

—Iowa has multiplied its population by one hundred in thirty-five years.

BUSINESS NOTICES.

WITH DYSPEPTICS everything is wrong. Food does not digest; sleep does not refresh; wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it or it will become seated and confirmed, and life will be a burden and existence a curse. PLANTATION BITTERS will do away with all this. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the lustre in your eye will again be as bright as in your healthiest, happiest and most joyous days.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

There is no disease flesh is heir to more troublesome to manage than Rheumatism. It comes when you least expect it, and generally remains till it gets ready to go away. The most conspicuous remedy for this complaint is "Johnson's Anodyne Liniment."

Two or three doses of "Sheridan's Cavalry Condition Powders" will cure a horse of any common cough or cold, and the very worst cases may be cured in a few weeks. We know this from experience.

SPECIAL NOTICES.

The Exhausted System.

Summer is a debilitating season, and the sudden change of temperature which takes place at this period of the year finds the healthiest of us considerably enervated by the preceding heat, and the weakly and delicate almost prostrated. This is not a favorable condition in which to encounter the raw cold winds of October and its chilling fogs and night dews, and consequently intermittent fever, dysentery, billious attacks, and rheumatism are more to be powerfully felt, where, but especially in localities where the atmosphere is naturally unwholesome. In order to avoid the dangers arising from these causes, the exhausted system should now be renovated and invigorated by a course of HOSTETTER'S STOMACH BITTERS. This purest and most potent of all vegetable tonics and invigorants is regulator of secretion while it renews the strength, and purifies the fluids of the body, while it gives firmness and vigor to the nervous organization. Free from the unpleasant flavor which renders the ordinary tonics so repulsive, composed of extracts and juices of the choicest vegetable invigorants and correctives, mingled with a diffusive stimulant from which every noxious element has been expelled, this renowned preparation is, in all respects the very best medicine of its kind that the world has ever known. Such is the opinion of distinguished members of the medical profession, and the general verdict of the public, after an experience of twenty years, during which HOSTETTER'S BITTERS has attained a greater popularity and a more extended sale than any specific ever advertised in the columns of the American press.

Holloways Pills.—THE HORRORS OF DYSPEPSIA.—"Try all things" is a bad motto for the sick. It is better to try that which the world's experience has proved to be super-excellent. For fifty years HOLLOWAY'S PILLS have been countless. Is this not a sufficient guaranty. Is curing Dyspepsia. Not a single failure is on record; while the greatest successes have been. It not madness for any one writhing under the terrible pangs of dyspepsia to decline or neglect to take a medicine fortified with such credentials. Sold by all Druggists.

DEATH TO PIN-WORMS.

Eminent physicians say that more sickness among children results from Pin-Worms than from any other cause. A safe and effectual remedy for these troublesome and often dangerous pests is found in DR. GOULD'S PIN-WORM SYRUP. Cure for adults and children warranted without injury to health. Price 75 cents. GEO. C. GOODWIN & CO., Boston, and all druggists. 07 6mo

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, should buy this book. Single persons of marriageable age should read this book. It discloses secrets that every one should be accquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, before you place yourself under any one of the notorious QUACKS—native and foreign—who advertise in this or any other paper, read a copy of Dr. Young's Book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your loved life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

ASIATIC CHOLERA IN CHINA.

TUNGCHOW, China, Aug. 23, 1866.

MESSRS. PERRY DAVIS & SON:

DEAR SIRS—During a long residence in China, I have used your invaluable Pain Killer, both in my own family and among the Chinese, and have found it a most excellent medicine. In the summer of '65 and '66, while residing in Shanghai, I found it an almost certain cure for Cholera, if used in time. Indeed using it in a great many instances, I do not remember failing in a single case. For three years I have been residing in this place, more than fifty miles from a physician, and have had obliged often to fall upon my own resources in cases of sickness. The Chinese come to us in great numbers for medicine and advice. Though without medical knowledge ourselves, the few simple remedies we can command are so much in advance even of their physicians, that we have almost daily applications. We allow them to come because it brings us in contact with them, and opens a door to usefulness. In diarrhœa, colic, vomiting, cholera, coughs, &c., your Pain Killer has been my chief medicine.

Yours, very truly, T. P. CRAWFORD.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Bruises, Cramps, Dysentery, &c., have made it the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Dysentery, and Dysentery yield at once to its paincurative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. or

FRIGHTFUL DEVELOPMENTS!

At last the people have got the fact "through their hair," that hair dyes impregnated with acetate of lead and other metallic salts are

MURDEROUS PREPARATIONS.

When they see the metallic sediment at the bottom of the bottles, they know that the disgusting stuff is literally *thickened with Poison.* They ask, therefore, for a

Harmless Vegetable Dye,

and find it, pure and efficacious, in

Cristadoro's Excelsior Hair Dye

offered under the sanction of Professor Chilton's guarantee that it contains "nothing deleterious." CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. 1md&wo4

In Remote Settlements of United Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the bowels and blood. Their untold value to those living in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. All Druggists are sold with each box.

Sold by all Druggists.

Dr. Hopkins' Iron Tonic,

A BLOOD PURIFIER AND REGULATOR, Cures Dyspepsia, Loss of Appetite, Liver Complaint, Sick Headache, Depression of Spirits, Neuralgia, Nervous Affections, Disease of the Skin, Consumptive Tendencies, Chronic Diarrhea, and Diseases peculiar to Females.

ALLEN'S LUNG BALSAM,

The Remedy for curing CONSUMPTION, COUGHS, BRONCHITIS, ASTHAMA, and CROUP. As an Expectorant, IT HAS NO EQUAL.

It is composed of the active principles of roots and plants, which are chemically extracted, so as to retain all their medical qualities.

Ministers and Public Speakers

Who are so often afflicted with throat diseases, will find a sure remedy in this Balsam. Lozenges and wafers sometimes give relief, but this Balsam, taken a few times, will insure a permanent cure.

Will all those afflicted with Coughs or Consumption, give this Balsam a fair trial, they will be pleased with the result, and confess that the sure remedy is found at last.

IT IS SOLD BY ALL DRUGGISTS.

CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS for Diseases of the Liver, or to act as a gentle Purgative.

All of these three medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills assist in regulating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These meditines are conscientiously offered to the public as the only safe, certain and reliable remedies for Pulmonary Consumption, and for all those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long probation before the public. Its value has been through a period of more than thirty-five years, in all of which time its sales have been constantly increased, and the most obstinate skepticism can no longer doubt that it is a remedy which may be used with confidence in all cases which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, he will certainly be cured, if his lungs are not too much wasted to make a cure possible. Even in cases supposed to be incurable, when friends and physicians have despaired, the use of the medicine has saved the life of the patient, and restored him to perfect health.

Dr. Schenck himself was cured in precisely such circumstances, and many others have been equally fortunate by judiciously making a timely use of Dr. Schenck's remedies.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he emphatically asserts, that often when patients have the most alarming symptoms, such as a violent cough, creeping chills, night sweats, and general debility, even to such a degree that they are obliged to lie in bed, and when they are given up by their physicians, they may be cured. No medical agents can create new lungs, but when the lungs are very badly diseased, and to some extent destroyed, a cure may be effected by Dr. Schenck's medicines.

Also in Scrofulous diseases these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores, and now all healed up. This shows its purifying properties, which must be done to heal cavities in the lungs.

In the treatment of Consumption, it is of the utmost importance to give vigor and a healthy tone in the system. Hence it is necessary to strengthen the appetite of the patient and improve the digestion. Proper nourishment is required, together with such means as will make the food easily digestible. The articles most suitable for the diet of consumptive patients are designated in Dr. Schenck's Almanacs, which are distributed gratuitously. In general, the most nutritious articles are to be preferred; but the digestive organs must be strengthened in order to make either food or medicine serviceable. This requirement is met by the Sea Weed Tonic, and for this purpose it was designed.

When the digestive powers are put in good order, the food has its proper effect, the system of the patient is invigorated, and the lungs have strength to exercise their functions in a normal and healthy manner. Then the healing powers of the Pulmonic Syrup will complete the cure.

Pulmonary Consumption is almost always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills have the effect to remove obstructions from the liver and restore its healthy action. They have all the efficacy which is ascribed to calomel or "blue mass," and are warranted not to contain a particle of any mineral poison. These pills cure the most obstinate cases of costiveness, sick headache, jaundice, affections, and all other diseases which arise from a torpid or obstructed condition of the liver. One box of these pills will prove the efficacy of the medicine.

In Consumption, the Sea Weed Tonic and Mandrake Pills are invaluable auxiliaries to the Pulmonic Syrup in effecting a cure. They have been found useful in advanced stages of Consumption, where the lungs were almost entirely destroyed, and all symptoms, according to the judgement of physicians, indicated speedy death. Lives of patients who were actually in a dying condition have been preserved for months by the use of Schenck's three great remedies.

DR. SCHENCK'S Almanac, containing a full treatise on the various forms of disease, his mode of treatment and general directions how to use his medicine, can be had gratis, or sent by mail by addressing his Principal Office, No. 15 North Sixth Street, Philadelphia, Pa.

For sale by the Pulmonic Syrup and Sea Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggist and dealers.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and at the same time safe as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish mercury from use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than **One thousand experiments**

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

Wholesale agent, John F. HENRY, No. 8 College Place, New York City.

Batchelor's Hair Dye.

SALESMEN.—Wanted, a few reliable, energetic salesmen, to sell by sample standard goods. Address H. H. RICHARDS & CO. g10t&eod 412 Chestnut St., Philadelphia, Pa.

LOCAL AFFAIRS.

VETERAN BUSINESS MEN.—Among our many prosperous merchants in Portsmouth there are several who date the commencement of their business here previous to 1830, and who are at present engrossed in the details of their mercantile transactions as interestedly and with as much success as at any time during the past forty years. Among these names the public will recognize some of the most substantial of our business men, whose practical experience affords the best examples for their younger brethren to follow, if they would attain like prosperity, command equal respect and have as unspotted reputations for honor and integrity.

STEPHEN H. SIMES started in the dry goods business in October, 1820, in the store on Market Street now occupied by L. Blumauer & Co., a few doors north of his present locality, where the same business is conducted under the firm name of Stephen H. Simes & Co., John S. Rand being the junior partner.

LEONARD AKERMAN entered the grocery business, three months later, in Jan., 1821, and is still in the same business, corner of Penhallow and State Streets, assisted by his son.

CHARLES E. LAIGHTON commenced the same business in 1822, and his son, Chas. M. Laighton, is now partner in the firm of Chas. E. Laighton & Son, 5 Exchange Building, Pleasant Street.

BENJAMIN CARTER, grocer, comes next, having commenced business in 1823. He has now for a partner, his son, J. Warren P. Carter, and both are to be found at their place of business, 18 Daniel Street.

DR. DAVID KIMBALL has continued in the apothecary business since May, 1824, and has lately associated with himself as a partner, N. Dana Whipple. The business is conducted under the firm name of David Kimball & Co., at 36 Market Street.

BENJAMIN CHEEVER established himself in the clothing business, Jan. 1, 1825, and is still found at No. 40 Market Street.

THATCHER EMERY still continues the grocery business at 73 Pleasant Street in the same store in which he first entered the business, in 1825.

EDMUND M. BROWN still continues at the old stand, No. 35 Market Street, and in the same business, that of cabinet maker, in which he has been engaged since 1827. The firm name is E. M. Brown & Co., James C. Brown being the "Co."

We have but little to add regarding these well known citizens, except to remark that all have deserved their prosperity, and that prosperity came from strict attention to business and a proper appreciation of the result of honorable dealing and competition without strife.

☞ A friend asks us to publish the proceedings at the late annual meeting of the Concord & Portsmouth Railroad. It is well known that Portsmouth contributed largely towards the building of this road, and it seems there is now owned here two-fifths of all the stock, and yet there is not any Director residing here on the board.

Communication.

C. & P. R. R. MEETING.—At the recent annual meeting of the Concord & Portsmouth Railroad, at Manchester, the vote for Directors was, for—

Stephen Kenrick, of Franklin,	1074
Samuel P. Dow, of New Market,	1074
Benj. F. Martin, of Manchester,	1074
Samuel N. Bell, of Manchester,	1074
Joseph B. Walker, of Concord,	1790
John J. Pickering, of Portsmouth,	681
Albert R. Hatch, of Portsmouth,	681
Nathan Parker, of Manchester,	681
Nathaniel White, of Concord,	681

and the old board was re-elected.

Mr. Hatch called for information respecting the state of the corporation and the value of the stock. He said that little information has been given in the recent annual report of the Directors; and that the stockholders and the public are alike in ignorance on these subjects; that for this reason the price of the stock fluctuates in the market, and that no definite or just cause is assigned for it. He complained that no director resides in or near Portsmouth, where more than two-fifths of the stockholders reside. On his motion the following resolution was adopted:

Resolved, That a committee of three be appointed to examine the condition of the corporation, and report such facts as may tend to show and establish the just market value of the stock.

Albert R. Hatch, Nathaniel G. Upham and Nathan Parker were appointed the committee.

Mr. Hatch then moved that the next annual meeting be held at Portsmouth. He stated that of the 3500 shares in the stock of the corporation, 1466 are owned in Portsmouth, 494 by persons living nearer to Portsmouth than to Manchester, while only 805 were owned in Manchester, 350 of which belong to banks in that city. That of the 214 different stockholders in the corporation, 82 live in Portsmouth and 71 as near to Portsmouth as Manchester, or nearer, while only 25 live in Manchester and 8 in Concord. A stock vote was called and the motion was rejected.

On motion of Gen. Hadley, a resolution was adopted, requesting the directors to render an account of the $500 annually paid by the Concord Railroad to this corporation, in addition to the semi-annual dividend.

This corporation seems to be managed by a "circle" in the interest of the Concord Railroad, who take care that the majority of the stockholders shall have neither control nor knowledge of its concerns. We hope that the movement commenced at this annual meeting will be strongly followed out.

☞ Capt. Heman Eldredge of this city, has just purchased a pair of handsome black colts, which appear to be about as perfect animals as we ever looked over. They are very closely matched—to a shade of color, and a pound in weight, the span weighing 2020 we believe. They are all black, without white, with switch tails; and although but five years old, are as well trained, quiet and reliable as any old family joggers. They are said to be twins; and are certainly a rare acquisition to the stable of any gentleman. They were selected in the country, for Capt. Eldredge, by Mr. John S. Sides,—and we wish their owner and his family much enjoyment with them.

Speaking of horses,—the five brought home by Messrs. Main & Winchester, are of California stock, and young horses, instead of those carried out, as stated by a Boston paper. Our friends of the leather persuasion are hard to beat on teams; and nearest of any to them, for light and fancy turn-outs, in this vicinity, stands Mr. Blaisdell of Greenland, as we always thought.

☞ The Monday morning train from Boston on the Eastern R. R. was delayed three-quarters of an hour by an accident at Wareham by which the postal car was smashed considerably.

☞ The rain poured in torrents, Sunday night.

A SMALL-POX REMEDY.—A correspondent of the Stockton, California, Herald, writes as follows:

I herewith append a recipe, which has been used to my knowledge in hundreds of cases. It will prevent, or cure the small-pox though the pittings are filling. When Jenner discovered cow-pox in England, the world of science hurled an avalanche of fame upon his head; but when the most scientific school of medicine in the world—that of Paris—published this recipe as a panacea for small-pox, it passed unheeded. It is as unfailing as fate, and conquers in every instance. It is harmless when taken by a well person. It will also cure scarlet fever.

Here is the recipe as I have used it, and cured my children of scarlet fever; here it is as I have used it to cure the small-pox; when learned physicians said the patient must die, it cured: Sulphate of zinc, one grain; foxglove (digitalis), one grain; half a teaspoonful of water. When thoroughly mixed, add four ounces of water. Take a spoonful every hour. Either disease will disappear in twelve hours. For a child, smaller doses, according to age. If countries would compel their physicians to use this there would be no need of pest-houses. If you value advice and experience, use this for that terrible disease.

ELISHA TRIPP,

No. 9 Penhallow Street, Portsmouth, N. H.

A PACIFIC RAILWAY

GOLD LOAN $6,500,000.

We beg leave to announce that we have accepted the agency of the

KANSAS PACIFIC RAILWAY COMPANY,

For the sale of its

NEW SEVEN PER CENT.

Thirty Year Gold Loan, Free from Tax.

This Loan amounts to $6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds,

secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 537 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon the Road, the Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,

And in successful operation for 437 miles

west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the track, from the 39th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as

A SINKING FUND FOR THE REDEMPTION OF THE BONDS.

The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the

Value of the Company's property, covered by this mortgage at $25,000,000 net, while the Loan is merely $6,500,000.

The Bonds have

THIRTY YEARS TO RUN,

from May 1, 1869, and will pay

SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be

PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:

On $1,000 Bond in N. Y. $25 (gold) each half year.
" " London....27 sh. 10. "
" " Frankfort..87 fl. 30 krtzs. "

The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a

FIRST CLASS INVESTMENT,

in every respect perfectly sure, and in some essential sense

Better than Government Securities.

The Bonds will be sold for the present at

96, *and accrued Interest, both in Currency,*

the Agents reserving the right to advance the rate.

The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

Pamphlets, with maps giving full information, sent on application.

Portsmouth, Oct. 1st, 1869. D. E. LEAVITT.

LAWS OF N. H.

PAMPHLET LAWS for session June 1869, in SMALL STATE, The largest of New Hampshire. TOWN OFFICER, Revised Edition, Of For Sale by JOSEPH H. FOSTER.

Morning Chronicle.

New Hampshire Items.

Mr. James Kelley, an employee of the Northern Railroad, narrowly escaped a fatal accident on Thursday. He was at work at the bottom of some trussed work in a deep wash-out at Henniker, when a broad axe fell from the hand of a man on the top of the trussel, cut through the rim of his hat, and buried itself most out of sight in the wood, between his feet.

Mrs. Annice T. Harris, formerly of Lebanon, attempted to commit suicide in Concord, recently, by cutting her throat. She came within a hair's breadth of severing the jugular vein, being prevented only by the dullness of her *knife*. She had previously been subject to fits of insanity, and is now in the Insane Asylum. Her sister, Mrs. Marston, who lived in Malden, Mass., killed her husband and child, and then herself, a few years ago, while insane.

The Pittsfield Times says the damage done to the highways in that town is estimated at $1000, and to the Suncook Valley Railroad at a number of thousands.

In Claremont, on the 5th inst., fire was discovered in the office of Dr. Bryant, dentist, but was soon extinguished. The Transcript says it probably caught from a lamp for vulcanizing rubber, which had been used a short time previous.

The Grafton County Teachers' Institute has been postponed to Nov. 1, on account of the bad state of the roads at the time previously appointed for it.

Col. John Hazelton of Orford raised 65 acres of oats this year, giving a total yield of more than 3000 bushels. He has one of the best farms in the State.—*Canaan Reporter.*

In Nashua, on the 7th, as workmen were engaged in putting in the new sewer, the bank caved in and completely buried a man named John Flury. His comrades began to dig for him, but did not know just where he was, when he managed to thrust his hand to the top of the earth, so as to guide them, and was rescued alive.

In Nashua, on the 6th, Wm. Perkins, employed by Fletcher & Webster, accidently cut his knee with a hatchet, severing the tendons of the knee-pan.

Eleazer Hoyt of Londonderry, reported to have died suddenly, didn't die.

We learn from the Manchester Mirror that a man named Lehe had his hand torn off in the machinery at the Amoskeag bag mill on Saturday. Mr. Geo. Fox was severely injured by being buried under a pile of boards. Mrs. Morse was thrown from a carriage and suffered a fracture of the collar bone.

On Thursday, at Lebanon, Edwin House, a lad eight years old, fell from the new Methodist church tower, a distance of 45 feet to the ground. He was taken up insensible.—*Free Press*

Mr. Isaiah Lane of Chichester put up last year three barrels of russets in kilndried saw dust. He opened them Oct. 7th and found them good enough to eat.

Mr. Geo C. Foster has disposed of his interest in the Rochester Courier to Mr. C. W. Folsom his former partner.

The Concord Granite Company have quarried a stone measuring 60 feet in length, 28 feet in width, and 12 feet in thickness, which weighed over 167 tons. This is probably the largest stone ever quarried in the State.—*Monitor.*

William Henry Burnham, of Dunbarton, a little fellow a dozen years old, planted two pounds of Early Rose, doing the work himself as he pleased, and raised therefrom 350 pounds, or almost six bushels.

On Tuesday morning, Mrs. Burlingame, of Allenstown, had her hand badly crushed in some of the machinery at the Pembroke Mills, at Suncook. Amputation of three of the fingers was performed.

—Ex-Gov. Harriman, of New Hampshire, made a favorable impression upon our people by his masterly speech on the 21st. He is a noble specimen of a man physically. Tall, well proportione, with a large, well balanced head, and an agreeable face, he impresses favorably at the beginning. His speech was a most finished production. The logic was solid, while his rhetoric was most brilliant and effective. We have rarely listened to so finished and effective a speech.—*Mt. Vernon, Ohio, Republican.*

—The Irish Churchman informs its readers that five Irish Roman Catholic priests have during the last month renounced the errors of their faith, and have been received into the Irish Church in Dublin.

—One Chicago fruit dealer received last week ten tons of California grapes, which arrived in good condition, and were sold at lower prices than those raised in the Central States.

—John Kitts, aged 107 years, has presented a petition to the Baltimore City Council for aid for services rendered in the Revolutionary war and in 1812.

—A Newark couple were lately married and divorced between two suns.

—It is interesting to remember what the newspapers were, and useful to understand them as they are. In 1844, newspaper life was slow; in 1869 it is exceedingly fast: what will it be twenty five years hence? As the telegraph was no part of the newspaper system in 1843, nor the Atlantic Cable before 1858, so the Balloon Express and the Oxygen Light and the Electric Engine are no part of it to-day. But who can tell what shall be?—*Brooklyn Monthly.*

—Josh Billings says; "Mackrel inhabit the sea, generally; but those which inhabit the grocery alwus taste to me as though they had been fatted on salt. They want a deal of freshening before they're eaten, and also arterwards. If I kin have plenty of mackrel far brekfast, I can generally make the other two meals out of water."

—Both the New York and Long Island Episcopal conventions have met, the past week. In his address, Bishop Potter congratulated the Episcopal clergy on *never having preached politics*; and expressed a hope that some day a good religious paper might be started.

—Rev. James Freeman Clarke says that the familiar hymn "Nearer my God to Thee," now so popular, was written for an extreme radical church in England, and was first introduced to the American public in a Unitarian hymn-book.

NOW IS THE TIME TO LAY IN

READING FOR THE WINTER.

VALUABLE BOOKS PUBLISHED BY

H. O. HOUGHTON & CO.,

Riverside Press, Cambridge, Mass.

For sale by all Booksellers, and to be obtained of the Publishers by sending a Post-office order, check, or money to the necessary amount.

N. B. The Publishers will send free to any address their large Catalogue of Publications, from which a farther selection can be made.

I.

THE IMPROVISATORE. By Hans Christian Andersen. In one volume, crown 8vo. Price in cloth, $1.75.

"No book brings back the externals of Italy more distinctly and vividly to the eye of the mind than this novel of the Danish poet's. Everything which an observant traveller may have noted as characteristic of Italy, and not elsewhere found, will be discovered anew in these animated pages." —*Dillard's Six Months in Italy.*

II.

A HISTORY OF NEW ENGLAND. By John G. Palfrey, LL. D. In two volumes, crown 8vo. Cloth, $5.00.

"We believe that Dr. Palfrey has penetrated deeply into the spirit of American History, and has thus given a certain harmonious unity to the annals of New England fathers, the want of which has made the narrative of their fortunes, as usually related by the early writers, so arid, confused, and repulsive."—*New York Tribune.*

III.

CHARLES DICKENS' WORKS. Most Complete Edition, containing matter not in any other collected edition, English or American. In 14 volumes. Globe Edition. $21.00.

Each volume over 1200 pages sold separately at $1.50.

IV.

JAMES FENIMORE COOPER'S COMPLETE WORKS. Household Edition, 32 volumes. $40.00. Each volume sold separately. Price $1.25.

The LEATHER-STOCKING TALES, by the same author, in five volumes. Price $6.25.

COOPER'S STORIES OF THE SEA; STORIES OF THE WOOD; STORIES OF THE PRAIRIE. Each in one volume. Price $1.50.

"The enduring monuments of Fenimore Cooper are his Works. While the love of country continues to prevail, his memory will exist in the hearts of the people. So truly patriotic and American throughout, they should find a place in every American's library."—*Daniel Webster.*

V.

LIFE, LETTERS, AND POSTHUMOUS WORKS OF FREDERIKA BREMER. Price, $2.00.

" . . . . We feel sure that the rare qualities of heart and mind united, the beauty of description and purity of thought and feeling which won for Miss Bremer's domestic pictures so many loving readers all over the world during her lifetime, will draw the old ones back and attract many new ones to these memorials."—*Cong. Ex. Chronicle.*

VI.

THE PILGRIM'S WALLET; or, Scraps of Travel gathered in England, France, and Germany. By Gilbert Haven. In one volume. $2.00.

"His pictures are drawn with a firm and vigorous hand. His description of London is wonderfully vivid and clear, and the only one we remember ever to have read, which gives the slightest notion of the external features of the modern Babylon."—*Portland Press.*

VII.

THE OPEN POLAR SEA. By Dr. I. I. Hayes In one volume, $2.50. Fine edition, $3.75.

"The volume is everything to be desired in respect of mechanical execution. The illustrations, which are half after sketches made by Dr. Hayes, have an additional charm thrown around them by the pencils of Darley, White, and Fenn, and are, without exception, spirited and artistic. The maps enable the reader to follow the course of the expedition with ease, and as regards typography, it need only be said that the volume was printed at the Riverside Press."—*New York Times.*

VIII.

MRS. CAUDLE'S CURTAIN LECTURES. By Douglas Jerrold. With illustrations. $1.25.

IX.

PICCIOLA. By X. B. Saintine. In one volume, beautifully illustrated. $1.25.

"This is one of the few modern tales which have attained a classic reputation. Like 'Paul and Virginia,' and Elizabeth, or the Exiles of Siberia, 'Picciola' is regarded as a book to keep, not merely to read and throw aside; its style and sentiment combine to give a permanent literary value; it is a household, a human book, appealing to the most refined and elevated feelings."—*Bos. Transc.*

X.

HISTORY OF ENGLAND. By Lord Macaulay. Student's Edition, in four volumes, 8vo. $6.00.

, From the latest English Edition, with additional notes.

HOW TO PROCURE ANY OF THE ABOVE BOOKS **Without Expense of Money.**

The Publishers of these works publish also "The Riverside Magazine for Young People," an illustrated Monthly, $2.50 a year, having for special contribution Hans Christian Andersen, the most eminent living writer for the young. They will *allow one dollar's worth in their Books* to every one sending the name of a new subscriber with $2.50 cash. Thus, by a little labor, any one can provide himself with a choice collection of books.

SPEER'S SAMBUCI WINE.

CATAWBA, PORT, GRAPE and P. J. Sherry.

The above Wines are made by Mr. Speer, whose reputation as a wine grower stands pre-eminent. They are well established, and long known by the Medical Profession as the most reliable and valuable wines to be had.

Every family at this season should use ☞

SPEER'S SAMBUCI WINE,

celebrated in Spain and Portugal for its beneficial qualities, highly esteemed by eminent physicians, used in European and American Hospitals and by the first families in Europe and America.

Excellent for weak and debilitated persons, the aged and infirm, improving the appetite and benefitting the ladies and children.

AS A DIURETIC

It imparts a healthy action to the Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic affections. Also,

SPEER'S PORT GRAPE WINE

is pure juice of the Oporto Grape, recommended by Physicians as possessing medical properties superior to California or Imported Wines.

SPEER'S STANDARD WINE BITTERS

The Best and Most Reliable Tonic and Bitters in the market, which is always the CHEAPEST.

☞ None genuine unless the signature o "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the United States Patent Office, Washington, under the Act of 1837,

No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching Patents. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Late Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Boston, Jan. 1, 1869.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE in all cases or no charges made.

DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar, or they will not be answered.

Office hours from 8 A. M. to 9 P. M.

FALL RIVER LINE

FOR New York, Philadelphia, Baltimore, Washington, and all principal points West, South and South-west, VIA TAUNTON FALL RIVER AND NEWPORT.

Cabin, $5.00; Deck, $4.00.

Baggage checked through and transferred in New York free of charge.

New York trains leave the Old Colony and Newport Railway Depot, corner of South and Kneeland Streets, daily, (Sundays excepted,) as follows: at 4.30 P. M., arriving in Newport 40 minutes in advance of the regular Steamboat Train, which leaves Boston at 5.30 P. M., connecting at Newport with the new and magnificent steamers PROVIDENCE, Capt. B. M. Simmons, and BRISTOL, Capt. Benj. Brayton. These steamers are the fastest and most reliable boats on the Sound, built expressly for speed, safety and comfort. This line connects with all the Southern Boats and Railroad Lines from New York going West and South, and convenient to the California Steamers.

"To Shippers of Freight," this Line, with its new and extensive depot accommodations in Boston, and large pier in New York, (exclusively for the business of the Line,) is supplied with facilities for freight and passenger business which cannot be surpassed. Freight always taken at low rates, and forwarded with despatch.

New York Express Freight Train leaves Boston at 1.30 P. M.; goods arrive in New York next morning about 6 A. M. Freight leaving New York reaches Boston on the following day, at 9.45 A. M.

For tickets, berths and staterooms, apply at the Company's office at No. 3 Old State House, corner of Washington and State Streets, and at old Colony and Newport Railroad Depot, corner of South and Kneeland Streets, Boston.

☞ Sunday Night Line. ☜

Cars leave every Sunday evening, at 6.30 P. M., connecting as above.

The Office, 3 Old State House, Boston, will be open every Sunday afternoon from 2 to 6 o'clock, and at the Depot from 9 to 10 A. M., and from 5 to 6.30 P. M., for sale of tickets and staterooms.

Steamers leave New York daily, (Sundays included,) from Pier 28 North River, foot of Murray Street, at 5 P. M.

GEO. SHIVERICK, Passenger & Freight Agt. Boston, May 12, 1869.—dly

The Chronicle.

ANECDOTE OF WEBSTER.—An individual in this State years ago, whom we will call S——, laid out all his earnings in the purchase of a small farm. His title, however, was disputed, and the case brought before the court. S——went to P——, a lawyer of standing, to consult with him on the subject, wishing to employ him as counsel. He told him that all the money he had earned by years of labor and industry had been paid down for the farm—that if he lost the case he was without a cent in the world, and should be unable even to pay him his fee. He wished P—— to employ some able lawyer to assist him in his premises. "Well," said P——, "I've got a young fellow to open the case." "A young fellow," said S—— in astonishment, "who is it?"

"His name is Daniel Webster!" "Daniel Webster," repeated P—— in a disconsolate and chop-fallen tone, expecting to hear the name of some great lawyer announced, like Dexter or Parsons; "Daniel Webster! who on earth is this Daniel Webster?"

"Oh, he's a young lawyer, a native of this State; his father a tavern-keeper down here in Salisbury!" "Tavern-keeper," said the astonished client—"well, you have got me into a pretty pickle—I might as well give up the case as lost. Salisbury! why I remember some years ago, as I was passing through that town I stopped at a tavern kept by one Webster, a farmer, I supposed it likely that's his father; and remember *a dark, Indian looking boy* whom they called Dan, came out and gave my horse some oats and water—*is this the lawyer you have employed?*" "I think it very likely —you have described him exactly."

"Pretty business this" said S——, and he expressed himself in a tone of discouragement, despair, and even contempt. However he went into Court, and as usually the case, took his seat near the counsel. He was just behind young Webster, and the moment he began his plea, S——'s ears were cocked and his neck extended, to learn what his words amounted to. As the young lawyer proceeded, S—— hitched the chair so as to get a near view of him—his head stretched out the while, and his eyes riveted upon him as if he were spell-bound. He then unconsciously rose from his chair, and stood directly before Mr. Webster, while he was speaking. There he stood till the eloquent lawyer had concluded hss plea, his head inclined forward, his ears pricked up as if he feared to lose a single word, his tongue hanging out of his open mouth.

When Mr. Webster, years afterwards, was speaking in a strain of surpassing eloquence of Adam and Jefferson in Faneuil Hall, we well remember to have seen several hundred of his auditors impressed in a manner similar to this—lifted with open mouths almost simultaneously from their seats. We need not say that S——'s case was clear enough, and that he wished the old Granite State had many more *such dark-faced Indian-looking boys.—Claremont Eagle.*

WHERE THE SUN DOES NOT SET.—The following graphic passage is from the description of a scene witnessed by a Mr. Campbell and his party, in the north of Norway, from a cliff 1,000 feet above the sea: The ochan stretched away in silent vastness at our feet; the sound of its waves scarcely reached our airy lookout; away in the north, the huge old sun swung low along the horizon, like the slow beat of the pendulum in the tall clock of our grandfather's parlor corner. We all stood silent, looking at our watches. When both hands came together at twelve, midnight, the full round orb hung triumphantly above the wave—a bridge of gold running due north spanned the water between us and him. There he shone in silent majesty, which knew no setting. We involuntarily took off our hats; no word was said. Combine, if you can, the most brilliant sunrise and sunset you ever saw, and its beauties will pale before the gorgeous coloring which now lit up ocean, heaven, and mountain. In half an hour the sun had swung up perceptibly on his beat, the colors changed to those of morning, a fresh breeze rippled over the flood, one songster after another piped up in the grove behind us—we had slid into another day.

—In one of the parishes in England, a little while ago, a sermon was preached for the Church Missionary Society, and the preacher was assured by the vicar and church-wardens that the last collection which had been made in it for any charitable object was for the relief of the wounded after the battle of Waterloo.

—An exploring party on the great desert country west of Colorado report their arrival at Muddy River; they will reach White Pine about the first of next month.

PERRY DAVIS' PAIN KILLER, as an internal remedy has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, dysentery, Asthma, it cures in one night, by taking internally, and bathing with it freely. It is the best liniment in America. Its action is like magic, when externally applied to bad sores, burns, scalds and sprains. For the sick headache and toothache, don't fail to try it. In short, it is a Pain Killer. 4ws7

DODD'S NERVINE AGAIN.
ANOTHER CERTIFICATE.
LEDYARD, CONN., April 3, 1869.
Accept thanks for calling my attention to DODD'S NERVINE AND INVIGORATOR. It has done me more good than any other medicine I ever took. I have gained twelve pounds in flesh, and am correspondingly better every way. It is an invaluable remedy.
5wan23 MRS. JOHN T. LEACH.

WHAT ARE
DR. J. WALKER'S CALIFORNIA Vinegar Bitters.
THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits, and refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetisers" "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, *free from all alcoholic Stimulant.* They are the GREAT BLOOD-PURIFIER and LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell. $100 will be given for an incurable case, providing the bones are not destroyed by mineral poisons or other means, the vital organs wasted beyond the point of repair.
FOR INFLAMMATORY AND CHRONIC RHEUMATISM, AND GOUT, DYSPEPSIA OR INDIGESTION, BILLIOUS, REMITTENT, and INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS have been most successful. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.
These Bitters are not a gilded pill, to delight the eye or please the fancy, but a medicinal preparation, composed of the best vegetable ingredients known.
They are Alterative, Tonic, Diuretic, Sedative, Diaphoretic, and Gentle Purgative.
"The Life of all Flesh is the Blood thereof."—Purify the blood and the health of the whole system will follow.

"Ingenio Stat Sine Morte Decus."

ROCKY MOUNTAIN BITTERS
IS a very superior Regulating Tonic, imparting vigor and strength to the constitution—a thoro'
PURIFIER OF THE BLOOD,
a regulator of nervous force, and a powerful sustainer of health against the encroachments of disease.
The invalid and convalescing seeking restoration, and yearning for the healing virtues of some magic balm, will find in these Bitters a hidden mysterious power, which QUIETLY RESTORES, yet refuses to reveal to the senses anything but taste and color.
If it is pleasant Bitter, free from all nauseous properties odor, entirely vegetable, being mainly grown at the base of the mountains from which they derive their name, and is particularly adapted to all forms of
DYSPEPSIA OR INDIGESTION,
manifesting themselves by the following symptoms: headache, nervousness, loss of memory, low spirits, giddiness, dimness of sight, dullness of hearing, and ringing noises in the ears, eructations, or belching of wind, tightness of breathing, weight and oppression of the chest, uneasy feeling about the heart, palpitation, &c.
Also for Liver Diseases, Disorders of the Kidneys, Restlessness and loss of Muscular Power, these Bitters will be found almost a specific; and as a preventative of
FEVER AND AGUE
or a restorer of the natural powers of the system, when broken down by continued ague attacks; it has no equal.
Being stimulating, (but not intoxicating), they refresh and invigorate both mind and body, heighten the sensibility, clear and sharpen the faculties, and bestow alacrity and cheerfulness of spirit.

CAUTION.—There have been, and still are several parties manufacturing and selling so-called "Langley's Bitters," many of which are worthless. As a guide against such, I would say that in 1866, I secured my copy-right, in the United States Court, a trade mark and name, "Rocky Mountain Bitters," and all Bitters of my manufacture are put up in *dark, long neck, quart bottles* with red label printed with gold; also, direction label, bearing my seal and directions printed in red, with a red cap and my seal printed in gold, over the cork. Beware of all others, and ask for **"Rocky Mountain Bitters."**

The Daily Chronicle.

Portsmouth, N. H.

WEDNESDAY, OCT. 13, 1869.

The News.

Gov. Senter of Tennessee was inaugurated on Monday.

Savannah, Ga., has chosen Democratic municipal officers by 3000 majority. The negroes voted for them.

Atlantics 20; Athletics 11.

Red Stockings 65; Omahas 1.

The Republicans of Spain are still making trouble for the royalists.

Thirteen men and twenty horses were drowned on Sunday in the St. Maurice River, Canada, by the upsetting of a scow.

A semi-annual Mormon Conference was held last week in Salt Lake City, at which a memorial to Congress, asking the admission of Utah as a State of the Union, was adopted. Utah has 150,000 inhabitants.

There is considerable excitement in Canada, but the reason for it is not clearly seen. The volunteers have all been ordered under arms, one dispatch alleging that a Fenian invasion is apprehended, while another says that anticipated complication in the Hornet case are the cause for the military activity.

A New York judge has directed the grand jury to enquire if the recent gold combination in Wall street was not a violation of the law making it a criminal offence for twenty or more persons to conspire together to commit any act injurious to trade or commerce.

The ship American Congress, Captain Livingston which arrived at New York from London, had a very narrow escape from destruction by a cyclone Sept. 14th and 15th. Several of his crew were severely injured he was badly crushed.

ACCIDENT.—On the 5th, Alba Farr of Dalton lost his life in the following manner. He was drawing a load of hay having six horses attached to the load, and riding thereon. When about to descend a steep hill he placed a shoe under a wheel, and resumed his seat. The chain connected with the shoe broke when about half way down the hill, letting the entire load upon the wheel horses, which caused the harnesses to give way, throwing the two animals backwards, and precipitating Mr. F. before the load. A wheel passed over his body, crushing and killing him almost instantly. Both the rear horses were also killed. Mr. Farr was about 28 years of age, and unmarried.

In Dorchester, week before last, Mr. Ashael Blodgett was engaged with his son in removing a large rock from the ground. By the breaking of the chain the rock fell back upon a skid, which violently struck Mr. Blodgett on the shoulder and neck, knocking him down, the side of his head striking a stone with such force as to break his cheekbone and leave him senseless. He is improving.

At North Branch, Antrim, on the 10th, Frank Davis was out hunting, and his gun slipped down in the wagon; in drawing it up into place it exploded, sending a heavy charge of shot into his side. He lived but a short time. A brother was killed at Henniker, seventeen years ago, on the fourth of July, by the bursting of a cannon.

☞ The Erie and Susquehanna war has ended. The Erie is to lease the Susquehanna road for ninety-nine years at an annual rental of seven per cent. on the bonded debt of the road and stocks in bonds amounting to $6,500,000. The stockholders are to have a stock dividend of thirty per cent. on $500,000, to represent the amounts given the company by the State. All proceedings and suits are to be withdrawn at once, and the Erie Company with the least possible delay is to make a through road to Albany, running express trains to connect with regular express trains of the Erie and eastern roads.

A PLUCKY CONDUCTOR.—A few days ago a fight occurred on the construction train that runs between Arlington and Humboldt, on the South Pacific Railroad. The conductor turned out to grass four gentlemen who refused to pay fare. They forcibly entered the car again just as the train started, and the conductor, true to obedience to orders, was again ejecting them, when the superintendent of the road, who happened to be present, interfered in favor of the turbulent deadheads. The idea of being thwarted in this way so enraged the conductor that he knocked the superintendent off the car, backed the train to the starting point and resigned. *St. Jo. Gazette.*

☞ The owner of a five acre grape vineyard in Concord, Mass., receives over $1400 from the sale of between ten and eleven tons of grapes, this year.

☞ The frigate Niagara, now at the Charlestown Navy Yard, is to be armored for a broadside iron-clad.

New Hampshire Items.

Ordinary grades of coal are selling at retail in Manchester at $13 per short ton, which is not far from the average for several years past. But this is too high for shallow pockets, and will induce many to stick to wood, though wood will cost about as much for the season. The reason of the high price of coal is said to be high freights and less mining.

The corner stone of the new Dover Catholic church was laid on the 5th inst., in the presence of a large number of spectators. The ceremonies were conducted by Bishop Bacon, of Portland, assisted by Fathers Drummond, of Dover, and Canovan, of Great Falls. The spire of this church will be 190 feet high.

The students of the N. H. Agricultural College at Hanover are required to survey the College farm, pastures, wood lots, parks, and various fields in the vicinity. They are also required to take comparative levels, levels for grading, and levels of sections; to take altitude of church spires, measure distance with instruments, and the distances of inaccessible objects, and to make practical reports of the work.

136 persons have died in New Hampshire who had attained the age of 100 years and upward. The first death recorded is that of Wm. Perkins, of Newmarket, who died in 1732 at the age of 116 years, there being but one other in the list as old, viz.: Miss Grace Goodnow, of Westmoreland, who died in 1858. It appears that 56 died at the age of 100, 59 at 101, 12 at 102, 12 at 103, 4 at 104, 9 at 105, 2 at 106, 3 at 107, 2 at 108, 3 at 110, 1 at 112, 1 at 115, and 2 at 119.

Rev. C. D. Sweat, of Alfred, Me., has accepted a call from the Baptist Church in Brentwood.

An Irishwoman presented $200 in bills of the old City Bank of Manchester for redemption on the 8th. The bank has been closed four years. They were paid.

Hon. Jacob H. Ela of Rochester, M. C. for this district, has raised a 14 1-2 lb. rutabaga this year,

Washington Stockwell of Croydon has a turkey that has laid a good-sized egg nearly every day since the 5th of June last; and, notwithstanding her nest has recently been robbed once or twice, continues to ply her vocation.

☞ A "merchant prince" of New York—a portly six-footer of great manly beauty, who never dined without his brandy and water, nor went to bed without a terrapin or oyster supper, and who was never known to be drunk, died of chronic diarrhœa—a common end of those who are never intoxicated and never out of liquor. Hall's Journal of Health gives this account of his death:

Months before he died—he was a year in dying—he could eat nothing without distress and at death the whole alimentary canal was a mass of disease; in the midst of his millions, he died of inanition. He had been a steady drinker, a daily drinker, for twenty-eight years. Scrofula has been eating up one daughter for fifteen years; another is in the madhouse; the third and fourth were of unearthly beauty: there was a kind of grandeur in that beauty; but they blighted, and paled, and faded—into heaven, we trust—in their sweet teens; another is tottering on the verge of the grave, and each of them is weak as water.

☞ The Union Course of lectures in Boston, under the auspices of the North End Mission, was opened Monday evening by a discussion on the subject of Free Trade. Prof. A. L. Perry of Williams College opened in favor of Free Trade and Hon. Horace Greely replied, urging the necessity of Protection. Both addresses were able, instructive and interesting.

☞ Rio Janerio advices state that it is impossible to say whether the Paraguayan war is or is not at an end. The provisional government has issued two pompous decrees declaring Lopez the enemy of mankind and outlawed, and denouncing all his followers as traitors.

☞ The Exeter News Letter does like the appointment of Mr. Geo. W. Colbath as Postmaster of Dover. The News Letter is such a warm supporter of the present delegation in Congress, that it has the right to growl.

☞ James Kitchen confesses that he was hired to set fire to the Baptist church which was lately burned at South China, Me., by a Mr. Kingsbury of that place, who has heretofore had a good reputation.

☞ Dr. Jos. Jones of the University of Louisiana, estimates that during the rebellion the rebel armies lost 450,082 men, 53,773 killed; 194,026 wounded; and 202,283 prisoners.

☞ A Nashville highwayman, finding his victim had no money sent him after it. He returned with a double-gun and made a hole through the inconsiderate robber.

(For the Chronicle.)

Messrs. Editors:—I have been ruminating a little, and desire to say a word on the milk question. The Chronicle a few days since alluded to the decrease in the size of the milk quart, and thought there would be a row if the liquor measure was thus cut down. I don't see it—every thing that the farmer buys, even ale and beer, have always been sold by little wine measure; while milk, the only article he has to sell, has been sold by great beer measure. And while people are dreadfully afraid a milkman may possibly make a cent by selling milk, whoever heard of a rumseller offering to sell *liquor* cheaper than his neighbor?

Milk at 8 cents now, as formerly at 6, and since at 4 cents per quart, is one of the cheapest (as well as best) articles of food in the market; and there is none too much profit on even the shrunk quart, of a good, pure quality. We observe that some editors have hinted at a reduction of the rate; but with the price put up to 9 cents per quart in Boston, Oct. 1st, we see no reason for a reduction in New Hampshire. MILKMAN.

☞ The Catalogue of Books published by H. O. Houghton & Co., of Cambridge, embraces many of the most valuable works in the English language. Their list of new and attractive publications which we advertise this morning, is well worthy examination and a selection therefrom. The Riverside Magazine, issued by this firm, is a beautiful and valuable Monthly; and all the works from the famous Riverside establishment, are of the highest order of typographic and literary excellence, each in its line.

☞ At the annual meeting of the Bunker Hill Monument Association, at Charlestown, Mass., last week, President Grant, Admiral Farragut, Gen. W. T. Sherman, Commodore Winslow, (the Commander of the Kearsarge in her victory over the Alabama) and Gen. Philip Sheridan, were unanimously elected honorary members of the Association. By the Treasurer's report it appears that the receipts from all sources during the past year have been $6862.76 and the expenses $7491.36, including $597.75 carried to the new account.

SPECIAL NOTICES.

MANHOOD!

154th Edition.

A MEDICAL ESSAY on the Cause and Cure of Premature Decline in Man, the treatment of NERVOUS and PHYSICAL Debility, &c., the result of 20 years' successful practice.

"There is no member of society by whom this book will not be useful, whether such person holds the relation of Parent, Preceptor or Clergyman." —*Medical Times and Gazette.*

"Curtis on 'Manhood' should be in the hands of young and old."—*Chronicle.*

"'Manhood,' by Dr. Curtis, is one of the few books which can lay claim to character of being strictly professional. The moral and medical precepts in it render it invaluable.—*Lancet.*

"'Manhood.' The experience and reputation of Dr. Curtis in the treatment of the diseases set forth in this little pamphlet is the patient's guarantee, and well deserves for the work its immense circulation."—*Daily Times.*

BUSINESS NOTICES.

WITH DYSPEPTICS everything is wrong. Food does not digest; sleep does not refresh; wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it or it will become seated and confirmed, and life will be a burden and existence a curse. PLANTATION BITTERS will do away with all this. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the lustre in your eye will again be as bright as in your healthiest, happiest and most joyous days.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

SPECIAL NOTICES.

The Exhausted System.

Summer is a debilitating season, and the sudden change of temperature which takes place at this period of the year finds the healthiest of us considerably enervated by the preceding heat, and the weakly and delicate almost prostrated. This is not a favorable condition in which to encounter the raw cold winds of October and its chilling fogs and night dews, and consequently intermittent fever, dysentery, billious attacks, and rheumatism are more or less prevalent everywhere, but especially in localities where the atmosphere is naturally unwholesome. In order to avoid the dangers arising from these causes, the exhausted system should now be renovated and invigorated by a course of HOSTETTER'S STOMACH BITTERS. This purest and most potent of all vegetable tonics and exhilarants regulates the secretion while it renews the strength, and purifies the fluids of the body, while it gives firmness and vigor to the nervous organization. Free from the unpleasant flavor which renders the ordinary tonics so repulsive, composed of extracts and juices of the choicest vegetable invigorants and correctives, mingled with a diffusive stimulant from which every noxious element has been expelled, this renowned preparation is, in all respects the very best medicine of its kind that the world has ever known. Such is the opinion of distinguished members of the medical profession, and the general verdict of the public, after experience of twenty years, during which HOSTETTER'S BITTERS has attained a greater popularity and a more extensive sale than any specific ever advertised in the columns of the American press.

Holloways Pills.—THE HORRORS OF DYSPEPSIA.—"Try all things" is a bad motto for the sick. It is better to try that which the world's experience has proved to be super-excellent. For fifty years HOLLOWAY'S PILLS have been countless. Is this not a sufficient guaranty. Is curing Dyspepsia. Not a single failure is on record; while the greatest success has been, it not madness for any one writhing under the terrible pangs of dyspepsia to decline or neglect this medicine fortified with such credentials. Sold by all Druggists.

DEATH TO PIN-WORMS.

Eminent physicians say that more sickness among children results from Pin-Worms than from any other cause. A safe and effectual remedy for these troublesome and often dangerous pests is found in DR. GOULD'S PIN-WORM SYRUP. Cure for adults and children warranted without injury to health. Price 75 cents. GEO. C. GOODWIN & CO., Boston, and all druggists. of 6mo

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries never before published in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, before you place yourself under any one of the notorious QUACKS—native and foreign—who advertise in this or any other paper, give a careful perusal of Dr. Young's Book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

ASIATIC CHOLERA IN CHINA.

TUNGCHOW, China, Aug. 23, 1866.

MESSRS. PERRY DAVIS & SON:

Dear Sire—During a long residence in China, I have used your invaluable Pain Killer, both in my own family and among the Chinese, and have found it a most excellent medicine. In the summer of '62 and '63, while residing in Shanghai, I found it an almost certain cure for Cholera, if used in time. Indeed using it in a great many instances, I do not remember failing in a single case, for three years I have been residing in this place, more than fifty miles from a physician, and have been obliged often to fall upon my own resources in cases of sickness. The Chinese come to us for great numbers for medicine and advice. Though without medical knowledge ourselves, the few simple remedies we can command and the implicit advance even of their physicians, that we have almost daily applications. We allow them to come because it brings us in contact with them and opens a door to usefulness. In diarrhœa, colic, vomiting, cholera, coughs, &c., your Pain Killer has been my chief medicine.

Yours, very truly, T. P. CRAWFORD.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, etc., are known throughout the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale annually increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its paincutting properties. It is perfectly innocent and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. ol

FRIGHTFUL DEVELOPMENTS!

At last the people have got the fact "through their hair," that hair dyes impregnated with acetate of lead and other metallic salts are

MURDEROUS PREPARATIONS.

When they see the metallic sediment at the bottom of the bottles, they know that the disgusting stuff is literally *thickened with Poison.* They ask therefore, for a

☞ **Harmless Vegetable Dye,**

and find it, pure and efficacious, in

Cristadoro's Excelsior Hair Dye

offered under the sanction of Professor Chilton's certificate that it contains "nothing deleterious." CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. 1md&wo4

In Remote Settlements of United Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the body and blood. Their untold value is to those living in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box.

Sold by all Druggists.

ALLEN'S LUNG BALSAM,

The Remedy for curing CONSUMPTION, COUGHS, BRONCHITIS, ASTHAMA, and CROUP. As an Expectorant, IT HAS NO EQUAL.

It is composed of the active principles of roots and plants, which are chemically extracted, so as to retain all their medical qualities.

Ministers and Public Speakers

Who are so often afflicted with throat diseases, will find a sure remedy in this Balsam. Lozenges and wafers sometimes give relief, but this Balsam, taken a few times, will insure a permanent cure.

Will all those afflicted with Coughs or Consumption, give this Balsam a fair trial, they will be pleased with the result, and confess that the sure remedy is found at last.

IT IS SOLD BY ALL DRUGGISTS.

CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS for Diseases of the Liver, or to act as a gentle Purgative.

All of these three medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills assist in regulating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These medicines are conscientiously offered to the public as the only safe, certain and reliable remedies for Pulmonary Consumption, and for those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long probation before the public. Its value has been through a period of more than thirty-five years, in all of which time its reputation has constantly increased, and the most obstinate skepticism can no longer doubt that it is a remedy which may be used with confidence in all cases which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, he will certainly be cured, if his lungs are not too much wasted to make a cure possible. Even in cases supposed to be incurable, when friends and physicians have despaired, the use of the medicine has saved the life of the patient, and restored him to perfect health.

Dr. Schenck himself was cured in precisely such circumstances, and many others have been equally fortunate by judiciously making a timely use of Dr. Schenck's remedies.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he emphatically asserts, that often when patients have the most alarming symptoms, such as a violent cough, creeping chills, night sweats, and general debility, even to such a degree that they are obliged to be lifted in and from they are given up by their physicians, they may still be cured. No medical treatment can create new lungs, but when the lungs are not badly diseased, and to some extent destroyed, a cure may be effected by Dr. Schenck's medicines.

Also in Scrofulous diseases these medicines are equally efficacious. Dr. Schenck has in his possession of a number of persons who have been nearly covered with running sores, and now all healed up. This shows its purifying properties, which must be done to heal cavities in the lungs.

In the treatment of Consumption, it is of the utmost importance to give vigor and a healthy tone in the system. Hence it is necessary to strengthen the appetite of the patient and improve the digestion. Proper nourishment is required, together with such means as will make the food easily digestible. The articles most suitable for the diet of consumptive patients are designated in Dr. Schenck's Almanac, which are distributed gratuitously. In general, the most nutritious articles are to be preferred; but the digestive organs must be strengthened in order to make either food or medicine serviceable. This requirement is met by the Sea Weed Tonic, and for this purpose it was designed.

When the digestive powers are put in good order, the food has its proper effect, the system of the patient begins to fatten, and lungs begin to exercise their functions in a normal and healthy manner. Then the healing powers of the Pulmonic Syrup will complete the cure.

Pulmonary Consumption is almost always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills are intended to remove obstructions from the liver and restore its healthy action. They have all the efficacy which is ascribed to calomel or "blue mass," and are warranted not to contain a particle of any mercurial poison. These pills cure the the most obstinate costiveness, sick headache, piles, billious affections, and all other diseases which result from torpid or obstructed condition of the liver. One box of these pills will prove the efficacy of the medicine.

In Consumption, the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines. They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. They have been found useful in advanced stages of Consumption, where the lungs were almost entirely destroyed, and all symptoms, according to the judgement of physicians, indicated speedy death. Cases of patients who were given up by dying condition have been preserved for months by the use of Schenck's three great remedies.

DR. SCHENCK'S Almanac, containing a full treatise on the various forms of disease, and mode of treatment and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North Sixth Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea Weed Tonic, each, $1.50 per bottle or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggist and dealers.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the properties of mercurys, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this precious remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

Wholesale agent, John F. HENRY, No. 8 College Place, New York City.

Batchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. ☞ The Mercantile Library Association meets this (Wednesday) Evening, at their Hall, at half-past 7 o'clock; and every member who is really interested in the continuance and welfare of the Association, should attend.

BUSINESS CHANGE.—Benjamin Cheever, Esq., has relinquished the Tailoring business, in which he has been engaged since 1825, to Messrs. Joseph Cheever and Josiah T. Brown, who will continue the same under the name and style of Cheever & Brown.

☞ The Sale by Auction, of a large portion of the March Estate, at Greenland, advertised for to-day, will doubtless afford a rare opportunity for great bargains, in the elegant Furniture and other articles specified.

The sale of the desirable brick dwelling house of Mr. J. H. Head, on State St., with a lot of nice Furniture, &c., is announced for to-morrow. Both sales on the premises, and said to be without reserve. See the advertisements.

MAKING UP FOR LOST TIME. — On Tuesday, at noon, the guns across the water began booming, from 30 to 40 seconds, interval being noticed between the discharges, and 42 reports were heard before they ceased. By order of the Navy Department a national salute of 21 guns was to be fired, at all the Navy Yards, in honor of the late Ex-President Pierce, whose funeral took place at Concord on Monday. The order reached this Station one day after the funeral, and Port Admiral Thatcher and Commodore Winslow, in obedience thereto, ordered salutes from the Receiving Ship Vandalia and from the Navy Yard battery. At noon the Commodore's guns commenced and in 30 seconds after the Vandalia's heavy guns chimed in. This accounts for the half minute guns which set every one inquiring why 42 were fired and with such rapidity.

THE JENNESS HOUSE.—Mention was made in these columns some time since, of the new hotel in course of erection in Washington for Messrs. Job Jenness & Son. It was announced that it would be opened by the 1st of December, in time for the session of Congress, and we are gratified to learn that, by dint of hard work and energetic action, the proprietors will be able to fulfill their promise.

The new hotel will be known as the Jenness House. It is located on Pennsylvania avenue, within a square of the Treasury Department; and to one acquainted with the city of magnificent distances, it will be apparent that the site is one of the very best that could have been selected. The house will be conducted in a first class manner, on both the European and American plans.

On the ground floor is a spacious cafe—a novelty for Washington—and on the floor above a large dining room, with accommodation for several hundred guests. The cafe may be occupied by two hundred persons at a time. It is to be furnished in a style of elegance surpassed by few if any of the caravansaries of this country. The carpeting is velvet Brussels, and tapestry. In every department the hotel will be fitted in a superior manner, with every convenience desirable. The rooms throughout the entire building are to be heated by steam, and the food is to be cooked by a steam heating apparatus.

The articles with which the house is to be furnished have been made expressly for it, and the reputation of the firms to whom the orders have been giving are a guarantee that the best only has been procured. The parlors and sleeping rooms will be furnished by Haley, Morse & Boyden, who will also supply the drapery and silver plate. We omitted to mention the rotunda, on the ground floor, which will, of course, be an attraction and a luxury.

A house like this has been needed at the National Capital, and there are none into whose hands its management could be placed with more assurance of success than the courteous and experienced gentlemen who have given the Ocean House at Rye Beach, and the Wauregan in Norwich their popularity with the travelling public.—*Norwich Advertiser.*

☞ A correspondent of the Newark Journal tells an anecdote of Conductor Tucker, of the B. & M. R. R., which is good. A passenger presented the autograph of Superintendent Merrill thus: "Pass Mr.——and corpse." The holder and his living brother were riding on that pass. He said he took a corpse with him from Boston, and as he had none to bring back, he thought the road would be quite as willing to carry a live man, and he took his brother with him. Tucker said it was all right—such a case don't admit of argument.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Chronicle office. Price 5 cts. per copy—$2. per year. Contains *all* the Local and other reading from the Daily Chronicle.

MRS. SICKLES AGAIN. — The latest story about Mrs. Sickles is told by the New York correspondent of the Louisville Courier-Journal. He says:—

Suppose that I should tell you that Theresa Sickles is not dead at all? There are those who will tell you as much, and they ought to know. They say that Mrs. Sickles and her husband found that their life after their re-union was not a happy one, and that, rather than face the shame and mortification of a second dissolution, they got up the story of her death to conceal a separation by mutual consent. Mrs. Sickles, according to this version of the story, is alive and well at this moment. She entered a convent near Madrid, and it is shrewdly surmised that she and the General have met once more since his arrival in Spain.

☞ A special from Washington to the Boston Post states that Jefferson Davis manifests much sorrow at the death of Ex-President Franklin Pierce. Very natural for Jeff.

Last Spring a young lady died of consumption, and was buried in our new cemetery. Subsequently a sister was taken sick with the same insidious dis.ease. The father, or parents, had got an old superstition into their heads that if the vital parts of the deceased one were burned it would save all the other members of the family from death by the same disease. A few days since, at the request of the father, the remains of the first girl were disinterred, her vitals removed and, as we are informed, burned by a professional gentleman of this town.—*Claremont Eagle.*

—An Iowa paper tells its readers that they can get Chinese laborers "wholesale, retail and pigtail!"

—Not long ago a foundling in Philadelphia was sent to the hospital, which leads a philosophical reporter to remark that "babies are like tooth-brushes—every one wants his own."

—The question what becomes of all the counterfeit currency is solved. It finds its way to Wisconsin and is paid out to the Indians for cranberries.

—An Irishman who was drinking the health of a bishop, gave this toast: "May your Reverence live to eat the old hen that crows over your grave."

—George Sand says, "I don't like money, but I do love to spend it.'

—We are now in "dog days"—the most Sirius season of the year.

—When is iron the most ironical? When it's a railing.

—The more checks a spendthrift receives, the faster he goes.

—"Confusion to the man," as the carpenter said, "who first invented working by candlelight." "Ay, or by daylight either," rejoined his apprentice.

—What should a clergyman preach about? About a quarter of an hour.

—When a dyspeptic and melancholic young professional man bewailed his prospects to Chief Justice Parsons, and "said he didn't see how he should ever get through the world." "Did you ever know any one to stop on the way?" was the grave and consoling reply.

—Rodgers, the poet-banker, once said: "If I were compelled to make choice, I would not hesitate to prefer despotism to anarchy." "Then you would do," replied Horne Took, "just as our ancestors did in the days of the Reformation: they rejected purgatory and kept hell."

AN OLD INSCRIPTION.—The following very interesting inscription may be found engraved on a tombstone in the Hackensack burying ground:

"In Memory of the Honourable Brigadier General, Enoch Poor, of the State of New Hampshire, who departed this life on the 8th day of Sept., 1780, aged 44 years."

Washington, Lafayette, and a portion of the American army attended the burial of Gen. Poor. In 1823 Lafayette visited his grave, and turning away much affected, he exclaimed; "Ah! that was one of my generals,"

A PACIFIC RAILWAY

GOLD LOAN $6,500,000.

We beg leave to announce that we have accepted the agency of the
KANSAS PACIFIC RAILWAY COMPANY,
For the sale of its
NEW SEVEN PER CENT.
Thirty Year Gold Loan,
Free from Tax.
This Loan amounts to $6,500,000.
First Mortgage Land-Grant and Sinking Fund Bonds,
secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon the Road, the Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,
And in successful operation for 437 miles
west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the
GOVERNMENT LAND GRANT OF THREE MILLION ACRES,
extending in alternate sections on either side of the Road, from the 39th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as
A SINKING FUND FOR THE REDEMPTION OF THE BONDS.
The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of
Three Millions of Acres in the State of Kansas,
and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the
Value of the Company's property, covered by this mortgage at $23,000,000 net, while the Loan is merely $6,500,000.
The Bonds have
THIRTY YEARS TO RUN,
from May 1, 1869, and will pay
SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.
The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be
PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:
On $1,000 Bond in N. Y. $35 (gold) each half year.
" London....£7 e5. 10: "
" Frankfort..87 fr. 30 krtzs.. "
The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a
FIRST CLASS INVESTMENT,
in every respect perfectly sure, and in some essential even
Better than Government Securities.
The Bonds will be sold for the present at
96, *and accrued Interest, both in Currency,*
the Agents reserving the right to advance the rate.
The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.
Gold and Government Securities taken in payment at their market value, without commission.
Pamphlets, with maps giving full information, sent on application.

Morning Chronicle.

MULCHING TREES.—A subscriber inquires about growing fruit trees in sod land and about mulching. I have a pear orchard which bears bountifully, which has been in sod, and is a part of my lawn, for a half dozen years. My practice is to spade the ground around the trees for a space of two feet each way, and turn the sod grass side down. The whole surface is kept well enough manured to grow a vigorous crop of grass. And any land that will grow two crops of grass the same year, will likewise grow healthy and flourishing fruit trees. In the fall, pile up around the body of the tree well-rotted manure, and press it hard against the tree to protect from the mice, and in the spring spread this manure over the grass and spade up the ground as above stated.

Mr. M. B. Callaghan, a merchant in our place, owning a small farm, had a meadow of about two acres but no orchard. He could not have both unless combined in this one field. Following my experience and advice, he set his meadow out with apple trees, manuring the surface yearly and digging about his trees three feet each way; and the result is as thrifty and as healthy an orchard as there is in Saratoga County, and two fine crops of hay annually. Keep the sod from growing close to the body of the tree, but never mind how "stiff" it is from it. Let the roots spread and grow—only feed the soil.

The orchard of Mr. Callaghan is now beginning to bear fruit, and has always been in sod. It is a good plan to mulch trees to enrich the soil and keep it light and loose. The best thing for this, excepting wood ashes, is chip manure. Leaves, coal ashes, old mortar, and, in fact, almost anything put under and around a tree will stimulate its growth.

Riding from Saratoga the other day, I asked an old farmer who stood in his yard if he knew he had thrown away a dollar and robbed his own pear tree. Pointing to a heap of old wall paper piled up in the road, directly in front of the house, which, with more ambitious desires, the good wife had discarded for a new pattern, I said, "that stuff is worth at least a dollar to put under that pear tree in the corner of your garden." "I never thought of that," said the old man, "and it shall be done." Thousands of dollars are annually thrown away in this manner. But any kind of rubbish or fertilizer under your trees that is not sour and poisonous. If you have anything of this kind, compost it with lime, and then you can use that.—*Cor. Country Gentleman.*

NEW DISINFECTANTS.—A disinfectant, which, for the newness of its employment, may be called a fresh discovery, is rapidly coming into favor, to the exclusion of chloride of lime. This new agent is carbolic acid, or impure phenic acid. Chloride of lime not only has an insupportable odor, but rapidly absorbs the humidity of the atmosphere; losing thereby part of its efficacy; nay, more; it provokes coughing, and reacts upon the respiratory organs. In well-ventilated out-offices the matter is not so serious, but in buildings where animals are "cabined, cribbed, confined," the use of chloride of lime becomes grave.

Carbolic acid, on the contrary, presents none of these objections, and it is cheaper; it may be combined with lime, and used either in the form of powder or whitewash—the latter is the best—and has the peculiar effect of chasing away insects. A good way to prepare it is, to add to twenty pounds of quick lime about three pounds of the acid, which costs about twelve sous a pound—when a pale, rose-colored powder results. To make the whitewash it is best to add a pint of water, immediately after employing the acid, pouring more water till the necessary consistency be attained. I may remark that this acid forms a "perfect cure" for the bites of venomous animals. Dissolve it in double its weight of spirits of wine, and add one hundred parts of water.—*Paris cor. Mass. Ploughman.*

MOSQUITOES.—Now the cool autumnal nights are upon us, and the mosquitoes crowd in doors to absorb warm blood and drown care in glorious dissipation. Every recurring season the papers come out with new prescriptions for eluding the bites of these pests. One will tell you that, if you place a raw beefsteak on a chair beside your pillow at night, the skeeters will despise you and batten upon the beef. Another says, put a lamp in a closet or room adjoining yours, with the door of communication open. The lamp should be turned down to a dim light, which will attract the buzzers and keep them busy. Yet another states that the best way to scare the pests is to put a bit of camphor in a tin vessel, which you are to hold over a candle or gas jet until smoke arises, the pungency of which will drive every skeeter off the premises. Far nicer than any of these, however, was the plan adopted by a tough and sly old maiden lady with whom we were once acquainted. She used to get a buxom young niece of hers to sleep in the room next to hers, with doors open in mosquito time. And so the happy skeeters had "some one to love" at last, and it wasn't the old 'un, you may depend.

MARRIED.—One cold winter night some twenty-five years ago a couple appeared under the window of a squire in Washington county, N.Y., and called for him. The squire got out of bed and asked what they wanted. "Want to get married." "Married and be darned," said the squire and shut the window. It was a short ceremony, but they considered it sufficient and are living together to-day as man and wife.

—Chestnuts are beginning to appear in market, though not yet abundantly. A New Hampshire lot was reported in Boston last week at $12 a bushel.

—We recommend John Paul's way to all who feel tempted to speculate: This is the way I do it: When I see a stock which I think is going up, I enter the price down in a book and the number of shares I would probably buy. If it goes up, I can calculate the profit I should have to a nicety. If it goes down, I can calculate the savings I have effected by not buying, so you see I have a sure thing either way. Putting both sides together, I find that I make and save about $1,000,000 a week.

—A home missionary who works along the line of the Pacific Railroad says that he preached on the street at Cheyenne, with a dry goods box for a pulpit. The choir were seated in a buggy, when the horse became frightened, and away went the choir, singing as they went. The Presbyterian wishes that some of the choirs in the Eastern churches could be moved as readily.

—A letter from Petersburg says that there is a continuous peach orchard forty-five miles long, following the line of rebel intrenchments around that city. It has sprung up from the peach-stones the Johnnies threw away. There would be a queer forest along the Union works if hard-tack and sutler's pie-crust ever sprouted.

—A temperance lecturer has started from Kansas with the declared intention of walking to Agusta Me., and delivering a lecture on temperance every evening while on his way.

NOW IS THE TIME TO LAY IN

READING FOR THE WINTER.

VALUABLE BOOKS PUBLISHED BY

H. O. HOUGHTON & CO.,

Riverside Press, Cambridge, Mass.

For sale by all Booksellers, and to be obtained of the Publishers by sending a Post-office order, check, or money to the necessary amount.

N. B. The Publishers will send free to any address their large Catalogue of Publications, from which a farther selection can be made.

I

THE IMPROVISATORE. By Hans Christian Anderson. In one volume, crown 8vo. Price in cloth, $1.75.

"No book brings back the externals of Italy more distinctly and vividly to the eye of the mind than this novel of the Danish poet's. Everything which an observant traveller may have noted as characteristic of Italy, and not elsewhere found, will be discovered anew in these animated pages."—*Hillard's Six Months in Italy.*

II.

A HISTORY OF NEW ENGLAND. By John G. Palfrey, LL. D. In two volumes, crown 8vo. Cloth, $5.00.

"We believe that Dr. Palfrey has penetrated deeply into the spirit of American History, and has thus given a certain harmonious unity to the annals of New England fathers, the want of which has made the narrative of their fortunes, as usually related by the early writers, so arid, confused, and repulsive."—*New York Tribune.*

III.

CHARLES DICKENS' WORKS. Most Complete Edition, containing matter not in any other collected edition, English or American. In 14 volumes. Globe Edition. $21.00.

Each volume over 1200 pages sold separately at $1.50.

IV.

JAMES FENIMORE COOPER'S COMPLETE WORKS. Household Edition, 32 volumes, $40.00. Each volume sold separately. Price $1.25.

The LEATHER-STOCKING TALES, by the same author, in five volumes. Price $6.25.

COOPER'S STORIES OF THE SEA; STORIES OF THE WOOD; STORIES OF THE PRAIRIE. Each in one volume. Price $1.50.

"The enduring monuments of Fenimore Cooper are his Works. While the love of country continues to prevail, his memory will exist in the hearts of the people. So truly patriotic and American throughout, they should find a place in every American's library."—*Daniel Webster.*

V.

LIFE, LETTERS, AND POSTHUMOUS WORKS OF FREDERIKA BREMER. Price, $2.00.

" . . . . We feel sure that the rare qualities of heart and mind united, the beauty of description and purity of thought and feeling which won for Miss Bremer's domestic pictures so many loving readers all over the world during her lifetime, will draw the old ones back and attract many new ones to these memorials."—*Chan. Ex. Chronicle.*

VI.

THE PILGRIM'S WALLET; or, Scraps of Travel gathered in England, France, and Germany. By Gilbert Haven. In one volume. $2.00.

"His pictures are drawn with a firm and vigorous hand. His description of London is wonderfully vivid and clear, and the only one we remember ever to have read which gives the slightest notion of the external features of the modern Babylon."—*Portland Press.*

VII.

THE OPEN POLAR SEA. By Dr. I. I. Hayes In one volume, $2.50. Fine edition, $3.75.

"The volume is everything to be desired in regard to mechanical execution. The illustrations, which are all after sketches or descriptions by Dr. Hayes, have an additional charm thrown around them by the pencils of Darley, White, and Fenn, and are, without exception, spirited and artistic. The maps enable the reader to follow the course of the expedition with ease, and as regards typography, it need only be said that the volume was printed at the Riverside Press."—*New York Times.*

VIII.

MRS. CAUDLE'S CURTAIN LECTURES. By Douglas Jarrold. With illustrations. $1.25.

IX.

PICCIOLA. By X. B. Saintine. In one volume, beautifully illustrated. $1.25.

"This is one of the few modern tales which have attained a classical reputation. Like 'Paul and Virginia,' and Elizabeth, or the Exiles of Siberia, 'Picciola' is regarded as a book to keep, not merely to read and throw aside; its style and sentiment combine to give a permanent literary value; it is a household, a human book, appealing to the most refined and elevated feelings."—*Bost. Trans.*

X.

HISTORY OF ENGLAND. By Lord Macaulay. Student's Edition, in four volumes, 8vo. $8.00.

, From the latest English Edition, with additional notes.

HOW TO PROCURE ANY OF THE ABOVE BOOKS **Without Expense of Money.**

The Publishers of these works publish also "The Riverside Magazine for Young People," an illustrated Monthly, $2.50 a year, having for special contribution Hans Christian Andersen, the most eminent living writer for the young. They will *allow one dollar's worth in their Books* to every one sending the name of a new subscriber with $2.50 cash. Thus, by a little labor, any one can provide himself with a choice collection of books.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the United States Patent Office, Washington, since the Act of 1837,

NO. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners at whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man more *competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending.* Such unmistakable proof of skill and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Boston, Jan. 1, 1869.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE in all cases or no charges made.

DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar, or they will not be answered.

Office hours from 8 A. M. to 9 P. M.

J. R. KENDRICK, Supt.

FALL RIVER LINE

FOR New York, Philadelphia, Baltimore, Washington, and all principal points West, South and South-west.

VIA TAUNTON FALL RIVER AND NEWPORT.

Cabin, $5.00; Deck, $4.00.

Baggage checked through and transferred in New York free of charge.

New York trains leave the Old Colony and Newport Railway Depot, corner of South and Kneeland Streets, daily, (Sundays excepted,) as follows: at 4:30 P. M., arriving in Newport 40 minutes in advance of the regular Steamboat Train, which leaves Boston at 5.30 P. M., connecting at Newport with the new and magnificent steamers PROVIDENCE, Capt. B. M. Simmons, and BRISTOL, Capt. Benj. Brayton. These steamers are the fastest and most reliable boats on the Sound, being expressly for speed, safety and comfort. This Line connects with all the Southern Boats and Railroad Lines from New York going West and South, and convenient to the California Steamers.

"To Shippers of Freight," this Line, with its new and extensive depot accommodations in Boston, and large pier in New York, (exclusively for the business of the Line,) is supplied with facilities for freight and passenger business which cannot be surpassed. Freight always taken at low rates, and forwarded with despatch.

New York Express Freight Train leaves Boston at 1.30 P. M.; goods arrive in New York next morning about 8 A. M. Freight leaving New York reaches Boston on the following day, at 9:45 A. M.

For tickets, time tables and staterooms, apply at the Company's office at No. 3 Old State House, corner of Washington and State Streets, and at old Colony and Newport Railroad Depot, corner of South and Kneeland Streets, Boston.

☞ Sunday Night Line. ☜

Cars leave every Sunday evening, at 6.30 P. M., connecting as above.

The Office, 3 Old State House, Boston, will be open every Sunday afternoon from 2 to 6 o'clock, and at the Depot from 6 to 10 A. M., and from 5 to 6.30 P. M., for sale of tickets and staterooms.

Steamers leave New York daily, (Sundays included,) from **Pier 28 North River**, foot of Murray Street, at 5 P. M.

The Chronicle.

MISS KATE FIELD.—Mary Clemmer Ames writes from Newport to the Independent:—"There is Kate Field down at the little pier behind the Malbone house, tugging away at her boat, pulling it through the water to fasten it. She wears a sailor's jacket, its broad collar tied with a ribbon; a skirt conveniently short and decently long, giving perfect freedom to her neat and pretty feet; a wide straw hat, a white handkerchief tied around her throat, and gauntlet gloves on her hands. She is brown, brown as a boy or a chestnut berry, and will stay brown while she rows her boat every morning on the bay. Her eyes are blue and bright, wide open and honest, and her smile is bonny. Her dress—worn for service, not for show—is picturesque as it is sensible, just the dress for the mountains or the boat. It is never worn for effect; for when Kate makes a call she puts on a conventional frock and carries a conventional card, like any other well-bred woman. I am tired out with the parlor affectation of woman. This forever trying to make some man believe (for no woman ever deludes a woman) that you are a little more artless, a little more amiable, and a good deal more silly than you really are! If Kate Field has affectations, they at least lean to the side of good sense and honesty. She is not dismally "perfect." No Kate ever was; but her faults are perfectly apparent, and she does not hide them. I confess to a sincere liking to this breezy maid, who thoroughly minds her own business: who every morning rows her mother on the bay, and then goes in to work hard till dinner, writing lectures and letters to earn an honest living, instead of expending her powers in inveigling some man into earning it for her. And she'll make a dear, willful little wife some day—none the less because before she became one, she successfully paddled her own little life-canoe without assistance."

WHAT LIQUOR SELLING DOES.—It destroys home comforts, blights happiness and hope, wastes millions of productive capital; begets poverty, produces paupers; necessitates poorhouses, jails, prisons, fills them to repletion, multiplies taxes, gluts the courts with criminal cases, sends multitudes to untimely graves, and to crown all its mischief digs down the very pillars of order and morality, on which the structure of society rests. If such a business is not an offence against public welfare, what, in the name of reason is? It is the fostering parent of all other crimes. Murder is its own child; brawls, arson, and robbery are its offspring. Justice requires that it be branded the *Father of Crimes*. The liquor traffic is more criminal than murder, for it adds to the guilt of murder every other crime known to human law. The degree of its criminality is measured by murder, multiplied by all other offences against public welfare. If it is not a crime, what is it? As prohibitionists, we call it by its true name, a *Crime*.

PERRY DAVIS' PAIN KILLER,
as an internal remedy has no equal. In cases of Cholera, Summer Complaint, Dysepepsia, dysentery, Asthma, it cures in one night, by taking internally, and bathing with it freely. It is the best liniment in America. Its action is like magic, when externally applied to bad sores, burns, scalds and sprains. For the sick headache and tooth ache, don't fail to try it. In short, it is a Pain Killer. 4ws7

DODD'S NERVINE AGAIN.
ANOTHER CERTIFICATE.
LEDYARD, CONN., April 3, 1869.
Accept thanks for calling my attention to DODD'S NERVINE AND INVIGORATOR. It has done me more good than any other medicine I ever took. I have gained twelve pounds in flesh, and am correspondingly better every way. It is an invaluable remedy.
6wau23 MRS. JOHN T. LEACH.

WHAT ARE
DR. J. WALKER'S CALIFORNIA
Vinegar Bitters.
THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits, and refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetisers" "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, *free from all Alcoholic Stimulants*. They are the GREAT BLOOD-PURIFIER and LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell. $100 will be given for an incurable case, provided the bones are not destroyed by mineral poisons or other means, the vital organs wasted beyond the point of cure.
FOR INFLAMMATORY AND CHRONIC RHEUMATISM, AND GOUT, DYSPEPSIA, or INDIGESTION, BILLIOUS, REMITTENT, and INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS have been most successful. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.
These Bitters are not a gilded pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.
They are Alterative, Tonic, Diuretic, Sedative, Diaphoretic, and Gentle Purgative.
"The Life of all Flesh is the Blood thereof."—Purify the blood and the health of the whole system will follow.
R. H. McDONALD, J. WALKER, & CO., Proprietors,

SOLD BY ALL DRUGGISTS.

"Ingenio Stat Sine Morte Decus."

ROCKY MOUNTAIN BITTERS

IS a very superior Regulating Tonic, imparting vigor and strength to the constitution—a choice
PURIFIER OF THE BLOOD,
a regulator of nervous force, and a powerful sustainer of health against the encroachments of disease.
The invalid and convalescing seeking restoration, and yearning for the healing virtues of some magic balm, will find in these Bitters a hidden mysterious power, which QUIETLY RESTORES, yet refuses to reveal to the senses anything but taste and color.
It is a pleasant Bitter, free from all nauseous properties odor, entirely vegetable, being mainly grown at the base of the mountains from which they derive their name, and is particularly adapted to all forms of
DYSPEPSIA OR INDIGESTION,
manifesting themselves by the following symptoms: headache, nervousness, loss of memory, low spirits, giddiness, dimness of sight, dullness of hearing, and ringing noises in the ears, eructations, or belching of wind, tightness of breathing, weight and oppression of the chest, uneasy feeling about the heart, palpitation, &c.
Also for Liver Diseases, Disorders of the Kidneys, Restlessness and loss of Muscular Power, these Bitters will be found almost a specific; and as a preventative of
FEVER AND AGUE
or a restorer of the natural powers of the system, when broken down by continued ague attacks; it has no equal.
Being stimulating, (but not intoxicating), they refresh and invigorate both mind and body, heighten the sensibility, clear and sharpen the faculties, and bestow alacrity and cheerfulness of spirit.
CAUTION.—There have been, and still are several parties manufacturing and selling so-called "Langley's Bitters," many of which are worthless. As a guide against such, I would say that in 1866, I secured my copy-right, in the United States Court, a trade mark and name, "Rocky Mountain Bitters," and all Bitters of my manufacture are put up in *dark, long neck, quart bottles* with red label printed with gold; also, direction label, bearing my seal and directions printed in red, with a red cap and my seal printed in gold, over the cork. Beware of all others, and ask for
"Rocky Mountain Bitters."

The Daily Chronicle.

Portsmouth, N. H.

THURSDAY, OCT. 14, 1869.

The News.

The National Commercial Convention at Louisville, Ky., organized on Tuesday by the choice of Ex-President Millard Fillmore as President. In accepting the position he referred to his "reverence for the Constitution," saying that the fugitive slave law was against his feelings but he signed it, while President of the United States, because it was constitutional, although he knew he was signing his own political death warrant. A letter from President Grant was read, wishing the greatest success to the Convention.

Skirmishing is frequent in the Eastern Department of Cuba.

The Erie stockholders have unanimously re-elected the Fisk-Gould Directors.

Many disasters at sea during the late storm, are reported.

The government has the positive information, by means of the affidavit of one of the crew, that the Hornet was fitted out, armed and manned within the jurisdiction of the United States.

Ricord, Republican, has been elected mayor of Newark, N. J., by 238 majority over Smalley, Democrat. The councils will stand 14 democrats to 12 republicans.

The First National Bank of Austin, Nevada, has failed.

Several democratic members of the Washington Territory legislature have left for parts unknown, thus breaking the legislative quorum and preventing the election of territorial officers by a republican majority. The sergeant-at-arms has been sent after the seceders.

Gen. W. W. Belknap of Iowa has been appointed Secretary of War by the President, at the request of Gen. Sherman, under whom he commanded a corps in the late war.

THE ELECTIONS. — A dispatch from Philadelphia says that the Democrats concede the State has gone for Geary, by a small majority, while the Republicans claim that he is elected by from six to ten thousand majority.

A special from Harrisburg to the N. Y. Times says it is conceded that Geary will have not less than 5000 majority. He falls short of the party vote. Williams, for Supreme Judge, will have ten or twelve thousand majority. The House will stand about 63 Republicans and 38 Democrats, and the Senate 18 Republicans and 15 Democrats—a Republican gain of one on joint ballots.

Hon. John Covode estimates the Republican majority in Pennsylvania at 5000. The Republicans elect their entire ticket in Philadelphia by majorities ranging from 2700 to 4000.

Ohio is considered doubtful. The House is probably Democratic and the Senate Republican. The majority for Hayes (Republican) for Governor will not be large. The Democrats claim that Pendleton has been elected and are very jubilant, firing cannon and indulging in a torchlight procession.

A Cincinnati dispatch says that complete returns of Hamilton county have not yet been obtained. Pendleton's majority, however, will be about 500 and the whole Democratic ticket in the county has been elected.

A Knoxville, Tenn., dispatch says the Senatorial contest is fierce. Johnson's friends are confident. If he fails a third man will be chosen. Nelson is now named.

LATEST.—A dispatch from the editor of the Cincinnati Chronicle states that Hayes is probably re-elected Governor of Ohio over Pendleton. Iowa has gone Republican.

New Hampshire Items.

Ellen B. Calef of Northfield has raised a 21 lb. turnip.

Geo. M. Riley of Northfield has raised an Orono potato weighing 2 3-4 lbs.

Last Friday, Mr. George Patterson, of Nashua, shot an owl in Merrimack, that measured four feet and eight inches from tip to tip.

William Gilson & Sons, of Milford, make 65,000 kits annually, and cut up 1,500,000 feet of lumber. They employ 30 hands. William L. Pierce & Co., of the same place, employ 25 hands, and annually turn out 75,000 kits and 30,000 halves and quarters ditto.—*Monitor.*

William Merrill, a man 50 years of age, died in Nashua, Saturday night, almost instantly, from the effects of a drunken debauch.

☞ A lady in Claremont had a needle cushion which had been in use 10 years. On repairing the top she found 687 good and bright needles. If out of needles, examine your needle cushion.

—Indigestion is the remorse of a guilty stomach.

Correspondence of Chronicle and Gazette.

SAN FRANCISCO, Oct. 4.

Dear Chronicle:—It is with pleasure I address a few lines to you, which will come over those great *Iron Lines* that now connect this city with my native home. When I first left the east and settled on the Pacific shore, I thought I was forever (as it were) isolated, being so far away; but to-day I can read your papers, six days after they leave the office in Portsmouth, and this makes me feel as though the distance had been reduced at least one half. And then the arrival of tourists every day from New York and Boston assures me, that it is only a pastime, a holiday affair, to span the continent with a stride, and have a tete a tete with the friends down in my old aristocratic town.

Truly facts are more strange than fiction, for the time is not far distant when the whole earth will be united from pole to pole, and that long looked for time, the Millenium will dawn upon a generation whose children shall lead the lion and the lamb, and man, the noblest work of God, will have ultimated in purity and love.

We are still progressing as a State, and every month something new is accomplished by which we are enabled to do ourselves what our sister States had to do for us. The producing classes in city and State, are as a unit in keeping up the price of labor; and any innovation in that line meets with decided opposition and hence all this hue and cry about the "fifteenth amendment" and Chinese labor. But notwithstanding this, that old fellow "Capital" has a line of large sized ocean steamers, running to and from Hong Kong, bringing any quantity of frugal, labor loving Celestials, who will work for most any price, just to keep their chop sticks in motion. They *sabe* work, cook, wash and iron, and then nurse the 3 and 4 years old children. They clean house, do chamber work and are generally handy about house. Biddies are nowhere, for John likes to be told his duties, but they are not willing to be instructed or bossed. Chinamen are good hands in woolen, shoe and cigar manufactories,—and in fact they are working into everything done in a city, —while the steady, muscular sort find their way out into the country, and there they find plenty of ranch work. They harvest the crops of grain, pick our strawberries and grapes, gather the hops and the ever growing vegetables, and finally they build our railroads.

This reminds me that the Western Pacific road is finished from Sacramento via Stockton, through the fertile valley of the San Joaquin, to that of Alameda and then to the city of Oaklands, from which they ferry across the Bay of San Francisco to the great Pacific Emporium of the same name. One of those beautiful Palace cars came direct from New York by way of the above road, connecting at Hayward, with the San Jose railway going round the Bay and coming with its passengers without change to this city, thus making the entire trip by rail. This Pullman Palace car has been on exhibition at the Mechanics' Industrial Fair, now holding its seventh exhibition. It has been a great curiosity and at least 20,000 have passed through it, to admire its beauty and costly furnishings; it is said to have cost 28,000 dollars. The Fair is unusually fine this season and it will be the most successful of all the series. The various departments are well represented. In the Art galleries there is great variety of paintings, statuary, photographs, and a thousand or more of Fancy articles elaborated by the fair ones, as if emanating from the fairyland, so beautiful enchanting. Mezzarn caught the inspiration and has wrought in marble a most lovely form of woman in all her natural graces, smiling upon her infant, all life size—and it is the cynosure of all who visit the Statuary Gallery.

In the space allotted to furniture and upholstery we find some of the most gorgeous sets of furniture we ever beheld, among which the California Laurel chamber sets carry off the palm of praise. Near the latter is to be seen the Presidential chair—intended as a token from his friends, in this State. It is made of laurel, and I suppose the donors thought that Gen. Grant should not only wear, but in state he should sit enshrined in *Laurel*. I would say here, that the dealers in elegant furniture in P— should import the veneers of Laurel & Redwood to embellish their wares.

One of the attractive novelties of the exhibition, is the *Laurel Palace*, by Strahl & Hughs. It consists of a large billiard room, in panel work, and in it every variety of this beautiful wood is displayed in all its variegated transitions. A handsome billiard table of the same stands in the centre, and the work is highly polished. In the Mechanical department there are many new inventions, among which are Aretel's wire cutter, a Machine for blind slats and a revolving battery gun, with hopper for pouring in powder and ball, and you can fire from 3 barrels as fast as you please, dealing destruction on every hand. To people who own ships, the double shank anchor by E. T. Barlow is a very important invention, for it will hold,— no drag to it compared to the old ones in use. A trial was made on land at the Mare Island Navy Yard, in which this double-shank anchor weighed 595 pounds, while the old anchor was 900 pounds and the Barlow anchor came off victorious. A brass model of this anchor, has been presented to the naval school by Paul Shirly of this yard. Among the miscellaneous articles is the monster wine cask, capacity 4,165 gals. Next comes the San Jacinto Tin mine, with samples of its ores, sheet tin, concentrated ore, solder and tin ware, and along by the side of this is the roofing slate from the slate range near Coppersopolis, Calaveras Co. Glass ware, pottery, cement pipe, Asphaltum water-pipe, saws, cutlery, lead pipe and shot, railroad iron, brass work, wire work in suspension bridge, &c., and many other things to numerous to mention are to be seen. Californians feel proud of her industries and they are lavish in their display. Monetary matters have been quiet for a time, but things generally are looking up and we are going to have a good fall and winter. Yours truly,

J. E. W. COLEMAN.

☞ The special Congressional Committee to inquire into and report the cause of the reduction of American shipping interests, is in session at the Astor House, New York.

BUSINESS NOTICES.

WITH DYSPEPTICS everything is wrong. Food does not digest; sleep does not refresh: wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it or it will become seated and confirmed, and life will be a burden and existence a curse. PLANTATION BITTERS will do away with all this. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the lustre in your eye will again be as bright as in your healthiest, happiest and most joyous days.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

FACTS FOR THE LADIES.—Nearly six ago, I ordered one of your Sewing-Machines, and since then I have done with it, not only all the ordinary family sewing, but also all our millinery and mantua making, beside frequently encroaching upon the tailor's peculiar province; and this for a family of eight adults. Several of them were grown, engaged in business or professional life. I have wrought on various kinds of material, from Swiss muslin and silk to heavy beaver cloth and morocco, and have two bed-quilts, every stitch in which, piecing, quilting and binding, was done on the machine. When I purchased, I was a perfect novice, never having worked on any kind of a machine. The agent was miles away, and there was not then as now, other Wheeler & Wilson Machines near by. Still though I never had five minutes instruction, I found no trouble in learning myself. It is as completely under my control as the needle in my hand, and has never needed any repairs. Only two needles have been broken. One No. 2 needle did all the sewing, coarse and fine, for ten years. It is indeed our "household pet." It has paid for itself more than once in the sewing-bills which it has saved. MRS. M. A. GAGE.

Roxabelle, Ohio.

Mr. Alfred Speer of New Jersey, produces a superior Sambuci wine, designed for sacramental and family use. Mr. Speer has been many years experimenting on the improvement of the wipe by a peculiar method of fermentation. The latter has now become a scientific process, requiring four years for its completion, and the experiment is deemed an entire success by physicians, committees of Agricultural Societies, &c., who have investigated the matter.

Newark Daily Advertiser.

The Sambuci wine is extensively used among families and invalids, and sold only by first class dealers.

Also Speer's Port Grape Wine.

There is no disease flesh is heir to more troublesome to manage than Rheumatism. It comes when you least expect it, and generally remains and will it gets ready to go away. The most conspicuous remedy for this complaint is "Johnson's Anodyne Liniment."

Two or three doses of "Sheridan's Cavalry Condition Powders" will cure a horse of any common cough or cold, and the very worst cases may be cured in a few weeks. We know this from experience.

Renne's Pain-Killing Magic Oil is excellent for sore throat; its use seems to cure canker sores in the throat and mouth. It is useful to cure any kind of pain. Try it freely.

SPECIAL NOTICES.

WORDS OF CHEER,

ON THE ERRORS OF YOUTH and the FOLLIES OF AGE, in relation to MARRIAGE and SOCIAL EVILS, with a helping hand for the erring and unfortunate. Sent in so ed letter envelopes, free of charge. Address, HOWARD ASSOCIATION, Box P., Philadelphia, Pa

ALLEN'S LUNG BALSAM,

The Remedy for curing CONSUMPTION, COUGHS, BRONCHITIS, ASTHAMA, and CROUP. As an Expectorant, IT HAS NO EQUAL.

It is composed of the active principles of roots and plants, which are chemically extracted, so as to retain all their medicinal qualities.

Ministers and Public Speakers

Who are so often afflicted with throat diseases, will find a sure remedy in this Balsam. Lozenges and wafers sometimes give relief, but this Balsam, taken a few times, will insure a permanent cure.

Will all those afflicted with Coughs or Consumption, give this Balsam a fair trial, they will be pleased with the result, and confess that the sure remedy is found at last.

IT IS SOLD BY ALL DRUGGISTS.

SPECIAL NOTICES.

The Exhausted System.

Summer is a debilitating season, and the sudden change of temperature which takes place at this period of the year finds the healthiest of us considerably enervated by the preceding heat, and the weakly and delicate almost prostrated. This is not a favorable condition in which to encounter the raw cold winds of October and its chilling fogs and night dews, and consequently intermittent fever, dysentery, billious attacks, and rheumatism are more or less prevalent everywhere, but especially in localities where the atmosphere is naturally unwholesome. To guard and avoid the dangers arising from these causes, the exhausted system should now be renovated and invigorated by a course of HOSTETTER'S STOMACH BITTERS. This purest and most potent of all vegetable tonics and exhilarants regulates the secretions, quickens the sluggish circulation, purifies the fluids of the body, while it gives firmness and vigor to the nervous organization. Free from the unpleasant flavor which renders the ordinary tonics so repulsive, composed of extracts and juices of the choicest vegetable invigorants and correctives, mingled with a diffusive stimulant from which every noxious principle has been expelled, this renowned preparation is, in all respects the very best medicine of its kind that the world has ever known. Such is the opinion of distinguished members of the medical profession, and the general verdict of the public, after an experience of twenty years, during which HOSTETTER'S BITTERS has attained a greater popularity and a more extensive sale than any specific ever advertised in the columns of the American press.

Holloways Pills.—THE HORRORS OF DYSPEPSIA.—"Try all things" is a bad motto for the sick. It is better to try that which the world's experience has proved to be super-excellent. For fifty years HOLLOWAY'S PILLS have been countless. Is this not a sufficient guaranty. Is curing Dyspepsia. Not a single failure is on record; while the greatest successes have been it not madness for any one writhing under the terrible agonies of dyspepsia to children or neglect to take a medicine fortified with such credentials. Sold by all Druggists.

DEATH TO PIN-WORMS.

Eminent physicians say that more sickness among children results from Pin-Worms than from any other cause. A safe and effectual remedy for these troublesome and often dangerous pests is found in DR. GOULD'S PIN-WORM SYRUP. Cure for adults and children warranted without injury to health. Price 75 cents. GEO. C. GOODWIN & CO., Boston, and all druggists.

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be accquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease before you place yourself under any one of the notorious QUACKS—native and foreign—who advertise in this or any other paper, get a copy of Dr. Young's Book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

ASIATIC CHOLERA IN CHINA.

TUNGCHOW, China, Aug. 23, 1866.

MESSRS. PERRY DAVIS & SON:

Dear Sirs—During a long residence in China, I have used your invaluable Pain Killer, both in my own family and among the Chinese, and have found it a most excellent medicine. In the summer of '62 and '63, while residing in Shanghai, I found it an almost certain cure for Cholera, if used in time. Indeed using it in a great many instances, I do not remember failing in a single case. For three years I have been residing in this place, more than fifty miles from a physician, and have been obliged often to fall upon my own resources in cases of sickness. The Chinese come to us in great numbers for medicine and advice. Though without medical knowledge ourselves, the simple remedies we can carry with us are so much in advance even of their physicians, that we have almost daily applications. We allow them to purchase it, because it brings us in contact with them and opens a door to usefulness. In diarrhœa, colic, vomiting, cholera, coughs, &c., your Pain Killer has been my chief medicine.

Yours, very truly, T. P. CRAWFORD.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Sprains, Bruises, Swellings, &c., have astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale, and the ever increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its paincurative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. ol

FRIGHTFUL DEVELOPMENTS!

At last the people have got the fact "through their hair," that hair dyes impregnated with acetate of lead and other metallic salts are

MURDEROUS PREPARATIONS.

When they see the metallic sediment at the bottom of the bottles, they know that the disgusting stuff is literally *thickened with Poison*. They ask, therefore, for a

Harmless Vegetable Dye,

and find it, pure and efficacious, in

Cristadoro's Excelsior Hair Dye

offered under the sanction of Professor Chilton's guarantee that it contains "nothing deleterious." CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. 1md&wo4

In Remote Settlements of United Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the bowels and blood. Their untold value is to those living in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more dose of Brandreth's Pills to get cured. Full Directions are with each box.

Sold by all Druggists.

"There is no member of society by whom this book will not be useful, whether such person holds the relation of Parent, Instructor or Clergyman."—*Medical Times and Gazette.*

"Curtis on 'Manhood' should be in the hands of young and old."—*Chronicle.*

"'Manhood,' by Dr. Curtis, is one of the few books which can lay claim to character of being strictly professional. The moral and medical precepts in it render it invaluable.—*Lancet.*

"'Manhood' has deservedly earned a reputation of Dr. Curtis in the treatment of the diseases set forth in this little pamphlet is the patient's guarantee, and well deserves for the work its immense circulation."—*Daily Times.*

CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS for Diseases of the Liver, or to act as a gentle Purgative.

All of these three medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills assist in regulating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These medicines are conscientiously offered to the public as the only safe, certain and reliable remedies for Pulmonary Consumption, and for all those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long probation before the public. Its value has been thrown to a period of more than thirty-five years, in all of which time its reputation has constantly increased, and the most obstinate skepticism can no longer doubt that it is a remedy which may be used with confidence in all cases which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, he will certainly be cured, if his lungs are not too much wasted to make a cure possible. Even in cases supposed to be incurable, when friends and physicians have despaired, the use of the medicine has saved the life of the patient, and restored him to perfect health.

Dr. Schenck himself was cured in precisely such circumstances, and many others have been equally fortunate by judiciously making a timely use of Dr. Schenck's remedies.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he emphatically asserts, that often when patients have the most alarming symptoms, such as a violent cough, creeping chills, night sweats, and general debility, even to such a degree that they are obliged to lie in bed, and when they are given up by their physicians, they may still be cured. No medicine can cause new lungs, but when the lungs are very badly diseased, and to some extent destroyed, a cure may be effected by Dr. Schenck's medicines.

Also in Scrofulous diseases these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores, and now all healed up. This shows its purifying properties, which must be done to heal cavities in the lungs.

In the treatment of Consumption, it is of the utmost importance to give vigor and a healthy tone in the system. Hence it is necessary to strengthen the appetite of the patient and improve the digestion. Proper nourishment is required, together with such means as will make the food easily digestible. The articles most suitable for the diet of consumptive patients are designated in Dr. Schenck's Almanacs, which are distributed gratuitously. In general, the most nutritious articles are to be preferred; but the digestive organs must be strengthened in order to make either food or medicine serviceable. This requirement is met by the Sea Weed Tonic, and for this purpose it was designed.

When the digestive powers are put in good order, the food has its proper effect, the system of the patient is invigorated, and the lungs begin to exercise their functions in a normal and healthy manner. Then the healing powers of the Pulmonic Syrup will complete the cure.

Pulmonary Consumption is almost always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills are intended to remove obstructions from the liver and restore its healthy action. They have all the efficacy which is ascribed to calomel or "blue mass," and are warranted not to contain a particle of any mineral poison. These pills cure the dire malady obstinate sick headache, piles, bilious affections, and all other diseases which arise from a torpid or obstructed condition of the liver. One box of these pills will prove the efficacy of the medicine.

In Consumption, the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines. They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. They have been found in many advanced cases of Consumption, where the lungs were almost entirely destroyed, and all symptoms, according to the opinion of physicians, indicated speedy death. Lives of patients who were actually in a dying condition have been preserved for months by the use of Schenck's Pulmonic Syrup.

DR. SCHENCK'S Almanac, containing a full treatise on the various forms of disease, his mode of treatment, with the general rules how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North Sixth Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggist and dealers.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any heretofore used, of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It combines two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and this powerful agent form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by a coating, art, their virtues remain as active and potent as ever.

In Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy, and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. ERASMUS WINSLOW'S **Liver and Stomach Lozenge**, will ever again take a purgative powder, or draught or pill.

New Advertisements To-Day.

Kossuth Wine—J. S. Pfeiffer.
Notice—Benj. Cheever.
Co-Partnership Notice—Cheever & Brown.
Drawing Instruments for Sale—Geo. W. Marston.

☞ We hear that two or three vessels are ordered to this Yard for repairs.

☞ The Philharmonic Society will meet this evening at Rechab Hall, No. 38 Market St,

☞ Auction sale of brick Dwelling House, Furniture, &c., at 54 State St., this day,—Thursday. Sale positive—see advertisement.

☞ The U. S. District Court at Exeter adjourned on Wednesday. There were 23 indictments found by the Grand Jury, and not one trial—the cases being continued.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Chronicle office. Price 5 cts. per copy—$2. per year. Contains *all* the Local and other reading from the Daily Chronicle.

☞ A friend who lives near the sea informs us that on Wednesday there was as great a sea on the coast as at any time during the past ten years. To-day will afford a good opportunity to see "the breaking waves dash high."

☞ Owing to the loss of much of his fortune, the personal estate of Col. Clement March of Greenland was recently placed in the hands of Wm. B. Small, Esq., as Receiver, by the Court, to be sold to satisfy a suit in equity brought by Mrs. Vandewater of New York, guardian of the principal heir of the estates of Francis March and Chas. W. March,—to recover legacies from Col. C. March, who we believe was executor or administrator of both. The case is a very complicated one, and employs a good many lawyers — and may result in the sale of the March farm, of which Col. M. we think is owner of one-half, and has a life right in the other, which reverts to the young heir in New York before alluded to, in whose interest suit is brought.

Gen. Gilman Marston is counsel for Mrs. St. Clair, sister of Col. March, who also sues to recover legacies—and when Auctioneer Morse began the sale of personal estate at the farm on Wednesday, Gen. Marston endeavored to stop proceedings, in the interest of his client, but was unable to do so. Messrs. Frink, Goodall and Hatch we believe are also employed in the case.

The sale commenced with the farming tools, work carriages, cows, and young neat stock. A large company was present, and fair prices bid. Calves sold from $10 to $18, and cows $25 to $65; the stock was not in pure condition. The afternoon was spent in the house, and the elegant dining-room furnishings were secured by eager fanciers of beautiful ware, &c. Among the rest, a cut glass decanter, four wine glasses and two tumblers which formerly belonged to Commodore John Paul Jones, and afterwards to the late Capt. McClintock of this city, brought $50—the decanter $12, and glasses $6 each. The exquisite French china punch bowl and doves glasses to match, was bought for $30 by Mr. J. E. Rider, who also took the Paul Jones decanter.

The sale continues this (Thursday) morning, when the oxen, horses and carriages, and rich and common furniture, will be sold, commencing at 10 o'clock. Goods bought Wednesday will be delivered previous to sale.

NAVAL.—U. S. Steamer Speedwell from this port arrived at New York on Monday.

☞ Miss Kate Reignolds cleared $7000 in a five weeks' tour through New England.

☞ A private letter from London states that the Oxford crew will come to America next year to row with the Harvards.
